1. Description Of The Plan

The following description of the Weaver and Tidwell L.L.P. Profit Sharing Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan, which has been adopted by Weaver and Tidwell L.L.P., (the Partnership), is a defined contribution profit sharing and 401(k) plan, covering employees of the Partnership who have completed 30 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may defer salary up to 90% of compensation, not to exceed the annual permissible dollar limit under section 402(g) of the Internal Revenue Code (IRC). Beginning in 2006, salary deferral contributions can be made as either pre-tax or Roth contributions.

The Plan provides for discretionary employer matching contributions, as well as discretionary profit sharing contributions based upon annual determinations by the Partnership. Participants who complete 1,000 hours of service during the Plan year and who are employed on the last day of the Plan year are eligible to share in Partnership contributions. The Partnership made matching contributions of $353,454 and $442,998 for 2009 and 2008, respectively. There were no profit sharing contributions in 2009 or 2008.

Forfeitures

Forfeitures of nonvested benefits are used to pay administrative expenses related to the operation of the Plan. Remaining forfeitures, if any, are allocated in the same manner as profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Partnership's contributions and an allocation of the Plan's earnings. The allocation of earnings is determined by the earnings of the participant's investment selection based on each participant's account balance and the investments selected by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their deferrals, rollover contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service. A participant becomes 20% vested after two years of credited service, increasing 20% each year until 100% vested after six years of credited service or upon death or total and permanent disability.

Participant Loans

A participant may borrow from the Plan with the loan being a participant-directed investment of his or her account. In no event can the participant borrow less than $1,000, up to a maximum equal to the lesser of $50,000 or 50% of the total value of the participant's elected deferral contributions. Loans are for a period not exceeding five years unless used to acquire a personal residence and bear interest at a reasonable fixed rate of interest based on prevailing market rates. Loans are repaid through payroll withholdings, including principal and interest. Participants can have only one loan outstanding at a time.

Payment Of Benefits

On termination of service, a participant may elect to receive a lump sum payment or installment payments.

Hardship Withdrawals

A participant may make withdrawals from his or her Plan account in the event of undue financial hardship, which includes payments for education expenses, medical expenses, and the purchase of a home.

Administrative Expenses

Plan forfeitures are used to offset recordkeeping fees. Loan and other transaction fees are paid by the Plan. The Partnership pays remaining fees and administrative expenses.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

The Plan's investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Fully benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Plan invests in fully benefit-responsive investment contracts through a collective investment in the John Hancock Stable Value Fund. The statement of net assets available for benefits presents the fair value of the investments in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis. There was no adjustment from fair value to contract value in 2009 or 2008 as contract value approximated fair value.

In 2009, accounting standards were issued which expanded disclosures and required that major categories for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments. As shown in Note 4, this guidance was applied prospectively in 2009, and the impact of this standard was not material to the Plan's net assets available for benefits.

Investment income is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on a trade date basis. Interest income from investments is recorded as earned. Dividends are recorded on the ex-dividend date.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through October 4, 2010, the date which the financial statements were available for issue.

3. Investments

Financial information related to the assets and earnings thereon is included in the financial statements and is based on information provided by John Hancock Life Insurance Company (John Hancock). This information, which has not been audited by the Plan's independent auditors, has been certified that such information is complete and accurate.

All investments in the Plan are participant-directed.

The following investments represent 5% or more of the Plan's net assets as of the end of the respective Plan year:

	December 31,	
	2009	2008
Pooled Separate Accounts		
Lifecycle Aggressive	**$ 1,868,375**	$ 1,165,313
Lifestyle Balanced	**2,200,442**	1,413,482
Lifestyle Growth	**5,889,409**	3,827,467

The Plan has an investment contract with John Hancock. John Hancock maintains contributions in pooled separate accounts that are credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses. The values of the pooled separate accounts are adjusted daily based on the fair values of the underlying investments. The value of each pooled separate account is expressed in units, with such value determined at the close of each business day by dividing the fair value of the account by the total number of units in the account. Contributions increase the number of units while withdrawals decrease the number of units of the Plan based on daily unit value. Investment income and loss are allocated in the same manner.

4. Fair Value Measurements

The Plan follows accounting standards which establish a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts

Valued at quoted redemption values on last trade date of the Plan year.

Participant Loans

Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

5. Related Party And Party-In-Interest Transactions

The Plan investments are shares of pooled separate accounts managed by John Hancock. John Hancock is the Custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

6. Risks And Uncertainties

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. Plan Termination

Although it has not expressed any intent to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Plan Merger

During 2009, the Partnership merged with Polansky McNutt Perry & Company, P.C. In connection with the merger, assets totaling $526,184 were transferred into the Plan from the Polansky, McNutt, Perry & Company 401(k) Plan.

9. Income Tax Status

The Internal Revenue Service has determined and informed the Partnership by a letter dated May 26, 2009, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been subsequently amended. However, the Plan Sponsor believes that the Plan is qualified and the related trust was tax-exempt as of the financial statement date.
