INDEPENDENT AUDITOR'S REPORT

To the Trustees of the
Portsmouth D&D 401(k) Savings Plan
Piketon, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of the Portsmouth D&D 401(k) Savings Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of March 31, 2026 and December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the period from January 1, 2026 to March 31, 2026 and the year ended December 31, 2025, and the related notes to the financial statements (financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of March 31, 2026 and December 31, 2025 and 2024, and for the period from January 1, 2026 to March 31, 2026 and the year ended December 31, 2025, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- the information in the accompanying financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i - Schedule of Assets (held at end of year) as of December 31, 2025 is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures in accordance with U.S. GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

PORTSMOUTH D&D 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2026 AND DECEMBER 31, 2025 AND 2024

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Portsmouth D&D 401(k) Savings Plan (Plan) is provided for general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General - The Plan was a defined contribution plan covering substantially all employees of Fluor-BWXT Portsmouth LLC (FBP) who were age 21 or older through September 30, 2025. Effective October 1, 2025, the plan sponsor transitioned from FBP to the Southern Ohio Cleanup Company, LLC (SOCCo or Company) in conjunction SOCCo being contracted to execute the decontamination and decommissioning activities on the Portsmouth Gaseous Diffusion Plant located near Piketon, Ohio (Portsmouth D&D). From October 1, 2025 through March 31, 2026, the Plan covered substantially all employees of SOCCo until the Plan was terminated and all net assets of the Plan were transferred to the LifeSight Pooled Employer Plan. Prior to termination, covered employees were eligible for the 401(k) component and the nonelective contribution component immediately after starting with FBP or SOCCo. Employees who were eligible to participate in the USW Career Pension Plan for Appendix A Represented Employees are excluded from the nonelective contribution component. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's benefits committee was responsible for the oversight of the Plan. The Investment Committee determined the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the benefits committee.

Contributions - Each year, participants could contribute up to 60% of annual compensation, as defined in the Plan, not to exceed the limits imposed by the Internal Revenue Code (IRC). The Plan included an auto-enrollment feature that was effective for all participants, automatically enrolling eligible employees at the default deferral rate unless they opt out. These deferrals may then be automatically escalated effective as soon as administratively feasible beginning on or after each succeeding anniversary date following the employee's first automatic deferral. The automatic deferral percentage is 5%, and scheduled increases of the automatic deferral amount increase by 1% annually, up to a maximum of 15%. The Plan allowed participants to contribute after-tax compensation in addition to pretax compensation. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan allowed employees who have reached age 50 by the end of each calendar year the election to defer additional contribution amounts (catch-up contributions), which may be deferred regardless of other limitations on contributions made by the employee to the Plan. Employer matching contributions are equal to a discretionary percentage of each participant's contribution, as determined by the benefits committee. For the period January 1, 2026 to March 31, 2026 and the year ended December 31, 2025, employer matching contributions were 100% of participant contributions up to 3% of the participant's total compensation. Beyond 3% contributions, the employer matching contributions were 50% of participant contributions up to 5% of the participant's total compensation. Contributions are subject to certain limitations. There were no discretionary profit sharing contributions during the period January 1, 2026 to March 31, 2026 or the year ending December 31, 2025.

The Plan also made an additional 5.8% contribution based only on pay related to hours worked to all eligible employees, whether or not they elect to contribute. This nonelective contribution occurs in addition to any employer match received by a contributing employee.

Participant Accounts - Each participant's account was credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Vesting - Participants were immediately vested in their voluntary contributions and actual earnings thereon and in employer 401(k) matching contributions. After two years of service, participants became 100% vested in employer nonelective profit-sharing, discretionary profit sharing and nonelective hours-based contributions.

Payment of Benefits - On termination of service, death, disability or retirement, a participant could receive a lump-sum amount equal to the value of the participant's vested interest in their account. The Plan provided for withdrawals, other than distributions to terminated employees, based on financial hardship. The Plan administrator determined that a financial hardship existed based on several events outlined in the Plan document, including expenses for medical care, payment of tuition expenses, costs related to the purchase of a home, payments necessary to prevent the participant from being evicted from their principal residence, funeral expenses and certain expenses for repair of a principal residence.

Notes Receivable from Participants - Participants could borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The notes were collateralized by the balance in the participant's account and bear interest at the prime lending rate plus 1% on the note's origination date. Principal and interest were paid ratably through weekly payroll deductions. Note maturities typically range from one to five years, or up to thirty years for the purchase of a primary residence.

Payment of Expenses - The Plan permitted the payment of Plan expenses to be made from the Plan's assets. If that is the case, the expenses were generally allocated among the accounts of all participants in the Plan. These expenses were allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of administrative (or recordkeeping) expenses.

Forfeitures - Forfeited nonvested amounts were used to reduce the administrative expenses of the Plan or to reduce the Company's contributions. Forfeitures of approximately $47,000 and $300,000 were used to reduce employer contributions during the period January 1, 2026 to March 31, 2026 and the year ended December 31, 2025, respectively. At March 31, 2026, December 31, 2025 and December 31, 2024, the balance in the forfeitures account was approximately $0, $46,000 and $160,000, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying statements of net assets available for benefits and related statements of changes in net assets available for benefits and the related notes to the financial statements (financial statements) follows:

Basis of Accounting - The financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in the net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 5 for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation/appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of March 31, 2026 or December 31, 2025 or 2024. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - Subsequent events were evaluated through October 13, 2026, the date on which the financial statements were available to be issued.

NOTE 3 - TAX STATUS

The Plan has been designed under the provisions of a Voya Retirement Insurance and Annuity Company (Voya) defined contribution prototype plan and trust. The Internal Revenue Service (IRS) has determined and informed Voya by a letter dated June 30, 2020, that the prototype plan utilized by the Plan is designed in accordance with applicable sections of the IRC. The Plan is operating in reliance on the prototype plan determination letter, and the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2026 and December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2022.

NOTE 4 - CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at March 31, 2026, December 31, 2025 and 2024, and net depreciation/appreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants for the period January 1, 2026 to March 31, 2026 and the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Voya, the custodian of the Plan.

NOTE 5 - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level l measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2026, December 31, 2025 and 2024.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. Mutual funds held by the Plan are deemed to be actively traded.

NOTE 5 - FAIR VALUE MEASUREMENT (Continued)

Common Collective Trusts: Valued at the total of the NAV of the underlying securities held by the account at year-end. The Plan's interest in the common collective trusts are valued based on the information reported by the investment advisor.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 224,133,510	-	-	$ 224,133,510
Subtotal	$ 224,133,510	-	-	224,133,510
Investments measured at NAV(a)				38,691,106
Total Assets At Fair Value				$ 262,824,616

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 227,357,804	-	-	$ 227,357,804
Subtotal	$ 227,357,804	-	-	227,357,804
Investments measured at NAV(a)				44,450,391
Total Assets At Fair Value				$ 271,808,195

(a) In accordance with Financial Accounting Standards Board Accounting Standards Codification Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE 5 - FAIR VALUE MEASUREMENT (Continued)

The following tables summarize investments measured at fair value based on the NAV per share as of December 31, 2025 and 2024, respectively:

NOTE 6 - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company at no cost to the Plan. These transactions qualify as party-in-interest transactions. The Plan issued loans to participants, which were secured by the participant's account balances. These transactions qualified as party-in-interest transactions.

INDEPENDENT AUDITOR'S REPORT

To the Trustees of the
Portsmouth D&D 401(k) Savings Plan
Piketon, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of the Portsmouth D&D 401(k) Savings Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of March 31, 2026 and December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the period from January 1, 2026 to March 31, 2026 and the year ended December 31, 2025, and the related notes to the financial statements (financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of March 31, 2026 and December 31, 2025 and 2024, and for the period from January 1, 2026 to March 31, 2026 and the year ended December 31, 2025, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- the information in the accompanying financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i - Schedule of Assets (held at end of year) as of December 31, 2025 is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures in accordance with U.S. GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

PORTSMOUTH D&D 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2026 AND DECEMBER 31, 2025 AND 2024

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Portsmouth D&D 401(k) Savings Plan (Plan) is provided for general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General - The Plan was a defined contribution plan covering substantially all employees of Fluor-BWXT Portsmouth LLC (FBP) who were age 21 or older through September 30, 2025. Effective October 1, 2025, the plan sponsor transitioned from FBP to the Southern Ohio Cleanup Company, LLC (SOCCo or Company) in conjunction SOCCo being contracted to execute the decontamination and decommissioning activities on the Portsmouth Gaseous Diffusion Plant located near Piketon, Ohio (Portsmouth D&D). From October 1, 2025 through March 31, 2026, the Plan covered substantially all employees of SOCCo until the Plan was terminated and all net assets of the Plan were transferred to the LifeSight Pooled Employer Plan. Prior to termination, covered employees were eligible for the 401(k) component and the nonelective contribution component immediately after starting with FBP or SOCCo. Employees who were eligible to participate in the USW Career Pension Plan for Appendix A Represented Employees are excluded from the nonelective contribution component. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's benefits committee was responsible for the oversight of the Plan. The Investment Committee determined the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the benefits committee.

Contributions - Each year, participants could contribute up to 60% of annual compensation, as defined in the Plan, not to exceed the limits imposed by the Internal Revenue Code (IRC). The Plan included an auto-enrollment feature that was effective for all participants, automatically enrolling eligible employees at the default deferral rate unless they opt out. These deferrals may then be automatically escalated effective as soon as administratively feasible beginning on or after each succeeding anniversary date following the employee's first automatic deferral. The automatic deferral percentage is 5%, and scheduled increases of the automatic deferral amount increase by 1% annually, up to a maximum of 15%. The Plan allowed participants to contribute after-tax compensation in addition to pretax compensation. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan allowed employees who have reached age 50 by the end of each calendar year the election to defer additional contribution amounts (catch-up contributions), which may be deferred regardless of other limitations on contributions made by the employee to the Plan. Employer matching contributions are equal to a discretionary percentage of each participant's contribution, as determined by the benefits committee. For the period January 1, 2026 to March 31, 2026 and the year ended December 31, 2025, employer matching contributions were 100% of participant contributions up to 3% of the participant's total compensation. Beyond 3% contributions, the employer matching contributions were 50% of participant contributions up to 5% of the participant's total compensation. Contributions are subject to certain limitations. There were no discretionary profit sharing contributions during the period January 1, 2026 to March 31, 2026 or the year ending December 31, 2025.

The Plan also made an additional 5.8% contribution based only on pay related to hours worked to all eligible employees, whether or not they elect to contribute. This nonelective contribution occurs in addition to any employer match received by a contributing employee.

Participant Accounts - Each participant's account was credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Vesting - Participants were immediately vested in their voluntary contributions and actual earnings thereon and in employer 401(k) matching contributions. After two years of service, participants became 100% vested in employer nonelective profit-sharing, discretionary profit sharing and nonelective hours-based contributions.

Payment of Benefits - On termination of service, death, disability or retirement, a participant could receive a lump-sum amount equal to the value of the participant's vested interest in their account. The Plan provided for withdrawals, other than distributions to terminated employees, based on financial hardship. The Plan administrator determined that a financial hardship existed based on several events outlined in the Plan document, including expenses for medical care, payment of tuition expenses, costs related to the purchase of a home, payments necessary to prevent the participant from being evicted from their principal residence, funeral expenses and certain expenses for repair of a principal residence.

Notes Receivable from Participants - Participants could borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The notes were collateralized by the balance in the participant's account and bear interest at the prime lending rate plus 1% on the note's origination date. Principal and interest were paid ratably through weekly payroll deductions. Note maturities typically range from one to five years, or up to thirty years for the purchase of a primary residence.

Payment of Expenses - The Plan permitted the payment of Plan expenses to be made from the Plan's assets. If that is the case, the expenses were generally allocated among the accounts of all participants in the Plan. These expenses were allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of administrative (or recordkeeping) expenses.

Forfeitures - Forfeited nonvested amounts were used to reduce the administrative expenses of the Plan or to reduce the Company's contributions. Forfeitures of approximately $47,000 and $300,000 were used to reduce employer contributions during the period January 1, 2026 to March 31, 2026 and the year ended December 31, 2025, respectively. At March 31, 2026, December 31, 2025 and December 31, 2024, the balance in the forfeitures account was approximately $0, $46,000 and $160,000, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying statements of net assets available for benefits and related statements of changes in net assets available for benefits and the related notes to the financial statements (financial statements) follows:

Basis of Accounting - The financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in the net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 5 for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation/appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of March 31, 2026 or December 31, 2025 or 2024. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - Subsequent events were evaluated through October 13, 2026, the date on which the financial statements were available to be issued.

NOTE 3 - TAX STATUS

The Plan has been designed under the provisions of a Voya Retirement Insurance and Annuity Company (Voya) defined contribution prototype plan and trust. The Internal Revenue Service (IRS) has determined and informed Voya by a letter dated June 30, 2020, that the prototype plan utilized by the Plan is designed in accordance with applicable sections of the IRC. The Plan is operating in reliance on the prototype plan determination letter, and the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2026 and December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2022.

NOTE 4 - CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at March 31, 2026, December 31, 2025 and 2024, and net depreciation/appreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants for the period January 1, 2026 to March 31, 2026 and the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Voya, the custodian of the Plan.

NOTE 5 - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level l measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2026, December 31, 2025 and 2024.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. Mutual funds held by the Plan are deemed to be actively traded.

NOTE 5 - FAIR VALUE MEASUREMENT (Continued)

Common Collective Trusts: Valued at the total of the NAV of the underlying securities held by the account at year-end. The Plan's interest in the common collective trusts are valued based on the information reported by the investment advisor.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 224,133,510	-	-	$ 224,133,510
Subtotal	$ 224,133,510	-	-	224,133,510
Investments measured at NAV(a)				38,691,106
Total Assets At Fair Value				$ 262,824,616

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 227,357,804	-	-	$ 227,357,804
Subtotal	$ 227,357,804	-	-	227,357,804
Investments measured at NAV(a)				44,450,391
Total Assets At Fair Value				$ 271,808,195

(a) In accordance with Financial Accounting Standards Board Accounting Standards Codification Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE 5 - FAIR VALUE MEASUREMENT (Continued)

The following tables summarize investments measured at fair value based on the NAV per share as of December 31, 2025 and 2024, respectively:

NOTE 6 - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company at no cost to the Plan. These transactions qualify as party-in-interest transactions. The Plan issued loans to participants, which were secured by the participant's account balances. These transactions qualified as party-in-interest transactions.
