Report of Independent Certified Public Accountants

To the Participants and Administrator of
Longview Fibre Paper and Packaging, Inc. Employees' Pension Plan

We have audited the accompanying statements of net assets available for benefits of Longview Fibre Paper and Packaging, Inc. Employees' Pension Plan as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Longview Fibre Paper and Packaging, Inc. Employees' Pension Plan's net assets available for benefits as of December 31, 2009, and the changes therein for the year then ended and its financial status as of December 31, 2008, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

Note 1 - Description of the Plan

The following description of the Employees' Pension Plan of Longview Fibre Paper and Packaging, Inc. (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Organization

Longview Fibre Paper and Packaging, Inc. (the "Company") maintains the Employees' Pension Plan (the "Plan") and the Employees' Retirement Plan (the "Retirement Plan"), which are both defined benefit plans. The purpose of the Plan is to provide pension benefits for all salaried and non-bargaining unit employees. Pension benefits payable under the Plan are reduced by any benefits due while a member of the Retirement Plan.

The assets of the Plan and the Retirement Plan are included in the Longview Fibre Paper and Packaging, Inc. Master Trust (the "Master Trust"), which is administered by Wells Fargo Bank, N.A. ("Wells Fargo") and the McDermott Trust. The McDermott Trust is administered by an officer of the Company. The McDermott Trust was established on April 7, 1988 to allow the Company to invest Plan assets in more than one trust. Under the terms of the two trust agreements, the trustees act as custodians of the trust assets. The Plan is administered by a Pension Committee appointed by the Board of Directors of Longview Fibre Paper and Packaging, Inc. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

The Plan provides for annual pension benefits at normal retirement age (65), at retirement after age 65, or at a reduced amount as early as age 55 when certain service requirements are met. The amount of benefits is generally calculated based on length of service and specified unit benefits, compensation earned during the years participants are members of the Plan, or length of service and average compensation for the highest five of the last ten years of service. The Plan also provides certain minimum and maximum pension benefits. Under conditions specified in the plan agreement, a participant may elect to receive pension benefits in the form of a joint and survivor annuity.

In most instances, a death benefit of \$1,000 will be paid to the beneficiary on the death of a retired participant. Generally, if a participant becomes disabled and has completed a 15-year period of service, but before normal retirement age, the participant will receive benefits based on benefit service and average ending compensation as of the earlier of the termination date or December 31, 2008, and without any reduction for early commencement.

Note 1 - Description of the Plan (continued)

Pension Benefits (continued)

Certain benefits are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. The PBGC typically guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Eligibility and Vesting

All employees of the Company who have completed one year of continuous service with at least 870 hours of service and who are eligible as described above are participants of the Plan.

Participants' benefits in the Plan become fully vested upon completion of three years of qualified service. If termination occurs before rendering three years of service, the right to receive the portion of accumulated plan benefits attributable to the Company's contributions is forfeited. If the employment service resumes and five consecutive one-year breaks in service do not occur, membership in the Plan will be immediate.

Funding Policy

Provisions of the Plan provide that the Company makes contributions of amounts designated by a qualified actuary to be adequate to fund the Plan on a sound actuarial basis. The actuary utilizes the entry age normal cost method with frozen initial liability. The Plan has met the "full funding limitation" as defined by Internal Revenue Code Section 412(c)(7). As a result, the Company made no contributions to the Plan for the years ended December 31, 2009 and 2008 for current or prior service costs.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 1 - Description of the Plan (continued)

Disposition of Funds Upon termination of the Plan

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. To provide for refunds of voluntary contributions made by active and retired members;
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Payments may be made in lump sums, annuities or as otherwise determined by the Pension Committee.

Plan Amendment

The Plan was amended and restated effective January 1, 2009 to change the pension calculation from one based on years of service and average ending compensation to a cash account formula based on pay credits. No additional benefit under the previous formula will be accrued after December 31, 2008. Amendments to the Plan have been incorporated into the financial statement disclosures.

Note 2 - Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued)

Recent Pronouncements

In January 2010, the FASB issued an Accounting Standards Update to add additional disclosures regarding the different classes of assets and liabilities measured at fair value, the valuation techniques and inputs used, the activity in Level 3 fair value measurements, and the transfers between Levels 1, 2, and 3. Levels 1, 2 and 3 of fair value measurements are defined in Note 5 below. The Plan adopted this new accounting standards update for the year ended December 31, 2009 except for the provisions of this update that will be effective in the year ending December 31, 2011. The Plan is currently evaluating the impact of its pending adoption on the Plan's financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis in the period which it is earned. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Risks and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Contributions to the Plan and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Concentration of Credit Risk

The Plan maintains its cash balance at the Bank of America. This balance is insured by the Federal Deposit Insurance Corporation up to \$250,000. At various times during the year, deposits in the account exceeded the FDIC coverage. The Plan has not experienced any losses in such account and believes it is not exposed to any significant credit risk on cash being held at Bank of America.

Plan Expense

A portion of the Plan's administrative expenses are paid by the Company. As provided in the Plan agreement, all other administrative expenses are paid by the Plan.

Note 2 - Summary of Significant Accounting Policies (continued)

Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated December 30, 2003, that the Plan and related trusts are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended, however, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Allocation of Master Trust Assets

The financial statements of the Plan are prepared by allocating the Master Trust's total assets and investment income to the Plan based on the proportion of the Plan's assets, at cost, and net realized and unrealized investment income at the end of the Plan year.

Investments, cash, interest receivable and the Plan's interest in unrealized appreciation (depreciation) on the valuation of investments at current fair value are generally allocated based on cumulative contributions to the Plan, plus realized investment income (loss), less cumulative benefit payments and contribution refunds since inception. Realized investment income (loss) is allocated to the Plan generally based on the average funds deposited and invested by plan with the trustee during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The type and amount of benefits are defined by the Plan document and vary by location. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Buck Consultants and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the in the valuations as of January 1, 2009 and 2008 were (a) life expectancy of participants, (b) retirement age assumptions based on a table of anticipated rates of retirement at each of the ages at which retirement eligibility occurs, and (c) expected long-term rate of return on Plan assets. Life expectancy of participants was based on versions of the RP 2000 Table. The January 1, 2009 and 2008 valuations included an expected long-term rate of return on Plan assets of 7%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Reclassification

Certain amounts on the December 31, 2008 financial statements have been reclassified to conform to current period presentation. These changes had no effect on plan assets or net assets available for benefits.

Note 3 - Actuarial Present Value of Accumulated Plan Benefits

Participants' interests in the Plan are actuarially determined as of the beginning of each plan year. The present value of obligations for Plan benefits is determined to be the present value of retirement benefits accumulated by participants during the current and prior years to be paid at or during retirement, less benefits forfeited or previously paid. The determination is made using a 7% interest rate per annum and the RP-2000 Combined Mortality Table.

Accumulated Plan benefits as of January 1, 2009, the date of the most recent actuarial report available, are summarized as follows:

	<u>January 1, 2009</u>
Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 111,870,156
Other participants	<u>53,698,821</u>
Total vested benefits	165,568,977
Non-vested benefits	<u>2,276,914</u>
Total actuarial present value of accumulated Plan benefits	<u><u>\$ 167,845,891</u></u>

The changes in accumulated Plan benefits from January 1, 2008 to January 1, 2009 are as follows:

	<u>Year ended January 1, 2009</u>
Actuarial present value of accumulated Plan benefits at January 1, 2008	\$ 169,023,372
Increase (decrease) during the year attributable to:	
Benefits accumulated	2,045,856
Benefits paid	(13,961,987)
Interest	11,351,231
Assumption changes	<u>(612,581)</u>
Net decrease	<u>(1,177,481)</u>
Actuarial present value of accumulated Plan benefits at January 1, 2009	<u><u>\$ 167,845,891</u></u>

Benefits accumulated encompass not only additional benefits earned by active employees, but also actuarial gains and losses and passage of time.

Note 5 – Fair Value Measurements

The Financial Accounting Standards Board (FASB) *Accounting Standards Codification* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy give the highest priority to unadjusted quoted prices in active markets for identical assets liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none"> • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Longview Fibre Paper and Packaging, Inc.
Employees' Pension Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

Note 5 – Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Investments classified within level 3 whose fair value measurements consider several inputs may include level 1 or level 2 inputs as components of the overall fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value for the Master Trust. There have been no changes in the methodologies used at December 31, 2009.

Cash equivalents: Valued at amortized cost, which approximates fair value.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds and notes, U.S. government securities and municipal bonds: Valued at the closing trade price on day of valuation based on information from third-party pricing services as obtained by Wells Fargo.

Mortgage backed securities: Valued using quotations from an independent pricing service which may employ methodologies that utilize actual market transactions, actual quotations from broker-dealers, or other formula-driven valuation techniques, which consider factors such as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions.

Real estate: Valued using unobservable inputs (i.e. extrapolated data, proprietary models, indicative quotes).

Limited partnership interests: Certain partnership interests are valued at the fund net asset values of each investee fund. For other partnership interest, independent appraisers value properties on an annual basis (at a minimum) and salient valuation assumptions of each asset are reviewed quarterly by the fund trustee in the determination of value of the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6 - Commitments

As of December 31, 2009 and 2008, the Plan and Retirement Plan have a commitment to contribute capital to nine partnership groups within the Master Trust totaling approximately \$15,629,000 and \$17,560,000, respectively.

Note 7 – Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank N.A., or an affiliate thereof. Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

Note 8 – Subsequent Events

The plan has evaluated subsequent events through September 30, 2010, the date the financial statements were available to be issued.

Schedule SB, Line 22 – Description of Weighted Average Retirement Age

This age is derived by applying, for an employee with the characteristics of an average new entrant to the plan, the following formula, modified so that the “½” is not used for $t = \text{FRA} - \text{ERA}$.

$$\sum_{t=0}^{\text{FRA}-\text{ERA}} ({}_t p_{\text{ERA}}) * (q_{\text{ERA}+t}^r) * (\text{ERA} + t + \frac{1}{2})$$

$$\sum_{t=0}^{\text{FRA}-\text{ERA}} ({}_t p_{\text{ERA}}) * (q_{\text{ERA}+t}^r)$$

where

FRA = age by which everyone is assumed to retire
ERA = age before which nobody is assumed to retire
 ${}_t p_{\text{ERA}}$ = probability of surviving at work to age ERA + t
 $q_{\text{ERA}+t}^r$ = probability of retiring at age ERA + t

<u>Age</u>	<u>Probability of Retirement</u>

Schedule SB, Line 24 – Change in Actuarial Assumptions

The rate of increase in future salaries was lowered from 4.75% per annum as of January 1, 2008 to 3.00% as of January 1, 2009.

The rate of increase in the Social Security Wage Base was lowered from 4.25% per annum as of January 1, 2008 to 2.50% as of January 1, 2009.

The assumed interest crediting rate on the 2001 cash account was reduced from 5.50% per annum as of January 1, 2008 to 4.50% per annum as of January 1, 2009.

Expenses of 6% of target normal cost were included in the target normal cost for 2009.

Schedule SB, Line 25 – Change in Method

The interest rates for funding purposes were changed from three segment rates as of January 1, 2008 to the full IRS yield curve as of January 1, 2009.

Schedule SB, Line 21 – Discount Rate

The discount rate is full yield curve with no lookback. Line 21b is left blank because EFAST2 generates an error when 0 appears in line 21b and Full Yield Curve is checked in line 21a.

A single life annuity actuarially equivalent to a hypothetical cash balance determined as follows:

- Eligibility:
 - Active employees on August 1, 2000
- Contribution credits:
 - \$1,100 times Benefit Service as of August 1, 2000, credited as of January 1, 2001
 - \$5,500 minus January 1, 2001 balance, credited as of the date on which the participant completes 5 years of Benefit Service (if after January 1, 2001 and prior to August 1, 2006)
- Interest credits:
 - Credited monthly based on the average yield on 10-year US Treasury Constant Maturities for November of the previous calendar year.
- Annuity conversion:
 - Actuarial equivalence is based on Applicable Interest and Mortality under IRC Section 417(e)(3).

Appendix B: Summary of Plan Provisions**Cash account:**

A single life annuity actuarially equivalent to a hypothetical cash balance determined as follows:

- Eligibility:
 - Active employees on or after January 1, 2009
- Contribution credits (credited each payroll period):
 - Basic credit: 5.5% of salary
 - Supplemental credit: 4.5% of salary
 - Transition credit (2009-2011 only): For participants age 50 and with 5 years of Qualifying Service as of December 31, 2008, a percentage of pay based on age plus service as of December 31, 2008 according to the following table:

<u>Age plus service at December 31, 2008</u>	<u>Percentage</u>
55 - 59	2%
60 - 64	3%
65 - 69	4%
70 - 74	5%
75+	6%

- Interest credits:
