Dewey Services, Incorporated Profit Sharing Plan
Notes to Financial Statements
December 31, 2009

NOTE 1: ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

General

Dewey Services, Incorporated Profit Sharing Plan (the "Plan") was originally established in August 1, 1977 as an Employee Stock Ownership Plan. The Plan was amended to a Profit Sharing Plan on February 25, 1983. The plan was converted to a 401(k) Plan in April 1994.

Summary of Significant Accounting Policies

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment transactions are recorded on a trade date basis for the Plan. Dividends are recorded on the ex-dividend date and interest is recognized as earned, on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 6 for discussion of fair value measurements.

Benefits are recorded when paid. All operating expenses of maintaining the Plan are paid by the Company.

The Plan has evaluated subsequent events through September 13, 2010, the date the financial statements were available to be issued.

NOTE 2: DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan adoption agreement and Plan document for a more complete description of the plan provision.

NOTE 2: DESCRIPTION OF THE PLAN (Continued)

The Plan covers employees who work 1,000 or more hours during the Plan year, have completed at least one year of service, and are at least 18 years of age.

Participants become partially vested after two years of continuous service, accruing 20% for each year of service, thereafter, until fully vested after six years of service.

Participants are eligible for a final distribution in the case of termination of employment, death, total and permanent disability, or retirement. A full distribution comprises contributions from all sources, plus earnings from those investments.

Participants' contributions are pre-tax elective deferral contributions. These contributions reduce participants' taxable income. These contributions and any earnings will be taxed at the time benefits are distributed. Participants may make catch-up contributions in a taxable year if they will be at least age 50 by the end of that year.

The employer may make a discretionary contribution each plan year.

The Plan provides for self-directed investment programs for individual participants. Each participant's account is credited with an allocation of the Company's contribution, forfeitures of terminated participant's non-vested amounts, earnings from the investment programs selected by the participant, and the participant's contribution.

NOTE 3: INVESTMENTS, AT FAIR MARKET VALUE

The Plan accounts for its investments at fair value. The fair value of an investment is the amount that would be received upon the sale of an asset, or paid to transfer a liability in an orderly transaction between market participants at the trade date. As of December 31, 2009, the fair value of investments was $11,649,691, which consist of various mutual fund accounts of $9,128,990 and money market accounts of $2,520,701.

NOTE 4: PARTICIPANTS' NOTES RECEIVABLE

The Plan allows loans to be made to the participants and their beneficiaries. These loans may not be more than the lesser of 50% of the vested account from 401(k) elective deferral and rollover contribution, or $50,000, reduced by any outstanding loan balance. The interest rate is based on the rates available for similar loans from commercial lending institutions. As of December 31, 2009, notes receivable from participants totaled $223,897.

NOTE 5: EMPLOYER'S CONTRIBUTION RECEIVABLE

As discussed in the Description of the Plan (Note 2), employer's contributions to the Plan are on a discretionary basis. A contribution was made to the Plan in 2009 based on the fraction of participant's annual wage during 2008 divided by the total annual wages during 2008 of all participants receiving a share. The amount attributable to the year 2008 was $179,000. At December 31, 2009 a contribution of $180,000 is expected to be made. This is shown as employer's contribution receivable on the attached statement of Net Assets Available for Plan Benefits.

NOTE 6: FAIR VALUE MEASUREMENT - ACCOUNTING PRONOUNCEMENT

On January 1, 2009, the Company adopted FASB ASC 820, Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 - Quoted prices in an active market for identical assets or liabilities;

Level 2 - Observable inputs other than Level 1, quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, and model derived prices whose inputs are observable or whose significant value drivers are observable;

Level 3 - Assets and liabilities whose significant value drivers are unobservable.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2009

NOTE 6: FAIR VALUE MEASUREMENT - ACCOUNTING PRONOUNCEMENT (Continued)
