Independent Auditor's Report

Investment Committee
Safran Retirement and Savings Account Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Safran Retirement and Savings Account Plan, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Safran Retirement and Savings Account Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Safran Retirement and Savings Account Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Safran Retirement and Savings Account Plan‘s ability to continue as a going concern within for one year after the date these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Safran Retirement and Savings Account Plan‘s internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Safran Retirement and Savings Account Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

The following description of the Safran Retirement and Savings Account Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is available to the employees of Safran USA, Inc. (Company and Plan Sponsor) and its participating subsidiaries and affiliates, who are not seasonal, temporary, or employees who have elected the Retirement Bonus option under the Company's cafeteria plan; regularly scheduled to work at least 1,000 hours or more within a 12-month period; and employees covered by a collective bargaining agreement that provide for participation in the Plan. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

The Plan had transfers from the Air Cruisers 401(k) Plan totaling $4,740,154 for the year ended December 31, 2025, related to certain employees transferring to the Company from a related entity.

Participants' Eligibility

Employees eligible to participate in the Plan are automatically enrolled on the first day of the month immediately following his or her date of hire. The employee may elect not to participate in the Plan.

Contributions

Participants may elect to defer pretax and Roth contributions in an amount not to exceed 100% of their eligible compensation, subject to the limitations of the Internal Revenue Code. If an eligible participant does not enroll or opt out of enrolling within 30 days, they are automatically enrolled in the Plan in an amount of 3% of their pretax income. Contributions for auto-enrolled participants are invested in target funds based on their age. Participants who are automatically enrolled will also have an automatic increase of 1% to their deferral percentage annually up to a maximum of 6%, unless the participant elects otherwise.

The Company makes discretionary matching contributions equal to 50% of a participant's pretax and Roth contributions, provided that the maximum Company matching contribution with respect to any participant for any plan year does not exceed 50% of the first 6% of the participant's eligible compensation for the plan year.

The Company also contributes a non-elective contribution equal to 3% of each participant's eligible compensation contributed to the Plan, subject to the limitations of the Internal Revenue Code.

Participant Accounts

Individual participant accounts are credited with participant contributions, the Company's matching contributions, the Company's profit sharing contribution, if applicable, and allocations of plan earnings, and charged with withdrawals and allocations of the losses and expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting Policy

Participants are 100% vested at all times in their contributions and investment earnings thereon.

Employer contributions made before January 1, 2011, vest 25% after two years of service and an additional 25% each subsequent year until fully vested after completing five years of service. Employer contributions made January 1, 2011, and after will vest 100% after two years of service. Employer contributions that were transferred from other qualified plans will continue to vest according to those specific vesting schedules as further defined in the plan document.

Full vesting also occurs in the event of a participant attaining normal retirement age (65), disability, death, or the full or partial termination of the Plan. Forfeited balances of terminated participants are used to reduce future Company contributions.

Notes Receivable from Participants

Participants are permitted to borrow up to 50% of their vested account balance up to a maximum of $50,000. The minimum amount of any loan is $1,000. A participant cannot have more than one loan outstanding at any time. Loans are collateralized by the balance in the participant's account. Loans are repaid through withholdings according to the employee's normal payroll schedule over a period not to exceed five years and shall bear interest at 1% over prime rate in effect at the time of loan issuance. Participant loans are valued at amortized cost at both December 31, 2025 and 2024. Interest rates on loans ranged from 4.25% to 10.5% at December 31, 2025.

Default on repayment of a loan is treated as a distribution to the participant. There were no defaulted loans treated as distributions for the years ended December 31, 2025 and 2024. For the Plan years ended December 31, 2025 and 2024, plan loans that were offset as distributions were $604,906 and $680,291 respectively. For the periods ended December 31, 2025 and 2024, interest on plan loans offset by distributions was $40,924 and $19,081, respectively.

Benefit Payments

Benefits of the Plan are payable at: (1) retirement at the normal retirement age (65), (2) total and permanent disability, (3) termination of employment, and (4) death. Upon death of a participant, the participant's beneficiary shall be entitled to the unpaid balance of the participant's account less any outstanding loans or encumbrances. There are two forms of benefit payments available to participants: (1) lump sum distributions in cash or by direct rollover and (2) equal installment distributions. The participant may defer his/her receipt of distribution until a later date unless his/her vested account balance is $5,000 or less in which case the plan administrator will direct the custodian to distribute it as a lump sum distribution without the participant's consent.

Investment Options

Participants may direct contributions in any of the investment options offered by the Plan. Participants may change their investment options on a daily basis.

Forfeited Accounts

Forfeited nonvested accounts are used to reduce future employer contributions. During the years ended December 31, 2025 and 2024, approximately $813,000 and $785,000, respectively, were forfeited from participant accounts. Employer contributions were reduced by approximately $437,000 and $2,576,000 from forfeited nonvested accounts for the years ended December 31, 2025 and 2024, respectively. The forfeiture account incurred dividends and earnings of approximately $24,000 and $57,000 for the years ended December 31, 2025 and 2024, respectively. At December 31, 2025 and 2024, the Plan's forfeiture account balance of $970,000 and $561,000, respectively, were included in the statements of net assets available for benefits.

Administrative Expenses

The Company pays the administrative expenses that are not paid by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2026, the date the financial statements were available for issuance. All subsequent events requiring recognition or disclosure have been incorporated in these financial statements.

Note 3. Certification of Plan Custodian

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, T. Rowe Price Trust Company, a qualified institution, has certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024
- Investment information and notes receivables from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2025

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 4. Fair Value Measurements

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that

is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value:

Common collective trust: The fair value of the common collective trust is determined by the custodian of the common collective trust fund based on the underlying assets, which represent the net asset value. The common collective trusts do not have any unfunded commitments relating to their investments, or any significant restrictions or redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

Mutual funds: Shares held by the Plan at year-end are valued at quoted market prices in an active market.

Brokerage options: Cash is valued at cost plus accrued interest, which approximates fair value. Mutual funds, common stock, and corporate bonds are valued at the quoted market prices in active markets of the underlying investments held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments at fair value as of December 31, 2025 and 2024 are as follows:

	December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 187,592,464	$ -	$ -	$ 187,592,464
Brokerage options	11,469,626	-	-	11,469,626

Total investments at fair value	$ 162,426,125	$ -	$ -	$ 590,067,293

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 5. Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by T. Rowe Price Trust Company (T. Rowe) as of December 31, 2025 and 2024. T. Rowe is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to T. Rowe for administrative and investment management services amounted to approximately $279,000 and $257,000 for the years ended December 31, 2025 and 2024, respectively.

T. Rowe receives revenue from certain investments of the Plan. T. Rowe and the Plan sponsor have agreed that if this revenue exceeds an agreed upon revenue rate, T. Rowe shall make an amount equal to such excess available to the Plan to pay other ERISA-qualified plan administrative expenses. For the years ended December 31, 2025 and 2024, there was an excess of approximately $0 and $180,000, respectively. For the years ended December 31, 2025 and 2024, approximately $124,000 and $126,000, respectively, was used to pay plan-qualified expenses. All of these plan expenses for the years ended December 31, 2025 and 2024 were for the investment advisor, other consultants, audit fees, and legal fees. For the years ended December 31, 2025 and 2024, total expenses were approximately $400,000 and $377,000, respectively.

Note 6. Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by T. Rowe Price Retirement Plan Services Inc. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
