Independent Auditor's Report

Plan Participants, Investment Review Committee, and Plan Administrator
Ancora MEP 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Ancora MEP 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets Held at End of Year as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion -

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of Plan

The following description of the Ancora MEP 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution 401(k) plan sponsored and administered by Ancora Holdings Group, LLC (the "Plan Administrator"). The Plan operates as a multiple-employer plan ("MEP") under ERISA, permitting other adopting employers to participate. Ancora Holdings Group, LLC serves as the lead employer of the MEP, and also includes members of Terza Partners LLC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's Investment Review Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Plan Year: The Plan year is the 12-month period beginning January 1 and ending December 31.

Eligibility and Entry: Each employee, with the exception of excluded employees as defined in the Plan summary, are eligible to participate upon attainment of age 21 and completion of three months of service. Entry is the first day of the month coinciding with or next following the date you satisfy the eligibility requirements. Long-Term Part-Time (LTPT) employees who complete at least 500 hours of service in two consecutive years beginning after December 31, 2020, and have attained the Plan's eligibility age, may make salary deferrals; LTPT participants are credited with a Year of Service for each year with at least 500 hours of service.

Contributions: Participants may contribute to the Plan each year up to the maximum percentage of their compensation allowable on a pre-tax and post-tax (roth) basis not to exceed the limits imposed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to contribute additional catch-up contributions, as allowed under the IRC. Participants may increase or decrease their contribution amount at any time. The Plan accepts eligible rollover contributions. The Plan provides a 3% safe harbor nonelective contribution that is 100% vested. The Plan Administrator may also make a flexible discretionary matching contribution at its discretion. No such match was authorized for the year ended December 31, 2025. Contributions are subject to certain IRS limitations. All contributions are invested in the investment options at the direction of the participant. Forfeitures, if any, may be used first to pay allowable Plan expenses and any remaining amounts may be applied to reduce employer contributions.

Forfeited Accounts: Any accumulated benefits forfeited during a Plan year due to participant withdrawal prior to full vesting may be applied to reduce employer contributions or to pay administrative expenses which would otherwise be paid by the Plan. Forfeited non-vested accounts totaled $1,131 and $7,775 at December 31, 2025 and 2024, respectively. The forfeiture amount used to reduce employer contributions and pay for plan expenses totaled $19,276 for the year ended December 31, 2025. Under applicable regulations, forfeitures must be used no later than the last day of the Plan year following the Plan year in which the forfeiture occurs; accordingly, the forfeiture balance at December 31, 2025 is required to be used no later than December 31, 2026.

Note 1. Description of Plan (Continued)

Participant Accounts: Each participant's account is credited with the participant's contributions, allocations of the Plan Administrator's discretionary contributions and an allocation of the Plan's earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are always fully vested in their salary deferrals (including Roth), safe harbor nonelective contributions, and rollover contributions. Employer discretionary matching contributions vest according to a 6-year graded schedule (20% after 2 Years of Service, 40% after 3, 60% after 4, 80% after 5, and 100% after 6).

Participant Directed Investments: Participants direct the investment of their accounts among the Plan's investment options. If a participant does not provide investment directions, amounts are invested in the Plan's default investment alternatives in accordance with applicable regulations. The Plan is intended to comply with the requirements of ERISA §404(c).

Distributions: A participant may receive the value of his or her vested account upon retirement, termination of employment, death, certain in-service events (including attainment of age 59½), and upon approval of financial hardship, as provided by the Plan. If a terminated participant's vested balance does not exceed $7,000, the amount will be automatically distributed in the form of a lump sum payment. If the vested balance exceeds $7,000, a terminated participant may elect to receive a distribution of a lump sum payment or installment payments.

Participant Loans: The plan does not permit participant loans.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes both realized and unrealized gains and losses. The Plan assets, which are participant directed, are held in a trust for the benefit of participants and beneficiaries. The trust was administered by Ascensus, LLC for the entire year ended December 31, 2025 and December 31, 2024.

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of Benefits: Benefits are recorded when paid.

Expenses: Plan expenses may be paid from the Plan's assets in accordance with the provisions of the Plan. When expenses are paid using Plan assets, they are allocated among all Participants' accounts. Allocation is performed either proportionately based on each Participant's account balance or as an equal dollar amount per Participant, depending on the nature of the expense.

Subsequent Events: The Plan Administrator has evaluated subsequent events through October 13, 2026, the date on which the financial statements were available to be issued.

Note 3. Fair Value Measurements

Financial Accounting Standards Board (FASB) guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value.

Note 3. Fair Value Measurements (Continued)

***Mutual Funds*:** The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

***Common/Collective Trusts*:** Valued at the net asset value (NAV) of units held by the Plan at year end, as a practical expedient for fair value. Participant transactions may occur daily. Were the Plan to initiate a full redemption of a trust, the issuer reserves the right to temporarily delay withdrawal to ensure securities liquidations are carried out in an orderly manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 16,112,228	$ -	$ -	$ 16,112,228
Common/collective trusts (a)	-	-	-	10,334,011
Investments at fair value	$ 16,112,228	$ -	$ -	$ 26,446,239

	2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 22,232,744	$ -	$ -	$ 22,232,744
Investments at fair value	$ 22,232,744	$ -	$ -	$ 22,232,744

(a) In accordance with ASC 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Note 4. Guaranteed Annuity Contract With Insurance Company

At December 31, 2025 and 2024, the Plan held a guaranteed annuity contract issued by New York Life Insurance Company. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the investment contract at December 31, 2025 and 2024, was $1,165,853 and $1,074,088, respectively. Fair value approximates contract value at December 31, 2025 and 2024.

The issuer is obligated to repay principal and interest to the Plan at the stated crediting rate, which is established by the issuer and may be adjusted prospectively. The crediting rate reflects, among other factors, the performance of the issuer's general account. The Plan Administrator believes that the occurrence of events that would cause the issuer to terminate the contract or that would limit the Plan's ability to transact at contract value is not probable.

Under the terms of the contract, the issuer does not have the ability to terminate at an amount different from contract value except in the event of the Plan's termination or a complete withdrawal from the contract, in which case a market value adjustment may apply as provided under the contract.

Note 5. Parties-in-Interest and Related-Party Transactions

Parties-in-interest are defined under United States Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employers and certain others. During the year ended December 31, 2025, fees for these services were $14,552.

Certain Plan investments are mutual funds advised by an affiliate of the Plan Administrator; transactions in these funds (including fund-level fees) are party-in-interest under ERISA but permitted and were conducted at prevailing rates and within Plan terms. The Plan also paid recordkeeping and trust/custody fees to its service providers, which are parties-in-interest; such payments are permitted under ERISA.

The Plan invests in certain funds issued by New York Life. The guaranteed annuity contract investment options were issued by New York Life; therefore, these qualify as party-in-interest.

Note 6. Plan Termination

Although it has not expressed any intent to do so, each adopting employer retains the right under the Plan to discontinue its contributions at any time and to terminate its participation in the Plan subject to the provisions of ERISA and the Plan summary. Upon termination, participants would become fully vested to the extent required under the IRC and ERISA, and net assets would be distributed to participants in accordance with the Plan.

Note 7. Tax Status

The Plan has adopted a preapproved plan document provided by Newport Group Inc. that has received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the form of the preapproved plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC).

The Plan has been amended since adopting the preapproved plan document; however, the Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC.

The Plan has adopted certain provisions of the SECURE 2.0 Act of 2022, including increasing the mandatory distribution limit from $5,000 to $7,000 as of January 1, 2024, and, as of January 1, 2025, reducing the service required of long-term part-time employees to two years and allowing increased catch-up contributions for participants ages 60 through 63. The Plan was formally amended for these provisions on June 1, 2026.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market fluctuations, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term would materially affect participants' account balances as well as the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 9. Certified Investments

Information related to investments from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including all investments from participants held at December 31, 2025 and 2024, and net appreciation in fair value of investments and interest and dividends from participants for the year ended December 31, 2025, was obtained by the Plan Administrator and agreed to or derived from information certified as complete and accurate by Ascensus, LLC, pursuant to 29 CFR § 2520-103-5(c). Ascensus, LLC, a qualified institution, administered the trust and certified such information for the entire year ended December 31, 2025 and as of December 31, 2024.

Note 10. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 to Schedule H of Form 5500:
