THE OPTIONS CLEARING CORPORATION
RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS AS OF DECEMBER 31, 2009 AND 2008, AND FOR THE YEAR ENDED DECEMBER 31, 2009

1. DESCRIPTION OF THE PLAN

The following description of The Options Clearing Corporation Retirement Savings Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan, which became effective January 1, 1984, is a defined contribution plan offered to eligible employees of The Options Clearing Corporation (the "Corporation") who elect to participate in the Plan. Eligible employees consist of all employees of the Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Fidelity Management Trust Company (the "Trustee") serves as Trustee of the Plan's assets. The Plan is administered by an administrative committee appointed by the Board of Directors of the Corporation.

Profit Sharing — A profit sharing component is provided for participants who do not continue to accrue benefit service as a grandfathered participant under The Options Clearing Corporation Retirement Plan. To be eligible for the profit sharing contribution, an employee must be employed on December 31 of a calendar year and work at least 1,000 hours in the Plan year. The employer contribution percentage for this profit sharing component is awarded upon Board of Director's approval and will be based upon an individual's compensation; however, in no event shall the profit sharing contribution be less than 2% of a participant's compensation. For the year ended December 31, 2009, the Corporation awarded a gross profit sharing contribution of $1,486,582 (less $14,225 forfeitures applied).

Contributions — Each year, participants may elect to have their pretax annual compensation, as defined in the Plan, reduced up to 60 %. This amount, subject to Internal Revenue Code ("IRC") limitations, is then paid into the Plan by the Corporation on behalf of the participant. Participants may also elect a Roth Deferral Contribution to the Plan; this is an after-tax contribution. The Corporation also makes a matching contribution of 50% of contributions up to a maximum of 6% of participant contributions. Participants may also roll over amounts representing distributions from other qualified defined benefit or defined contribution plans.

Investment Funds — Contributions are invested at the participants' direction in various investment options offered by the Plan. Deposits allocated to a specific fund are commingled with those of other participants and are invested in accordance with the nature of the specific fund. Pending such investment, the Trustee is authorized to invest in short-term investments.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Corporation's matching contribution, allocations of participant forfeitures, the Corporation's profit sharing contributions, and Plan earnings, and charged with withdrawals, Plan losses and certain administrative expenses.

Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting — A participant's vesting service is the total number of years and fractional years of employment with the Corporation as determined in accordance with rules established in the Plan document. Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service as follows:

Years of Service	Percentage Vested
Less than 2	- %
2	25
3	50
4	75
Greater than 5	100

Loans to Participants — Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of either $50,000 or 50% of their account balance. Loan transactions are treated as a transfer between the investment fund and loan fund. Loans are secured by the participants' vested account balance and bear interest at the prevailing prime rate plus market rate adjustment determined at the time the loans are made in accordance with the terms in the Plan document. Participants are not permitted to borrow from their profit sharing contribution account. Payments of loan principal, plus interest are paid ratably through payroll deductions.

Plan Amendments — Effective September 1, 2009 current investment elections including the Brokerage Window option were frozen to new transactions. An updated lineup of investment options were added to the Plan effective September 1, 2009. Effective December 1, 2009, any money remaining in the frozen investment accounts was transferred over to a similar active fund. All investment elections previously frozen on September 1, 2009, were removed from the Plan. The Investment Schedule and Services appendix within the Trustee service agreement was amended to include these updates to the Plan.

Payment of Benefits — Account balances are payable in a lump-sum amount upon retirement, disability, death, resignation, or dismissal.

Forfeited Accounts — Forfeited allocations may be used both to reduce the Corporation's profit sharing contributions and to allocate to participants. Current year's forfeitures from participants' profit sharing accounts reduce the Corporation's profit sharing contribution for the current year. Forfeitures from participant's profit sharing accounts reduced the Corporation's 2009 profit sharing contributions (Note 1, *Profit Sharing*) by $14,225. Forfeitures from participant matching accounts are reallocated to participants in the year subsequent to forfeiture. Unused forfeitures from participant matching accounts as of December 31, 2008 in the amount of $15,003 were reallocated to participants during 2009. Unused forfeitures as of December 31, 2009 were $17,025 and will be reallocated to participants during 2010.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates — The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan utilizes various investment instruments, including mutual funds and common collective trusts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices. Participant loans are valued at the outstanding loan balances, which approximate fair value.

The Fidelity Managed Income Portfolio ("Portfolio") is a collective trust stable value fund that is a commingled pool of the Fidelity Group Trust for Employee Benefit Plans. The Portfolio primarily invests in fixed-interest insurance investment contracts, money market funds, corporate and government bonds, mortgage-backed securities, bond funds, and other fixed-income securities; the strategy of the Portfolio is to preserve invested principal while providing income. The fair value of the Portfolio is the net asset value of its holdings at year-end. Underlying securities for which quotations are readily available are valued at their most recent bid prices. Units are redeemed and issued daily at the Fund's constant net asset value ("NAV") of $1 per unit. Distribution to the Fund's unitholders is declared daily and reinvested monthly, when paid. It is the policy of the Fund to use its best efforts to maintain a stable net asset value of $1 per unit, although there is no guarantee that the Fund will be able to maintain this value.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Portfolio at contract value. Certain events may limit these withdrawals or transfers at contract value, such as premature termination of the investment contract by the Plan, a termination of the Plan, establishment of a defined contribution plan that competes with the Plan for contributions, failure of the Plan to qualify under the applicable sections of the IRC, or substantive modifications to the Portfolio or the Portfolio's administration. The Plan believes that any events that would limit the ability of the stable value fund to transact at contract value with the participants in the savings plan are probable of not occurring.

The Portfolio's crediting rate, and hence the Portfolio's return, may be affected by many factors, including purchases and redemptions by unit holders. The impact depends on whether the market value of the underlying assets is higher or lower than the contract value of those assets at the time of those transactions. Crediting rates are reset quarterly. The crediting interest rate was 1.20% at December 31, 2009 and 3.04% at December 31, 2008.

The statements of net assets available for benefits present the stable value fund at fair value as well as additional line item showing an adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

New Accounting Pronouncements — The financial statements have been prepared in conformity with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC" or the "Codification"), which became effective as of July 1, 2009, and applies to all financial statements issued after September 15, 2009. The Codification replaced the previous four-level GAAP hierarchy of authoritative accounting and reporting guidance ("Levels A through D"), other than the rules and interpretive releases of the Securities and Exchange Committee ("SEC"), with two levels, "authoritative" and "nonauthoritative." Authoritative guidance is composed of literature issued by the FASB and its predecessor organizations, as presented in the Codification. The ASC is composed of four (4) principal "Areas" — Presentation, Financial Statement Line Items, Broad Transactions and Industry Content. Nonauthoritative guidance is composed of all "nongrandfathered, non-SEC accounting literature" not included in the Codification.

In 2009, the FASB issued additional guidance for determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not considered orderly. In addition, the FASB provided guidance on measuring the fair value of certain investments in entities that calculate net asset value per share. The FASB also issued guidance requiring disclosure of changes in valuation techniques, if any, and required expanded disclosure for certain types of investments, as well as enhanced disclosure about the nature and risks of investments within its scope, and that major category for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments. The new guidance also requires disclosure of information, such as investment objectives and redemption requirements for certain investments in entities that calculate net asset value per share. The Plan's 2009 financial statement disclosures reflect the prospective adoption of this guidance.

In January 2010, the FASB released accounting guidance that requires new fair value measurement classification disclosures and clarifies existing disclosures. The guidance requires disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy and separate disclosures about purchases, sales, issuances, and settlements relating to Level 3 measurements. It also clarifies the existing fair value disclosures regarding valuation techniques, inputs used in those valuation models, and at what level of detail fair value disclosures should be provided. The guidance is effective for reporting periods beginning after December 15, 2009, except for the disaggregation of the Level 3 activity, which is effective for periods beginning after December 15, 2010. The Plan has not determined the effect of adoption of this guidance on its financial statements.

Administrative Expenses — Substantially all administrative expenses of the Plan are paid by the Corporation. Certain transaction fees are charged directly to participants.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but had not yet been paid at December 31, 2009 and 2008.

3. FAIR VALUE MEASUREMENTS

The Plan follows the guidelines of ASC 820-10, *Fair Value Measurements and Disclosures*, as the framework for measuring all financial assets and liabilities. In accordance with ASC 820-10, the Plan classifies its investments in Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. By level within the fair value hierarchy, a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2009 and 2008, and a reconciliation of the change in value of Level 3 assets for the years then ended:

4. PLAN TERMINATION

Although it has not expressed any intent to do so, under the Plan, the Corporation has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination or partial termination of the Plan, or discontinuance of contributions to the Plan, all participants become fully vested in their accounts.

5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Corporation by a letter, dated July 28, 2003, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter; however, the Corporation and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements. Plan management has submitted a new application for determination of the ongoing tax status of the Plan to the IRS in 2010.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and a collective trust fund managed by the Trustee and other related affiliates and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were included as a reduction of the return earned on each fund.
