The Plan Administrator of
Community Hospitals of Central California Pension Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Community Hospitals of Central California Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Community Hospitals of Central California Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Community Hospitals of Central California Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Community Hospitals of Central California Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Community Hospitals of Central California Pension Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Community Hospitals of Central California Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2025, and Schedule H, Line 4(j) – Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 – Description of Plan

General – Community Hospitals of Central California Pension Plan (the Plan) is a contributory defined benefit cash balance pension plan covering eligible employees of Community Hospitals of Central California (CHCC) who are not members of a collective bargaining unit unless the related bargaining agreement provides for coverage under the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). CHCC is the Plan's sponsor and serves as Plan administrator. In September 2015, the Plan was amended to include former Fresno Heart and Surgical Hospital (FHSH) employees who chose participation in the Plan when the FHSH 401(k) Plan was terminated if they met the Plan's eligibility requirements. The Plan was restated effective January 1, 2016; the restatement was for compliance purposes and did not substantively change the provisions of the Plan.

During 2016, the Plan was amended as follows:

Any individual who was hired or rehired after July 1, 2016, was not eligible to become a participant in the Plan.

Any employee who was hired before July 1, 2016, and was not a participant in the Plan on such date, or eligible to become a participant on such date, was not eligible to become a participant after December 31, 2016.

Any eligible employee who made a one-time election by September 15, 2016, to switch to another employer plan, ceased to be an active participant in the Plan effective January 1, 2017. The accrued benefit of any individual that made this election was frozen effective December 31, 2016.

Benefits and participant accounts – The accrued benefit for each participant is based on the annual mandatory employee contribution of 2% of pensionable compensation. It also includes an annual employer allocation applied to pensionable compensation based on the number of years of vested service as follows:

Less than 5 years	4%
5 but less than 10 years	5%
10 but less than 15 years	6%
15 but less than 20 years	7%
20 years or more	8%

Participants are credited with interest on their account balances at minimum guaranteed rates established each December 31, equal to 90%, rounded to the nearest 0.1% of the annual rate of interest on 30-year Treasury securities for the month of November, immediately preceding December 31.

Active participants on December 31, 1988, receive additional interest credits on the account balance determined as of December 31, 1988, based on the sum of their age and service as of December 31, 1988. Participants whose age, plus service, was at least 67 on December 31, 1988, receive an additional 3% in interest credits applied to the account balance determined as of December 31, 1988, and participants whose age, plus service was at least 62 but less than 67, receive an additional 2% interest credit and all others receive an additional 1%.

Active participants on December 31, 1988, are also eligible for the benefit structure in effect on December 31, 1988. These participants receive the greater of the benefit based on the account balance and the final average pay formula in effect on December 31, 1988. The final average pay formula is 1.4% of final average pay multiplied by projected benefit service up to 25 years, plus 1.0% of final average pay multiplied by projected service in excess of 25 years. This result is prorated for current benefit service over projected benefit service.

In addition to normal retirement benefits, the Plan, under certain conditions, also provides for early retirement, disability, death, and spousal benefits.

Eligibility – Employees of CHCC became eligible to elect participation in the Plan on January 1, or July 1, following completion of 1,000 hours and one year of service.

Employee contributions – As a condition of Plan participation, eligible employees are required to contribute 2% of the individual employee's pensionable compensation as specified in the Plan document. Present employees' accumulated contributions at December 31, 2025 and 2024, are $71,417,323 and $70,369,166, respectively, including interest credited at an interest rate of 4.583% and 4.26% in 2025 and 2024, respectively.

Funding policy – employer contributions – CHCC intends to make contributions in amounts not less than the minimum required by the funding standards of ERISA and is required to keep the Plan qualified under Section 401 of the Internal Revenue Code (IRC). CHCC's policy is to make periodic contributions to the Plan as specified by the Plan's consulting actuaries. There were no changes in such policy in 2025. The Company made no employer contributions for the 2025 plan year. The minimum required contribution for the 2025 plan year was satisfied through the application of available funding balances.

Although it has not expressed any intention to do so, CHCC has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Vesting – Prior to January 1, 2008, the Plan provided all participants 100% vesting privileges in the employer portion of their accrued benefits upon completion of five years of service. Effective January 1, 2008, the Plan was amended to provide all participants 100% vesting privileges in the employer portion of their accrued benefits upon completion of three years of service. Participants are immediately vested in their own contributions and earnings thereon.

Retirement age – Normal retirement age is 65. Early retirement is either at age 55, provided 15 years of vesting service is available, or upon retirement due to disability. Distributions from the Plan for all participants commence no later than April 1, following the year they reach age 70½.

Payment of benefits – On termination of service due to death, disability, retirement, or termination of service for other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Note 2 – Summary of Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment valuation – The investments are stated at fair value. The Plan's trustee, Principal Bank, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation in fair value of investments consists of both the realized gains or losses, and unrealized appreciation and depreciation of those investments.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Expenses – Administrative expenses charged by the trustee are paid by the Plan and are recorded as deductions in the accompanying statement of changes in net assets available for benefits. Actuarial expenses and certain other administrative expenses that are paid by CHCC are excluded from these financial statements.

Subsequent events – The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 13, 2026, which is the date the financial statements were available to be issued.

Note 3 – Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits include future periodic benefits including lump-sum distributions expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Towers Watson Delaware, Inc., and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2026 and 2025. Had the valuations been performed as of December 31, 2025 and 2024, there would have been no material differences. The actuarial present value of accumulated plan benefits consists of the following components:

	2025	2024
Actuarial present value of accumulated plan benefits		
Vested benefits		
Active employees	$ 199,301,584	$ 191,781,753
Participants with deferred benefits	28,077,410	25,291,416
Participants receiving benefits	35,791,054	35,441,255
	263,170,048	252,514,424
Nonvested benefits	94,094	98,678
Total actuarial present value of accumulated plan benefits	$ 263,264,142	$ 252,613,102

The changes in the actuarial present value of the accumulated plan benefits for the year ended December 31, 2025, are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	$ 252,613,102
Increase during the year attributable to	
Change in actuarial assumptions	6,465,318
Benefits accumulated	12,480,593
Decrease in the discount period	16,448,303
Actuarial losses	(655,095)
Benefits paid	(24,088,079)
Net increase	10,651,040
Actuarial present value of accumulated plan benefits at end of year	$ 263,264,142

The increase in the actuarial present value of accumulated plan benefits due to change in actuarial assumptions during 2025 relates primarily to the decrease in the cash balance interest crediting rate assumption from 4.26% to 4.583%.

The significant actuarial assumptions used in the valuations are:

Average discount rate	
2025	6.50%
2024	6.50%
Mortality	
2025	Pri-2012 “Employees,” “Health Retirees,” and “Contingent Survivors” mortality tables projected generationally with Scale MP 2021.
2024	Pri-2012 “Employees,” “Health Retirees,” and “Contingent Survivors” mortality tables projected generationally with Scale MP 2021.
Retirement age	
2025	Graduated rates from age 55 to age 73
2024	Graduated rates from age 55 to age 73
Administrative expense	
2025	$87,556
2024	$92,358
Cash balance interest rate	
2025	4.583%
2024	4.26%
Form of benefits	Benefits are assumed to be paid under the single-sum option with the following breakdown between active and vested terminated participants:
2025	Active participants: 40% of participants are assumed to take an immediate lump-sum benefit upon retirement, and 40% of participants are assumed to take a lump-sum benefit payment at age 65. Vested terminated participants: 12% of participants are assumed to take an immediate lump sum benefit upon reaching retirement age, 68% of participants are assumed to take a lump sum benefit payment at age 65.

2024	Active participants: 40% of participants are assumed to take an immediate lump-sum benefit upon retirement, and 40% of participants are assumed to take a lump-sum benefit payment at age 65. Vested terminated participants: 12% of participants are assumed to take an immediate lump sum benefit upon reaching retirement age, 68% of participants are assumed to take a lump sum benefit payment at age 65.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Corporate bonds and mortgage-backed obligations – Valued using pricing models maximizing the use of observable inputs for similar securities, which includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar securities, those securities are valued under a discounted cash-flow approach that maximizes observable inputs, such as current yields on similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

U.S. government securities – Valued using pricing models maximizing the use of observable inputs for similar securities.

Common stocks – Shares of common stock are valued at the closing price reported on the active markets on which the individual securities are traded.

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

Collective trust – The Allspring Short-term Investment Fund A S1 (the Fund) is a collective trust that seeks to provide investors with a competitive rate of return and a high level of stability of principal and liquidity. The Fund seeks to maintain a constant unit value of one dollar. Units held are valued using the NAV practical expedient of the Fund as reported by the Fund's managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the Fund, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient is calculated based on a compilation of primarily observable market information. The Plan administrator, and other authorized parties may instruct the Fund in writing to redeem some or all units. Units will be redeemed at the NAV practical expedient next determined following receipt by the Fund of written redemption instructions, and redemption proceeds will generally be paid to the account within one business day after receipt of the redemption request, and in all cases within six business days after such receipt. The following table provides additional information for the Fund:

	Fair Value December 31, 2025	Fair Value December 31, 2024	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Allspring Short-Term Investment Fund A S1	$ 5,722,021	$ 9,753,844	None	Daily	N/A

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose by level the fair value hierarchy of the Plan's assets at fair value:

Note 5 – Certified Investment Information

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Bank, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024.
- Net appreciation in fair value of investments, dividends, and interest reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2025.
- Investments reflected on the schedule of assets (held at end of year) as of December 31, 2025.
- Transactions reflected on the schedule of reportable transactions for the year ended December 31, 2025.

Note 6 – Tax Status

The Internal Revenue Service has determined and informed CHCC by letter, dated November 21, 2011, that the Plan and related trust, as amended and restated effective January 1, 2011, are designed in accordance with applicable sections of IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible, that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

Note 8 – Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Employer, and certain others. Amounts paid by the Plan to parties-in-interest included fees paid for investment management and trustee services. Certain Plan investments are affiliated with the Plan's trustee and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

Note 9 – Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, taking into account those paid out before termination.

b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire within that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.

c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, up to the applicable limitations discussed below.

d. All other vested benefits (that is, vested benefits not insured by the PBGC).

e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2026, that ceiling is approximately $7,790 per month. That ceiling applies to those annuitants who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 10 – Reconciliation of Financial Statements to Form 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.

SCHEDULE SB ATTACHMENTS

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

- Healthy

Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

- Disabled

Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.

Termination

Rates varying by vesting service for all participants.

Representative Termination Rates

Percentage assumed to leave during the year				
	Years of Vesting Service			
Attained Age	0-4	5-9	10-14	15+
All Ages	14.0%	9.0%	6.0%	5.0%

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage assumed to retire during the year	
Age	Percentage
55-60	5.0%
61-63	9.0%
64	15.0%
65-67	25.0%
68-72	19.0%
73+	100.0%

SCHEDULE SB ATTACHMENTS

Benefit commencement date:	
• Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained age 55
• Deferred vested benefit	The later of age 55 or termination of employment
• Disability benefit	Upon disablement
• Retirement benefit	Upon termination of employment
Form of payment	Benefits are assumed to be paid under the single sum option. 1. Active Retirement Form: 40% of participants are assumed to take an immediate lump sum benefit upon retirement. 10% of participants are assumed to take an immediate annuity upon retirement. 40% of participants are assumed to take a lump sum benefit payable at age 65. 10% of participants are assumed to take an annuity at age 65. 2. Active Withdrawal Form: 50% of participants are assumed to take an immediate lump sum benefit upon withdrawal. 50% of participants are assumed to take a lump sum benefit payable at age 65. 3. Vested Terminated Form: 12% of participants are assumed to take an immediate lump sum benefit. 3% of participants are assumed to take an immediate annuity. 68% of participants are assumed to take a lump sum benefit payable at age 65. 17% of participants are assumed to take an annuity payable at age 65.
Percent married	For purposes of valuing the pre-retirement surviving spouse's benefit, 100% of eligible male participants are assumed to be married and 100% of eligible female participants are assumed to be married.
Spouse age	Wife three years younger than husband

SCHEDULE SB ATTACHMENTS

Covered pay	Pensionable compensation is all forms of compensation, excluding shift differentials, premium pay, bonuses and all other forms of additional compensation including amounts paid in excess of the straight-time rate, as limited under Revenue Code 401(a)(17) as indexed.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	We believe that we have reflected all significant plan provisions in this valuation.

Sources of Data and other Information

The plan sponsor furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. There were no significant issues found with missing or inconsistent data. We are aware of no adjustments made by the data provider.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

- Healthy

Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

- Disabled

Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.

Termination

Rates varying by vesting service for all participants.

Representative Termination Rates

	Years of Vesting Service			
Attained Age	0-4	5-9	10-14	15+
All Ages	14.0%	9.0%	6.0%	5.0%

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage assumed to retire during the year	
Age	Percentage
55-60	5.0%
61-63	9.0%
64	15.0%
65-67	25.0%

SCHEDULE SB ATTACHMENTS

Benefit commencement date:	
• Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained age 55
• Deferred vested benefit	The later of age 55 or termination of employment
• Disability benefit	Upon disablement
• Retirement benefit	Upon termination of employment
Form of payment	Benefits are assumed to be paid under the single sum option. 1. Active Retirement Form: 40% of participants are assumed to take an immediate lump sum benefit upon retirement. 10% of participants are assumed to take an immediate annuity upon retirement. 40% of participants are assumed to take a lump sum benefit payable at age 65. 10% of participants are assumed to take an annuity at age 65. 2. Active Withdrawal Form: 50% of participants are assumed to take an immediate lump sum benefit upon withdrawal. 50% of participants are assumed to take a lump sum benefit payable at age 65. 3. Vested Terminated Form: 12% of participants are assumed to take an immediate lump sum benefit. 3% of participants are assumed to take an immediate annuity. 68% of participants are assumed to take a lump sum benefit payable at age 65. 17% of participants are assumed to take an annuity payable at age 65.
Percent married	For purposes of valuing the pre-retirement surviving spouse's benefit, 100% of eligible male participants are assumed to be married and 100% of eligible female participants are assumed to be married.
Spouse age	Wife three years younger than husband

SCHEDULE SB ATTACHMENTS

Covered pay	Pensionable compensation is all forms of compensation, excluding shift differentials, premium pay, bonuses and all other forms of additional compensation including amounts paid in excess of the straight-time rate, as limited under Revenue Code 401(a)(17) as indexed.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	We believe that we have reflected all significant plan provisions in this valuation.

Sources of Data and other Information

The plan sponsor furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. There were no significant issues found with missing or inconsistent data. We are aware of no adjustments made by the data provider.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Schedule SB, Part V
Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted effective January 1, 2020.

Coverage and Participation	All non-union employees are eligible to begin contributions and become participants of the plan following completion of one year of service in which the employee works at least 1,000 hours. Due to amendment effective January 1, 2017, some current participants opted to no longer accrue additional pay credits in the plan, and after January 1, 2017 no new participants will be eligible to join the plan. Contributions of 2.0% of base salary are required as a condition of plan participation. Former UMC employees were eligible immediately upon hire with Community Medical Centers, if hired between October 6, 1996 and April 7, 1997.

Definitions

Vesting service	A participant is credited with 1 year of vesting service if they earn at least 1,000 hours of service during a plan year. No vesting service is credited for periods prior to January 1, 1963. No vesting service is credited for periods when an employee is eligible to participate but declined to contribute.
Credited service	A participant is credited with 1 year of benefit service for each plan year with at least 1,000 hours.
Annual Pensionable Compensation	All amounts paid to an Eligible Employee excluding overtime, bonus, shift differentials, premium pays and all other forms of additional compensation.
Final Average Compensation/Salary	For participants who were active on December 31, 1988, average annual compensation is based on the highest five consecutive years out of the final ten years of participation. For other participants, average annual compensation is not applicable.
Normal retirement date (NRD)	The first of the month coincident with or next following age 65.

SCHEDULE SB ATTACHMENTS

Accrued Benefits

The accrued benefit for each participant is the monthly annuity at Normal Retirement Date that is the actuarial equivalent of the sum of the participant's account balance and employee contributions with interest. The account balance is based on the following provisions:

a. The initial account balance determined as of December 31, 1988.

b. An annual pay credit applied to pensionable compensation, graded on vesting service under the following schedule:

Years of Service	Pay Credit
less than 5	4.00%
5 to 9	5.00%
10 to 14	6.00%
15 to 19	7.00%
20 and up	8.00%

c. Interest credits based on the Guaranteed Interest Rate applied to all amounts in the account.

The Guaranteed Interest Rate is based on 90% of the annual return on 30-Year Treasury securities for the month of November preceding the plan year for which the rate is determined.

Active participants on December 31, 1988, receive additional interest credits on the initial account balance, based on the sum of their age and service as of December 31, 1988. Participants whose age plus service was at least 67 on December 31, 1988, receive an additional 3% in interest credits applied to the initial account balance, participants whose age plus service was at least 62 but less than 67 receive additional 2% interest credits and all others receive an additional 1%.

Active participants on December 1988, are also eligible for the benefit structure in effect on December 31, 1988. These participants receive the greater of the benefit based on the account balance and the final average pay formula in effect on December 31, 1988. The final average pay formula is as follows:

SCHEDULE SB ATTACHMENTS

	1.4% of final average pay multiplied by projected benefit service up to 25 years, plus 1.00% of final average pay multiplied by projected service in excess of 25 years. This result is prorated for current benefit service over projected benefit service.

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	An employee who retires before his Normal Retirement Date. For active participants on December 31, 1988, early retirement benefits under the plan may be available after attainment of age 55 and completing of 15 years of vesting service.
Postponed retirement	Retirement after NRD
Vested termination	A participant is always 100% vested in the accumulated value of his employee contributions. Participants are 100% vested in employer contributions after completion of 3 years of vesting service.
Disability	A participant who retires due to disability under the new employer's long-term disability plan.

Benefits Paid Upon the Following Events

Normal retirement	The monthly annuity payable for life is equal to the actuarial equivalent of the Accrued Benefit as of the normal retirement date.
Early retirement	Actuarial equivalent of his Normal Retirement Benefit at this time.
Postponed retirement	An employee who works beyond his normal retirement date is entitled to his Accrued Benefit determined on his Late Retirement date.
Vested termination	The termination benefit is equal to the vested accrued benefit commencing at Normal Retirement Date or actuarial equivalent of his normal retirement benefit prior to this time, commencing on the first day of any month following the Participant's termination of service.

SCHEDULE SB ATTACHMENTS

Disablement	Benefit After Normal Retirement: Beginning on the Normal Retirement Date, and equal to the Vested Accrued Benefit as of the disability date, with interest accruing at the Guaranteed Interest Rate. Death of Disabled Participant Prior to Normal Retirement: A benefit equal to the actuarial equivalent of the participant's accrued benefit is payable to the participants spouse or other designated beneficiary with spousal consent, if applicable.

Other Plan Provisions

Normal Form of payment	Life annuity for single participants and 100% joint and survivor annuity for married participants.
Optional Forms of Retirement Income in Lieu of Normal Form	The plan provides optional payment forms, including a lump sum, life annuity, 10 year certain and life, 50% and 100% joint and survivor annuities on an actuarial equivalent basis (GATT assumptions (30-year treasury rate and revenue ruling 2001-62 mortality)).
Plan participants' contributions	The employee contribution rate for those who elect to participate in the plan is 2.0% of annual pensionable compensation.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted effective January 1, 2020.

Coverage and Participation	All non-union employees are eligible to begin contributions and become participants of the plan following completion of one year of service in which the employee works at least 1,000 hours. Due to amendment effective January 1, 2017, some current participants opted to no longer accrue additional pay credits in the plan, and after January 1, 2017 no new participants will be eligible to join the plan. Contributions of 2.0% of base salary are required as a condition of plan participation. Former UMC employees were eligible immediately upon hire with Community Medical Centers, if hired between October 6, 1996 and April 7, 1997.

Definitions

Vesting service	A participant is credited with 1 year of vesting service if they earn at least 1,000 hours of service during a plan year. No vesting service is credited for periods prior to January 1, 1963. No vesting service is credited for periods when an employee is eligible to participate but declined to contribute.
Credited service	A participant is credited with 1 year of benefit service for each plan year with at least 1,000 hours.
Annual Pensionable Compensation	All amounts paid to an Eligible Employee excluding overtime, bonus, shift differentials, premium pays and all other forms of additional compensation.
Final Average Compensation/Salary	For participants who were active on December 31, 1988, average annual compensation is based on the highest five consecutive years out of the final ten years of participation. For other participants, average annual compensation is not applicable.
Normal retirement date (NRD)	The first of the month coincident with or next following age 65.

SCHEDULE SB ATTACHMENTS

Accrued Benefits

The accrued benefit for each participant is the monthly annuity at Normal Retirement Date that is the actuarial equivalent of the sum of the participant's account balance and employee contributions with interest. The account balance is based on the following provisions:

a. The initial account balance determined as of December 31, 1988.

b. An annual pay credit applied to pensionable compensation, graded on vesting service under the following schedule:

Years of Service	Pay Credit
less than 5	4.00%
5 to 9	5.00%
10 to 14	6.00%
15 to 19	7.00%
20 and up	8.00%

c. Interest credits based on the Guaranteed Interest Rate applied to all amounts in the account.

The Guaranteed Interest Rate is based on 90% of the annual return on 30-Year Treasury securities for the month of November preceding the plan year for which the rate is determined.

Active participants on December 31, 1988, receive additional interest credits on the initial account balance, based on the sum of their age and service as of December 31, 1988. Participants whose age plus service was at least 67 on December 31, 1988, receive an additional 3% in interest credits applied to the initial account balance, participants whose age plus service was at least 62 but less than 67 receive additional 2% interest credits and all others receive an additional 1%.

Active participants on December 1988, are also eligible for the benefit structure in effect on December 31, 1988. These participants receive the greater of the benefit based on the account balance and the final average pay formula in effect on December 31, 1988. The final average pay formula is as follows:

SCHEDULE SB ATTACHMENTS

	1.4% of final average pay multiplied by projected benefit service up to 25 years, plus 1.00% of final average pay multiplied by projected service in excess of 25 years. This result is prorated for current benefit service over projected benefit service.

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	An employee who retires before his Normal Retirement Date. For active participants on December 31, 1988, early retirement benefits under the plan may be available after attainment of age 55 and completing of 15 years of vesting service.
Postponed retirement	Retirement after NRD
Vested termination	A participant is always 100% vested in the accumulated value of his employee contributions. Participants are 100% vested in employer contributions after completion of 3 years of vesting service.
Disability	A participant who retires due to disability under the new employer's long-term disability plan.

Benefits Paid Upon the Following Events

Normal retirement	The monthly annuity payable for life is equal to the actuarial equivalent of the Accrued Benefit as of the normal retirement date.
Early retirement	Actuarial equivalent of his Normal Retirement Benefit at this time.
Postponed retirement	An employee who works beyond his normal retirement date is entitled to his Accrued Benefit determined on his Late Retirement date.
Vested termination	The termination benefit is equal to the vested accrued benefit commencing at Normal Retirement Date or actuarial equivalent of his normal retirement benefit prior to this time, commencing on the first day of any month following the Participant's termination of service.

SCHEDULE SB ATTACHMENTS

Disablement	Benefit After Normal Retirement: Beginning on the Normal Retirement Date, and equal to the Vested Accrued Benefit as of the disability date, with interest accruing at the Guaranteed Interest Rate. Death of Disabled Participant Prior to Normal Retirement: A benefit equal to the actuarial equivalent of the participant's accrued benefit is payable to the participants spouse or other designated beneficiary with spousal consent, if applicable.

Other Plan Provisions

Normal Form of payment	Life annuity for single participants and 100% joint and survivor annuity for married participants.
Optional Forms of Retirement Income in Lieu of Normal Form	The plan provides optional payment forms, including a lump sum, life annuity, 10 year certain and life, 50% and 100% joint and survivor annuities on an actuarial equivalent basis (GATT assumptions (30-year treasury rate and revenue ruling 2001-62 mortality)).
Plan participants' contributions	The employee contribution rate for those who elect to participate in the plan is 2.0% of annual pensionable compensation.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.
