REPORT OF INDEPENDENT AUDITORS

To the Participants and the Qualified Retirement Plans and Trusts Committee of the
Atmos Energy Corporation Pension Account Plan

Opinion

We have audited the financial statements of the Atmos Energy Corporation Pension Account Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Form 5500, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Form 5500, Schedule H, Line 4j – Schedule of Reportable Transactions, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Schedule SB, Part V
Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

- Applicable month: September 2024
- Interest rate basis: Segment Rates from Fourth Month Preceding Valuation Date

Interest rates	Reflecting Stabilization	Not Reflecting Stabilization
• First segment rate	5.07%	5.07%
• Second segment rate	5.31%	5.33%
• Third segment rate	5.50%	5.36%
• Effective interest rate	5.35%	

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Annual rates of increase

- Compensation: 3.50%
- Future Social Security wage bases 3.50%
- CPI 3.00%
- Interest crediting rate on cash balance account 4.69%

Plan-related expenses

Average of expenses paid from the trust for the prior two years, adjusted for expected PBGC Variable Rate Premiums if applicable. For 2025, this amount is $2,817,990.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

The plan was amended and closed to employees hired on or after October 1, 2010.

Mortality

- Healthy

Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

- Disabled

Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.

60-61	7.0%
62-64	14.5%

	65-69	27%
	70	100%

Benefit commencement date:

- Preretirement death benefit — The later of the death of the active participant or the date the participant would have attained age 55
- Deferred vested benefit — The later of age 62 or termination of employment
- Disability benefit — Upon disablement
- Retirement benefit — Upon termination of employment

Form of payment — 60% of participants are assumed to elect a lump sum and 40% are assumed to elect an annuity. Of those who elect an annuity, 25% are assumed to elect a life annuity and 75% are assumed to elect a joint and survivor 100% annuity.

Percent married — 100%

Spouse age — Wife two years younger than husband

Covered pay — Assumed plan compensation for the year beginning on the valuation date was determined as pensionable earnings during the prior year provided by the employer, increased with a year's assumed salary increase.

At-risk assumptions — For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.

Timing of benefit payments — Annuity payments are payable monthly and lump sum payments are payable on date of decrement.

Methods

Valuation date — First day of plan year

SCHEDULE SB ATTACHMENTS

Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the prior plan year, discounted using the effective interest rate for the prior plan year.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Atmos Energy and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Atmos Energy Corporation Pension Account Plan

Notes to Financial Statements

December 31, 2025

1. Description of the Plan

The following brief description of the Atmos Energy Corporation Pension Account Plan (the Plan) is provided for general information purposes only. The Plan is administered by the Qualified Retirement Plans and Trusts Committee (the Committee), which is appointed by the Board of Directors of Atmos Energy Corporation (Atmos Energy, the Company or Employer). Information about the plan document, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation's benefit guarantee is contained in the Summary Plan Description. Copies of the Summary Plan Description are available from the Committee.

General

The Plan is a noncontributory defined benefit plan that provides retirement and death benefits for participating employees that were eligible to participate prior to October 1, 2010, at which time the Plan was closed to new participants. The Plan is a trusteed plan and is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan maintains a notional account (Cash Balance Account) for each participant. The Cash Balance Account is credited with amounts determined annually by an actuary which is a percentage of eligible annual earnings based upon a participant's age and years of service and also includes interest earned on existing balances. The Cash Balance Account provisions of the Plan apply only to an eligible employee who terminated employment with the Company on or after January 1, 1999. If a participant terminated employment prior to January 1, 1999, his or her benefits were determined in accordance with the provisions of the plan in effect prior to the establishment of the Cash Balance Account provisions.

The Plan's trustee is State Street Bank and Trust Company, N.A. (State Street or the Trustee). LCG Associates serves as the Plan's investment advisor. The Plan's actuary is Willis Towers Watson.

Contributions

The Company makes contributions, as determined on an actuarial basis, sufficient to meet the benefits to be paid under provisions of the Plan. Currently, the Plan does not allow employee contributions. The funding policy is to contribute annually to the Plan an

amount at least equal to the minimum required contribution for a qualified retirement plan and the Company may also voluntarily contribute to the Plan additional amounts, provided that the total contribution does not exceed the maximum tax deductible contribution.

During the 2025 plan year, we were not required to make any contributions to the Plan to satisfy the minimum funding requirements and meet the Pension Protection Act of 2006 (PPA) funding threshold. Additionally, we did not make any voluntary contributions to the Plan for the 2025 plan year. Under the PPA, plan sponsors are required to achieve and maintain a 100 percent funding target over time as determined by the PPA.

During the 2024 plan year, we were not required to make any contributions to the Plan to satisfy the minimum funding requirements and meet the PPA funding threshold. Additionally, we did not make any voluntary contributions to the Plan for the 2024 plan year.

Benefits

Employees with three or more years of credited service are entitled to either a lump-sum benefit or monthly pension benefit beginning at the normal retirement age of 65. The Plan permits early retirement beginning at age 55, with three years of vesting service, through age 65. However, if an employee retires early, he or she may also elect to defer his or her retirement income. Employees terminating employment after completing three years of service but prior to retirement age may receive benefits beginning the first day of the month after leaving the Company or they may postpone receiving benefits until they reach early or normal retirement age. Participants who reached age 50 on or before certain specified dates, and who also participated in another plan that was merged with the Plan (prior plan) are covered by special “grandfather” rules, whereby benefits will be calculated under the Plan’s benefit formula and the applicable prior plan formula. The results will be compared, and the larger benefit will be paid. Benefits payable from trust assets are paid by the Trustee directly to the participant entitled to receive such benefits.

In addition, the Plan provides for certain death benefits. The death benefit shall be paid to a beneficiary as a single lump-sum or as a life annuity, as the beneficiary elects in writing. If the beneficiary is the participant’s spouse, the normal form of payment, in the absence of any written election to the contrary, is a life annuity. The annuity shall be payable to the beneficiary only on a monthly basis beginning on any date up to the date the participant would have reached age 65 if the beneficiary is the participant’s spouse or,

if the beneficiary is not the participant's spouse, beginning on any date within one year following the participant's death. A lump-sum payable to a beneficiary who is not the participant's spouse must be paid within five years of the participant's death.

Should an employee suffer a disability, as defined by the Plan, prior to retirement, then that employee shall continue to accrue benefits in the Plan as though he or she were still actively employed. The participant's Cash Balance Account shall continue to be credited with amounts determined annually which is a percentage of pre-disability annual base salary based upon that participant's age and years of service and also includes interest earned on existing balances. The participant will continue to earn years of service during the period of disability until such time that the participant is no longer disabled or reaches the normal retirement age of 65.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting. Benefits are recorded when paid. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividend income is recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The most significant estimates include actuarial assumptions and fair value measurements. Actual results could differ from those estimates.

Valuation of Investments

The fair value of investments held by the Trustee at December 31, 2025 and 2024 is determined in various ways. Investments in common stocks and certain U.S. government securities are stated at fair value based on quoted market prices on the last business day of the plan year. Investments in corporate bonds, certain other U.S. government securities, and asset-backed securities are stated at fair value based on other observable market prices on the last business day of the plan year. Shares of registered investment

companies are valued at published market prices, which represent the net asset value of shares held by the Plan at year-end. Money market funds are valued at cost, which approximates fair value.

Investments in common/collective trusts and limited partnerships are valued at the net asset value of the units in the investment. The net asset value is based on the underlying net assets owned by the trusts and partnerships and is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the common/collective trusts or limited partnerships would sell the investment for an amount different from the reported net asset value.

The fair value methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets or liabilities could result in a different fair value measurement at the measurement date.

Administration

Substantially all expenses incurred relating directly to the operation of the Plan were paid by the Plan.

Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by participants up to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries and (b) present participants or their beneficiaries. Retirement and death benefits are based on service rendered and compensation earned prior to the benefit valuation date as specifically defined in the plan document or clearly implied by plan provisions.

Subsequent Events

We have evaluated subsequent events from the December 31, 2025 statement of net assets available for benefits date through October 13, 2026, the date these financial statements were issued. No events occurred subsequent to the statement of net assets

available for benefits date that would require recognition or disclosure in the financial statements.

3. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of December 31, 2025 and 2024 was determined using the following significant actuarial assumptions:

Rate of return	6.50% per annum in 2025 and 2024
Retirement age	Early retirement beginning at age 55 with three years of vesting service, through age 65, with average retirement age being 65 in 2025 and 2024
Mortality rates	Pri-2012 Private Retirement Plans (no collar) Mortality Table projected generationally with Scale MP-2021 in 2025 and 2024
Lump sum basis rates	2026 Section 417(e)(3) Mortality Table with January 2026 segment rates fully phased in for 2025 and 2025 Section 417(e)(3) Mortality Table with January 2025 segment rates fully phased in for 2024

The actuarial present value of accumulated plan benefits as of December 31 is as follows:

	2025	2024
Vested benefits:		
Participants currently receiving payments	$ 178,684,341	$ 178,081,033
Other participants	205,488,115	211,752,243
	384,172,456	389,833,276
Non-vested benefits:	3,919,753	4,147,832
	$ 388,092,209	$ 393,981,108

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2025, are as follows:

Actuarial present value of accumulated plan benefits, beginning of year	$	393,981,108
Increase (decrease) during the year attributable to:		
Benefits accumulated		10,356,581
Benefits paid		(39,227,225)
Increase due to a decrease in discount period		25,007,065
Actuarial (gains)/losses		(1,932,437)
Changes in actuarial assumptions		(92,883)
Actuarial present value of accumulated plan benefits, end of year	$	388,092,209

During 2025, the majority of the changes in actuarial assumptions were due to changes in the lump sum basis rates, and an update to the interest crediting rate. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to change or terminate the Plan at any time, subject to the provisions of ERISA. In the event of a termination of the Plan:

(a) The net assets then remaining in the trust shall be allocated for payment of plan benefits to the participants and beneficiaries of the Plan in the order specified by the plan document and in accordance with ERISA and its applicable regulations. Any remainder shall be returned to the Employer.

(b) To the extent there are unfunded vested benefits other than benefits becoming vested by virtue of termination of the Plan, ERISA provides that such benefits are payable to participants by the Pension Benefit Guaranty Corporation (PBGC), subject to certain specified limits. Generally, the PBGC guarantees most vested, normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under

the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether or not all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

5. Fair Value Measurements

Authoritative accounting literature establishes a fair value hierarchy that prioritizes the inputs used to measure fair value based on observable and unobservable data. The hierarchy categorizes the inputs into three levels, with the highest priority given to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority given to unobservable inputs (Level 3). The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The levels of the hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset or liability is defined as a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis. The Plan's Level 1 measurements consist of common stocks, registered investment companies, and U.S. Treasury securities.

Level 2 – Pricing inputs other than quoted prices included in Level 1 that are either directly or indirectly observable for the asset or liability as of the measurement date. These inputs are derived principally from, or corroborated by, observable market data. The Plan's Level 2 measurements consist of money market funds, Federal Home Loan Mortgage Corporation mortgage-backed securities, Federal National Mortgage Association mortgage-backed securities, Government National Mortgage Association mortgage-backed securities, asset-backed securities, and corporate bonds.

Level 3 – Unobservable inputs that are supported by little if any market activity and are significant to the fair value of the asset or liability as of the measurement date. The Plan had no Level 3 investments at December 31, 2025 and 2024.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024.

Investments at fair value				$ 579,825,868

(1) Investments in our common/collective trusts and limited partnerships that are measured at net asset value per share equivalent are not classified in the fair value hierarchy. The fair value amounts presented are intended to reconcile the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2025 and 2024. There are no redemption restrictions for these investments.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 3, 2020, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks, which are influenced by domestic and global events that affect the financial markets. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

8. Party-In-Interest Transactions

Certain investments in common/collective trusts and money market funds are managed by State Street. State Street is the trustee of these assets; therefore, these transactions qualify as party-in-interest transactions. Additionally, a portion of the Plan's assets are invested in the Company's common stock. Because the Company is the Plan sponsor, transactions involving the Company's common stock qualify as party-in-interest transactions. The value of the Company's common stock was $84,938,121 and $70,568,109, or 13.8% and 12.2% of net assets available for benefits, at December 31, 2025 and 2024. All of these transactions are exempt from the prohibited transaction rules.

Plan Provisions

The most recent amendment reflected in the following plan provisions is effective on January 1, 2024.

Covered Employees	All employees on the payroll of the Atmos Energy Corporation hired prior to October 1, 2010 including leased employees, and excluding independent contractors. Effective January 1, 2015, employees formerly participating in the MVG Union plan entered the Pension Account Plan.
Participation Date	First day of the month coincident with or next following the date the employee completes 1000 hours during a 12-month period.

Definitions

Vesting service	Total years of service from date of employment measured on an elapsed time basis.
Benefit service	Total years of service from date of employment measured on an elapsed time basis.
Merger Date	January 1, 1999 for Atmos Energy, Greeley, UCG, and WKG; June 1, 2000 for ANG/Southwestern Energy; June 30, 2003 for MVG; October 1, 2004 for TXU Gas; January 1, 2015 for former MVG Union participants.
Pay credits	For all participants:

Age + Service on Merger Date	On all Pay	On Pay over the Wage Base
<35	2.35%	2.35%
35 - 49	3.25%	3.25%
50 - 64	4.50%	4.50%
65 - 79	6.25%	5.00%
80 - 94	8.50%	5.00%
95+	10.50%	5.00%

Actuarial Equivalence	IRC 417(e)(3) mortality and a 5.85% interest rate

SCHEDULE SB ATTACHMENTS

Additional pay credits

For MVG participants and MVG decertified union members the Credits below are granted through December 31, 2024:

Age on Merger Date	On all Pay	On Pay over the Wage Base
<30	0%	0%
30 - 34	1%	1%
35 - 39	2%	2%
40 - 44	3%	3%
45+	5%	5%

Cash balance credits

The sum of:

(i) the pay credits

(ii) the additional pay credits

Interest credits

Interest on the account balance at the beginning of each year at the equal to the 30-year Treasury bond rate in effect for the November preceding the first day of the plan year. In no event will the interest rate be less than 4.69% or more than 7.0%.

Opening balance

The age-62 benefit under the old final average pay plans multiplied by a deferred annuity factor using a 7.0% interest rate and the 1983 Group Annuity Mortality table blended 50% for males and 50% for females.

Annuity conversion rate for hybrid plans

The cash balance account is converted to an annuity using IRC 417(e)(3) mortality and a 5.85% interest rate. For participants commencing after age 65, the cash balance is converted to an annuity based on an age 65 conversion factor.

Opening balance for former MVG Union participants

The age-65 benefit under the former MVG Union plan multiplied by a deferred annuity factor using the 417(e) interest rate for September 2014 and the 2015 417(e) mortality table.

Account balance

The sum of the opening balance and the cash balance credits both accumulated with interest credits to a point in time.

Disability benefit

Disabled participants continue to accrue benefit service and vesting service, as well as cash balance credits (based on rate of pay prior to disability) until the later of age 65 or the date benefits are terminated under the Atmos Energy LTD plan.

Grandfathered benefit

Participants age 50 on Merger Date are eligible to receive a benefit based on the sum of:

- the accrued benefit as of the Merger Date adjusted for pay raises for ten years after Merger Date, and
- the accrued benefit for service after the Merger Date based on the Atmos Energy Corporation prior plan formula

Grandfathered benefit (decertified MVG Union)

Decertified MVG Union participants age 50 on Merger Date are eligible to receive a benefit based on the prior plan formula, based solely on employment completed before January 1, 2025.

After January 1, 2025 there is a minimum benefit equal to the sum of the Decertified MVG Union benefit determined as of December 31, 2024 based solely on employment completed before January 1,

SCHEDULE SB ATTACHMENTS

	2025, and a benefit based on an opening cash balance account of zero on January 1, 2025 and continuing pay and interest credits after January 1, 2025.
Annual pension benefit	The greatest of: (i) the Account balance divided by an actuarial equivalent life annuity factor using 5.85% and the 417(e) Prescribed Mortality Table (ii) the single life annuity optional form of the Grandfathered benefit (iii) the single life annuity optional form of the benefit accrued through the Merger Date based on the prior plan final average pay formulas
Earnings	W-2 earnings plus 401(k) deferrals and section 125 salary reduction. Earnings do not include expense reimbursements or variable compensation.
Normal retirement date (NRD)	First of month next following the attainment of age 65 on the third anniversary of employment date.
Preretirement death benefit	Account balance as of date of death.

Eligibility for Benefits	
Normal retirement	Retirement on NRD
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing three years of eligibility service
Postponed retirement	Retirement after NRD
Vested termination	Termination for reasons other than death or retirement after completing three years of eligibility service
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse

Benefits Paid Upon the Following Events	
Normal retirement	Annual pension benefit determined as of NRD.
Early retirement	Annual pension benefit determined as of early retirement date. Grandfathered benefits for participants commencing before NRD are reduced based on early retirement reduction factors as provided in the prior plan.
Postponed retirement	Annual pension benefit determined as of actual retirement date. Grandfathered benefits for participants over age 65 are actuarially increased for late retirement, based on actuarial equivalence as provided in the prior plan.

SCHEDULE SB ATTACHMENTS

Vested termination	Account balance determined as of termination date, accumulated with interest credits to retirement age, and then divided by an actuarial equivalent life annuity factor using 5.85% and the 417(e) Prescribed Mortality Table but not less than: (i) the single life annuity optional form of the Grandfathered benefit (ii) the single life annuity optional form of benefit accrued through the Merger Date based on the old final average pay formulas
Preretirement death	Preretirement death benefit is payable as a lump sum or as a life annuity.

Other Plan Provisions

Forms of payment	Single life annuity, 5 years certain and life, 10 years certain and life, joint and survivor with 50%, 67%, 75%, or 100% continued to the spouse upon the participant's death. All optional annuity forms of payment are actuarially equivalent. In addition, a participant may also elect a lump sum.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.
