We have been informed by the plan administrator that Wells Fargo Bank, N.A., held the Plan's investment assets and executed investment transactions from May 1, 2009 to December 31, 2009, and that Bank of New York Mellon held the Plan's investment assets and executed investment transactions as of December 31, 2008, and for the period January 1, 2008 to April 30, 2009. The plan administrator has obtained certifications from the trustees at December 31, 2009 and 2008 and for the years then ended that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

## Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.40%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.25%, and the applicable limitation for the plan year, equal to 6.40%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.09%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.25%, and the applicable limitation for the plan year, equal to 6.09%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4.

## Participant Data

We used financial data submitted by the trustee as of January 1, 2009 without further audit and participant data as supplied by the plan sponsor. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

## Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2009 is used to determine the maximum deductible contribution for the tax year ending December 31, 2009.

## Benefits not Included in Valuation

We believe that we have reflected all significant Plan provisions in this valuation.

## PBGC Premium Funding Target

For purposes of determining the PBGC Premium Funding Target in Section 2.2D, the Standard Premium Funding Target was determined using the assumptions described above, except the spot (non-averaged) 3-segment interest rates for December 2008 were used instead of the above interest assumption.

## Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

## Schedule SB, Line 25 Change in Method as of January 1, 2009

The following changes in methods were made as part of this valuation:

- The discount rate was changed from the November 3-segment rates to the January 3-segment rates. This change is being made as elected by the plan sponsor and is deemed to be automatically approved by the IRS pursuant to guidance in IRS March 31, 2009 Newsletter.
- Based upon an election by the plan sponsor, the asset valuation method changed from the market value of assets to the method described in IRS Notice 2009-22 which reflects changes made by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA). Changes in the asset method for plan years beginning in 2009 to any permissible asset method are deemed to be automatically approved by the IRS.
- There has been a change in both the enrolled actuary and in the business organization providing actuarial services to the plan. The percentage changes in funding target and target normal cost due to the change in the enrolled actuary are each less than 5% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations). Therefore the change in funding method due to a change in the enrolled actuary receives automatic approval under IRS Announcement 2010-3.
- The assumption for plan-related expenses was changed from \$0 in 2008 to \$157,313 in 2009. The Worker, Retiree, and Employer Recovery Act of 2008 (WRERA) includes a technical corrections provision requiring target normal cost to include the amount of plan-related expenses expected to be paid from plan assets during the year.

## Report of Independent Auditors

To the Participants of Anvil International, Inc. Pension Plan  
For Hourly Employees at the Columbia Plant  
Plans Administrative Committee of Mueller Water Products, Inc.

We were engaged to audit the financial statements of Anvil International, Inc. Pension Plan for Hourly Employees at the Columbia Plant (the "Plan") at December 31, 2009 and 2008 and for the years then ended, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Wells Fargo Bank, N.A. and Bank of New York Mellon, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that Wells Fargo Bank, N.A., held the Plan's investment assets and executed investment transactions from May 1, 2009 to December 31, 2009, and that Bank of New York Mellon held the Plan's investment assets and executed investment transactions as of December 31, 2008, and for the period January 1, 2008 to April 30, 2009. **1. General Description of Pension Plans Included in the Mueller Fund**

The Mueller Water Products, Inc. Master Pension Trust (the “Mueller Fund”) is a master trust fund for certain domestic pension plans (collectively, the “Mueller Plans”) of Mueller Water Products, Inc. (“the Company”).

The accompanying financial statements are those of the Anvil International, Inc. Pension Plan for Hourly Employees at the Columbia Plant (“the Plan”), which invests in the Mueller Fund.

At December 31, 2009, the Plan was merged into another Company sponsored plan, the Mueller Water Products, Inc. Pension Plan for Selected employees. See Note 11.

All plans investing in the Mueller Fund, including the Plan, are defined benefit plans covering full-time employees of the Company who have met certain requirements as to age and length of service. The Mueller Plans are administered by the Retirement Plans Administrative Committee of the Company. A detailed description of the Plan agreement, including vesting and benefit provisions, is available to participants in the published plan agreement document. For investment purposes, the assets of the Mueller Plans are commingled in the Mueller Fund, which were administered by Wells Fargo Bank, N.A. from May 1, 2009 to December 31, 2009 and by Bank of New York Mellon prior to May 1, 2009 (together, the “Trustees”).

**2. Summary of Significant Accounting Policies**

**Basis of Accounting**

The accompanying financial statements have been presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The investment in the Mueller Fund is presented at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Refer to Note 4 for a description of significant accounting policies employed in determining the fair value of investments held by the Mueller Fund and Note 6 for a discussion of fair value measurements.

**Use of Estimates**

Preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

**Expenses**

External expenses incurred directly in the administration of the Plan are paid by the Plan. At December 31, 2009, expenses incurred but not yet paid were allocated to the Mueller Water Products, Inc. Pension Plan for Selected Employees. Prior to December 31, 2009, expenses incurred by the Mueller Fund were allocated proportionately among the Mueller Plans based upon their relative net assets or plan liabilities depending on the nature of the plan expense. Certain related salary and overhead expenses are absorbed by the Company on behalf of the Mueller Fund.

**Benefit Payments**

Benefit payments to participants or beneficiaries are recorded upon distribution.

**Contributions and Funding**

Employee contributions are not required by the Plan. Contributions made by the Company's domestic subsidiaries are accrued based upon amounts required to be funded under provisions of ERISA or, if greater, amounts actually contributed for the year. As such, the Company's contributions meet or exceed the minimum funding requirements of ERISA for the Plan at December 31, 2009 and 2008. Contributions are based upon actuarial estimates of the amounts necessary to provide the Plan with assets sufficient to provide benefits to participants, assuming continued funding of the Plan in a systematic manner. Contributions are funded quarterly, if required, with the final contribution funded in the year subsequent to accrual.

The Company's funding policy has been generally to make sufficient contributions to maintain a 80% funded position. Typically contributions are not less than the minimum required amount and not more than the maximum deductible contribution for the plan year.

**Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan provisions to the service employees have rendered.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees and (c) present employees or their beneficiaries. Benefits under the Plan are determined based upon provisions of the plan agreement, which is published and available to participants.

An independent actuary determines the actuarial present value of accumulated plan benefits by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment (after considering decrements such as for death, disability, withdrawal, or early retirement) between the valuation date and the expected date of payment.

The implementation of the Pension Protection Act ("PPA") required certain changes to the method used in the funding valuation. Significant actuarial methods and assumptions used in the valuations at January 1, 2008 include the following: (a) PPA effective interest rate of 6.42%; (b) life expectancy of participants using the prescribed Internal Revenue Code ("IRC") mortality tables using static tables with separate mortality rates for annuitants and non-annuitants; (c) interest rate where valuations assumed the 24 month average of segment rates without phase-in; and (d) Market Value method for asset valuations.

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Actuarial assumptions that changed since the valuation at January 1, 2008, are as follows: PPA effective interest rate changed to 6.42% from 6.00%, the discount rate was changed to the 2009 January 3-Segment Rates from the 2008 November 3-Segment Rates and the asset valuation method was changed to the method prescribed by the IRC from the use of market value of assets.

---

The Statements of Accumulated Plan Benefits and Changes in Accumulated Plan Benefits do not reflect significant plan amendments that were adopted between the January 1, 2009 benefit information date and December 31, 2009.

**Risk and Uncertainties**

The Plan, through the Mueller Fund, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that adverse changes in the values of investment securities will occur in the near term and that such adverse changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are recorded based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, each of which is subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the financial statements.

**3. Tax Status of the Plan**

The Internal Revenue Service has determined and informed the Plan by a letter dated May 6, 2002, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan's administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**4. Interest in Mueller Fund**

Assets of the Plan, excluding contributions receivable, are invested in the Mueller Fund. At December 31, 2009, the Plan had no interest in the Mueller Fund. See Note 1.

At December 31, 2008, each participating plan had an undivided interest in the Mueller Fund. The fair value of the Plan's interest in the Mueller Fund was based on beginning of year value of the Plan's interest in the Mueller Fund, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. Such allocation of assets is consistently performed by the Plan's administrator and reviewed by the Plan's actuary based on assumptions they consider reasonable in the circumstances. The Plan's undivided interests in the Mueller Fund was 2.92% at December 31, 2008.

**Valuation of Investments**

The Mueller Fund values investments in publicly traded securities at fair value based on the last reported sales price on the national securities exchange on which the security is primarily traded on the last business day of the year or, if no sale price exists, at the closing bid price. Securities traded in the over-the-counter market are valued at the last reported bid price on the last business day of the year. Short-term investments are reported at cost, which approximates fair value. Collective investment trust funds are stated at fair value as quoted by the Trustees.

**Security Transactions and Investment Income**

Purchases and sales of securities are recorded on a trade-date basis. In accordance with the policy of stating investments at fair value, net unrealized appreciation and depreciation are aggregated with realized gains and losses on investments held during the year. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Securities denominated in foreign currencies are translated at the exchange rate prevailing at the statement of net assets date. Investment income or losses from securities denominated in foreign currencies are translated at the average exchange rate prevailing during the year.

**5. Financial Data Certified by the Trustees**

Amounts related to investment balances, presented as interest in the Mueller Fund included in the accompanying statements of net assets available for benefits at December 31, 2009 and 2008 have been certified as complete and accurate by the Trustees. The related interests in net investment income of the Mueller Fund contained within the statements of changes of net assets available for benefits have also been certified as complete and accurate by the Trustees for the years ended December 31, 2009 and 2008. Certification is in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Mueller Fund's investments at their fair values, which have been certified by the Trustees as complete and accurate, are summarized by category as follows:

**6. Fair Value Measurements**

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation methodologies used to measure fair value. The hierarchy gives the highest priority to unadjusted quote prices in active markets for identical asset (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Mueller Fund has the ability to access.
- Level 2 – Inputs to the valuation methodology includes:
  - Quoted prices for similar assets in active markets;
  - Quoted price for identical or similar assets in inactive markets;
  - Inputs other than quoted prices that are observable for the asset;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used to measure the assets of the Muller Fund at fair value. There were no changes in the methodologies used at December 31, 2009 and 2008.

- Commingled equity funds are valued at the closing price reported on the active market when reliable market quotations are readily available. When market quotations are not readily available, assets of the Fund are valued by a method the Trustees of the Fund believe accurately reflects fair value.
- Commingled bond funds are valued using the closing price reported in the active market in which the debt is traded. Other commingled bond funds are valued based on yields currently available on comparable securities of issuers with similar credit ratings.
- Equity securities are valued at the closing price reported on the active market on which the individual securities are traded.
- Common collective trusts are valued as determined by the Trustees based on their net asset values and supported by the value of the underlying securities and by the unit prices of actual purchase and sale transactions occurring at or close to the financial statement date.
- Mutual funds are valued at the net asset value of shares held by the Plan at year end.

The preceding methods may produce a fair value calculations that may not be indicative of net realizable values or reflective of future fair values. Furthermore, although the Retirement Plans Administrative Committee believes these valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in different fair value measurements at the reporting date.

The tables below set forth, by level within the fair value hierarchy, the assets of the Mueller Fund at December 31, 2009 and 2008:

**7. Party-in-Interest Transactions**

Certain Mueller Fund investments are securities managed by the Trustees. Therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Fees for management services paid to the Trustees amounted to \$9,256 and \$7,176 for the years ended December 31, 2009 and 2008, respectively. The fair value of investments in related parties included in the Mueller Fund at December 31, 2009 and 2008 were approximately \$125,400,000 and \$76,600,000, respectively.

**8. Plan Termination**

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated generally, as prescribed by ERISA and its related regulations, to provide the following benefits in the order indicated:

- (1) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been

receiving if they had retired with benefits in the normal form of annuity under the Mueller Plan.

- (2) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).
- (3) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (4) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. Whether all participants receive their benefits should the Plan terminate at some future time would depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and might also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

## **9. Plan Amendments**

The Plan was amended effective January 1, 2006 to adopt the 2006 provision of the PPA.

The Plan was amended to comply with the Pension Funding Equity Act of 2004 and the regulations issued by the Department of the Treasury under Section 415 of the IRC.

The Plan was frozen effective June 2008 and September 2008 for Part I and II participants, respectively. Also effective January 1, 2009, the Plan's actuarial equivalence definition was changed to the 1975 Group Annuity Mortality table.

## **10. Subsequent Events**

The Company evaluated these financial statements for subsequent events through the issuance of these financial statements with the Department of Labor Employee Benefits Security Administration on October 8, 2010.

## **11. Plan Merger**

Effective December 31, 2009, this Plan along with five other affiliated plans were merged with the Mueller company Retirement Plan for Hourly Employees at Selected Locations (now known as the Mueller Water Products, Inc. Pension Plan for Selected Employees). As a result of the merger, the Plan transferred its interest in the Mueller Fund to the other plan. The merger effectively terminates the Mueller Group Master Pension Trust because after the merger, the Mueller Water
