BENEFIT PLAN ASSURANCE

REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator
Precision Honda 401(k) Plan
Downey, CA

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Precision Honda 401(k) Plan (the "Plan"), formerly Honda World Downey 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN

The following description of Precision Honda 401(k) Plan (the "Plan"), formerly Honda World Downey 401(k) Plan, provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution savings plan sponsored by Turn 2 AG, LLC dba Precision Honda, formerly Honda World Downey (the "Company"). The Plan was established in 2018 and is subject to the provisions of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), and subsequent laws.

Plan administration

The Company is the Plan Administrator. The Company has contracted with Voya Institutional Trust Company ("Voya") to act as the custodian and with an affiliate of Voya to process and maintain the records of participant data.

Eligibility

The Plan covers substantially all employees of the Company, except certain nonresident aliens. Eligible employees, who have attained age 21 and completed one year of credited service, as defined by the plan document, may enter the Plan on either January 1st or July 1st each year, coinciding with or next following the date that eligibility requirements are met.

Contributions

Each year, participants may contribute up to 100% of their eligible compensation, as defined by the plan document, on a pre-tax basis, subject to the Internal Revenue Code ("IRC") limits. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Eligible participants who do not opt out or make an affirmative deferral election are automatically enrolled in the Plan at a deferral rate of 3% of eligible compensation. The automatic deferral rate increases by one percentage point on the first day of each Plan year, up to a maximum of 7%. Annual automatic increases also apply to participants who have affirmatively elected a deferral rate below the applicable automatic deferral maximum, unless they elect otherwise.

Participants may also make rollover contributions to the Plan from other qualified defined benefit or defined contribution retirement plans.

The Company may make discretionary matching and nonelective contributions to the Plan. For the year ended December 31, 2025, the Company made approximately $18,000 in discretionary matching contributions, allocated based on participants' elective deferrals of up to 6% of eligible compensation. No nonelective contributions were made for the year ended December 31, 2025.

Participants direct the investment of contributions to their respective accounts into the investment options offered by the Plan.

Vesting

Participants are immediately 100% vested in their elective contributions and the Company's discretionary nonelective contributions, plus earnings thereon.

Participants vest in the Company's discretionary matching contributions, plus earnings thereon, based upon years of credited service. Participants become 50% vested after 2 years of credited service, and 100% vested after 3 years of credited service, as defined in the plan document.

Participant accounts

Each participant's account is credited with the participant's contributions, Company contributions, if any, and allocations of plan earnings. Accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants direct the investment of their account into various investment options offered by the Plan.

Notes receivable from participants

Participants may borrow from their account a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Notes receivable from participants ("participant loans") are issued by the Plan and secured by the balance in the participant's account. Participant loans must be repaid within five years, unless the participant's loan is used to acquire a primary residence, in which case the repayment period may be longer. Participant loans bear interest at fixed, commercially reasonable rates established by the Plan Administrator based on prevailing interest rates charged by professional lenders for similar loans under comparable circumstances. During 2025, the interest rate for new loans was equal to prime plus 1%. Principal and interest are generally paid ratably through payroll deductions with payments made each pay period. Outstanding participant loans at December 31, 2025 bear annual interest rates of 4.25% to 9.50% and mature at various dates through August 2030.

Payment of benefits

Distributions and withdrawals are payable upon retirement, termination, disability or death. The Plan permits in-service and hardship withdrawals under certain conditions, as described in the plan document. Upon termination, participants with total vested account balances of up to $1,000 may automatically receive a lump-sum cash distribution from the Plan. Unless affirmatively elected otherwise by the participant, if a participant's vested account balance is greater than $1,000 and not more than $7,000, the balance may be automatically rolled over into an individual retirement account, preselected by the Plan. If a participant's vested account balance is greater than $7,000, the participant may either consent to a distribution from the Plan or postpone payment to a later date and remain in the Plan, as described in the plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting and financial statement presentation

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the change therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions and contributions receivable

Participant contributions are recorded when withheld from participants' compensation. Employer contributions are recognized in the plan year to which they relate when required under the Plan's provisions or supported by a formal commitment from the Company. Rollover contributions are recorded when received by the Plan.

Investment valuation

The Plan's investments are reported at fair value, except for its investment in the Voya Fixed Account, which is reported at contract value. Voya, the custodian, certifies the contract value of the Plan's investment in the Voya Fixed Account and the fair value of all other investments. Quoted market prices, when available, are used to determine the fair value of investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4.

The Voya Fixed Account is a guaranteed investment contract that is fully benefit-responsive. Contract value is the relevant measurement for the Plan's investment in the contract because it represents the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 5.

Income recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans is recorded on an accrual basis. Delinquent notes receivable are reclassified as distributions upon the occurrence of a distributable event based upon the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment fees, which may vary according to the individual investment options selected, are paid out of the assets of the Plan.

Subsequent events

The Plan has evaluated subsequent events through October 13, 2026, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following information was certified as complete and accurate by Voya, the custodian and a qualified institution:

- Investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024.
- Net appreciation in fair value of investments, and dividend and interest income reflected on the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2025.
- Investments reflected on the Schedule of Assets (Held at End of Year).

4. INVESTMENTS AT FAIR VALUE

Following is a description of the valuation methodology used for assets measured at fair value on a recurring basis.

The Plan's investments in pooled separate accounts ("PSAs") are measured at fair value using net asset value ("NAV") per unit, or its equivalent, as a practical expedient. The PSAs are maintained by Voya Retirement Insurance and Annuity Company ("VRIAC") and invest in underlying investment funds, including mutual funds and collective investment trusts. The Plan's investments are valued based on the number of accumulation units held multiplied by the applicable accumulation unit values ("AUVs") reported by VRIAC. The AUVs are determined daily and reflect the investment performance of the underlying funds and applicable separate account charges. Participant directed transactions in the PSAs generally are permitted daily, subject to applicable Plan provisions and investment restrictions. Investments measured using NAV as a practical expedient totaled $8,957,762 and $7,954,192 at December 31, 2025 and 2024, respectively, and are not categorized within the fair value hierarchy.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodology used as of December 31, 2025 and 2024.

The following are the investment strategies of significant PSAs held by the Plan as of December 31, 2025 and 2024:

American Funds American Balanced Fund: This fund invests in a diversified portfolio of common stocks and primarily investment-grade bonds, seeking capital preservation, current income and long-term growth.

American Funds Growth Fund: This fund invests primarily in common stocks of companies offering above-average potential for long-term capital growth, including U.S. and international companies.

American Funds New World Fund: This fund invests primarily in equity securities of companies with significant exposure to developing and emerging markets, including companies domiciled in developed countries.

JP Morgan Equity Income Fund: This fund invests primarily in equity securities of dividend-paying companies, emphasizing large-capitalization stocks and real estate investment trusts, with a focus on capital appreciation and current income.

Vanguard Target Retirement Funds: These funds invest in diversified portfolios of U.S. and international stock and bond index funds, with asset allocations based on their respective target retirement dates. Each fund's allocation becomes progressively more conservative, shifting from stocks toward bonds as the target retirement date approaches and passes.

Vanguard Total Stock Market Index Fund: This fund uses a passive investment strategy to track the CRSP US Total Market Index, providing exposure to large-, mid-, small- and micro-capitalization U.S. equities.

Voya Intermediate Bond Fund: This fund invests primarily in investment-grade fixed-income securities, including corporate, government and mortgage-backed bonds, seeking total return through income and capital appreciation.

5. GUARANTEED INVESTMENT CONTRACT

The Plan has entered into an investment contract with VRIAC, allowing participants to invest in the Voya Fixed Account, which is a guaranteed investment contract ("GIC"). The GIC is a fully benefit-responsive investment contract ("FBRIC"), and the Plan's investment in the GIC is reported at contract value. Contract value is the relevant measure for FBRICs because it represents the amount participants would receive if they were to initiate permitted transactions under the terms of the contract. Contract value, as reported by the custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal of all or a portion of their investment at contract value. The Plan's investment in the GIC totaled $1,599,598 and $1,586,558 at December 31, 2025 and 2024, respectively.

VRIAC is contractually obligated to repay principal and credit interest on amounts invested in the Voya Fixed Account. The Voya Fixed Account guarantees principal and a minimum interest rate. The current credited rate is determined at least monthly and may exceed the guaranteed minimum rate. The guaranteed minimum floor rate is established for a defined period, currently one calendar year, and may not be less than the contract's guaranteed minimum interest rate of 1%. The current credited rate is subject to certain limitations on decreases.

The Plan's ability to receive amounts due is dependent on VRIAC's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events may limit the ability of the Plan to transact at contract value with VRIAC. Such events include (1) amendments to the Plan document, including complete or partial Plan termination or merger with another plan, (2) changes to the Plan's provisions regarding competing investment options or equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events, such as divestitures or spinoffs of a subsidiary, that result in a significant withdrawal from the Plan, (4) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) termination or surrender of the contract. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

7. TAX STATUS

The Company has adopted a non-standardized pre-approved defined contribution plan document that received an opinion letter from the Internal Revenue Service dated June 30, 2020, which stated that the plan document, as then designed, was in accordance with the applicable sections of the IRC. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined by ERISA as any fiduciary of the Plan, any party rendering services to the Plan, the Company and its employees, and certain others. Certain Plan investments are maintained or issued by VRIAC, an affiliate of Voya. As such, transactions involving Voya, VRIAC and their affiliates, including any fee offset agreements, qualify as party-in-interest transactions. Also, the Company pays certain fees and expenses on behalf of the Plan. These transactions are considered exempt from the prohibited transaction provisions of ERISA.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Participants would become fully vested in their account balances in the event the Plan is terminated.

10. RECONCILIATION TO FORM 5500

The following is a reconciliation of the net assets available for benefits reported in the financial statements and the net assets reported on Form 5500 as of December 31:

	2025	2024
