Independent Auditors' Report

To Plan Administrator
Reliable Doors 401(K) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Reliable Doors 401(K) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the year ended December 31, 2025 and for the short period from October 1, 2024 through December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Reliable Doors 401(K) Plan financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution for the year ended December 31, 2025 and for the period of October 1, 2024 through December 31, 2024, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

1301 66h St N, Saint Petersburg, FL 33710

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Reliable Doors 401(K) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Reliable Doors 401(K) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are

considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Reliable Doors 401(K) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Reliable Doors 401(K) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

The Plan includes an automatic-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation. The Plan also includes an auto-escalation provision whereby participants are subject to an annual automatic deferral rate increase of 1% until their deferral rate reaches 10% of eligible compensation. Participants may elect to discontinue their participation in the automatic deferral rate increase at any time.

Participant Contributions:

Each year participants may contribute to the Plan up to the maximum amount allowed by law, subject to certain limitation under the Internal Revenue Code ("IRC"). Contributions may be made pre-tax or post-tax (Roth). Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans or defined contribution plans (rollover contributions).

Employer Contributions:

For the period of October 1, 2024 through December 31, 2024 the Company match is a fixed tiered matching contributions equal to 100% of the first 1% of eligible compensation deferred, plus of the next 5% of eligible compensation deferred. Effective January 1, 2025, the Plan changed from a fixed match contribution to a safe harbor matching contribution. The safe harbor match contribution is equal to 100% of a participant's elective deferrals that do not exceed 1% of participant's compensation, plus 50% of the participant's elective deferrals that exceed 1% of the participant's compensation but do not exceed 6% of the participant's compensation.

The Plan provides a match true-up provision to ensure that participants receive the full annualized employer matching contribution based on their total eligible compensation and elective deferrals calculated at the conclusion of the Plan year. True up contributions are calculated annually and deposited into eligible participant accounts during the subsequent year. Match true up contributions are included in the Employer contribution receivable on the Statement of Net Assets Available for Benefits.

Additional discretionary non-elective contributions (profit-sharing) amounts may be contributed at the option of the Company's board of directors which are also invested in funds as directed by the participants of the Plan. No such additional contributions were made in 2025 and 2024.

Participant Accounts:

Each participant's account is credited with the participant's contribution, any Company matching contribution and allocation of investment earnings, and charged with benefit payments and an allocation of the Plan's losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants' contributions and rollover contributions plus actual earnings thereon are 100% vested at all times. Participants vest 100% in Company contributions after two years of service.

Notes Receivable from Participants:

Participants may borrow for any purpose, a minimum of $500 and a maximum equal to the lesser of 50% of the participant's vested account balance or $50,000. Loans are repayable over a period of up to five years. Loans are secured by the participant's account balance and evidenced by a promissory note. Interest rates on outstanding loans are stated at the prime rate plus 1%. All loans, principal plus interest are repaid through participant payroll deductions.

Payment of Benefits:

Upon termination of service due to death, disability or retirement, a participant becomes 100% vested and may receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in installments over a period of time not more than the participant's (or beneficiary's) assumed life expectancy. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If the participant's vested account balance is less than $5,000, then a lump sum distribution is required. The Plan allows for in-service distributions if a participant reaches age 59 ½ and hardship withdrawals subject to Plan provisions.

Forfeited Accounts:

The Employer may direct the Administrator to use forfeited nonvested accounts to reinstate previously forfeited account balances of participants, to satisfy any contribution required, or to pay Plan expenses. Forfeitures must be disposed of no later than the last day of the Plan Year in which the forfeiture occurs. At December 31, 2025 and 2024, forfeited non-vested accounts totaled $1,180 and $46, respectively. During 2025 and 2024, $57,488 and $7,839, respectively, of forfeitures were used to reduce employer contributions. No amounts were used to pay plan expenses during 2025 and 2024.

Subsequent Events:

Subsequent events were evaluated through October 8, 2026, which is the date the financial statements were available to be issued.

NOTE B- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:

The financial statements are prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Comparative Financial Statements:

The financial statements include certain prior-year comparative information. Such information summarizes the financial activity of the Plan for the initial short Plan period from October 1, 2024 through December 31, 2025, and is not directly comparative to the current year full 12-month period ended December 31, 2025.

Estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2025 and 2024, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits:

Benefits are recorded when paid.

Administrative Expenses:

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

NOTE C - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information is a summary of the Plan's financial information and data certified by ADP Retirement Trust Services, LLC ("the "Trustee") as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulation for Reporting and Disclosure under ERISA.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information certified by ADP Retirement Trust Services, LLC to the related information included in the financial statements.

NOTE D- FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. The Investment Committee determines the Plan's valuation policies. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in

active markets for identical assets and they have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices included in Level 1, (i.e., quoted prices for similar assets or liabilities in active markets), and Level 3 inputs are unobservable and have the lowest priority.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

- Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority;

- Level 2 inputs consist of quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets in inactive markets;

- Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024.

	Investments at Fair Value December 31, 2025			
	(Level 1)	(Level 2)	(Level 3)	Total
Mutual funds	$ 6,039,136	$ –	$ –	$ 6,039,136
Total investments at fair value	$ 6,039,136	$ –	$ –	$ 6,039,136

	Investments at Fair Value December 31, 2024			
Mutual funds	$ 4,729,410	$ –	$ –	$ 4,729,410
Total investments at fair value	$ 4,729,410	$ –	$ –	$ 4,729,410

NOTE E- PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

NOTE F- TAX STATUS

The Plan is a non-standardized pre-approved defined contribution plan ("Pre-approved Plan") sponsored by ADP, LLC ("ADP"). ADP obtained its latest opinion letter dated October 6, 2020, in which the IRS stated that the Pre-approved plan as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, as the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE G - RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

NOTE H- PARTY-IN-INTEREST TRANSACTIONS

The Plan hold units in various mutual funds managed by an affiliate of ADP Retirement Trust Services, LLC (ADP), the Plan trustee and recordkeeper. These transactions qualify as allowable party-in-interest transactions under the provisions of ERISA.

Fees for contract administration services paid by the Plan to ADP qualify as party-in-interest transactions and totaled $32,966 and 2,931 for the year ended December 31, 2025 and period of October 1, 2024 to December 31, 2024.

Notes receivable from participants are considered party-in-interest transactions.
