Defined Contribution 401(k) Pension Plan for Certain ThyssenKrupp U.S. Group Companies

Notes to Financial Statements December 31, 2009 and 2008

Note 1 - Plan Description

The following brief description of the Defined Contribution 401(k) Pension Plan for Certain ThyssenKrupp U.S. Group Companies (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan sponsored by U.S. affiliates of ThyssenKrupp USA, Inc. (the "Company" or "Participating Employers") covering all eligible employees of the Company. Employees are eligible to participate in the Plan after completing one hour of service and reaching 18 years of age. Employee participation in the Plan is voluntary. The Plan's investments are managed by the trustee, Fidelity Management Trust Company (Fidelity or the "Trustee"), and disbursed to specific investment option offerings in proportions directed by each participant. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Employee contributions represent a percentage of each eligible participant's pretax earnings as defined in the plan agreement and are subject to the limits imposed by the Internal Revenue Code.

Participating Employers make matching contributions in various amounts ranging from 35 percent of the first 5 percent of compensation contributed by a participant to 100 percent of the first 3 percent and 50 percent of the following 3 percent of compensation contributed by a participant. The Plan also provides that Participating Employers may make annual discretionary contributions.

Certain participant contributions in 2009 were paid after the time frame required by the Department of Labor. A contribution of the lost earnings was made subsequent to year end.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of Participating Employers' contributions and plan earnings or losses and charged with an allocation of administrative expenses. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions and certain employer contributions plus actual earnings thereon. Certain participating employers' contributions vest 40 percent after one year and 20 percent after each year of service thereafter, becoming fully vested after four years of service.

**Notes to Financial Statements
December 31, 2009 and 2008**

Note 1 - Plan Description (Continued)

Payment of Benefits - Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments in accordance with plan provisions. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participant Loans - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Loans are collateralized by the participant's account balance and bear interest at a market rate.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions or to pay administrative expenses of the Plan. At December 31, 2009 and 2008, forfeited account balances totaled \$182,887 and \$204,378, respectively.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the Trustee shall distribute all assets remaining in the Plan, after payment of any expenses properly chargeable against the Plan, to the participants in accordance with the value of the units credited to such participants as of the date of such termination. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity or its affiliates. Since Fidelity is the trustee of the Plan, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Certain administrative expenses of the Plan are paid by the Company, which qualify as party-in-interest transactions as well.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The fair value of the Plan's interest in the TKUSA Defined Contribution Master Trust (the "Master Trust") is based on the beginning value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses (see Note 4). Investments in pooled separate accounts are stated at fair value, based on the fair market value of the underlying assets. The common collective trust fund that invests in fully benefit-responsive investment contracts (commonly known as a stable value fund) is adjusted to contract value in the financial statements. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. Participant loans are valued at their outstanding balances, which approximates fair value. All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Reclassification - Certain prior year amounts have been reclassified to conform to the current year presentation. In the 2008 Master Trust schedule, investments were reclassified from mutual funds to pooled separate accounts.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 21, 2010, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Investment Information

The trustee of the Plan holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including Master Trust information included in Note 4 and the supplemental schedule of assets held at end of year, are based solely on information provided by the Trustee.

Note 4 - Interest in Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and several other defined contribution retirement plans sponsored by ThyssenKrupp USA, Inc. and other affiliated participating employers. The assets were transferred into the Master Trust by all participating plans on October 1, 2008. Each participating benefit plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. At December 31, 2009 and 2008, the Plan's interest in the net assets of the Master Trust was approximately 21 percent and 20 percent, respectively. Investment income (loss) and administrative expenses relating to the Master Trust are allocated to the individual plans based upon their pro rata share in the investments of the Master Trust. The participants can direct their account balances among various options in the Master Trust. The participants may elect to have a percentage of their contributions allocated to one or more of the funds. The Plan's share of each fund is based on its contributions (or withdrawals) plus the Trustee's allocation of the fund's income, realized gains or losses, and unrealized appreciation or depreciation.

Note 5 - Fair Value Measurements

Accounting standards require certain assets be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2009 and 2008 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include market rates of interest and outstanding repayment terms of participant loans.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

During 2009, the Plan adopted, on a prospective basis, new accounting standards which require disclosure of fair value by class of investments.

- (1) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.
- (2) This class represents investments in an actively managed common collective trust fund that invests primarily in investment contracts, a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, and wrapper contracts. Investments are valued at the fair value per share multiplied by the number of shares held as of the measurement date.
