To the Benefits Committee of the
Aleris International, Inc. 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Aleris International, Inc. 401(k) Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Aleris International, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2009

1. Description of the Plan

The following description of the Aleris International, Inc. 401(k) Plan (the “Plan”) is provided for general information only. Participants should refer to the Plan document for a complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Aleris International, Inc. and adopting subsidiaries (the “Company” or “Plan Sponsor”). An employee covered by a collective bargaining agreement which does not provide for participation in the Plan is an excluded, or non-eligible, employee. Other excluded employees are leased employees or a nonresident alien with no U.S. source income. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan allows for participation immediately following an employee’s hire date.

Plan Administration

Overall responsibility for administering the Plan rests with the Plan Sponsor’s Benefits Committee, which is appointed by the Board of Directors of the Company. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (the “Trustee”) is the trustee of the Plan and is responsible for the management and control of the Plan’s assets.

Contributions

An employee’s pretax contributions to the Plan may not exceed certain Internal Revenue Service (“IRS”) maximum amounts. The maximum amount was \$16,500 in 2009 and \$15,500 in 2008. Employees who were 50 years of age or older by the end of the Plan year, and were making the maximum elective contribution for the year, were eligible to make additional pretax contributions (“Catch-up Contributions”) of up to \$5,500 in 2009 and \$5,000 in 2008. Catch-up Contributions are not matched by the Company. The Plan also provides that participants may roll over all or part of a qualified total distribution from another tax-qualified plan.

Prior to April 1, 2009, matching contributions for participants were remitted to the Plan in an amount equal to 100% of the first 3% of an employee’s salary deferral contributions, plus 50% of the next 2% of an employee’s salary deferral contributions. This contribution was determined each payroll period. Effective April 1, 2009, the Plan was amended to terminate the matching contribution.

The Company may make a discretionary contribution each plan year, the amount of which is determined and authorized by resolution of the Board of Directors. The contribution is allocated to each participant based on the compensation of the participant. There was no discretionary contribution for 2009.

Prior to January 1, 2009, the Company also made an annual contribution each plan year (“Retirement Contribution”) based on a participant’s age as of the last day of the Plan year, as follows:

- Participants age less than 35 – 1% of annual compensation as defined in the Plan document
- Participants age 35 –49 – 2% of annual compensation as defined in the Plan document
- Participants age 50 and older – 3% of annual compensation as defined in the Plan document

Effective January 1, 2009, the Plan was amended to terminate the Retirement Contribution.

Aleris International, Inc. 401(k) Plan
Notes to Financial Statements (continued)

Participant Accounts

Participants are immediately vested in that portion of their account equal to the value of the elective deferral contributions, Company matching contributions, and rollover amounts in such participant's account. Upon death, disability, or attainment of normal retirement age, as defined in the Plan, a participant shall have a vested interest of 100% in the Retirement Contributions and discretionary contributions in their account. Each participant's account is credited with their contribution, Company contributions, and actual earnings thereon. Participants direct their accounts into various investment options offered by the Plan.

Loans to Participants

The Plan permits participants to borrow from their account a minimum of \$1,000 and up to the lesser of \$50,000 or 50% of their vested account balance. These loans must be paid through payroll deductions over a period of time not to exceed five years, unless used for the purchase of a primary residence. The interest rate for all loans is equal to the average prime rate at the Plan Sponsor's banks, plus 1%. A loan is deemed to be in default if principal and interest are not paid in 90 days after the loan payment is due.

Vesting Provision

Retirement Contributions and discretionary contributions vest in accordance with the following:

For members in the former Commonwealth Industries, Inc. 401(k) Plan prior to January 1, 2007, 3 years of service or more, 100%. For members in the former Corus Aluminum Corporation Savings and Investment Plan prior to January 1, 2007, 1 year of service 33%, 2 years of service 66%, and 3 or more years of service 100%. For all others:

Completed Years of Service	Less than 1	1	2	3	4	5 or more
Percentage of Vested Interest	None	20%	40%	60%	80%	100%

Forfeited Accounts

Forfeited balances are used: first, to restore participant's forfeitures; second, to reduce future Company contributions; and, third, to reduce expenses of the Company incurred in the operation of the Plan. There was \$317,256 and \$123,582 remaining in the forfeiture account as of December 31, 2009 and 2008, respectively. \$15,830 of forfeited balances was used to reduce Company contributions and administrative expenses during the year ended December 31, 2009.

Withdrawals During Employment

A participant may withdraw any part of their vested account resulting from voluntary contributions or rollover contributions during the year. A participant who has attained age 59 ½ may withdraw any part of their vested account that results from elective deferral contributions or matching contributions at any time. A participant may withdraw any part of their vested account that results from elective deferral contributions in the event of financial hardship due to an immediate and heavy financial need. The hardship withdrawal shall be authorized only for an immediate and heavy financial need limited to medical expenses, educational expenses for the next 12 months of post-secondary education for the participant, purchase of, or prevention of foreclosure upon a participant's home or any other distribution that is deemed by the Commissioner of the IRS to be made on account of immediate and heavy financial need.

Aleris International, Inc. 401(k) Plan
Notes to Financial Statements (continued)

Benefits Provision

Upon termination of service, death, disability, or retirement, a participant (or his beneficiary) could elect to receive their vested balance in a rollover or lump-sum distribution.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, all participant accounts shall be fully vested and nonforfeitable.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan were prepared using the accrual method. Subsequent events have been evaluated through October 11, 2010, which represents the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments held by the Plan are recorded at fair value under Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, using quoted market prices and significant other observable and unobservable inputs. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Aleris International, Inc. 401(k) Plan
Notes to Financial Statements (continued)

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management’s judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

Pooled separate accounts: Valued at fair value estimated by the issuer, which has been determined based on the unit values of the fund which are determined by dividing the fund’s net assets at fair value by its units outstanding at the valuation date.

Mutual funds: Valued at the net asset value (“NAV”) of shares held by the Plan at year-end based on quoted market prices.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 4).

Loans to participants: Valued at amortized cost, which approximates fair value.

The Plan invests in a fully benefit-responsive guaranteed investment contract with Principal Life Insurance (“Principal”) (the “Principal Contract”). Principal maintains a general account, which is credited with contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Principal Contract is fully benefit-responsive. Principal Contract investments are recorded at fair value; however, because they are fully benefit-responsive, an adjustment to contract value is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

The Plan invests in various pooled separate accounts (refer to Note 3 for a list of investments grouped by major investment strategy). A transfer of these investments is limited to one transfer per time period ranging from thirty to sixty days.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (“FASB”) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (“FSP 157-4”). FSP 157-4 amended FASB Statement No. 157 (codified in ASC 820) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan’s net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified in ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted the amended accounting principles within ASC 855, as required.

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (“ASU 2009-12”). ASU 2009-12 amended ASC 820 to allow entities to use NAV per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment’s NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Adoption of ASU 2009-12 did not have a material effect on the Plan’s net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements* (“ASU 2010-06”). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan’s financial statements.

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* (“ASU 2010-25”), which is effective for plan years ending after December 15, 2010. The new standard will require that participant loans be classified as notes receivable for GAAP purposes and measured at unpaid principal balance plus accrued but unpaid interest. Currently these participant loans are classified as plan investments, and are subject to the fair value measurement and disclosure requirements of ASC 820. Adopting this new standard will eliminate the need to calculate fair values and present disclosures for these loans in accordance with ASC 820. Plan management is currently evaluating the effect that the provisions of ASU 2010-25 will have on the Plan’s financial statements.

4. Investment Contract With Insurance Company

The Principal Contract is included in the financial statements at contract value as reported to the Plan by Principal. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and interest based on a specified interest rate that is guaranteed to the Plan. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.5 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary), either of which cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The Principal Contract does not permit Principal to terminate the agreement prior to the scheduled maturity date.

Average yields:	2009	2008
Based on actual earnings	3.67%	3.37%
Based on interest rates credited to participants	3.67%	3.37%

5. Administrative Expenses

All administrative expenses are paid by the Plan, except for audit fees that are paid by the Plan Sponsor.

6. Tax Status

The IRS determined and informed the Company by a letter dated January 28, 2003, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). The Plan was amended and restated since the date of the determination letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain qualification. The Plan administrator believes the Plan, in all material respects, is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

7. Transactions with Parties In Interest

Several investments of the Plan are investment funds managed by the Trustee. Purchases and sales of investment units of such funds qualify as party-in-interest transactions, as defined by ERISA. Loans to participants are also considered party-in-interest transactions as such participants are employed by the Plan Sponsor.

Aleris International, Inc. 401(k) Plan
Notes to Financial Statements (continued)

8. Subsequent Events

On June 1, 2010, the Company emerged from bankruptcy proceedings under Chapter 11 of the United States Bankruptcy Code.

Effective June 1, 2010, the Plan was amended to change the Plan's name to the Aleris 401(k) Plan. Also effective June 1, 2010, Aleris Ohio Management, Inc., a subsidiary of Aleris International, Inc., became the Plan Sponsor.

Effective July 1, 2010, the Plan was amended to reinstate the employer matching contributions made upon the elective deferral contributions to the Plan on and after July 1, 2010.
