As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodian is complete and accurate.

SAC FEDERAL CREDIT UNION CAPITAL ACCUMULATION PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

1. Plan Description

The following brief description of the SAC Federal Credit Union Capital Accumulation Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established to provide retirement benefits for the employees of SAC Federal Credit Union (the Company).

Employees are eligible to make salary reduction contributions after attaining age 21. Employees are eligible to receive employer matching contributions and discretionary profit sharing contributions after attaining age 21 and completing one year of service with a minimum of 1,000 hours. Eligible employees become participants immediately coinciding with the date on which entry requirements are fulfilled.

Contributions

Each year, participants may make voluntary salary deferral contributions up to the maximum dollar limits allowable by law. Participants may make salary deferral contributions up to 90% of eligible compensation. Participants may also contribute amounts representing distributions from other qualified plans. Employer matching contributions are made in amounts equal to 50% of the participant's elective deferral if they have less than 6 years of service, 75% if they have 6 years of service but less than 10 years of service and 100% if they have 10 years or more of service up to 8% of the participant's compensation, excluding catch-up contributions. The Company may also make discretionary profit sharing contributions to participants with a minimum of 1,000 hours of service during the Plan year. All participants who are eligible to make deferral contributions and who are projected to attain age 50 before the close of the calendar year shall be eligible to make catch-up contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of a) the Company's matching contribution b) the Company's discretionary profit sharing contributions and c) Plan earnings or losses. Company matching contributions are allocated among participants based upon each eligible participant's elected salary deferral. Company discretionary profit sharing contributions are allocated on the basis of the participant's compensation for the Plan year. Plan earnings or losses are allocated on the basis of actual results of the investments selected by each participant. Investments are maintained in individual member accounts managed by Fidelity Management Trust Company (FMTC).

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

1. Plan Description - Continued

Vesting	Participants are immediately vested in their contributions plus actual earnings thereon. Company contributions credited to participants' accounts are vested based on years of continuous service. A participant is 20% vested after two years of credited service and vesting increases 20% per year in years three and four until a participant is 100% vested after five years of credited service.
Participant Loans	Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by excess, if any, of their highest outstanding balance of loans from the Plan during the one-year period ending on the day before the date of the new loan over their current outstanding balance of loans as of the date of the new loan, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates. Principal and interest are paid through payroll deductions. Participants pay loan origination fees.
Payment of Benefits	Upon termination, retirement, disability, or death, the participant or beneficiary may receive an amount equal to the value of the vested funds allocated to the participant's account in a lump sum payment or installments. The Plan automatically distributes those benefits that are \$1,000 or less to terminated employees. Benefits are recorded when paid.
Forfeitures	Upon a participant's termination of employment before normal retirement, or death, the portion of their Company contributions not then vested shall be forfeited. The forfeited portion of any participant's account will be first used to pay Plan expenses and any remaining amounts will be used to reduce the Company's contributions. As of December 31, 2009 and 2008, forfeitures of \$144 and \$2, respectively, were held and subsequently applied. During 2009 and 2008, forfeitures applied were \$5,238 and \$6,340, respectively.

2. Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements is set forth below.

Basis of Presentation The accompanying financial statements have been prepared on the accrual basis and in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

2. Summary of Significant Accounting Policies - Continued

Basis of Presentation -

Continued

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The statements of net assets available for benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Presentation of Participant-Directed Funds

The Plan's presentation of participant-directed investments is in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962, *Plan Accounting – Defined Contribution Pension Plans*.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The investments are reported at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Other

Investment management expenses, audit fees and recordkeeping expenses are paid by the Company.

SAC FEDERAL CREDIT UNION CAPITAL ACCUMULATION PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

2. Summary of Significant Accounting Policies - Continued

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. Management has considered such events or transactions through September 27, 2010 noting no items requiring disclosure.

3. Information Certified by FMTC

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by FMTC, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The following table presents the value of the participant-directed investments in this Plan that were certified by FMTC. Single investments representing more than 5% of the Plan's net assets are separately identified.

3. Information Certified by FMTC - Continued

FMTC also certified to the completeness and accuracy of the following related to the aforementioned investments for the years ended December 31, 2009 and 2008:

	<u>2009</u>	<u>2008</u>
Net Appreciation (Depreciation) in Fair Value of Investments	\$864,226	\$(1,832,754)
Dividends from Investments	85,188	155,522
Interest from Participant Loans	11,247	9,147
Net Investment Income (Loss)	<u>\$960,661</u>	<u>\$(1,668,085)</u>

During 2009 and 2008, the Plan's investments appreciated (depreciated) in fair value by \$864,226 and \$(1,832,754) as follows:

	<u>2009</u>	<u>2008</u>
Mutual Funds	\$868,099	\$(1,836,885)
Common Collective Trust	<u>(3,873)</u>	<u>4,131</u>
	<u>\$864,226</u>	<u>\$(1,832,754)</u>

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

SAC FEDERAL CREDIT UNION CAPITAL ACCUMULATION PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

4. Fair Value Measurements - Continued

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money Market Fund: Valued at the net asset value of the underlying investments.

Mutual Funds: Valued at the net asset value of the underlying investments.

Common Collective Trust: Valued at the net asset value of the underlying investments.

Participant Loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009.
