THE JACOBS GROUP 401(k) PLAN I

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2009 AND 2008 AND FOR THE YEAR ENDED DECEMBER 31, 2009

1. DESCRIPTION OF THE PLAN

The following description of The Jacobs Group 401(k) Plan I (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General—The Plan is a defined contribution plan established effective January 1, 1994 by The Richard E. Jacobs Group and affiliated entities (the “Company”). All employees of the Company and affiliated entities who have attained age 21 and have accumulated one year of continuous service with the Company, except information booth associates, housekeepers, non-supervisory food court associates, employees of Jacobs Hospitality LLC performing services at the Pier House who are not highly compensated employees, and those who are covered by a collective bargaining agreement that does not specifically provide for coverage under the Plan, are eligible to become participants in the Plan. Account balances of participants of the Plan who change service positions and become ineligible under this Plan are transferred to The Jacobs Group 401(k) Plan II. Similarly, the account balances of participants of The Jacobs Group 401(k) Plan II who change service positions and become eligible under this Plan are transferred to this Plan. The Plan is administered by the Company, and PNC Bank, N.A. (the “Trustee”) serves as the Plan’s trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions—The Plan provides for contributions by participants through payroll deductions and for matching contributions by the Company. Each participating employee elects to enter into a written wage reduction agreement with the employer, thereby contributing to his/her participant account a percentage of compensation, as defined, which is limited to no more than 50% of eligible earnings (subject to Internal Revenue Code (“IRC”) limitations). Participant contributions are made on a before-tax basis or after-tax basis (Roth 401(k)) based on the participant’s election. Participants may change their contribution percentage and/or their allocation of amounts held in their Plan account, or future contributions, among the various investment funds not more than once every calendar quarter. The Plan also includes an automatic enrollment feature for new employees that become eligible to participate in the Plan.

The Company provides a matching contribution each bi-weekly pay period. The Company contributes 37.5% of the first 8% of compensation, as defined, that a participant contributes to the Plan.

Vesting and Benefits—Each participant is immediately and fully vested in all participant and employer contributions and earnings thereon. If a participant’s employment with the Company is terminated, the Plan permits benefits to be paid from the participant’s Plan account. Benefit payments are made in single-sum payments.

Participant Accounts—Each participant’s account is increased or decreased, as appropriate, with (a) the participant’s contribution, (b) the Company’s matching contribution, (c) net investment earnings or losses based on the participant’s account balance and composition, and (d) any benefits paid. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Expenses—The expenses of administering the Plan are paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to the Plan’s net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition—Investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices. Money market funds are stated at amortized cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits—Benefits are recorded when paid.

Transfers—Along with the Plan, the Company also sponsors a The Jacobs Group 401(k) Plan II for information booth associates, housekeepers, and non-supervisory food court associates. If employees change their service position during the year, their account balances are transferred into the corresponding plan. For the year ended December 31, 2009, Plan transfers from The Jacobs Group 401(k) Plan II were \$40,173.

New Accounting Standards Adopted—The accounting standards initially adopted in the 2009 financial statements described below affected certain note disclosures but did not impact the statements of net assets available for benefits or the statement of changes of net assets available for benefits.

Accounting Standards Codification—The Financial Accounting Standards Board’s (“FASB’s”) Accounting Standards Codification (“ASC”) became effective on July 1, 2009. At that date, the ASC became FASB’s official source of authoritative GAAP applicable to all public and nonpublic nongovernmental entities, superseding existing guidance issued by the FASB, the American Institute of Certified Public Accountants, the Emerging Issues Task Force and other related literature. The FASB also issues Accounting Standards Updates (“ASU”). An ASU communicates amendments to the ASC. An ASU also provides information to help a user of GAAP understand how and why GAAP is changing and when the changes will be effective.

Subsequent Events—In May 2009, the FASB issued ASC 855 (originally issued as FASB Statement No. 165, *Subsequent Events*) to establish general standards of accounting for and disclosure of events that occur after the balance sheet date, but prior to the issuance of financial statements. ASC 855 provides guidance on when financial statements should be adjusted for subsequent events and requires companies to disclose subsequent events and the date through which subsequent events have been evaluated. ASC 855 is effective for periods ending after June 15, 2009.

For the year ended December 31, 2009, subsequent events were evaluated through October 5, 2010, the date the financial statements were available to be issued.

Updates to Fair Value Measurements and Disclosures—In 2009, FASB Staff Position 157-4, *Disclosures Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP), was issued and later codified into ASC 820, which expanded disclosures and required that major categories of debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments. See Note 3 for the additional disclosures.

In September 2009, the FASB issued ASU No. 2009-12, *Fair Value Measurements and Disclosures: Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)* (“ASU 2009-12”), which amended ASC Subtopic 820-10, *Fair Value Measurements and Disclosures — Overall*. ASU No. 2009-12 is effective for the first reporting period ending after December 15, 2009. ASU No. 2009-12 expands the required disclosures for certain investments with a reported net asset value (NAV). ASU No. 2009-12 permits, as a practical expedient, an entity holding investments in certain entities that calculate net asset value per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that net asset value per share or its equivalent without adjustment. The ASU requires enhanced disclosures about the nature and risks of investments within its scope. Such disclosures include the nature of any restrictions on an investor’s ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. The Plan has adopted ASU No. 2009-12 on a prospective basis for the year ended December 31, 2009. Adoption did not have a material impact on the fair value determination and disclosure of applicable investments. The effect of the adoption of the ASU had no impact on the statements of net assets available for benefits and statement of changes in net assets available for benefits.

New Accounting Standards to Be Adopted—In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures* (ASU No. 2010-06), which amends ASC 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide information concerning purchases, sales, issuances, and settlements on a gross basis for investments categorized as Level 3 securities, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact ASU No. 2010-06 will have on the financial statements.

3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, established a single authoritative definition of fair value, set a framework for measuring fair value, and requires additional disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily

available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2009 and 2008.

In accordance with the update to ASC 820 (originally issued as FSP 157-4), the table below includes the categorization of the Plan's investments on the basis of the nature and risk of the investments at December 31, 2009.

	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
<i>Mutual funds:</i>				
Balanced funds	\$ 4,156,261	\$	\$	\$ 4,156,261
International stock funds	761,744			761,744
US stock funds	1,573,189			1,573,189
Taxable bond funds	1,303,967			1,303,967
Domestic equity fund	<u>2,386,277</u>			<u>2,386,277</u>
<i>Total mutual funds</i>	<u>10,181,438</u>			<u>10,181,438</u>
<i>Money Market fund:</i>		<u>724,819</u>		<u>724,819</u>
Total	<u>\$10,181,438</u>	<u>\$724,819</u>	<u>\$</u>	<u>\$ 10,906,257</u>

The following table sets forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value at December 31, 2008:

Description	Fair Values at December 31, 2008 as Measured By			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Mutual Funds	\$ 7,918,253	\$	\$	\$ 7,918,253
Money Market Fund	<u>494,886</u>			<u>494,886</u>
Total	<u>\$ 8,413,139</u>	<u>\$</u>	<u>\$</u>	<u>\$ 8,413,139</u>

The ownership interests in the money market fund in which the Plan invested at December 31, 2008 were publicly traded and the Plan's investment in the money market fund was classified as Level 1 under the fair value hierarchy. During the year ended December 31, 2009, the ownership structure of this money market fund was modified such that ownership interests are no longer publicly traded. Instead, purchases and redemptions of the interests in the money market fund are based upon a net asset value derived from the fair value of the underlying assets of the money market fund, most of which are publicly traded, and the Plan's respective ownership interest. Accordingly, the Plan's investment in the money market fund at December 31, 2009 is classified as Level 2 under the fair value hierarchy. The money market fund invests in a broad range of short-term, high quality, U.S. denominated instruments, including U.S. and foreign bank government, bank commercial and other obligations. The Plan has no redemption restrictions related to its investment in this money market fund.

4. INVESTMENTS (UNAUDITED)

The Plan provides for the establishment of various investment funds in which participants may invest at their discretion. The Trustee maintains separate accounts for each Plan participant and invests such participant's and employer's contributions, as directed by the participant, in one or more of the various investment funds managed by the Trustee.

Income generated from the investment funds is reinvested in the respective funds. Generally, participants are permitted to reallocate their account balances between the various investment funds no more than once per calendar quarter at their discretion.

The Plan does not permit the purchase of life insurance contracts or the issuance of loans to participants.

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2009 and 2008 are as follows:

5. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to alter, suspend, or terminate the Plan at any time subject to the provisions set forth in ERISA. In the event of Plan termination, the Plan's assets will be distributed to the participants as permitted under federal law and the Plan document.

6. FEDERAL INCOME TAX STATUS

The Company has adopted a PNC Bank N.A. prototype plan document. The prototype document has received an opinion letter from the Internal Revenue Service dated March 31, 2008, that the prototype document is designed in accordance with applicable regulations of the IRC. The Company and plan administrator believe that the Plan is currently designed and has operated in compliance with the applicable requirements of the IRC and accordingly is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

As of December 31, 2009 and 2008, the Plan had investments in the BlackRock Money Market Inv A Fund and the BlackRock Intermediate Government Bond Portfolio, Class A Fund. The administrator of these funds is BlackRock, Inc. ("BlackRock"), a subsidiary of PNC Bank N.A., the Plan's trustee. Accordingly, the Plan's transactions with these funds qualify as exempt party-in-interest transactions. BlackRock's fees for administering the investment funds are offset against the overall rate of return generated by the funds for their various investors. The income from the funds recognized by the Plan during the year ended December 31, 2009 was \$19,048.

THE JACOBS GROUP 401(k) PLAN I

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2009 AND 2008 AND FOR THE YEAR ENDED DECEMBER 31, 2009

1. DESCRIPTION OF THE PLAN

The following description of The Jacobs Group 401(k) Plan I (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General—The Plan is a defined contribution plan established effective January 1, 1994 by The Richard E. Jacobs Group and affiliated entities (the “Company”). All employees of the Company and affiliated entities who have attained age 21 and have accumulated one year of continuous service with the Company, except information booth associates, housekeepers, non-supervisory food court associates, employees of Jacobs Hospitality LLC performing services at the Pier House who are not highly compensated employees, and those who are covered by a collective bargaining agreement that does not specifically provide for coverage under the Plan, are eligible to become participants in the Plan. Account balances of participants of the Plan who change service positions and become ineligible under this Plan are transferred to The Jacobs Group 401(k) Plan II. Similarly, the account balances of participants of The Jacobs Group 401(k) Plan II who change service positions and become eligible under this Plan are transferred to this Plan. The Plan is administered by the Company, and PNC Bank, N.A. (the “Trustee”) serves as the Plan’s trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions—The Plan provides for contributions by participants through payroll deductions and for matching contributions by the Company. Each participating employee elects to enter into a written wage reduction agreement with the employer, thereby contributing to his/her participant account a percentage of compensation, as defined, which is limited to no more than 50% of eligible earnings (subject to Internal Revenue Code (“IRC”) limitations). Participant contributions are made on a before-tax basis or after-tax basis (Roth 401(k)) based on the participant’s election. Participants may change their contribution percentage and/or their allocation of amounts held in their Plan account, or future contributions, among the various investment funds not more than once every calendar quarter. The Plan also includes an automatic enrollment feature for new employees that become eligible to participate in the Plan.

The Company provides a matching contribution each bi-weekly pay period. The Company contributes 37.5% of the first 8% of compensation, as defined, that a participant contributes to the Plan.

Vesting and Benefits—Each participant is immediately and fully vested in all participant and employer contributions and earnings thereon. If a participant’s employment with the Company is terminated, the Plan permits benefits to be paid from the participant’s Plan account. Benefit payments are made in single-sum payments.

Participant Accounts—Each participant’s account is increased or decreased, as appropriate, with (a) the participant’s contribution, (b) the Company’s matching contribution, (c) net investment earnings or losses based on the participant’s account balance and composition, and (d) any benefits paid. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Expenses—The expenses of administering the Plan are paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to the Plan’s net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition—Investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices. Money market funds are stated at amortized cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits—Benefits are recorded when paid.

Transfers—Along with the Plan, the Company also sponsors a The Jacobs Group 401(k) Plan II for information booth associates, housekeepers, and non-supervisory food court associates. If employees change their service position during the year, their account balances are transferred into the corresponding plan. For the year ended December 31, 2009, Plan transfers from The Jacobs Group 401(k) Plan II were \$40,173.

New Accounting Standards Adopted—The accounting standards initially adopted in the 2009 financial statements described below affected certain note disclosures but did not impact the statements of net assets available for benefits or the statement of changes of net assets available for benefits.

Accounting Standards Codification—The Financial Accounting Standards Board’s (“FASB’s”) Accounting Standards Codification (“ASC”) became effective on July 1, 2009. At that date, the ASC became FASB’s official source of authoritative GAAP applicable to all public and nonpublic nongovernmental entities, superseding existing guidance issued by the FASB, the American Institute of Certified Public Accountants, the Emerging Issues Task Force and other related literature. The FASB also issues Accounting Standards Updates (“ASU”). An ASU communicates amendments to the ASC. An ASU also provides information to help a user of GAAP understand how and why GAAP is changing and when the changes will be effective.

Subsequent Events—In May 2009, the FASB issued ASC 855 (originally issued as FASB Statement No. 165, *Subsequent Events*) to establish general standards of accounting for and disclosure of events that occur after the balance sheet date, but prior to the issuance of financial statements. ASC 855 provides guidance on when financial statements should be adjusted for subsequent events and requires companies to disclose subsequent events and the date through which subsequent events have been evaluated. ASC 855 is effective for periods ending after June 15, 2009.

For the year ended December 31, 2009, subsequent events were evaluated through October 5, 2010, the date the financial statements were available to be issued.

Updates to Fair Value Measurements and Disclosures—In 2009, FASB Staff Position 157-4, *Disclosures Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP), was issued and later codified into ASC 820, which expanded disclosures and required that major categories of debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments. See Note 3 for the additional disclosures.

In September 2009, the FASB issued ASU No. 2009-12, *Fair Value Measurements and Disclosures: Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)* (“ASU 2009-12”), which amended ASC Subtopic 820-10, *Fair Value Measurements and Disclosures — Overall*. ASU No. 2009-12 is effective for the first reporting period ending after December 15, 2009. ASU No. 2009-12 expands the required disclosures for certain investments with a reported net asset value (NAV). ASU No. 2009-12 permits, as a practical expedient, an entity holding investments in certain entities that calculate net asset value per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that net asset value per share or its equivalent without adjustment. The ASU requires enhanced disclosures about the nature and risks of investments within its scope. Such disclosures include the nature of any restrictions on an investor’s ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. The Plan has adopted ASU No. 2009-12 on a prospective basis for the year ended December 31, 2009. Adoption did not have a material impact on the fair value determination and disclosure of applicable investments. The effect of the adoption of the ASU had no impact on the statements of net assets available for benefits and statement of changes in net assets available for benefits.

New Accounting Standards to Be Adopted—In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures* (ASU No. 2010-06), which amends ASC 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide information concerning purchases, sales, issuances, and settlements on a gross basis for investments categorized as Level 3 securities, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact ASU No. 2010-06 will have on the financial statements.

3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, established a single authoritative definition of fair value, set a framework for measuring fair value, and requires additional disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily

available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2009 and 2008.

In accordance with the update to ASC 820 (originally issued as FSP 157-4), the table below includes the categorization of the Plan's investments on the basis of the nature and risk of the investments at December 31, 2009.

	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
<i>Mutual funds:</i>				
Balanced funds	\$ 4,156,261	\$	\$	\$ 4,156,261
International stock funds	761,744			761,744
US stock funds	1,573,189			1,573,189
Taxable bond funds	1,303,967			1,303,967
Domestic equity fund	<u>2,386,277</u>			<u>2,386,277</u>
<i>Total mutual funds</i>	<u>10,181,438</u>			<u>10,181,438</u>
<i>Money Market fund:</i>		<u>724,819</u>		<u>724,819</u>
Total	<u>\$10,181,438</u>	<u>\$724,819</u>	<u>\$</u>	<u>\$ 10,906,257</u>

The following table sets forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value at December 31, 2008:

Description	Fair Values at December 31, 2008 as Measured By			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Mutual Funds	\$ 7,918,253	\$	\$	\$ 7,918,253
Money Market Fund	<u>494,886</u>			<u>494,886</u>
Total	<u>\$ 8,413,139</u>	<u>\$</u>	<u>\$</u>	<u>\$ 8,413,139</u>

The ownership interests in the money market fund in which the Plan invested at December 31, 2008 were publicly traded and the Plan's investment in the money market fund was classified as Level 1 under the fair value hierarchy. During the year ended December 31, 2009, the ownership structure of this money market fund was modified such that ownership interests are no longer publicly traded. Instead, purchases and redemptions of the interests in the money market fund are based upon a net asset value derived from the fair value of the underlying assets of the money market fund, most of which are publicly traded, and the Plan's respective ownership interest. Accordingly, the Plan's investment in the money market fund at December 31, 2009 is classified as Level 2 under the fair value hierarchy. The money market fund invests in a broad range of short-term, high quality, U.S. denominated instruments, including U.S. and foreign bank government, bank commercial and other obligations. The Plan has no redemption restrictions related to its investment in this money market fund.

4. INVESTMENTS (UNAUDITED)

The Plan provides for the establishment of various investment funds in which participants may invest at their discretion. The Trustee maintains separate accounts for each Plan participant and invests such participant's and employer's contributions, as directed by the participant, in one or more of the various investment funds managed by the Trustee.

Income generated from the investment funds is reinvested in the respective funds. Generally, participants are permitted to reallocate their account balances between the various investment funds no more than once per calendar quarter at their discretion.

The Plan does not permit the purchase of life insurance contracts or the issuance of loans to participants.

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2009 and 2008 are as follows:

	2009	2008
BlackRock Money Market Inv A Fund (1)	\$ 724,819	\$ 494,886

5. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to alter, suspend, or terminate the Plan at any time subject to the provisions set forth in ERISA. In the event of Plan termination, the Plan's assets will be distributed to the participants as permitted under federal law and the Plan document.

6. FEDERAL INCOME TAX STATUS

The Company has adopted a PNC Bank N.A. prototype plan document. The prototype document has received an opinion letter from the Internal Revenue Service dated March 31, 2008, that the prototype document is designed in accordance with applicable regulations of the IRC. The Company and plan administrator believe that the Plan is currently designed and has operated in compliance with the applicable requirements of the IRC and accordingly is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan as of December 31, 2009 and 2008 and for the year ended December 31, 2009, included in the Plan's financial statements and supplemental schedule, that was prepared by PNC Bank, N.A., the trustee of the Plan, and furnished to the plan administrator. 8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

As of December 31, 2009 and 2008, the Plan had investments in the BlackRock Money Market Inv A Fund and the BlackRock Intermediate Government Bond Portfolio, Class A Fund. The administrator of these funds is BlackRock, Inc. ("BlackRock"), a subsidiary of PNC Bank N.A., the Plan's trustee. Accordingly, the Plan's transactions with these funds qualify as exempt party-in-interest transactions. BlackRock's fees for administering the investment funds are offset against the overall rate of return generated by the funds for their various investors. The income from the funds recognized by the Plan during the year ended December 31, 2009 was \$19,048.

THE JACOBS GROUP 401(k) PLAN I

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2009 AND 2008 AND FOR THE YEAR ENDED DECEMBER 31, 2009

1. DESCRIPTION OF THE PLAN

The following description of The Jacobs Group 401(k) Plan I (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General—The Plan is a defined contribution plan established effective January 1, 1994 by The Richard E. Jacobs Group and affiliated entities (the “Company”). All employees of the Company and affiliated entities who have attained age 21 and have accumulated one year of continuous service with the Company, except information booth associates, housekeepers, non-supervisory food court associates, employees of Jacobs Hospitality LLC performing services at the Pier House who are not highly compensated employees, and those who are covered by a collective bargaining agreement that does not specifically provide for coverage under the Plan, are eligible to become participants in the Plan. Account balances of participants of the Plan who change service positions and become ineligible under this Plan are transferred to The Jacobs Group 401(k) Plan II. Similarly, the account balances of participants of The Jacobs Group 401(k) Plan II who change service positions and become eligible under this Plan are transferred to this Plan. The Plan is administered by the Company, and PNC Bank, N.A. (the “Trustee”) serves as the Plan’s trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions—The Plan provides for contributions by participants through payroll deductions and for matching contributions by the Company. Each participating employee elects to enter into a written wage reduction agreement with the employer, thereby contributing to his/her participant account a percentage of compensation, as defined, which is limited to no more than 50% of eligible earnings (subject to Internal Revenue Code (“IRC”) limitations). Participant contributions are made on a before-tax basis or after-tax basis (Roth 401(k)) based on the participant’s election. Participants may change their contribution percentage and/or their allocation of amounts held in their Plan account, or future contributions, among the various investment funds not more than once every calendar quarter. The Plan also includes an automatic enrollment feature for new employees that become eligible to participate in the Plan.

The Company provides a matching contribution each bi-weekly pay period. The Company contributes 37.5% of the first 8% of compensation, as defined, that a participant contributes to the Plan.

Vesting and Benefits—Each participant is immediately and fully vested in all participant and employer contributions and earnings thereon. If a participant’s employment with the Company is terminated, the Plan permits benefits to be paid from the participant’s Plan account. Benefit payments are made in single-sum payments.

Participant Accounts—Each participant’s account is increased or decreased, as appropriate, with (a) the participant’s contribution, (b) the Company’s matching contribution, (c) net investment earnings or losses based on the participant’s account balance and composition, and (d) any benefits paid. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Expenses—The expenses of administering the Plan are paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to the Plan’s net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition—Investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices. Money market funds are stated at amortized cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits—Benefits are recorded when paid.

Transfers—Along with the Plan, the Company also sponsors a The Jacobs Group 401(k) Plan II for information booth associates, housekeepers, and non-supervisory food court associates. If employees change their service position during the year, their account balances are transferred into the corresponding plan. For the year ended December 31, 2009, Plan transfers from The Jacobs Group 401(k) Plan II were \$40,173.

New Accounting Standards Adopted—The accounting standards initially adopted in the 2009 financial statements described below affected certain note disclosures but did not impact the statements of net assets available for benefits or the statement of changes of net assets available for benefits.

Accounting Standards Codification—The Financial Accounting Standards Board’s (“FASB’s”) Accounting Standards Codification (“ASC”) became effective on July 1, 2009. At that date, the ASC became FASB’s official source of authoritative GAAP applicable to all public and nonpublic nongovernmental entities, superseding existing guidance issued by the FASB, the American Institute of Certified Public Accountants, the Emerging Issues Task Force and other related literature. The FASB also issues Accounting Standards Updates (“ASU”). An ASU communicates amendments to the ASC. An ASU also provides information to help a user of GAAP understand how and why GAAP is changing and when the changes will be effective.

Subsequent Events—In May 2009, the FASB issued ASC 855 (originally issued as FASB Statement No. 165, *Subsequent Events*) to establish general standards of accounting for and disclosure of events that occur after the balance sheet date, but prior to the issuance of financial statements. ASC 855 provides guidance on when financial statements should be adjusted for subsequent events and requires companies to disclose subsequent events and the date through which subsequent events have been evaluated. ASC 855 is effective for periods ending after June 15, 2009.

For the year ended December 31, 2009, subsequent events were evaluated through October 5, 2010, the date the financial statements were available to be issued.

Updates to Fair Value Measurements and Disclosures—In 2009, FASB Staff Position 157-4, *Disclosures Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP), was issued and later codified into ASC 820, which expanded disclosures and required that major categories of debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments. See Note 3 for the additional disclosures.

In September 2009, the FASB issued ASU No. 2009-12, *Fair Value Measurements and Disclosures: Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)* (“ASU 2009-12”), which amended ASC Subtopic 820-10, *Fair Value Measurements and Disclosures — Overall*. ASU No. 2009-12 is effective for the first reporting period ending after December 15, 2009. ASU No. 2009-12 expands the required disclosures for certain investments with a reported net asset value (NAV). ASU No. 2009-12 permits, as a practical expedient, an entity holding investments in certain entities that calculate net asset value per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that net asset value per share or its equivalent without adjustment. The ASU requires enhanced disclosures about the nature and risks of investments within its scope. Such disclosures include the nature of any restrictions on an investor’s ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. The Plan has adopted ASU No. 2009-12 on a prospective basis for the year ended December 31, 2009. Adoption did not have a material impact on the fair value determination and disclosure of applicable investments. The effect of the adoption of the ASU had no impact on the statements of net assets available for benefits and statement of changes in net assets available for benefits.

New Accounting Standards to Be Adopted—In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures* (ASU No. 2010-06), which amends ASC 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide information concerning purchases, sales, issuances, and settlements on a gross basis for investments categorized as Level 3 securities, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact ASU No. 2010-06 will have on the financial statements.

3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, established a single authoritative definition of fair value, set a framework for measuring fair value, and requires additional disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily

available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2009 and 2008.

In accordance with the update to ASC 820 (originally issued as FSP 157-4), the table below includes the categorization of the Plan's investments on the basis of the nature and risk of the investments at December 31, 2009.

	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

During the year ended December 31, 2009, the ownership structure of this money market fund was modified such that ownership interests are no longer publicly traded. Instead, purchases and redemptions of the interests in the money market fund are based upon a net asset value derived from the fair value of the underlying assets of the money market fund, most of which are publicly traded, and the Plan's respective ownership interest. Accordingly, the Plan's investment in the money market fund at December 31, 2009 is classified as Level 2 under the fair value hierarchy. The money market fund invests in a broad range of short-term, high quality, U.S. denominated instruments, including U.S. and foreign bank government, bank commercial and other obligations. The Plan has no redemption restrictions related to its investment in this money market fund.
