INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Trustees
Montenay 401(k) Retirement Plan
Milwaukee, Wisconsin

We were engaged to audit the statements of net assets available for benefits of Montenay 401(k) Retirement Plan (the "Plan") as of December 31, 2009 and 2008 and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedules as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by ING Life Insurance and Annuity Company, the trustee of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

MONTENAY 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - Description of the Plan

The following description of the Montenay 401(k) Retirement Plan Plan (the "plan") provides only general information. Participants should refer to the summary plan description for a more complete description of the plan's provisions.

General

The plan is a defined contribution plan established by Montenay International Corp. (the "company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees who have completed at least 90 days of service with the company, as defined in the plan, and are age 18 or older are eligible to participate. Upon enrollment in the plan, a participant may direct employer and employee contributions to any combination of available investment options.

Contributions

Each year, participants may contribute up to 20% of pretax annual compensation (salary reduction contributions), as defined in the plan. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The company matches 50% of the participant's contribution, up to 6% of eligible compensation. Additional company contributions may be contributed at the discretion of the company's Board of Directors. No discretionary contributions were made for the year ended December 31, 2009and2008. Contributions are subject to certain limitations as established by the Internal Revenue Code of 1984, as amended.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction contributions plus earnings thereon. Participants who leave the plan because of death, early or normal retirement, or disability retirement, as defined in the plan, are considered 100% vested. Company matching contributions and discretionary contributions and earnings thereon vest in accordance with provisions of the plan as follows:

Vesting Years of Service	Percentage Vested
1	20%
2	40%
3	60%
4	80%
5	100%

NOTE 1 - Description of the Plan (cont.)

Forfeited Accounts

As of December 31, 2009 and 2008, forfeited nonvested accounts totaled $16,729 and $99,993, respectively. These accounts will be used to reduce future company contributions. For the year ended December 31, 2009, Company contributions were reduced by $107,694 from forfeited nonvested accounts.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan agreement. The plan provides for normal retirement at age 65 and early retirement on or after attaining age 55 and 5 years of service. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the plan.

The Plan provides for an automatic payout in the form of a single lump-sum distribution to participants that have account balances with a value of less than $5,000 upon termination of employment. If a participant's account balance exceeds $5,000, he or she may elect to defer payment. Notwithstanding, distributions shall commence following a participant reaching age 70-1/2.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates that range from 3.25% to 9.50%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Termination of Plan

Although it has not expressed any intent to do so, the company has the right under the plan to terminate the plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Administrative Expenses

The company pays a portion of the plan's administrative expenses.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition

The plan's investments are valued at fair value using quoted market prices. Fully benefit responsive guaranteed investment contracts are recorded at contract value, which approximates fair value.

Net appreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan invests in various mutual funds and group annuity contracts. Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Fair Value of Financial Instruments

Accounting Standards Codification ("ASC") Topic 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Subsequent Events

Management has evaluated the impact of all subsequent events through October 11, 2010, the date the Plan's financial statements were available to be issued, and determined that all subsequent events have been appropriately recognized and disclosed in the accompanying financial statements.

NOTE 3 - Investments and Information Certified by Trustee - Unaudited

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by ING Life Insurance and Annuity Company, the trustee of the plan.

NOTE 3 - Investments and Information Certified by Trustee - Unaudited (cont.)

During the year ended December 31, 2009, the plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Mutual funds	$ 3,927,849
Group annuity contract interest	317,568
Interest income	52,276
Investment Income	$ 4,297,693

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value as of December 31, 2009.

Mutual Funds: Values at the net asset value ("NAV") of shares held by the plan at year end.

Group annuity contract: Valued at fair value, by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Participant Loans: Valued at amortized cost plus accrued interest, which approximates fair value.

There have been no changes in the valuation methodologies used during the year ended December 31, 2009.

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy.

	December 31, 2009			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 11,461,854	$ 11,461,854	$ -	$ -

NOTE 3 - Investments and Information Certified by Trustee - Unaudited (cont.)

The changes in Level 3 assets and liabilities measured at fair value on a recurring basis are summarized as follows:

	Group Annuity Contract	Participant loans
Balances, January 1, 2009	$ 8,535,162	$ 984,683
Purchases, sales, issuances, and settlements, net	(2,111,260)	-
New loans issued, interest earned and repayments, net	-	64,868
Balances, December 31, 2009	$ 6,423,902	$ 1,049,551

NOTE 4 - Investment in Group Annuity Contract

The Plan offers an investment option of an ING Group Annuity Contract which is a benefit-responsive investment contract. This type of investment is designed to allow the fund to maintain a constant net asset value ("NAV") and to protect the funds in extreme circumstances. ING maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses. ING is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract accrues interest using a formula called the "crediting rate." Interest is credited to accounts on a daily basis. Once credited, the interest becomes a part of principal; therefore, plan accounts earn compound interest. The contract provides a guarantee that the crediting rate will not fall below 3.40% in 2009 and 2008. The crediting interest rate was 3.75% and 4.25% at December 31, 2009 and 2008, respectively. The average yield was 3.75% and 4.23% for the years ended December 31, 2009 and 2008, respectively.

An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses, and as of December 31, 2009 and 2008 is materially equivalent to fair market value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuer.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 4 - Investment in Group Annuity Contract (cont.)

An issuer may change or terminate a contract at any time. In the event that the market value of the fund's covered assets is below their contract value at the time of such termination, ING may pay out the full value without fees or market value adjustments.

NOTE 5 - Amount Owed to Participants Withdrawing From the Plan

There were no amounts owed to participants who have withdrawn from the plan and requested payments as of December 31, 2009 and 2008.

NOTE 6 - Parties In Interest

Certain plan investments are shares of mutual funds managed by the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services amounted to $3,670 for the year ended December 31, 2009.

NOTE 7 - Tax Status

The plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. The plan administrator believes that the plan, as amended, is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the plan was qualified and the related trust was tax-exempt at the financial statement date.

NOTE 8 - Prohibited Transactions

During 2009, the plan sponsor failed to remit all employee contributions to the plan on a timely basis, which is a prohibited transaction under ERISA. The plan sponsor is in the process of calculating the lost earnings to the participants and will contribute that amount to the plan in order to correct the prohibited transaction.

NOTE 9 - Reconciliation of Financial Statements to Schedule H Form 5500

The financial statements have been prepared using the accrual method of accounting while the plan's form 5500 has been prepared on the modified cash-basis method of accounting. The reconciliation between the financial statements and form 5500 are as follows:

	2009	2008
Net assets available for benefits per the financial statements	$ 19,083,816	$ 24,724,112
Contributions receivable	(148,509)	(143,427)
Net assets available for benefits per the Form 5500	$ 18,935,307	$ 24,580,685

	2009
Net increase prior to transfers per the financial statements	$ 5,753,926
Contributions receivable per the financial statements, net	(5,082)
Net income per the Form 5500	$ 5,748,844

NOTE 10 - Transfers Out of Plan and Subsequent Events

During 2009 the company's parent company, Veolia Environmental Services North America Corp. ("VESNA") sold a majority of its Waste To Energy ("WTE") locations. As a part of this sale, the participants that were part of the locations that were sold had their account balances transferred out of the Plan to an unrelated plan of the purchasing company. In October 2009 there was $11,394,222 transferred out of the Plan, and subsequent to year end in April 2010 approximately $7,341,483 was transferred out of the Plan. VESNA has also taken over the operations of the remaining three WTE locations and the administration of the Plan.
