Eligibility – An individual is eligible to participate in the Plan on the first day of the month after completing one month of service. Leased employees, union employees and nonresident aliens are not eligible for the Plan. Effective February 1, 2007, when a participant has met the eligibility requirements, automatic deferrals equal to 3% of compensation will be made to the Plan, unless the participant revokes such election, or elects a different percentage.

Contributions – Participants may contribute up to 60% of their annual compensation, as defined in the Plan, subject to certain Internal Revenue Code ("IRC") limitations. In addition, participants over age 50 are permitted to make catch-up contributions, as defined in the Plan.

The Company makes a matching contribution equal to 50% of the participant's elective contributions not to exceed 6% of the participant's annual compensation, as defined by the Plan. To be eligible for the Company contributions, a participant must complete one year of service.

In addition, the Plan provides that the Company may, but shall not be obligated to, contribute a nonelective contribution each Plan quarter on behalf of each eligible employee a contribution amount determined under the DC Point-Graded Formula, as defined in the Plan document. To be eligible for the contribution, an employee must complete one year of service, have at least 250 hours of service in the Plan quarter and be employed on the last day of the Plan quarter. During 2009, the Company contributed $673,255 in nonelective contributions, of which $199,020 is a receivable at December 31, 2009.

Participant Accounts – Each participant's account is credited with the participant's voluntary contribution, the Company's contributions, Plan earnings and losses, and is charged with the participant's withdrawals and distributions, and an allocation of Plan expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment Options – The Plan offers a variety of mutual funds and a common collective trust fund as investment options.

Vesting – Participants' contributions and the Company matching contributions are fully vested at all times. Effective January 1, 2007, the Company nonelective contributions vest in 20% increments, with 20% vested after the first year, 40% vested after the second year, and increasing in 20% increments. After 5 years of service, the Company nonelective contributions will be fully vested.

Forfeitures – Forfeitures occur upon termination of employment by a participant who is not fully vested in the Plan. Forfeiture amounts are used to reduce future employer contributions. During 2009, approximately $44,000 of forfeitures was used to reduce employer contributions. At December 31, 2009, there is approximately $1,500 in forfeitures available to reduce future employer contributions.

Payment of Benefits – Upon termination of service, a participant may elect to receive either a lump-sum amount equal to his or her account, or monthly, quarterly, or annual installments over a fixed, reasonable period of time, as defined by the Plan document. If the account balance does not exceed $5,000, a lump-sum payment is the only form of disbursement available. For mandatory distributions greater than $1,000 but not exceeding $5,000, the account balance will be rolled over into an individual retirement account, unless otherwise directed by the participant.

Participant Loans – Participants are permitted to borrow against their individual account balances a minimum of $1,000 up to a maximum of $50,000 or 50% of the participant's vested account balance reduced by the highest outstanding loan balance in the previous 12 months. Loan withdrawals are limited to the participant's elective deferrals, rollover amounts and Company matching contributions. All loans (except for those made for purchase of a primary residence) must be repaid within five years. Interest rates are established by the Plan Sponsor at the prevailing rate of local financial institutions. A participant's loan shall immediately become due and payable upon failure to make a principal and/or interest payment, as provided in the loan agreement. The loans are secured by the balance in the participant's account. The participant will be charged a $70 loan origination fee at the time the loan is taken and assessed an annual fee of $25 for each outstanding loan.

In-Service Withdrawals – Participants may make withdrawals prior to termination of employment. Hardship withdrawals are available to Plan participants, as defined by the Plan and permitted by the IRC. Hardship withdrawals are limited to the participant's account balance that is 100% vested. Upon making such a withdrawal, the participant is suspended from making deferrals for six months.

Participants may withdraw all or a portion of their vested matching contributions that have been in the participants' account for at least 24 months.

Participants who have obtained the age of 59 ½ are allowed to receive a distribution of all or any portion of their vested account balances in a single sum payment.

Administrative Expenses – The Company pays the administrative expenses of the Plan. Asset management fees for non-Fidelity funds are deducted directly from the participants' accounts. Participants are charged fees for withdrawals from the Plan. During 2009, fees of approximately $4,900 were paid by the Plan.

Termination of the Plan – Although the Company has not expressed any intent to do so, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the Plan and under ERISA. In the event that the Plan is terminated, all remaining Plan assets shall be allocated to the participants as described in the full text of the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions – Employer and employee contributions are reported in the year services are rendered to the Company by the Plan participants.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in common collective trust funds ("CCT") are expressed as a unit value as described below. Purchases and sales are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Managed Income Portfolio is a stable value fund that is a CCT of the Fidelity Management Trust Company for employee benefit plans. The fund invests in a diversified portfolio of fixed–income securities or bond funds and enters into "wrapper" contracts issued by a third-party. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Unit Values – CCTs are maintained on a unit basis. The Plan does not have a beneficial ownership in specific underlying securities or other assets in the CCT, but does have an interest herein represented by units valued as of the last business day of the period. The Managed Income Portfolio is stated at a unit price of $1.00 at December 31, 2009 and 2008.

Payment of Benefits – Benefit payments are reported in the year paid.

New Accounting Pronouncements – Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 855, *Subsequent Events*, provides guidance on management's assessment of subsequent events and clarifies that management must evaluate, as of each reporting period, events or transactions that occur after the Statement of Financial Position date through the date that the financial statements are issued, or are available to be issued. Management has evaluated events and transactions for subsequent events disclosures occurring after December 31, 2009, through October 7, 2010, the date the financial statements are available to be issued.

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the

amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009, except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.
>
> Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.
>
> Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008:

> Mutual Funds – Valued at the net asset value (NAV) of shares held by the plan at year end based on published quoted prices.
>
> Common Collective Trust Fund – Valued at the trust NAV per unit based on fair value of the underlying investments, adjusted for trustee fees accrued daily, if applicable.
>
> Participant Loans – Valued at outstanding principal balances, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of

certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value as follows at December 31, 2009 and 2008:

		Fair Value Measurements Using:		
	Fair Value	**Level 1**	**Level 2**	**Level 3**

During 2009, the Plan's investments (including gains and losses on investments bought, sold, as well as held during the year) appreciated in value as follows:

Mutual funds	$ 2,338,079
Common collective trust fund	56,145
	$ 2,394,224

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility due to the level of risk associated with certain investment securities. It is reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the financial statements.

5. INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments as of December 31, 2009 and 2008, and for the year ended December 31, 2009:

- Investments, at fair value
- Net appreciation in fair value of investments
- Interest and dividends
- Schedule of Assets (Held at End of Year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are mutual funds and common collective trust fund managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee,

custodian and recordkeeper of the Plan, and therefore, these transactions qualify as party-in-interest.

7. TAX STATUS

The Company adopted a Prototype Non-standardized Profit-Sharing Plan which received a favorable opinion letter from the IRS on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2009. Therefore, no provision for income taxes has been included in the Plan's financial statements.
