INDEPENDENT AUDITORS' REPORT

To the Administrator
Storm Industries, Inc. and Affiliated Companies 401(k) Plan

We were engaged to audit the statement of net assets available for plan benefits of Storm Industries, Inc. and Affiliated Companies 401(k) Plan (the "Plan") as of December 31, 2009 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2009, and the supplementary information as of and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplementary information are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2008 and for the year then ended were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed the other auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by John Hancock Life Insurance Company (the "Asset Custodian"). Their report, dated September 3, 2009, indicated that (*a*) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole, and (*b*) the form and content of the information included in the financial statements other than that derived from the information certified by the 2008 custodian, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information identified in Note 4, which was certified by the Asset Custodian, except for comparing such information with the related information included in the financial statements and supplementary information. We have been informed by the Plan administrator that the Asset Custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Asset Custodian as of December 31, 2009 and for the year then ended, that the information provided to the Plan administrator by the Asset Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary information taken as a whole. The form and content of the information included in the 2009 financial statements and supplementary information, other than that derived from the information certified by the Asset Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the Storm Industries, Inc. and Affiliated Companies 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on October 1, 2004 and is a qualified, defined contribution plan established under the provisions of Section 401(k) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is sponsored by Storm Industries, Inc. (the "Company"). As of December 31, 2009, John Hancock Life Insurance Company (the "Asset Custodian") was the custodian of the Plan's investment assets (Note 4).

Eligibility

The Plan covers all current employees of the Company who have completed 1 month of service with the Company and are over the age of 21 years.

Contributions

Each year, participants may contribute up to the maximum allowed by law of pre-tax annual compensation, as defined in the Plan documents. For 2009, the contribution limit was $16,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans as long as they meet the requirements for rollover. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company matches 50 percent of the first six percent of compensation that a participant contributes to the Plan with maximum allowable match of $4,200. The Company may also make discretionary profit sharing contributions. No such contributions were made during 2009 and 2008. Participants who have attained age 50 before the end of the Plan year are eligible to make "catch-up" contributions. For 2009, the maximum "catch-up" contribution was $5,500.

1. Description of the Plan (continued)

Forfeitures

Forfeitures of discretionary Company contributions may be used to pay for Plan expenses or to reduce future Company contributions. During the year ended December 31, 2009, forfeitures of $64,728 were utilized. As of December 31, 2009 and 2008, forfeited unvested accounts totaled $6,968 and $60,749, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contributions, and investment earnings or loss, net of investment management fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

All accounts are invested in accordance with the terms of the Plan agreement and investment options elected by participants. Each participant has the ability to change investment options at any time.

Vesting

Participants are immediately vested in their voluntary contributions. A participant is 100% vested in the employer matching contributions after five years of credited service, according to the following schedule:

Years of service	Percent of non-forfeitable interest
1	20%
2	40%
3	60%
4	80%
5	100%

1. Description of the Plan (continued)

Payment of Benefits

On termination of service due to death, permanent disability, or retirement, a participant may elect to receive a lump sum distribution or to rollover his or her vested account balance to another qualified plan.

Loans to Participants

Participants may apply for a loan of up to one-half of their vested account balance, with a minimum loan of $1,000 and a maximum loan of $50,000. The loans are secured by the accounts of the participants and are for a fixed term requiring regular payments. The loans are available to all participants and bear a reasonable fixed interest rate at Prime plus two percent.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments

Investments in pooled separate accounts are stated at estimated fair value based on the closing net asset value of the composite portfolio. Net asset value is based on the market value of the securities on the last business day of the Plan's year. The Plan's investment in the three-year, five-year and ten-year guaranteed interest contracts has underlying investments in guaranteed investment contracts ("GICs") and is stated according to Accounting Standards Codification Topic 962-325-35, which states that contract value is the relevant measurement attribute for that portion of the net assets available for plan

2. Summary of Significant Accounting Policies (continued)

Investments (continued)

benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fully benefit-responsive investment contracts are reported at fair value in the Plan's statement of net assets available for plan benefits with a corresponding adjustment to reflect these investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates for the three, five and ten year GICs were 1.03%, 1.66% and 2.22% for 2009 and 2.95%, 3.35%, and 3.85% for 2008, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the date received. Dividends are recorded on the date received.

The Plan presents the net appreciation in the fair value of its investments in the statement of changes in net assets available for plan benefits, which consists of the realized gains and losses and unrealized appreciation and depreciation on investments.

Payment of Benefits

In accordance with ERISA reporting requirements, benefit payments due to participants who have elected to withdraw from the Plan are recorded when paid.

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") launched its Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles (the "Codification"). The Codification became the exclusive authoritative source of nongovernmental GAAP for annual periods ending after September 15, 2009. All GAAP accounting literature is now known as the "Accounting Standards Codification" ("ASC") and updates to the Codification are now issued as "Accounting Standards Updates" ("ASU"). The Codification did not change GAAP but reorganized the literature. The Plan adopted the Codification for the year ended December 31, 2009.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements (continued)

In May 2009, the FASB issued ASC Topic 855 regarding subsequent events that establishes general standards of accounting for, and requires disclosures of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The Plan adopted the provisions of this pronouncement for the year ended December 31, 2009. The adoption of these provisions did not have a material effect on the Plan's financial statements. In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009, except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Tax Status

The Plan was created from a plan instrument drafted by a service provider. The Internal Revenue Service ("IRS") has determined and informed this service provider by a letter dated May 26, 2006, that the Plan instrument, as originally written by the service provider, was subjected to IRS review and has been designed in accordance with applicable sections of the IRC and is, therefore, exempt from federal income taxes.

The Plan has been amended since receiving the determination letter, however the Plan's administrators believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC, and accordingly, no provision for income taxes has been recorded in the accompanying financial statements.

2. Summary of Significant Accounting Policies (continued)

Administration of Plan Assets

Contributions made by the Company and participants are held and administered by the Asset Custodian, which invests the cash received, interest, and dividends in accordance with participants' instructions. Distributions to participants are made by the Asset Custodian. The Asset Custodian also administers the payment of principal and interest on participant loans.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives additional compensation from the Plan. Certain administrative fees associated with the Plan are deducted from the Plan's assets as the Company does not pay these expenses. These expenses are allocated proportionately based on the value of the participant's account balances. The Company pays for other administrative costs on behalf of the Plan.

3. Investments

ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 - Valuations for assets and liabilities traded in active exchange markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 - Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or comparable assets or liabilities.

3. Investments (continued)

Level 3 - Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models, and similar techniques, and not based on market exchange, dealer, or broker traded transactions. These valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2009 and 2008:

	At December 31, 2009			
	Level 1	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	$ -	$ 5,278,022	$ -	$ 5,278,022
Guaranteed investment contracts	-	-	628,474	628,474
Participant loans	-	-	66,210	66,210
Total	$ -	$ 5,278,022	$ 694,684	$ 5,972,706

	At December 31, 2008			
	Level 1	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	$ -	$ 3,849,388	$ -	$ 3,849,388
Guaranteed investment contracts	-	-	549,665	549,665
Participant loans	-	-	50,456	50,456
Total	$ -	$ 3,849,388	$ 600,121	$ 4,449,509

3. Investments (continued)

A reconciliation of the funds held in guaranteed investment contracts (GICs), which is measured at fair value using significant unobservable inputs, is as follows:

Beginning balance at January 1, 2009	$ 549,665
Contributions	65,328
Interest	15,851
Distributions	(1,502)
Transfers	(868)
Ending balance at December 31, 2009	$ 628,474

A reconciliation of participant loans, which is measured at fair value using significant unobservable inputs, is as follows:

Beginning balance at January 1, 2009	$ 50,456
Interest	4,713
Principal payments	(29,434)
Distributions	(4,255)
Issuances of loans	44,730
Ending balance at December 31, 2009	$ 66,210

The following is a description of the valuation methodologies used for assets measured at fair value:

Pooled separate accounts: These investments are valued using the net asset value ("NAV") of units held by the Plan at year end as provided by the Asset Custodian. The NAV is based on the fair value of the underlying assets owned by the fund, net of the investment management fee. The investment management fee is deducted prior to setting the daily unit value.

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

3. Investments (continued)

Participant loans: Stated at carrying value which approximates fair value.

The Plan may also be required, from time to time, to measure certain other financial assets at fair value on a non-recurring basis in accordance with GAAP. During the year ended December 31, 2009, the Plan did not measure any other financial assets at fair value on a non-recurring basis.

The following list presents the fair value of investments that represent 5% or more of the Plan's net assets as of December 31, 2009:

Lifestyle Growth	$ 973,907
Lifestyle Balanced	870,447
Three-Year Compound GIC	555,337
Money Market Fund	542,796
Lifestyle Conservative	375,058
	$ 3,317,545

4. Information Certified by the Asset Custodian

The following unaudited information regarding the Plan is included in the accompanying financial statements and supplementary information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and was obtained from data that has been prepared and certified as complete and accurate by the Asset Custodian:

a. The total value of investments as of December 31, 2009 and 2008, as indicated on the statements of net assets available for Plan benefits;

b. All investment information, as indicated in the statement of changes in net assets available for Plan benefits; and

c. All information on the supplementary schedule of assets.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplementary information.

5. Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions of ERISA.

6. Party-in-Interest

The Plan invests in assets that are managed by John Hancock Life Insurance Company, the Asset Custodian. This qualifies as a party-in-interest transaction, which is permitted by the Department of Labor's Rules and Regulations.

7. Contingencies and Risks

Investment Risk

The Plan, as directed by participants, invests in investment securities that may be selected by the participant in any combination. Investment securities are exposed to various risks, such as interest rate risks and market credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statements of net assets available for Plan benefits and the statement of changes in net assets available for Plan benefits.

8. Reconciliation of Financial Statements to Form 5500

The information presented in the financial statements does not agree to the information presented in the Form 5500 for the year ended December 31, 2009, which was prepared on the cash basis. The differences are due to the recording of corrective distributions and adjustments from fair value to contract value in the financial statements.

8. Reconciliation of Financial Statements to Form 5500 (continued)

The following is a reconciliation of net assets available for plan benefits per the financial statements at December 31, 2009 to Form 5500:
