A. DESCRIPTION OF PLAN

The following description of DataDirect Networks, Inc. (the "Company") Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of the Company who have completed three months of service and who are age twenty and one-half or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions – Each year, participants may contribute up to 100 percent of pretax annual compensation (except for those who are capped by IRS regulations), as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may direct their contributions, as desired, in any of a variety of investment options offered by John Hancock USA, as chosen by the Employer. Participants may change their investment elections no more than twice per calendar month.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocation of the Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon.

Participant Loans – Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts – At December 31, 2009 and 2008 forfeited non-vested accounts totaled $22 and $13,734, respectively. These amounts are used to pay administrative expenses of the Plan.

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

B. SUMMARY OF ACCOUNTING POLICIES

Use of Estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. Actual results could differ from those estimates.

Contract with Insurance Company – The Plan maintains its investments in an unallocated group annuity contract with John Hancock. The contract maintains the contributions in pooled separate accounts. The accounts are credited with actual earnings on the underlying investments (principally mutual funds) and charged for Plan withdrawals and administrative expenses. The contract is included in the financial statements at contract value, which approximates fair value.

Payment of Benefits – Benefits are recorded when paid.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. Shares in mutual funds are valued at quoted market prices from national exchanges, which represent the net asset value of shares held by the Plan at year end. Investments in securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the year. Purchases and sales of securities are recorded on a trade-date basis. Gain or loss on sales of securities are recorded on a trade-date basis. Gain or loss on sales of securities is based on specific costs. Interest income is recorded on the accrual basis. Dividends are recorded on the dividend date. Participant loans are valued at the amount of unpaid principal, which approximates fair value. The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation of those investments.

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the value of assets at the beginning of the year, or at a time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation) or on the last day of the year for unrealized appreciation (depreciation).

Reclassifications – Certain prior year amounts have been reclassified to conform to the current year presentation.

Subsequent Events – The Plan's management has evaluated subsequent events through October 11, 2010, the date which the financial statements were available to be issued.

C. INFORMATION CERTIFIED BY THE INVESTMENT CUSTODIAN

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Fair value of investments as shown in the Statements of Net Assets Available for Plan Benefits as of December 31, 2009 and 2008 which totals $5,846,282 and $3,863,967, respectively.
- Net investment income as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009 which totals $1,308,057.
- Information disclosed in Note D of these financial statements.
- Schedule of Assets Held for Investment Purposes as of December 31, 2009, as shown on Schedule H, Part IV, Line 4 (i) – Schedule of Assets (Held at End of Year).

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

D. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets as of December 31:

	2009	2008
John Hancock Lifestyle Fund - Balanced Portfolio	$ 452,660	$ 197,809
John Hancock Lifestyle Fund - Growth Portfolio	$ 653,418	$ 391,146
John Hancock Lifestyle Fund – Aggressive Portfolio	$ 313,196	$ 232,347
John Hancock Money Market Fund	$ 418,130	$ 250,194
Oppenheimer Developing Market Fund	$ 314,458	$ < 5%
John Hancock T. Rowe Price Science & Technology Fund	$ 492,138	$ 269,337

During 2009, the net appreciation in fair value of investments of $1,300,918 related entirely to pooled separate accounts.

E. FAIR VALUE MEASUREMENT

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements & Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in active markets; • inputs other than quoted prices that are observable for the assets or liability; • inputs that are derived principally from a corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed interest accounts: Valued at the amount Plan participants or Plan Sponsor would currently receive if they were to withdraw or transfer funds within the Plan prior to their maturity.

Participant loans: Valued at amortized cost, which approximates fair value.

Money market funds: Valued at NAV of funds as of the Plan year end.

E. FAIR VALUE MEASUREMENT (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009			
Description	Level 1: Quoted Prices in Active Markets for Identical Assets	Level 2: Significant Other Observable Inputs	Level 3: Significant Unobservable Inputs	Total

E. FAIR VALUE MEASUREMENT (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

Description	Guaranteed Interest Accounts	Participant Loans	Total
Balance, beginning of year	$ 114,269	$ 52,286	$ 166,555

Balance, end of year	$ 126,524	$ 47,620	$ 174,144

F. GUARANTEED INTEREST ACCOUNTS

Contributions under the group annuity contract with the custodian can be allocated to guaranteed interest accounts, which are not by definition an investment contract but rather are an investment option offered under the contract. The custodian maintains the contributions in a general account. Guaranteed interest accounts guarantee the return of principal plus compound interest earned over a defined 3, 5, or 10-year term, less any applicable contract or participant-level recordkeeping charges, provided all contributions remain in the account until the end of the guarantee period.

G. PARTY-IN-INTEREST TRANSACTIONS

Plan investments include participant loans and shares of funds managed by an affiliate of John Hancock, the custodian of the Plan, and, therefore, these transactions qualify as party-in-interest. Fees paid to John Hancock amounted to $21,103 for the year ended December 31, 2009.

H. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the participants' combined accounts. All unallocated amounts including forfeitures, shall be allocated to the accounts of all participants.

I. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 16, 2004 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

J. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan invests through mutual funds in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.
