# INDEPENDENT AUDITORS' REPORT

To the Plan Administrator, Participants and Beneficiaries of
Creole Foods 401(k) & Profit-Sharing Plan

***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2025 Financial Statements***

We have performed an audit of the financial statements of Creole Foods 401(k) & Profit-Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of 2025 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

***Opinion on the 2025 Financial Statements***

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2025 Financial Statements section:

- the amounts and disclosures in the accompanying 2025 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2025 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

"EisnerAmper" is the brand name under which EisnerAmper LLP and Eisner Advisory Group LLC and its subsidiary entities provide professional services. EisnerAmper LLP and Eisner Advisory Group LLC are independently owned firms that practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations and professional standards. EisnerAmper LLP is a licensed CPA firm that provides attest services, and Eisner Advisory Group LLC and its subsidiary entities provide tax and business consulting services. Eisner Advisory Group LLC and its subsidiary entities are not licensed CPA firms.

***Basis for Opinion on the 2025 Financial Statements***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2025 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

***Responsibilities of Management for the 2025 Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

***Auditors' Responsibilities for the Audit of the 2025 Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the 2025 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Creole Foods 401(k) & Profit-Sharing Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Creole Foods 401(k) & Profit-Sharing Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2025 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2025 financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter - 2025 Supplemental Schedule Required by ERISA***

The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

***Report on Compiled 2024 Financial Statement***

Management is responsible for the accompanying financial statements of the Plan, which comprise the statement of net assets available for benefits as of December 31, 2024, and the related notes to the financial statements in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statement nor were we required to perform any procedures to verify the accuracy, or the completeness of the information provided by management. We do not express an opinion, a conclusion, nor provide any form of assurance on the financial statement as of December 31, 2024.

## 1. Description of Plan

The following description of the Creole Foods 401(k) & Profit-Sharing Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

*General*

The Plan is a defined contribution plan established effective June 1, 1991, as amended and restated effective July 1, 2025. The Plan covers all employees, excluding union employees, nonresident aliens, leased employees, certain employees resulting from a Code §410(b)(6)(C) transaction, and employees who are residents of Puerto Rico, of Tony Chachere's Creole Foods of Opelousas, Inc. and affiliate, Tony Chachere's CC, LLC (collectively, the Company or Employer) who have completed 1 year of service and are age 18 or older. Effective July 1, 2025, the age and service requirements were waived for eligible employees who became employees of Tony Chachere’s CC, LLC on that date. Prior service with Tony Chachere’s CC, LLC is recognized for eligibility, vesting, and contribution-allocation purposes. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company, the Plan Sponsor, and the Plan Administrator are responsible for oversight of the Plan.

*Contributions*

Each year, participants may elect to contribute a percentage of eligible compensation on a pre-tax basis, as defined in the plan document, subject to the maximum limits of the Internal Revenue Code (IRC). Participants also may designate all or a portion of their deferral contributions as Roth elective deferrals. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan also accepts contributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make discretionary matching contributions under a formula established and communicated by the Company. For 2025, the Company elected to match 100% of participant elective deferrals, limited to 5% of eligible compensation. The Company may also make discretionary profit-sharing contributions. Profit-sharing contributions are allocated to eligible participants based on compensation, as defined by the Plan. During 2025, the Company approved and funded a discretionary profit-sharing contribution based on 2024 eligible compensation. Approximately $290,000 was allocated to participant accounts. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

*Participant accounts*

Each participant's account is credited with the participant's contributions, Company matching and discretionary profit-sharing contributions, and an allocation of the Plan’s earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

## 1. Description of Plan (continued)

*Vesting*

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 25% vested after 1 year of credited service and continues to vest in increments of 25% until 100% vested after 4 years of credited service. Participants also become fully vested upon death, total and permanent disability, satisfaction of the Plan's early-retirement requirements, or attainment of normal retirement age while employed, as provided by the Plan.

*Notes receivable from participants*

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of $50,000 or 50 percent of their vested account balance, subject to applicable limitations for other outstanding loans. Loans are secured by the participant's account balance and bear a reasonable rate of interest determined at the date of origination. At December 31, 2025 and 2024, interest rates ranged from 4.25% to 9.50%. Principal and interest are paid ratably through payroll deductions. Terms range up to five years; however, a longer repayment term may be permitted for a loan used for the purchase of a primary residence.

*Payment of benefits*

On termination of service due to death, disability, or retirement, a participant or beneficiary may elect to receive the vested account balance as a lump-sum distribution or in substantially equal installments, as permitted by the Plan. A vested account balance of $5,000 or less may be distributed without participant consent. If a mandatory distribution exceeds $1,000 and the participant does not make an affirmative distribution election, the amount is generally transferred to an individual retirement account. Mandatory distributions of $1,000 or less are generally paid as lump-sum distributions. Rollover accounts are excluded when determining whether the $5,000 mandatory-distribution threshold has been met. The Plan also permits hardship and certain in-service distributions when the applicable requirements are satisfied.

*Forfeited accounts*

At December 31, 2025 and 2024, forfeited nonvested accounts totaled $2,111 and $3,662, respectively. Forfeitures may be used to reduce future employer contributions or pay Plan administrative expenses. During 2025, employer contributions were reduced by $4,227 from forfeited nonvested accounts, in accordance with plan provisions.

## 2. Summary of Accounting Policies

*Basis of Accounting*

The financial statements of the Plan are prepared on the accrual basis of accounting.

*Use of Estimates*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

## 2. Summary of Accounting Policies (continued)

*Investment Valuation and Income Recognition*

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator and the Company determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 3 for discussion of fair value measurements.

The Plan’s investments in fully benefit-responsive investment contracts are reported at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

*Contributions*

Participant contributions and related employer matching contributions are recorded in the year in which the related participant compensation is earned. Discretionary employer contributions are recorded in the year authorized by the Company in accordance with the Plan’s provisions. Rollover contributions are recorded when received.

*Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred.

*Payment of Benefits*

Benefits are recorded when paid.

*Expenses*

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

*Subsequent Events*

Subsequent events were evaluated through October 14, 2026, the date the financial statements were available to be issued.

## 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

> *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

| **Assets at Fair Value as of December 31, 2025** | **Level 1** | **Level 2** | **Level 3** | **Total** |

|---|---|---|---|---|
| Mutual funds | $ 13,350,898 | $ - | $ - | $ 13,350,898 |

## 3. Fair Value Measurements (continued)

| Assets at Fair Value as of December 31, 2024 (Compiled) | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| **Total assets in the fair value hierarchy** | 13,350,898 | - | - | 13,350,898 |
| **Total investments at fair value** | $ 13,350,898 | $ - | $ - | $ 13,350,898 |

## 4. Fully Benefit-Responsive Investment Contracts

The Plan holds a traditional investment contract with American United Life Insurance Company (AUL), a OneAmerica Financial company, through the AUL Stable Value Account Series A Guaranteed Benefit Unallocated Group Retirement Annuity contract. AUL maintains the contributions in its general account. The account is credited daily with interest at a guaranteed rate that is declared at least 35 days before the beginning of each calendar year and is fixed for that year. AUL is contractually obligated to repay the principal and interest credited to participants, subject to the claims-paying ability of AUL. The contract has no stated maturity date.

Because the contract is fully benefit-responsive, contract value is the relevant measure for the portion of the net assets available for benefits attributable to the contract. Contract value, as reported to the Plan by AUL, represents contributions made under the contract, plus interest credited, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

As of December 31, 2025 and 2024, the contract value for the investment totaled $1,447,115 and $1,254,321, respectively.

The crediting rate does not vary with the investment experience of AUL's general account and may be changed only prospectively. In setting the rate, AUL considers the expected earnings on its general account investments over the period the rate will be in effect and its expected operating expenses, including the cost of providing administrative and recordkeeping services, the acquisition of new business, the cost of capital, general overhead, and profit. The crediting rate may not be less than 0%. The crediting rate for 2025 was 2.00%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. If the Plan terminates the contract, including by rejecting a newly declared crediting rate, the contract value is paid out 365 days following the termination effective date and continues to earn interest at the guaranteed rate in effect during that period; distributions for retirement, death, disability, termination of employment, and required minimum distributions continue to be paid during the 365-day period. In addition, AUL may restrict transfers out of the account for up to 365 days if the Plan sponsor removes the account as an investment option or changes recordkeepers, and assets transferred out may not be moved into a competing investment option for 90 days. The contract does not impose a withdrawal charge or market value adjustment. The Plan administrator does not believe that the occurrence of any event that would limit the Plan's ability to transact at contract value with participants is probable.

Effective December 5, 2025, the Plan's recordkeeping and trust services transitioned to Voya Financial in connection with Voya's acquisition of the OneAmerica Financial full-service retirement plan business. The AUL group annuity contract remained in place and is administered by Voya Retirement Insurance and Annuity Company. The transition did not result in any restriction on participant transactions at contract value.

## 4. Fully Benefit-Responsive Investment Contracts (continued)

AUL may terminate the contract if (1) the Plan rejects a contract modification proposed by AUL; (2) AUL ceases issuing contracts of this type and terminates substantially all similar contracts; (3) after the first three contract years, the account value is less than $100,000; (4) the Plan is operated in a manner that AUL determines would disqualify the Plan, is unlawful, or violates ERISA or the Internal Revenue Code, after 30 days' notice; or (5) the Plan sponsor files for bankruptcy protection, is deemed insolvent, dissolves, or ceases operations. Upon termination by AUL, the account value is paid to the Plan in a lump-sum.

## 5. Information Certified by Qualified Institutions

The Plan administrator elected to have the audit performed pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA for the year ended December 31, 2025. Accordingly, certain information included in the Plan’s financial statements and supplemental schedule was agreed to or derived from information certified as complete and accurate by qualified institutions. Matrix Trust Company, the Plan’s trustee through December 4, 2025, certified the applicable information for the year ended December 31, 2024 and for the period January 1, 2025 through December 4, 2025. Voya Institutional Trust Company (“VITC”), the Plan’s trustee beginning December 5, 2025, certified the applicable information for the period December 5, 2025 through December 31, 2025 and as of December 31, 2025.

The certified information includes the Plan’s investments and notes receivable from participants reported in the Statement of Net Assets Available for Benefits and the Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025. The certified information also includes the related investment activity, including net appreciation, interest and dividends, and interest income on notes receivable from participants reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2025.

## 6. Related-Party and Party-In-Interest Transactions

Matrix Trust Company served as the Plan’s non-discretionary trustee through December 4, 2025. VITC became the Plan’s trustee effective December 5, 2025 and served in that capacity through December 31, 2025. OneAmerica Retirement Services, LLC and Voya Retirement Insurance and Annuity Company provided recordkeeping and administrative services during their respective service periods. NewEdge Advisors, LLC provided non-discretionary investment advisory services. These service providers are parties-in-interest to the Plan.

During 2025, the Plan paid recordkeeping fees of $47,271 and investment advisory fees of $38,056 from Plan assets. These fees totaled $85,327 and are included in administrative expenses. Matrix Trust Company received no direct compensation from the Plan but received indirect compensation in connection with services provided to the Plan. Certain expenses associated with the Plan’s investment options are deducted from investment returns and are included in net appreciation in fair value of investments. The Plan also received approximately $592 of revenue-sharing credits, which were available to pay Plan administrative expenses.

The Plan’s investment in the AUL Stable Value Account Series A, as described in Note 4, represents a party-in-interest transaction because American United Life Insurance Company, the contract issuer, provides services to the Plan.

The Plan also makes loans to participants that are secured by the participants’ vested account balances. Participant loans constitute party-in-interest transactions.

## 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

## 8. Tax Status

The Plan adopted a non-standardized pre-approved profit sharing plan offered by OneAmerica Financial Partners, Inc. The pre-approved plan received an IRS Opinion Letter dated August 19, 2020, that the pre-approved plan and related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the IRS Opinion Letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

## 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2025 may not necessarily be indicative of amounts that could be realized in a current market exchange.

## 10. Reconciliation of Financial Statements to Form 5500
