INDEPENDENT AUDITOR'S REPORT

October 14, 2026

To the Investment Review Committee
Owens Corning

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Owens Corning Merged Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, as well as the related notes to the financial statements.

The Plan's management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

The Plan's management has obtained certifications from a qualified institution as of, and for the years ended, December 31, 2025 and 2024, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the financial statements, other than those agreed to, or derived from, the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Opinion (continued)

- The information in the accompanying financial statements related to assets held by, and certified to by, a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that the Plan's management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("U.S. GAAS"). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

The Plan's management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the "Scope and Nature of the ERISA Section 103(a)(3)(C) Audit" section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. *Reasonable assurance* is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

In performing an audit in accordance with U.S. GAAS:

- We exercise professional judgment and maintain professional skepticism throughout the audit.

- We identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and we design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- We evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, and we evaluate the overall presentation of the financial statements.

- We conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2025, and assets (acquired and disposed of within year) and reportable transactions for the year then ended, are presented for the purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Supplemental Schedules Required by ERISA (continued)

The information included in the supplemental schedules, other than that agreed to, or derived from, the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS. For information included in the supplemental schedules that agreed to, or is derived from, the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to, or derived from, the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to, or is derived from, the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by, and certified to by, a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The following brief description of the Owens Corning Merged Retirement Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document and amendments for more details regarding the Plan.

General

The Plan is a noncontributory, defined benefit pension plan covering certain employees of Owens Corning and certain subsidiaries (collectively, the "Company"). The Plan was created by a merger, effective January 1, 1996, of the Owens Corning Hourly Employees' Retirement Plan, the Owens Corning Retirement Benefits Plan, and the Owens Corning Cash Balance Plan (formerly known as the "Owens Corning Salaried Employees' Retirement Plan"). The Plan consists of three separate benefit structures (collectively, the "Benefit Parts"), which contain, with some minor modifications, the provisions contained in the aforementioned three plans prior to the merger. The Plan is closed to new entrants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Eligibility

Hourly Employees Retirement Plan Benefit Part

This Benefit Part covers Plan participants within certain designated groups of hourly employees of the Company and its participating affiliates. Hourly employees covered under this Benefit Part became participants in the Plan on January 1 or July 1 following completion of one year of employment in which the employee had at least 1,000 hours of vesting service.

Retirement Benefits Plan Benefit Part

This Benefit Part covers Plan participants within certain designated groups of hourly employees of the Company who are not covered under the Hourly Employees Retirement Plan Benefit Part described above. Employees covered under this Benefit Part became participants in the Plan on January 1 or July 1 following completion of one year of employment in which the employee had at least 1,000 hours of vesting service.

Cash Balance Plan Benefit Part

This Benefit Part covers substantially all Plan participants who are salaried employees of the Company, as well as Plan participants who are corporate hourly employees or who are in certain other designated groups of hourly employees. Eligible employees became participants under this Benefit Part upon commencement of employment with the Company.

NOTE A — DESCRIPTION OF THE PLAN (CONTINUED)

Benefits

Hourly Employees Retirement Plan Benefit Part

Normal retirement benefits consist of annuities payable monthly to all qualified participants who retire at or after age 65. At most locations, the amount of the annuity is equal to a fixed benefit level for the associated plant rate group, multiplied by the total years of credited service. At certain locations, the normal monthly retirement benefits are equal to the greatest of the following:

- The participant's accrued benefits as of December 31, 1994, plus a fixed-dollar benefit level for the associated plant rate group, multiplied by the years of credited service after December 31, 1994
- A fixed-dollar benefit level for the associated plant rate group, multiplied by the total years of credited service
- $15 times all years of credited service

Early retirement benefits are available to certain classes of participants with 10 or more years of vesting service who retire within 10 years of the Social Security normal retirement age. With respect to other classes of participants, early retirement benefits are available to individuals who have attained at least age 55 and who have 10 or more years of vesting service. Depending upon age at retirement, these benefits vary from 65 percent to 100 percent of normal retirement benefits.

Benefit options upon retirement are available, which guarantee annuity payments for various periods and can provide for continued payments to designated survivors in the event of a participant's death. Participants may also elect a lump-sum distribution of benefits. For some participants, the lump-sum form is only payable on the portion of the benefit earned prior to 1995. Lump-sum distributions are valued using interest rates based on the annual rate of interest on 30-year Treasury securities and 1994 Group Annuity Reserving Tables.

Vested termination benefits are payable to qualified participants who terminate employment with the Company after five or more years of vesting service. The benefit is payable in the form of an annuity, which commences at age 65, or a reduced benefit that is available after age 55. Participants may also elect a lump-sum distribution of benefits. For some participants, the lump-sum form is only payable on the portion of the benefit earned prior to 1995.

NOTE A — DESCRIPTION OF THE PLAN (CONTINUED)

Benefits (continued)

Hourly Employees Retirement Plan Benefit Part (continued)

Lump-sum distributions are calculated using interest rates and mortality tables prescribed by the Pension Benefit Guaranty Corporation ("PBGC") and are actuarially reduced if paid prior to a certain age, which varies according to the covered employee group.

Death, prior to retirement, of an active participant with at least five years of vesting service qualifies an eligible spouse or an orphan to receive an annuity equal to 50 percent of the accrued benefit at date of death, reduced by the appropriate early retirement factors.

Retirement Benefits Plan Benefit Part

Normal retirement benefits consist of annuities payable monthly to all qualified participants who retire at or after age 65. This Benefit Part provides a fixed-dollar benefit, with amounts varying by participant group, for each year or service subsequent to December 31, 1976.

For married participants, unless otherwise elected, the actuarial equivalent of these same benefits is paid in the form of a reduced annuity for the life of the participant, with a 50 percent survivor annuity payable to the participant's spouse, unless other options are chosen.

In the event of permanent and total disability, participants with five or more qualified years of service are eligible for disability benefits comparable to the normal retirement benefits described above.

Death, prior to retirement, of an active participant with at least five years of service qualifies an eligible spouse to receive an annuity when the participant would have reached age 65 that is equal to 50 percent of the accrued benefit at date of death.

Vested benefits are payable to qualified participants who terminate employment with the Company after five or more years of vesting service. The benefit is payable in the form of an annuity, which commences at age 65, and is computed in the same manner as the normal retirement benefit described above.

Cash Balance Plan Benefit Part

Under this Benefit Part, a participant's accrued benefit is equal to the greater of that person's accrued benefit determined under the terms of the prior Owens Corning Salaried Employees' Retirement Plan as of December 31, 1995 (the "Grandfathered Benefit") or the balance in that person's notional cash balance account.

NOTE A — DESCRIPTION OF THE PLAN (CONTINUED)

Benefits (continued)

Cash Balance Plan Benefit Part (continued)

On and after December 31, 1995, no further benefits will accrue under the benefit formula contained in the Owens Corning Salaried Employees' Retirement Plan (the "Prior Formula"). Instead, certain credits will be made each month to participants' cash balance accounts, and these accounts will be credited with interest at a prescribed rate until payment of benefits commences. However, the Grandfathered Benefits of those participants who were at least age 40 and completed at least 10 years of vesting service as of the date their participation in the Owens Corning Cash Balance Plan began will be calculated as though the participants had continued to accrue benefits under the Prior Formula through the earlier of their termination of employment or the end of the five-year period after their participation in the Owens Corning Cash Balance Plan began. The vesting requirement for this Benefit Part is three years.

Upon termination of employment, or at any time thereafter, participants are eligible for the higher of their Grandfathered Benefit or their cash balance account in a single lump-sum. Lump-sum distributions are valued using interest rates based on the annual rate of interest on 30-year Treasury securities and 1994 Group Annuity Reserving Tables. Also available are benefit options that guarantee annuity payments for various periods and can provide for continued payments to designated survivors in the event of a participant's death. Distributions of a participant's Grandfathered Benefit will be actuarially reduced according to tables contained in this Benefit Part if made prior to a certain age, which is dependent on the participant's year of birth.

On August 31, 2009, the Company elected to freeze additional pay and transition credits related to the Owens Corning Cash Balance Plan, which was effective as of January 1, 2010.

Contributions

The Company maintains a funding standard account with annual contributions to the Plan determined on an actuarial basis, but in no instance below the minimum required by Section 412 of the Internal Revenue Code (the "Code"). All contributions to the Plan are made by the Company. No voluntary participant contributions are allowed.

Funding Policy

The Company's policy is to fund at least the minimum amount required by ERISA; however, the Company periodically makes discretionary contributions. The Company has met the ERISA minimum required contributions for the years ended December 31, 2025 and 2024 through a combination of cash contributions and the application of available funding balances.

NOTE A — DESCRIPTION OF THE PLAN (CONTINUED)

Administration

The Company's Investment Review Committee is the Plan administrator responsible for general administration of the Plan for the exclusive benefit of the Plan's participants and their beneficiaries, subject to the specific terms of the Plan. Assets of the Plan are held and administered by The Northern Trust Company ("Northern Trust"), the Plan's trustee. It is Northern Trust's responsibility to invest Plan assets as provided in the trust agreement.

NOTE B — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investments

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price).

The Plan's investments are valued as follows:

- Shares of registered investment companies have been valued at quoted market prices, which represent the net asset value of shares held by the Plan as of the end of the year.

- U.S. government, state, municipal, and corporate debt securities and foreign debt securities have been valued using quoted market prices and other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures.

- Units of common and collective trust funds, limited liability companies, and pooled investment funds are stated at their estimated net asset value, which is computed by the trustee periodically to give effect to net realized gains or losses and changes in the fair value of fund assets. The fair value for the underlying investments held by these funds is based on quoted market prices where available or on the basis of valuations provided by pricing services that use methods based upon market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders.

NOTE B — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments (continued)

Purchases and sales of investments are reflected on a trade-date basis. Gains and losses on sales of securities are based on average costs. Dividend income of the investment accounts is recorded on the ex-dividend date. Income from investments is recorded as earned on an accrual basis. Net appreciation and depreciation include the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Fair Value Measurements

The Plan uses fair value measurements in the preparation of its financial statements, which utilize various inputs, including those that can be readily observable, corroborated, or are generally unobservable. The Plan utilizes market-based data and valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Additionally, the Plan applies assumptions that market participants would use in pricing an asset or liability, including assumptions about risk.

The measurement of fair value includes a hierarchy based on the quality of inputs used to measure fair value. Financial assets and liabilities are categorized into this three-level fair value hierarchy, based on the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs.

The various levels of the fair value hierarchy are described as follows:

- Level 1 — Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access

- Level 2 — Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability

- Level 3 — Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement

The use of observable market data, when available, is required in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

NOTE B — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company has elected, in accordance with the Plan document, to have eligible administrative expenses paid by the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and accumulated plan benefits, as well as disclosure of contingent assets and liabilities, at the date of the financial statements, and the reported amounts of changes in net assets and accumulated plan benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various securities, including government securities, bonds, registered investment companies, common and collective trust funds, limited liability companies, and pooled investment funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the nature of these assumptions and the uncertainties inherent in setting these assumptions, it is at least reasonably possible that changes in the near term to these assumptions would be material to the financial statements.

Subsequent Events

The Plan's management has evaluated subsequent events through October 14, 2026, the date that the accompanying financial statements were available to be issued.

NOTE C — ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired, terminated, or totally disabled employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (i.e., retirement, death, and termination of employment) are included to the extent they are deemed attributable to employee service rendered through the valuation date.

An independent consulting actuary estimates the actuarial present value of accumulated plan benefits, which is the amount resulting from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (by discounting for interest) and the probability of payment (through decrements for death, disability, withdrawal, and retirement) between the valuation date and the expected payment dates.

The accumulated plan benefit information as of January 1, 2025 is as follows:

Actuarial Present Value of Accumulated Plan Benefits:	
Vested benefits:	
Participants currently receiving payments	$ 115,719,122
Other participants	210,654,078
Total Vested Benefits	**326,373,200**
Nonvested benefits	517,021
Total Actuarial Present Value of Accumulated Plan Benefits	**$ 326,890,221**

NOTE C — ACCUMULATED PLAN BENEFITS (CONTINUED)

Changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2025 are as follows:

Changes in Accumulated Plan Benefits Attributable to:	
Benefits accumulated and other changes	$ (1,195,807)
Interest due to decrease in discount period	18,812,325
Benefit payments	(22,584,761)
Changes in actuarial assumptions	(6,446,966)
Change in Accumulated Plan Benefits	**(11,415,209)**
Actuarial Present Value of Accumulated Plan Benefits, January 1, 2024	338,305,430
Actuarial Present Value of Accumulated Plan Benefits, January 1, 2025	**$ 326,890,221**

The more significant assumptions underlying the actuarial computations are as follows:

Actuarial cost method:	Standard unit credit method
Discount rate:	6.00 percent
Mortality:	Pri-2012 mortality tables with collar adjustments projected generationally using scale MP-2021

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE D — INVESTMENTS AND FAIR VALUE

The following is a summary of information regarding the Plan, included in the Plan's financial statements, that was obtained or derived from information provided to the Plan administrator, and was certified as complete and accurate, by the trustee, Northern Trust. NOTE D — INVESTMENTS AND FAIR VALUE (CONTINUED)

A description of investments that calculate net asset value per share as a practical expedient is as follows:

- Investments in common and collective trust funds consist of funds that invest primarily in fixed income investments, equities, and short-term investments, such as money market funds.

- Investments in limited liability companies have consisted of entities that hold investments in equity and debt securities, which could include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

- Investments in pooled investment funds consist of hedge funds that invest primarily in equity securities.

These accounts may be redeemed at any time without any restrictions. There are no unfunded commitments to acquire additional units of these assets as of December 31, 2025 or 2024.

Investment income certified by the trustee for the years ended December 31, 2025 and 2024 is as follows:

	2025	2024
Interest and dividend income	$ 7,623,619	$ 8,502,404
Net realized and unrealized appreciation in fair value of investments	25,321,691	4,688,528
Other investment income	7,121	7,637
	$ 32,952,431	**$ 13,198,569**

NOTE E — PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan. In the event the Plan terminates, the net assets of the Plan will be allocated generally to provide the following benefits in the order indicated:

1. To provide for expenses of the Plan, including any expenses relating to the termination of the Plan

NOTE E — PLAN TERMINATION (CONTINUED)

2. To provide benefits to participants who were transferred into the Plan from another qualified plan of the sponsor within five years prior to the date of termination of the Plan to the extent they had assets representing their accrued benefits transferred into the Plan

3. To provide benefits to participants (and to spouses and beneficiaries of participants) who were eligible for benefits or who would have been eligible for benefits had they retired within three years prior to the termination of the Plan

4. To provide benefits to participants (and to spouses and beneficiaries of participants) who have retired or who are eligible to retire on the date of the termination of the Plan

5. To provide benefits to participants and former participants not eligible to retire but who are eligible for deferred retirement benefits, as defined by the Plan

6. To provide benefits to participants not included in the above categories

Any excess assets remaining after the above allocation will revert to the Company.

The PBGC insures certain benefits under the Plan if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level, which is adjusted periodically, of the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and may also depend on the level of benefits guaranteed by the PBGC.

NOTE F — INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated May 24, 2021 indicating that the Plan, as designed, is qualified for tax exempt treatment under the applicable section of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. In addition, the Plan administrator is not aware of any uncertain tax positions or unrecognized tax benefits as of December 31, 2025 or 2024. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE G — PARTY-IN-INTEREST TRANSACTIONS

Certain Plan assets are in investment funds managed by Northern Trust or its affiliates. Northern Trust is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions.

NOTE H — PURCHASES OF ANNUITY CONTRACTS

On October 12, 2023, the Company entered into an agreement with Massachusetts Mutual Life Insurance Company ("MassMutual") and amended the Plan to purchase annuity contracts for certain retirees who participate in the Plan. Those included in the transaction were participants or beneficiaries whose monthly benefit payments were $2,000 or less. At the time of the purchase agreement, approximately 2,000 participants and beneficiaries, and approximately $233 million, were included.

The annuity contracts provide for continued payment to the participants (and beneficiaries, when applicable) in the same form that was in effect under the Plan immediately prior to the purchase. On December 31, 2023, payments were successfully transitioned to MassMutual. Subsequent to the transition of payments, the Company and MassMutual finalized the calculation of the premium for the annuity purchase, which resulted in a refund of approximately $9 million due to the Plan. The refund was received by the Plan in April 2024.

The individuals included in this annuity purchase are no longer participants (or beneficiaries) of the Plan, and the Plan has no further obligation for any benefits to a participant or beneficiary who received an annuity certificate. Therefore, the assets, liabilities, and annuity payments relating to these policies have been excluded from the accompanying financial statements.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on the full yield curve with no lookback (as of December 2024) (to which the interest rate stabilization corridor does not apply), with sample rates as follows: Duration 0.5–4.60% Duration 5.5–4.72% Duration 10.5–5.13% Duration 15.5–5.42% Duration 20.5–5.55% Duration 25.5–5.58% Duration 30.5–5.58%
Interest Crediting Rate	3.71% in 2025 increasing 56 basis points over 30 years, linearly
Optional Payment Form Election Percentage	Actives Eligible for Retirement and Eligible for an Unrestricted Lump Sum — 65% lump sum, 35% as an annuity in the normal form. Actives Eligible for Retirement and Eligible for a Partial Lump Sum — 60% lump sum on the portion of benefits payable as such, normal form is assumed for the portion of benefits payable as an annuity Actives Not Eligible for Retirement and Eligible for an Unrestricted Lump Sum — 55% immediate lump sum; 40% lump sum at age 60 and 5% annuity at age 65. Actives Not Eligible for Retirement and Eligible for a Partial Lump Sum — 60% lump sum on the portion of benefits payable as such, normal form is assumed for the portion of benefits payable as an annuity at age 65 Deferred Participants Eligible for an Unrestricted Lump Sum — 90% lump sum according to the salaried retirement rates. 10% annuity at age 65. Deferred Participants Eligible a Partial Lump Sum — Age 65 commencement. Benefits are actuarially increased with the valuation assumptions for terminated vested participants over age 65.

Optional Payment Form Conversion Interest Rates	Same as funding interest
Optional Payment Form Conversion Mortality	Published IRC section 417(e)(3) table for lump sums for 2024 payment dates. IRC section 417(e) table for lump sums for commencement dates in years for which tables have not yet been published are projected based on the IRS 2024 Adjusted Scale MP-2021.
Retirement Rates	Tables 1–3
Mortality Rates	
Healthy	2012 base mortality rates for annuitants and non-annuitants per §1.430(h)(3)-1(d), projected generationally for years beyond 2012 using IRS-prescribed mortality improvement rates per §1.430(h)(3)-1(b)(1)(iii)
Disabled	Revenue Ruling 96-7 mortality table for disability after December 31, 1994
Withdrawal Rates	Tables 4–7
Disability Rates	100% of the 1987 Commissioners Group Disability Table for Primary and R&E employees
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 60% of participants have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $280,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the cash balance interest crediting rate assumption from 4.52% in 2024 (increasing 33 basis points over 30 years, linearly) to 3.71% in 2025 (increasing 56 basis points over 30 years, linearly).
- A change in the unlimited expected rate of return on assets from from 5.75% to 6.00%.

This change was made to better reflect the anticipated plan experience. The funding assumption change did not reduce the funding shortfall more than the thresholds stated in the Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
