MEDIC AMBULANCE SERVICE, INC.
401(K) PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2009 AND DECEMBER 31, 2008

Note 1. DESCRIPTION OF PLAN:

The following brief description of the Medic Ambulance Service, Inc. 401(k) Profit Sharing Plan and Trust (The Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information.

General:

The Plan was adopted January 1, 2005. The profit sharing plan covers all non-union employees of Medic Ambulance Service, Inc. (the Company) that are not nonresident aliens or leased employees, who are 20 years of age or older and have completed three months of service. The 401(k) arrangement is available to the same employees eligible under the profit sharing plan, but they must also have completed 1,000 hours in twelve months of service. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Contributions:

The profit sharing contributions to the Plan are made at the discretion of the Company's Board of Directors. Participants in the 401(k) arrangement may contribute up to 96 percent of pretax annual compensation as defined in the Plan. The total contribution by each participant is limited to $16,500 for plan year 2009 and $15,500 for plan year 2008. The Company may make a matching contribution with regard to catch-up contributions based on a discretionary formula. For fiscal years beginning after December 31, 2001, individuals age 50 or over by the end of the plan year are allowed to make additional contributions to a 401(k) plan, in excess of the standard limits. Such additional contributions will be limited to the lesser of a specified dollar amount ($5,500 in 2009 and $5,000 in 2008) or the participant's compensation for the year reduced by the participant's other elective deferrals.

Participant accounts:

Each participant's 401(k) account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their deferral contributions. Vesting in the participant's employer contributions account is based on years of continuous service. For profit sharing contributions, a participant is 50% vested after three years of continuous services and is 100% vested after five years. For additional matching contributions in excess of the standard limits, a participant is 100% vested immediately.

Investment options:

Upon enrollment in the 401(k) arrangement, a participant may direct employee contributions in any of twenty one investment options and may change their direction at any time.

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2009 AND DECEMBER 31, 2008

Note 1. DESCRIPTION OF PLAN (Continued):

Administrative expenses:

Plan administrative expenses are paid by the Plan's sponsor.

Benefit payments:

On termination of employment, if a participant's account balance is less than $1,000, the participant will receive an amount equal to the account balance as a lump sum payment no later than 60 days following the close of the plan year in which the separation from service occurs. If the account balance exceeds $5,000, the participant may elect to receive payment in a form and at the time elected by the participant. In the absence of an election by the participant, the account balance will be distributed in a lump sum in the manner described above.

Participant loans:

Participants may borrow from their fund accounts a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 – 5 years with longer terms allowed for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest as determined by the Plan Administrator. Interest rates varied for outstanding loans. Principal and interest is paid ratably through payroll deductions.

Forfeited accounts:

At December 31, 2009, the Plan did not have forfeitures. This account is used to reduce employer contributions.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Method of accounting:

The financial statements are presented on the accrual basis of accounting.

Cash equivalents:

Cash equivalents are considered to be short-term, highly liquid investments with original maturities of three months or less.

Investment valuation and income recognition:

Investments are generally included in the financial statements at fair value as reported to the Plan by Merrill Lynch & Co., Inc. Shares are stated at quoted market value. Gains and losses on investments are recognized in the period in which the appreciation or depreciation occurs. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) of investments, which consists of the net realized gains or losses and unrealized appreciation or depreciation on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit payments:

Benefits are recorded when paid.

Subsequent events:

The Administrative Committee has evaluated subsequent events through October 7, 2010, the date which the financial statements were available for issue.

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2009 AND DECEMBER 31, 2008

Note 3. NATURE OF ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 4. CONCENTRATIONS OF CREDIT RISK:

The Plan's investments are held in a trust fund administered by Merrill Lynch & Co. These investments are exposed to various risks, such as credit, interest rate and market. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 5. ASSETS HELD FOR INVESTMENT:

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared by the asset custodian, Merrill Lynch & Co. The estimated fair value of investments as of December 31, 2009 and December 31, 2008 is as follows:

	December 31, 2009	December 31, 2008
* Merrill Lynch ready Asset Trust	$ 369,380	$ 337,450

Blackrock Large Cap Value C	12,620	4,469

	$ 822,062	$ 582,367

* Each fund individually represented 5% or more of the Plan's net assets at December 31, 2009 and December 31, 2008.

Note 6. FAIR VALUE MEASUREMENTS:

Professional accounting standards establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under professional accounting standards are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in markets that are not active; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable data by correlation or other means. If the asset or liability has a specified (contractual) term, a level 2 input market must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. FAIR VALUE MEASUREMENTS (Continued):

The following table sets forth by level, the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and December 31, 2008:

Assets at Fair Value as of December 31, 2009

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 452,682	$ -	$ -	$ 452,682
Participant loans	-	-	36,625	36,625
Total investments at fair value	$ 452,682	$ -	$ 36,625	$ 489,307

Assets at Fair Value as of December 31, 2008

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 244,917	$ -	$ -	$ 244,917
Participant loans	-	-	7,715	7,715
Total investments at fair value	$ 244,917	$ -	$ 7,715	$ 252,632

Level 3 asset activity:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

Level 3 Assets
Year Ended December 31, 2009

	Participant Loans
Balance, beginning of year	$ 7,715
Interest income	883
Participant loan disbursements	29,932
Participant loan repayments	(1,905)
Balance, at end of year	$ 36,625

Note 7. PLAN TERMINATION:

In the event the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, and all amounts credited to the affected participants' accounts shall become 100% vested.

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2009 AND DECEMBER 31, 2008

Note 8. INCOME TAX STATUS:

The Plan has been granted tax exempt status by both the federal government and the State of California. The Trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the Trust's net investment income is exempt from income taxes.

The Plan recognizes the financial statement benefit of an uncertain tax position only after considering the probability that a tax authority would sustain the position in an examination. For tax positions meeting a "more-likely-than-not" threshold, the amount recognized in the financial statements is the benefit expected to be realized upon settlement with the tax authority. For tax positions not meeting the threshold, no financial statement benefit is recognized. As of December 31, 2009, the Plan has had no uncertain tax positions. The Plan recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense. Annual returns for the years prior to 2006 are no longer subject to examination by tax authorities.

Note 9. PLAN AMENDMENT:

The Plan obtained its latest determination letter on January 31, 2006, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 10. RELATED PARTY TRANSACTIONS:

A cash equivalents fund is managed by Merrill Lynch & Co, Inc., the asset custodian. Fees paid by the Plan for the investment management and other administrative costs amounted to $486 for the year ended December 31, 2009. These transactions qualify as party-in-interest transactions, which are exempt from the ERISA, prohibited transaction rules.

401(K) PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2009 AND DECEMBER 31, 2008

Note 1. DESCRIPTION OF PLAN:

The following brief description of the Medic Ambulance Service, Inc. 401(k) Profit Sharing Plan and Trust (The Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information.

General:

The Plan was adopted January 1, 2005. The profit sharing plan covers all non-union employees of Medic Ambulance Service, Inc. (the Company) that are not nonresident aliens or leased employees, who are 20 years of age or older and have completed three months of service. The 401(k) arrangement is available to the same employees eligible under the profit sharing plan, but they must also have completed 1,000 hours in twelve months of service. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Contributions:

The profit sharing contributions to the Plan are made at the discretion of the Company's Board of Directors. Participants in the 401(k) arrangement may contribute up to 96 percent of pretax annual compensation as defined in the Plan. The total contribution by each participant is limited to $16,500 for plan year 2009 and $15,500 for plan year 2008. The Company may make a matching contribution with regard to catch-up contributions based on a discretionary formula. For fiscal years beginning after December 31, 2001, individuals age 50 or over by the end of the plan year are allowed to make additional contributions to a 401(k) plan, in excess of the standard limits. Such additional contributions will be limited to the lesser of a specified dollar amount ($5,500 in 2009 and $5,000 in 2008) or the participant's compensation for the year reduced by the participant's other elective deferrals.

Participant accounts:

Each participant's 401(k) account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their deferral contributions. Vesting in the participant's employer contributions account is based on years of continuous service. For profit sharing contributions, a participant is 50% vested after three years of continuous services and is 100% vested after five years. For additional matching contributions in excess of the standard limits, a participant is 100% vested immediately.

Investment options:

Upon enrollment in the 401(k) arrangement, a participant may direct employee contributions in any of twenty one investment options and may change their direction at any time.

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2009 AND DECEMBER 31, 2008

Note 1. DESCRIPTION OF PLAN (Continued):

Administrative expenses:

Plan administrative expenses are paid by the Plan's sponsor.

Benefit payments:

On termination of employment, if a participant's account balance is less than $1,000, the participant will receive an amount equal to the account balance as a lump sum payment no later than 60 days following the close of the plan year in which the separation from service occurs. If the account balance exceeds $5,000, the participant may elect to receive payment in a form and at the time elected by the participant. In the absence of an election by the participant, the account balance will be distributed in a lump sum in the manner described above.

Participant loans:

Participants may borrow from their fund accounts a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 – 5 years with longer terms allowed for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest as determined by the Plan Administrator. Interest rates varied for outstanding loans. Principal and interest is paid ratably through payroll deductions.

Forfeited accounts:

At December 31, 2009, the Plan did not have forfeitures. This account is used to reduce employer contributions.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Method of accounting:

The financial statements are presented on the accrual basis of accounting.

Cash equivalents:

Cash equivalents are considered to be short-term, highly liquid investments with original maturities of three months or less.

Investment valuation and income recognition:

Investments are generally included in the financial statements at fair value as reported to the Plan by Merrill Lynch & Co., Inc. Shares are stated at quoted market value. Gains and losses on investments are recognized in the period in which the appreciation or depreciation occurs. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) of investments, which consists of the net realized gains or losses and unrealized appreciation or depreciation on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit payments:

Benefits are recorded when paid.

Subsequent events:

The Administrative Committee has evaluated subsequent events through October 7, 2010, the date which the financial statements were available for issue.

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2009 AND DECEMBER 31, 2008

Note 3. NATURE OF ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 4. CONCENTRATIONS OF CREDIT RISK:

The Plan's investments are held in a trust fund administered by Merrill Lynch & Co. These investments are exposed to various risks, such as credit, interest rate and market. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 5. ASSETS HELD FOR INVESTMENT:

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared by the asset custodian, Merrill Lynch & Co. The estimated fair value of investments as of December 31, 2009 and December 31, 2008 is as follows:

	December 31, 2009	December 31, 2008
* Merrill Lynch ready Asset Trust	$ 369,380	$ 337,450
* Davis New York Venture C	149,368	74,527

Blackrock Large Cap Value C	12,620	4,469
Blackrock Government Income	5,383	4,962
	$ 822,062	$ 582,367

* Each fund individually represented 5% or more of the Plan's net assets at December 31, 2009 and December 31, 2008.

Note 6. FAIR VALUE MEASUREMENTS:

Professional accounting standards establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under professional accounting standards are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in markets that are not active; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable data by correlation or other means. If the asset or liability has a specified (contractual) term, a level 2 input market must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. FAIR VALUE MEASUREMENTS (Continued):

The following table sets forth by level, the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and December 31, 2008:

Assets at Fair Value as of December 31, 2009

	Level 1	Level 2	Level 3	Total

Total investments at fair value	$ 244,917	$ -	$ 7,715	$ 252,632

Level 3 asset activity:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

Balance, beginning of year	$ 7,715
Interest income	883
Participant loan disbursements	29,932
Participant loan repayments	(1,905)
Balance, at end of year	$ 36,625

Note 7. PLAN TERMINATION:

In the event the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, and all amounts credited to the affected participants' accounts shall become 100% vested.

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2009 AND DECEMBER 31, 2008

Note 8. INCOME TAX STATUS:

The Plan has been granted tax exempt status by both the federal government and the State of California. The Trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the Trust's net investment income is exempt from income taxes.

The Plan recognizes the financial statement benefit of an uncertain tax position only after considering the probability that a tax authority would sustain the position in an examination. For tax positions meeting a "more-likely-than-not" threshold, the amount recognized in the financial statements is the benefit expected to be realized upon settlement with the tax authority. For tax positions not meeting the threshold, no financial statement benefit is recognized. As of December 31, 2009, the Plan has had no uncertain tax positions. The Plan recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense. Annual returns for the years prior to 2006 are no longer subject to examination by tax authorities.

Note 9. PLAN AMENDMENT:

The Plan obtained its latest determination letter on January 31, 2006, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 10. RELATED PARTY TRANSACTIONS:

A cash equivalents fund is managed by Merrill Lynch & Co, Inc., the asset custodian. Fees paid by the Plan for the investment management and other administrative costs amounted to $486 for the year ended December 31, 2009. These transactions qualify as party-in-interest transactions, which are exempt from the ERISA, prohibited transaction rules.

Note 11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of the financial statements to Form 5500 as of and for the year ended December 31:

On termination of employment, if a participant's account balance is less than $1,000, the participant will receive an amount equal to the account balance as a lump sum payment no later than 60 days following the close of the plan year in which the separation from service occurs. If the account balance exceeds $5,000, the participant may elect to receive payment in a form and at the time elected by the participant. In the absence of an election by the participant, the account balance will be distributed in a lump sum in the manner described above.

Participant loans:

Participants may borrow from their fund accounts a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 – 5 years with longer terms allowed for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest as determined by the Plan Administrator. Interest rates varied for outstanding loans. Principal and interest is paid ratably through payroll deductions.

Forfeited accounts:

At December 31, 2009, the Plan did not have forfeitures. This account is used to reduce employer contributions.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Method of accounting:

The financial statements are presented on the accrual basis of accounting.

Cash equivalents:

Cash equivalents are considered to be short-term, highly liquid investments with original maturities of three months or less.

Investment valuation and income recognition:

Investments are generally included in the financial statements at fair value as reported to the Plan by Merrill Lynch & Co., Inc. Shares are stated at quoted market value. Gains and losses on investments are recognized in the period in which the appreciation or depreciation occurs. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) of investments, which consists of the net realized gains or losses and unrealized appreciation or depreciation on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit payments:

Benefits are recorded when paid.

Subsequent events:

The Administrative Committee has evaluated subsequent events through October 7, 2010, the date which the financial statements were available for issue.

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2009 AND DECEMBER 31, 2008

Note 3. NATURE OF ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 4. CONCENTRATIONS OF CREDIT RISK:

The Plan's investments are held in a trust fund administered by Merrill Lynch & Co. These investments are exposed to various risks, such as credit, interest rate and market. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 5. ASSETS HELD FOR INVESTMENT:

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared by the asset custodian, Merrill Lynch & Co. The estimated fair value of investments as of December 31, 2009 and December 31, 2008 is as follows:

Note 6. FAIR VALUE MEASUREMENTS:

Professional accounting standards establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under professional accounting standards are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in markets that are not active; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable data by correlation or other means. If the asset or liability has a specified (contractual) term, a level 2 input market must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. FAIR VALUE MEASUREMENTS (Continued):

The following table sets forth by level, the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and December 31, 2008:

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2009 AND DECEMBER 31, 2008

Note 8. INCOME TAX STATUS:

The Plan has been granted tax exempt status by both the federal government and the State of California. The Trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the Trust's net investment income is exempt from income taxes.

The Plan recognizes the financial statement benefit of an uncertain tax position only after considering the probability that a tax authority would sustain the position in an examination. For tax positions meeting a "more-likely-than-not" threshold, the amount recognized in the financial statements is the benefit expected to be realized upon settlement with the tax authority. For tax positions not meeting the threshold, no financial statement benefit is recognized. As of December 31, 2009, the Plan has had no uncertain tax positions. The Plan recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense. Annual returns for the years prior to 2006 are no longer subject to examination by tax authorities.

Note 9. PLAN AMENDMENT:

The Plan obtained its latest determination letter on January 31, 2006, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 10. RELATED PARTY TRANSACTIONS:

A cash equivalents fund is managed by Merrill Lynch & Co, Inc., the asset custodian. Fees paid by the Plan for the investment management and other administrative costs amounted to $486 for the year ended December 31, 2009. These transactions qualify as party-in-interest transactions, which are exempt from the ERISA, prohibited transaction rules.
