Independent Auditors' Report

To the Participants and Plan Administrator of
WET Design 401(K) Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of WET Design 401(K) Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental schedule of assets (held at end of year) as of December 31, 2009 (Schedule H, Part IV, line 4i). These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by Capital Bank and Trust Company (for the period January 1, 2009 through October 31, 2009), and Fidelity Management Trust Company (for the period November 1, 2009 through December 31, 2009), the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustees held the Plan's investment assets and executed investment transactions. The Plan administrator has obtained a certification from the trustees as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustees is complete and accurate.

Because of the significance of the information in the Plan's 2009 and 2008 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WET Design 401(K) Plan

Notes to the Financial Statements

December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the WET Design 401(K) Plan (the "Plan") is provided for general information purposes only. The Plan agreement should be referred to for a more complete description of the Plan's provisions.

General

The Plan, adopted as of January 1, 1995 is a defined contribution Plan covering substantially all employees of WET Enterprises, Inc. a California corporation (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (the "ERISA").

Eligibility

Employees who have attained 21 years of age and completed at least 3 months of service are eligible to participate in the Plan and receive Employer contributions. Employees can enter the Plan on the first day of the month immediately following satisfaction of eligibility requirements. The Plan has adopted an auto enrollment program whereby all eligible employees are automatically enrolled unless opted out by election. The default participant deferral is 3% of compensation in the first year of participation. The deferral percentage is increased by 1% each year thereafter subject to a maximum deferral of 10% of compensation.

Contributions

The Plan provides for both employee and Employer contributions. Each year employees may contribute a certain percentage of their pre-tax annual compensation as defined in the Plan. The employee contribution is subject to an amount as provided annually by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions. Employees may also contribute amounts representing distributions from other qualified benefit plans. The Employer may match, at its discretion, a fixed amount or a set percentage of each eligible employee's contribution as determined by its board of directors. Additional amounts including a profit sharing contribution may also be contributed at the option of the Employer. No Employer contributions were made for the years ended December 31, 2009 and 2008.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Employer's contribution and, (b) Plan's earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested in annual increments of 20 percent, vesting at 20 percent after the first year of credited service, and up to 100 percent after the fifth year of credited service.

Payment of Benefits and Forfeited Accounts

A participant's Plan benefits will be distributed at retirement, death, disability or upon termination of employment. Normal retirement age is 65 years. The Plan does not permit early retirement. The benefits will be paid to the participant or beneficiary in accordance with the provisions of the Plan. That portion of an employee's interest, which is not vested upon the employee's break in service, is forfeited. The non-vested forfeited balances will be reallocated as of the end of the Plan year to the participants in the same manner as Employer's contributions. At December 31, 2009 and 2008 the balance in the forfeited non-vested account was $13,131 and $6,706, respectively.

Participant Loans

Participants may borrow from their fund accounts up to 50 percent of their total vested balance, subject to a minimum of $1,000 and a maximum amount of $50,000. The loans are secured by the vested balance in the participant's account. The Plan provisions require a reasonable interest rate to be charged on the loans and principal and interest to be paid ratably through regular payroll deductions. At December 31, 2009 and 2008 the outstanding participant loan balances were $55,334 and $79,284, respectively. Interest rates on the loans range from 5.25% to 10.25% and the loans mature between April 2011 and June 2014.

Tax Status

The Plan is based on a volume submitter profit sharing 401(K) plan agreement. The Internal Revenue Service has issued an opinion letter dated March 31, 2008 granting approval to the volume submitter plan document. Under this arrangement the Plan is not obligated to file for a separate determination letter. Although the Plan has been amended, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Capital Bank and Trust Company, and Fidelity Management Trust Company, the trustees as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustees for investment management services aggregated $255 for the year ended December 31, 2009.

Investment Options, Management and Administration

Effective November 1, 2009 the Plan changed its trustee to Fidelity Management Trust Company ("FMTC") and the record keeper of the Plan to Fidelity Retirement Services. On November 1, 2009 Capital Bank and Trust Company, the prior trustee, liquidated all its holdings from its various funds and transferred the same to Fidelity Management Trust Company. The assets of each fund within the Plan are invested under an arrangement with the trustees. All expenses incurred in maintaining the Plan are paid by the Plan unless the Employer, at its discretion elects to pay all or part of the expenses. These expenses include fees of the Plan trustees, third-party administrators and accountants. Upon enrollment in the Plan, a participant may direct their contributions in the various investment choices, including mutual funds offered by the trustees. Participants should carefully read the prospectus before investing in the various funds offered under the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Contributions from participants are recorded based on payroll withholdings during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Participant loans are valued at cost which approximates fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note on fair value measurements below.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies (mutual funds): valued at registered net asset value of shares held by the Plan at year end.

Common collective trusts: valued on a per unit market value as determined by Fidelity Management Trust Company, which reflects the fair value of investments comprising common collective trusts.

Participant loans: valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 7 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 10, 2010, the date the financial statements were available to be issued.
