NOTES TO FINANCIAL STATEMENTS

NOTE 1 - PLAN DESCRIPTION AND SIGNIFICANT ACCOUNTING POLICIES

The following description of Midwest Motors Inc. 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Plan participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering employees of Midwest Motors, Inc., MM Acceptance Corporation, PM Acceptance Corporation and Pennwest Motors, Inc. (together, the Employer) for the benefit of their employees. Each employee may elect to become a participant in the Plan once they have reached the age of 21 and completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates: The Plan Administrator uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States. Those estimates and assumptions affect the reported amounts of net assets available for benefits, the disclosure of contingencies, and the reported additions to and deductions from net assets available for benefits. Actual results could vary from the estimates that were used.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Participants may authorize the Employer to contribute up to 88% of their base compensation to the Plan as a salary deferral contribution, up to the maximum annual amount allowed under the provisions of the Internal Revenue Code (IRC). Participant "catch-up" salary deferral contributions and participant rollover contributions are also permitted subject to terms of the Plan Agreement.

Participants are automatically enrolled to defer 4% of their eligible compensation upon meeting the Plan's eligibility requirements in the absence of an affirmative election to participate.

The Employer makes matching contributions based on participants' salary deferral amounts. The Employer made matching contributions of 50% on the first 4% of eligible compensation the participant contributed to the Plan during 2009. The matching contribution is made each pay period in which the participant contributes to the Plan. If a participant discontinues contributions, the Employer match will also stop.

NOTE 1 - PLAN DESCRIPTION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Participant Accounts: Each participant's account is credited with the participant's contributions, an allocation of the Employer's contributions and investment earnings based on the investment options elected. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Each participant has the option of directing participant and Employer contributions into any of the various investment options offered by the Plan.

Vesting and Forfeitures: Participants are immediately vested in their salary deferral and rollover contributions, plus earnings thereon. Employer matching contributions and earnings thereon are 100% vested after six or more years of service. Forfeitures of non-vested account balances may be used first to pay administrative expenses of the Plan, and any remaining forfeitures are allocated as an additional Employer matching contribution. At December 31, 2009 and 2008, forfeited nonvested amounts totaled \$2,104 and \$2,088, respectively. The amounts allocated as additional Employer matching contribution was \$876 in 2009.

Payment of Benefits: Upon termination of service, participants may receive a lump-sum amount equal to the vested balance of their accounts. Withdrawals, other than for termination, are permitted under circumstances as provided by the Plan Agreement. Benefits are recorded when paid.

Participant Loans: Participants may borrow from their accounts up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balances. Loan terms range up to 5 years with the exception of loans for the purpose of purchasing a principal residence, which shall not exceed 30 years. The loans are secured by the participant's account balance and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Plan Termination: Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in all of their participant accounts.

Administrative Expenses: Expenses may be paid by the Employer or the Plan, at the Employer's discretion.

Plan Tax Status: The Plan has adopted a prototype plan document which has received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the prototype plan document was designed in accordance with the applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. Although the Plan has been amended since the date of the opinion letter, the Plan Administrator believes that the Plan is designed in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

Subsequent Events: The Plan's management has evaluated the financial statements for subsequent events occurring through October 11, 2010, the date the financial statements were available to be issued.

NOTE 2 – FAIR VALUE MEASUREMENTS

The Plan has categorized its assets and liabilities that are measured at fair value, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- **Level 1:** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- **Level 2:** Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3:** Inputs to the valuation methodology are unobservable and significant to the fair value measurement in situations where there is little or no market activity for the asset or liability, and the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan for investment assets measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Fund Shares: Valued at the published net asset value (NAV) of the shares held by the Plan at the reporting date.

Common Collective Trust Funds: Valued at unit value provided by the fund administrators which is based on the underlying assets owned by each fund divided by the number of outstanding units.

Money Market Fund Shares: Valued at the published net asset value (NAV) of the shares held by the Plan at the reporting date.

Participant Loans: Valued at amortized cost, which approximates fair value.

NOTE 2 – FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a summary, by level within the fair value hierarchy, of the Plan's investment assets that are measured at fair value on a recurring basis as of December 31, 2009 and 2008:

2009	Level 1	Level 2	Level 3	Total

Loans to Plan participants are permitted party-in-interest transactions.

The Employer provides certain accounting, administrative and investment management services to the Plan for which it receives no compensation.

NOTE 6 - PLAN AMENDMENTS

During 2009, the Plan Agreement was amended and restated to comply with changes in the tax laws as required by the IRC. The amendments included provisions that are intended to comply with the Economic Growth Tax Relief Reconciliation Act of 2001 (EGTRRA) and the Pension Protection Act of 2006.

NOTE 7 - RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the Plan's financial statements and could affect participants' account balances.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENT TO FORM 5500
