The financial statements of the Plan as of December 31, 2008 were audited by other independent auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated September 30, 2009, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements, taken as a whole and (b) the form and content of the information included in the financial statements other than that information derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by State Street Bank & Trust, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2009, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RAMAR INTERNATIONAL CORP. 401(k) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2009

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Ramar International Corp. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan was established on January 1, 1998, and most recently amended and restated effective December 9, 2008, to provide retirement, death and disability benefits for eligible employees of Ramar Foods Corporation (the "Company"). The Plan is a defined contribution plan covering substantially all employees. Participant may begin deferring a portion of their compensation into the Plan on the first day of the month following eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and certain provisions of the Internal Revenue Code ("IRC").

Participant Contributions – Participants may voluntarily contribute 1% to 90% of their annual pretax compensation to the Plan, as defined by the Plan agreement, up to a maximum of $16,500 for the year ended December 31, 2009. Participants who are over 49 years of age may make an annual catch-up contribution of $5,500 for the year ended December 31, 2009. Participants may also make rollover contributions representing distributions from other qualified defined benefit or defined contribution plans.

Employer Contributions – The Company may make discretionary matching contributions as determined by the management of the Company. Contributions are subject to certain limitations. Discretionary matching contributions made in 2009 amounted to $91,709. The Company may also make non-elective contributions at the option of the Company's Board of Directors, subject to limitations imposed by applicable provisions of the IRC.

Participant Accounts – The Plan maintains an account for each participant, which is credited with the participant's contributions and allocations of (a) the Company's matching and profit sharing contributions, if any, and (b) Plan investment earnings or losses, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that may be provided from the participant's vested account balance.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Vesting – Participants are immediately vested in their voluntary contributions, their rollover contributions and actual earnings thereon. Participants also become fully vested if they are employed by the Company upon reaching 59-1/2 years of age and upon death or disability of the participant. Vesting in the Company's matching contributions and related earnings thereon is based upon the number of years of credited service as follows:

Years of Credited Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Vesting on non-elective contributions is based on a seven-year scale, where a participant is 20% vested after three years of credited service, increasing annually to 100% vested after seven years of credited service.

Investment Options – Upon enrollment in the Plan, a participant may direct the investment of his or her account balance into the various investment funds offered through the Plan.

Participant Loans – The Plan allows participants to borrow from their vested account balance provided they meet the Plan's eligibility requirements. The minimum loan amount is $1,000 and the maximum loan amount is the lesser of one-half of the participant's vested account balance or $50,000. The term of the loan is not to exceed five years, except for loans used to finance the purchase of a primary residence for which the maximum maturity is 15 years. The loans are secured by the balance in the participant's account. The interest rate on the outstanding loans receivable was within the range of 5.25% and 10.25% as of December 31, 2009 and 6.00% and 10.25% as of December 31, 2008.

Payment of Benefits – Upon reaching 65 years of age or upon termination of service due to death, disability, retirement, or termination of employment, a participant may elect to receive a distribution of benefits through a lump-sum cash payment or through a direct rollover to another qualified plan. Participants may also request distributions from their account in the case of certain financial hardships, as defined. If the participant's account balance is less than $5,000 and no distribution instructions have been received by such participant, the account will be paid as a direct rollover to an individual retirement account.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Administrative Expenses – Administrative costs are paid for by the Company. Administrative fees on participant loans and distributions are charged to participant accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared using the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

On June 30, 2009, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles (as amended)*. This standard established the FASB Accounting Standards Codification (FASB ASC) as the single source of authoritative accounting principles generally accepted in the United States of America recognized by the FASB to be applied by nongovernmental entities. Substantially all previous United States generally accepted accounting principle standards issued by a standard setter are superseded and are codified into the FASB ASC. The FASB ASC is effective for financial statements issued for periods ending after September 15, 2009. Adoption of the FASB ASC had no impact on the Plan's statements of net assets available for benefits and changes in net assets available for benefits.

In May 2009, the FASB updated the FASB ASC Subsequent Events topic which establishes general standards of accounting for and disclosure of events that occurs after the balance sheet date but before financial statements are issued or are available to be issued. The Plan has adopted this standard in 2009 and the Plan has evaluated subsequent events through October 12, 2010, the date the financial statements were available to be issued.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits – Benefits are recorded when paid.

NOTE 3 – FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* topic of the FASB ASC (formerly SFAS No. 157, *Fair Value Measurements*) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used by the Plan for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued based on the quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

These preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTE 5 – TAX STATUS

The Company adopted a Prototype Plan which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008, stating that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since this favorable determination letter was received; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for federal or state income taxes is reflected in the Plan's financial statements.

NOTE 6 – PLAN TERMINATION

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and will be required to take the entire account balance from the Plan.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination from among the funds as offered through the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

The underlying securities of the Plan's investments could include securities with contractual cash flows, such as, but not limited to, asset backed securities, collateralized mortgage obligations, and commercial mortgage backed securities and real estate. The value, liquidity and related income of these securities may be particularly sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by real or perceived difficulties of the issuers, changes in interest rates and conditions in financial markets.
