Mid-Continental Companies, Inc. 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE A - DESCRIPTION OF PLAN

The following description of the Mid-Continental Companies, Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan was adopted effective January 1, 1996, as a defined contribution plan covering all employees of Mid-Continental Companies, Inc. (the Company) who have one year of service, are age 21 or older and have 1,000 hours of service. Employees covered by a collective bargaining agreement are excluded from the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was last amended and restated in 2009. This restatement was made to conform the Plan to the requirements of "EGTRRA" – Economic Growth and Tax Relief Reconciliation Act of 2001.

2. Contributions

Each year, participants may contribute up to the maximum dollar amount as determined by the Federal government of pretax annual compensation, as defined in the Plan. The maximum deferral in 2009 and 2008 is the lesser of 100% of compensation or $ 16,500 for 2009 and $ 15,500 for 2008. For participants age 50 or more, an additional $ 5,500 and $ 5,000 in contributions was permitted for 2009 and 2008, respectively. The Company makes a matching contribution of 25% of elective deferrals, on the first 6% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company's Board of Directors.

3. Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and the Plan's earnings. Allocations are based on participant earnings, contributions or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN - Continued

4. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

5. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments over specified years. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

6. Forfeitures

In 2009 and 2008, employer contributions were reduced by $ 1,683 and $ 421, respectively, from forfeited non-vested accounts.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

2. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE B - SUMMARY OF ACCOUNTING POLICIES - Continued

3. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of mutual funds are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. Payment of Benefits

Benefits are recorded when paid.

5. Expenses

The administration costs and expenses of the Plan are paid by the Company.

6. Subsequent Events

The Plan management has evaluated subsequent events for recognition and disclosure in the financial statements through October 8, 2010, which is the date the financial statements were available to be issued. Through October 8, 2010, there were no subsequent events that required recognition or disclosure in the financial statements.

NOTE D - FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Accounting standards establish a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities. These assets and liabilities include debt and equity securities and mutual funds that are traded in an active exchange market, as well as U.S. Treasury securities.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments. This category generally includes certain U.S. Government and agency mortgage-backed debt securities and corporate debt securities. Level 2 assets also include certain entities that calculate net asset value per share if the company has the ability to redeem the investment at net asset value per share at the measurement date or shortly thereafter. Examples of these entities include hedge funds, private equity funds, real estate funds, offshore funds, and funds of funds.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant measurement judgment or estimation. This category generally includes certain private debt and equity investments. Level 3 assets also include certain entities that calculate net asset value per share in which the company never has the ability to redeem the investment at net asset value per share or cannot redeem the investment in the near term.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The following discussion describes the valuation methodologies used for financial assets measured at fair value. The techniques utilized in estimating the fair values are affected by the assumptions used, including discount rates and estimates of the amount and timing of future cash flows. Care should be exercised in deriving conclusions about the Plan's business, its value or financial position based on the fair value information of financial assets presented below.

Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial asset, including estimates of timing, amount of expected future cash flows and the credit standing of the issuer. In some cases, the fair value estimates cannot be substantiated by comparison to independent markets. Potential taxes and other expenses that would be incurred in an actual sale or settlement are not reflected in amounts disclosed. In addition, the disclosed fair value may not be realized in the immediate settlement of the financial assist. Further, the disclosed fair values do not reflect any premium or discount that could result from offering for sale at one time an entire holding of a particular financial asset.

Shares of mutual funds are valued at quoted market prices which represent the net asset value (NAV) of shares held by the Plan at year end.

The following table presents the Plan's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2009 and 2008:

	Fair Value	Level 1	Level 2	Level 3
2009				
Mutual funds	$ 2,527,026	$ 2,527,026	$ -	$ -
2008				
Mutual funds	$ 2,014,387	$ 2,014,387	$ -	$ -

NOTE E - PLAN TERMINATION

Although it has not expressed any intention to do so, Mid-Continental Companies, Inc. has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE F - TAX STATUS

The Plan is intended to be qualified under Section 401(a) and tax exempt under Section 501(a) of the Internal Revenue Code (IRC). The Plan is a prototype standardized profit sharing plan and obtained its last approval letter, dated March 31, 2008, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the IRC. The Plan administrator and the Plan's trustee believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan adopted the accounting standards for uncertainty in income taxes effective January 1, 2009. This guidance prescribes a comprehensive model for financial statement recognition, measurement, classification, and disclosure of uncertain tax positions. The implementation of the standards had no net effect on net assets available for benefits.

As of December 31, 2009, the Plan has recognized in the financial statements the effects of all tax positions and continually evaluates expiring statutes of limitations, audits, changes in tax law, and new authoritative rulings. The Plan is not aware of any circumstances or events that make it reasonably possible that unrecognized tax benefits may increase or decrease within 12 months of the statement of net assets available for benefits date. Penalties and interest assessed by taxing authorities are included in the provision for income taxes, if applicable. There were no interest or penalties paid during 2009.

The Plan files a Form 5500 return in the U.S. federal jurisdiction. The federal information returns prior to 2006 are closed.

NOTE G - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The IRS Form 5500 for the 2008 Plan year reflects dividends reinvested in mutual funds as net investment gains. However, the Form 5500 for the 2009 Plan year reflects dividends as dividends. Form 5500 is prepared on the cash basis.

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	2009
Net assets available for benefits per the financial statements	$ 2,537,147
Less employer contributions receivable	(10,121)
Net assets available for benefits per Schedule H of Form 5500	$ 2,527,026

The following is a reconciliation of employer contributions per the financial statements to Schedule H of Form 5500:

	2009
Employer contributions per the financial statements	$ 55,116
Less employer contributions receivable	(10,121)

NOTE H - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following is a summary of the (unaudited) information regarding the Plan as of December 31, 2009 and 2008, and for the years then ended, included in the Plan's financial statements and supplemental schedule that was prepared by the trustee and furnished to the Plan sponsor. NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE J - ELIGIBLE EMPLOYEES NOT IDENTIFIED

In December 2007, the Company acquired the operating assets of Grant Automotive, Inc. and formed a new subsidiary, Landmark of Taylorville, Inc. Employees of this subsidiary meeting eligibility requirements should have been admitted to the Plan on January 1, 2009. However, these employees were not admitted to the Plan until July 1, 2010. Under the IRS' self correction program, the Company is required to make a qualified non-elective contribution (QNEC) to the Plan for the eligible employees in order for the Plan to remain qualified. The amount of the QNEC is equal to 50% of the average participant deferral. In addition, a Company "match" and earnings have been added to the estimated deferral. The total amount of the QNEC and match (or penalty) for the year ended December 31, 2009, is $ 10,121, which has been recorded as an employer contribution receivable at December 31, 2009. The approximate amount of the penalty for the period January 1 to June 30, 2010, is $ 4,000. The Company will remit the 2009 amount to the Plan on the employees' behalf in the fourth quarter of 2010.
