ROLL COATER SAVINGS PLAN
FOR BARGAINING UNIT ASSOCIATES
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - GENERAL DESCRIPTION OF THE PLAN

The following description of the Roll Coater Savings Plan for Bargaining Unit Associates ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all union employees of Roll Coater, Inc. ("the Company"), as stated in the plan agreement, effective November 24, 2004. Qualified employees are eligible to participate in the Plan immediately upon being hired. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute from 1% to 50% of annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Each participant may direct their contribution and Company contributions into any of the investment options available under the Plan. The Company makes matching contributions, which are based on union contract agreements. The Company may also make a discretionary age-based profit sharing contribution. For 2009 and 2008, the Company made discretionary contributions totaling \$173,900 and \$247,581, respectively. Contributions are subject to certain limitations. Effective June 1, 2009, the Company elected to temporarily suspend employer matching contributions until January 1, 2010 and employer discretionary profit sharing contributions for July 1, 2009 and 2010 for Chauffeurs, Teamsters, and Helpers Local Union No. 215. Effective December 7, 2009, the Company elected to suspend employer matching contributions and employer discretionary profit sharing contributions until October 1, 2011 for International Union, United Automobile, Aerospace and Agricultural Implement Workers of America and Its Local Union No. 661.

Effective October 1, 2007, the Plan was amended to implement automatic enrollment for participants who have met eligibility requirements. The default contribution is calculated at 3% for participants that are new to the Plan.

Effective August 13, 2009, the Plan was amended to change the eligibility requirement to 12 months of service with 83.3 hours of service per month for all contributions in order to participate in the Plan for the Chauffeurs, Teamsters, and Helpers Local Union No. 215 only.

Participants' Accounts: Each participant's account is credited with participant's own contributions, the Company's matching contribution on their deferral, the Company's discretionary contribution, an allocation of investment earnings, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on the participant's compensation, contribution, or account balance, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans: Participants may borrow from their accounts from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear a reasonable rate of interest. Principal and interest are repaid ratably through payroll deductions.

Vesting: Participants are immediately vested in their contributions and in the Company's matching contributions, plus earnings thereon. Participants are 100% vested in the Company's profit sharing contribution after three years of service.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - GENERAL DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits: On termination of service for any reason, a participant or beneficiary, if applicable, may elect to receive a distribution of his or her vested account as a single lump sum or installments over a period of not more than their assumed life expectancy. In-service withdrawals are permitted for reasons of financial hardship only. These payments and withdrawals are subject to certain conditions and elections as defined in the plan agreement. Distributions from the Plan are subject to federal income tax rules and regulations.

Forfeitures: Forfeitures are used to pay plan expenses and to reduce future Company contributions. During the years ended December 31, 2009 and 2008, forfeitures in the amounts of \$1,496 and \$2,341, respectively, were used to reduce Company contributions to the Plan. As of December 31, 2009 and 2008, there were \$8,466 and \$7,568 in forfeitures available to reduce future employer contributions or reduce plan expenses.

Transfer Out To Another Plan: The transfers are due to the employment status change of one employee. The participant's balance was transferred between plans in association with the change.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition: The Plan's investments, excluding participant loans, are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

(Continued)

ROLL COATER SAVINGS PLAN
FOR BARGAINING UNIT ASSOCIATES
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Participant loans: Participant loans are reported at amortized cost, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2009 Using Quoted Prices in Active Market for Identical Assets (Level 1)
Investments, excluding participant loans	
Mutual funds	
Fixed income	\$ 1,417,324

	Fair Value Measurements at December 31, 2008 Using Quoted Prices in Active Market for Identical Assets (Level 1)
Investments, excluding participant loans Mutual funds	\$ 3,457,727

Payment of Benefits: Benefits are recorded when paid.

Net Appreciation (Depreciation) in the Fair Value of Investments: The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses, and the unrealized appreciation (depreciation) on those investments.

Termination of the Plan: Although it has not expressed an intent to do so, the Company has the right to discontinue its contributions and terminate the Plan subject to the provisions of ERISA. In the event the Plan is discontinued, the Plan's assets will be distributed to participants in accordance with the Plan's provisions and subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in their accounts.

NOTE 3 - INVESTMENTS - UNAUDITED INFORMATION

Reliance Trust Company, the trustee of the Plan, holds investments assets and executes investment transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by Reliance Trust Company. This information has not been audited by independent accountants.

December 31, 2009 and 2008

NOTE 4 - FEDERAL INCOME TAX STATUS

Effective January 1, 2009, the Plan adopted a prototype plan document issued by the Newport Retirement Services LLC. The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan was amended from the prototype plan document and, therefore, Plan management elected to request a determination letter. The Internal Revenue Service has determined and informed the Company by a letter dated July 7, 2010 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. At December 31, 2009 and 2008, the Plan held investments in mutual funds managed by Black Rock, an affiliate of Merrill Lynch, investment advisor, totaling \$749,759 and \$740,691, respectively. These qualify as party-in-interest investments. The Plan also holds party-in-interest investments in the form of participant loans at December 31, 2009 and 2008 of \$236,688 and \$188,832, respectively. During 2009 and 2008, the Plan paid administrative expenses of \$7,928 and \$7,441, respectively, to the Newport Retirement Services, Inc., the third party administrator, which qualifies as a party-in-interest transaction. Certain professional fees related to the administration and recordkeeping of the Plan were paid by the Company on behalf of the Plan.

ROLL COATER SAVINGS PLAN
FOR BARGAINING UNIT ASSOCIATES
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - GENERAL DESCRIPTION OF THE PLAN

The following description of the Roll Coater Savings Plan for Bargaining Unit Associates ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all union employees of Roll Coater, Inc. ("the Company"), as stated in the plan agreement, effective November 24, 2004. Qualified employees are eligible to participate in the Plan immediately upon being hired. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute from 1% to 50% of annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Each participant may direct their contribution and Company contributions into any of the investment options available under the Plan. The Company makes matching contributions, which are based on union contract agreements. The Company may also make a discretionary age-based profit sharing contribution. For 2009 and 2008, the Company made discretionary contributions totaling \$173,900 and \$247,581, respectively. Contributions are subject to certain limitations. Effective June 1, 2009, the Company elected to temporarily suspend employer matching contributions until January 1, 2010 and employer discretionary profit sharing contributions for July 1, 2009 and 2010 for Chauffeurs, Teamsters, and Helpers Local Union No. 215. Effective December 7, 2009, the Company elected to suspend employer matching contributions and employer discretionary profit sharing contributions until October 1, 2011 for International Union, United Automobile, Aerospace and Agricultural Implement Workers of America and Its Local Union No. 661.

Effective October 1, 2007, the Plan was amended to implement automatic enrollment for participants who have met eligibility requirements. The default contribution is calculated at 3% for participants that are new to the Plan.

Effective August 13, 2009, the Plan was amended to change the eligibility requirement to 12 months of service with 83.3 hours of service per month for all contributions in order to participate in the Plan for the Chauffeurs, Teamsters, and Helpers Local Union No. 215 only.

Participants' Accounts: Each participant's account is credited with participant's own contributions, the Company's matching contribution on their deferral, the Company's discretionary contribution, an allocation of investment earnings, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on the participant's compensation, contribution, or account balance, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans: Participants may borrow from their accounts from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear a reasonable rate of interest. Principal and interest are repaid ratably through payroll deductions.

Vesting: Participants are immediately vested in their contributions and in the Company's matching contributions, plus earnings thereon. Participants are 100% vested in the Company's profit sharing contribution after three years of service.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - GENERAL DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits: On termination of service for any reason, a participant or beneficiary, if applicable, may elect to receive a distribution of his or her vested account as a single lump sum or installments over a period of not more than their assumed life expectancy. In-service withdrawals are permitted for reasons of financial hardship only. These payments and withdrawals are subject to certain conditions and elections as defined in the plan agreement. Distributions from the Plan are subject to federal income tax rules and regulations.

Forfeitures: Forfeitures are used to pay plan expenses and to reduce future Company contributions. During the years ended December 31, 2009 and 2008, forfeitures in the amounts of \$1,496 and \$2,341, respectively, were used to reduce Company contributions to the Plan. As of December 31, 2009 and 2008, there were \$8,466 and \$7,568 in forfeitures available to reduce future employer contributions or reduce plan expenses.

Transfer Out To Another Plan: The transfers are due to the employment status change of one employee. The participant's balance was transferred between plans in association with the change.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition: The Plan's investments, excluding participant loans, are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

(Continued)

ROLL COATER SAVINGS PLAN
FOR BARGAINING UNIT ASSOCIATES
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Participant loans: Participant loans are reported at amortized cost, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2009 Using Quoted Prices in Active Market for Identical Assets (Level 1)
Investments, excluding participant loans	
Mutual funds	
Fixed income	\$ 1,417,324

	Fair Value Measurements at December 31, 2008 Using Quoted Prices in Active Market for Identical Assets (Level 1)
Investments, excluding participant loans Mutual funds	\$ 3,457,727

Payment of Benefits: Benefits are recorded when paid.

Net Appreciation (Depreciation) in the Fair Value of Investments: The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses, and the unrealized appreciation (depreciation) on those investments.

Termination of the Plan: Although it has not expressed an intent to do so, the Company has the right to discontinue its contributions and terminate the Plan subject to the provisions of ERISA. In the event the Plan is discontinued, the Plan's assets will be distributed to participants in accordance with the Plan's provisions and subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in their accounts.

NOTE 3 - INVESTMENTS - UNAUDITED INFORMATION

NOTE 4 - FEDERAL INCOME TAX STATUS

Effective January 1, 2009, the Plan adopted a prototype plan document issued by the Newport Retirement Services LLC. The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan was amended from the prototype plan document and, therefore, Plan management elected to request a determination letter. The Internal Revenue Service has determined and informed the Company by a letter dated July 7, 2010 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. At December 31, 2009 and 2008, the Plan held investments in mutual funds managed by Black Rock, an affiliate of Merrill Lynch, investment advisor, totaling \$749,759 and \$740,691, respectively. These qualify as party-in-interest investments. The Plan also holds party-in-interest investments in the form of participant loans at December 31, 2009 and 2008 of \$236,688 and \$188,832, respectively. During 2009 and 2008, the Plan paid administrative expenses of \$7,928 and \$7,441, respectively, to the Newport Retirement Services, Inc., the third party administrator, which qualifies as a party-in-interest transaction. Certain professional fees related to the administration and recordkeeping of the Plan were paid by the Company on behalf of the Plan.
