December 31, 2009

1. Description of Plan

The participants of American Commercial Lines LLC 401(k) Plan (the Plan) include certain employees of American Commercial Lines LLC (ACL) and other subsidiaries of ACL's parent. The Plan was re-stated effective January 1, 2009. The changes made with the re-statement included the required changes under the Pension Protection Act of 2006 (PPA) and the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) and other minor changes that had no significant impact on the Plan.

Following are recent changes and amendments to the Plan prior to the re-statement.

- Effective January 1, 2008, the Plan was amended to allow the hourly bargained employees of Jeffboat LLC to be considered Eligible Employees for Actual Deferral Percentage (ADP) Safe Harbor Matching Contributions.

- Effective January 1, 2008, the Plan was also amended to modify the definition of Eligible Employees – Ineligible Classes, to clarify the exclusion of seasonal, part-time and temporary employees that do not meet specific conditions from participation in the Plan.

- Effective April 1, 2008 through July 31, 2008, the Plan was amended to allow the hourly bargained employees of ACL Transportation Services LLC to be considered eligible Employees for ADP Safe Harbor Matching Contributions. This change was only effective for a short period of time as it was subject to collective-bargaining negotiations.

- On August 29, 2008, the Klenk Companies/Summit Environmental Services 401(k) Plan was merged into the Plan. This change allowed non-bargained employees of Summit Environmental Services to participate in the Plan, thereby increasing the number of eligible participants and the total value of assets. The merger included a single, fair value transfer of $876,210 in assets.

On November 30, 2009, Summit Contracting LLC, a subsidiary of ACL's parent, was sold and as a result, the employees of Summit Contracting LLC and its subsidiaries were no longer eligible to participate in the Plan. On March 15, 2010 the assets of the employees of Summit Contracting LLC and its subsidiaries were transferred from the Plan (see Note 9).

1. Description of Plan (continued)

The following description of the Plan provides only general information. For a more comprehensive description of the Plan's provisions, participants should refer to the Summary Plan Description which is available from the ACL Benefits Department.

General

The Plan is a defined contribution plan covering full-time employees of ACL and affiliated companies (the Company or the Employer) who have completed 30 days of service (90 days for hourly bargained employees of Jeffboat LLC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Contributions

Participants may elect to contribute 1% to 50% of their compensation, as defined by the Plan. Participant contributions are made on a pretax basis within the limits imposed by the Internal Revenue Code (the Code) in any of the permitted investment alternatives. Participants may revise investment direction at any time during the year.

Employer Contributions

Employer matching contributions are 100% of participant contributions that do not exceed 3% of compensation and 50% of participant contributions that exceed 3% but do not exceed 5% of compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution, their portion of the employer contribution, and allocations of plan earnings and expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. All amounts in participant accounts are participant-directed.

1. Description of Plan (continued)

Investment Options

Upon enrollment in the Plan, a participant may direct contributions to any of the various investment fund options offered under the Plan. Participants may change their investment options at any time. Company contributions are allocated based on the participants' investment elections.

Vesting, Withdrawals and Distributions

Participants are immediately vested in their contributions plus actual earnings thereon, and employer matching contributions and discretionary contributions plus actual earnings thereon.

Upon separation from service with the Company due to death, disability, retirement or termination, a participant whose vested account balance exceeds $1,000 may elect to keep their vested account balance in the Plan, receive a lump-sum distribution or receive installment payments on a monthly, quarterly, semi-annual or annual basis. A participant whose vested account balance is $1,000 or less and has not commenced receiving installment payments will automatically receive an immediate lump-sum distribution equal to their vested account balance.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, reduced by the highest outstanding loan balance in the previous 12 months, or 50% of their vested account balance. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate as reported in *The Wall Street Journal* on the first business day of the month, plus 1%. Principal and interest are paid ratably quarterly or more frequently through payroll deductions.

1. Description of Plan (continued)

Administrative Expenses

Administrative expenses for administration, investment advice, and other services are principally paid by the Plan. The Plan is not charged for administrative services performed on its behalf by the Employer.

Plan Administration

The Company is the Plan Administrator. T. Rowe Price Trust Company is the Plan's Trustee.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting.

Investments

The Plan's investments are stated at fair value. Securities traded on a national security exchange are valued at the last reported sales price on the last business day of the plan year. The mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The fair value of the participation units owned by the Plan in the collective trusts is based on quoted redemption values on the last business day of the plan year. Fully benefit-responsive investment contracts included in collective trusts are valued at fair value, but are adjusted to contract value as described below. The participant loans are valued at their outstanding balances, which approximate fair value. All securities transactions of the Plan are traded in an active market and are recorded as of the trade date.

2. Significant Accounting Policies (continued)

The TRP Stable Value Fund invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 3); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended FASB Statement No. 157 (codified as ASC 820) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events,* which was codified into ASC 855, *Subsequent Events,* to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

2. Significant Accounting Policies (continued)

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009 and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 4 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits**.**

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements,* (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

3. Investments

The fair value of all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2009 and 2008, and net appreciation in fair value of investments, interest, and dividends for the year ended December 31, 2009, was obtained or derived from information supplied by the plan administrator and certified as complete and accurate by T. Rowe Price Trust Company, the trustee of the Plan. The contract value of the T. Rowe Price Stable Value Fund was also certified as complete and accurate by the T. Rowe Price Trust Company.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1– Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2– Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3– Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

When available, quoted market prices are used to determine fair value and such measurements are classified within Level 1. If market prices are not available, observable market-based inputs are used to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon the Plan's measurements of fair value and such measurements are classified as Level 3. The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 2009

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	Participant Loans

5. Income Tax Status

The underlying nonstandardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2008-6 and 2005-16, the plan sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes that the Plan has been designed to comply with the requirements of the Code and has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Related Party Transactions

The Plan holds units of common/collective trust funds managed by T. Rowe Price Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

8. Differences Between Financial Statements and Form 5500

The following is a reconciliation of net assets available for benefits determined per the financial statements to the Form 5500:

	December 31	
	2009	**2008**
Net assets available for benefits per the financial statements	**$ 91,107,240**	$ 68,466,680
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	**249,542**	(77,424)
Net assets available for benefits per the Form 5500	**$ 91,356,782**	$ 68,389,256

The following is a reconciliation of the net appreciation in fair value for collective trusts, per the financial statements to total income per the Form 5500:

	Year Ended December 31, 2009
Dividends: Collective trusts per the financial statements	$ 325,768
Net appreciation in fair value of investments: collective trusts per the financial statements	122,613
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	326,966
Net investment loss from common/collective trusts per the Form 5500	$ 775,347

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 8, 2010, the date the financial statements were available to be issued and identified the following event. On November 30, 2009, Summit Contracting LLC, a subsidiary of ACL's parent, was sold and as a result, the employees of Summit Contracting LLC and its subsidiaries were no longer eligible to participate in the Plan. On March 15, 2010, the assets in the participant accounts of the employees of Summit Contracting LLC were transferred from the Plan. The fair value of these assets was $909,708.
