NOTE 1. PLAN DESCRIPTION

The following description of the Keyes Motors, Inc Profit Sharing Plan (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees who are employed by Keyes Motors, Inc. (the "Company", the "Employer", and the "Plan Sponsor"), and participating employers, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan consists of participants' deferrals and Company matching and discretionary contributions in accordance with Section 401(k) of the Internal Revenue Code ("IRC").

Participation

For employee contributions, participants must have attained 21 years of age and have completed one year of service. For Company contributions, participants must also be employed on the last day of the Plan year.

Contributions

As defined by the Plan, participants are permitted to make self-directed contributions of 1 percent to 15 percent of their compensation, subject to certain limitations under the IRC. Participants direct the investment of their contributions into various investment options offered by the Plan. After-tax Roth elective deferrals are also permitted by the Plan.

The Plan provides for discretionary matching Company contributions, qualified non-elective contributions ("QNEC"), qualified matching contributions ("QMAC"), and discretionary profit sharing contributions. For the year ended December 31, 2009, the Company matched 25% to employees with less than 3 years of service, not to exceed $3,500, 50% to employees with 3 to 7 years of service, not to exceed $7,000, and 100% to employees with over 7 years of service, not to exceed $14,000. For the year ended December 31, 2009, the Company made matching contributions of $1,264,288, net of $233,612 in forfeitures. No other Company contributions were made for the year ended December 31, 2009.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, and Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses, if applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. PLAN DESCRIPTION (Continued)

Vesting

Participants are vested immediately in their contributions, QNEC's and QMAC's plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. Participants are vested in Company contributions at 10 percent after 1 year of service, 20 percent after 2 years of service and an additional 20 percent each year thereafter until 100 percent vested upon 6 years of service.

Forfeitures

Forfeitures not used to pay administrative expenses will be used to reduce future Company matching contributions. During the year ended December 31, 2009 forfeitures of $24,770 were used to pay administrative expenses and forfeitures of $233,612 were used to reduce Company matching contributions. As of December 31, 2009, forfeitures of $56,536 are available for future use.

Payment of Benefits

For termination of service due to disability, retirement, or for other reasons, a participant will receive a lump-sum distribution for the value of the vested interest in their account. For termination of service due to death, a participant's beneficiary may elect to receive either a lump-sum distribution or installment payments over a specified period of time for the value of the vested interest in their account as defined by the Plan.

Administrative Expenses

Certain administrative expenses incidental to the administration of the Plan, including fees of the administrative agent may be paid by the Plan. Expenses not paid by the Company are paid by the Plan.

Most investment options have management fees that reduce the overall return on assets. The net appreciation of investments is reflected inclusive of these fees.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America, primarily from data provided by Charles Schwab Trust Company (the "Trustee").

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Money market, common collective trusts, and mutual funds are reported at fair value and participant loans are stated at the unpaid principal amount which approximates fair value. The investments and changes therein of the trust funds have been reported to the Plan by the Trustee using fair value.

Investments are valued daily. Interest income is recognized on the accrual basis. Dividend income, if any, is included in net appreciation of investments.

Concentration of Risk

The Plan's investments have exposure to risk to the extent that the investments are subject to market and interest rate fluctuations that may materially affect the value of the investment balances.

Benefits Payable to Participants

Benefits are recorded when paid.

Fair Value

The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value measurement hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable. The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value (Continued)

Money Market Fund – This is a cash equivalent priced at par and classified as Level 1 within the valuation hierarchy.

Mutual Funds – This category consists of publicly traded funds of registered investment companies. The net asset value of the mutual fund's shares is quoted on the exchange where the fund is traded and therefore classified as Level 1 within the valuation hierarchy.

Common Collective Trust – The fair value of underlying assets, which included investments in trust funds, stable value funds, unitized accounts, collective trust and mutual funds, is determined using a combination of readily available most recent market bid prices in the principal markets where such funds and securities are traded, pricing services that use valuation matrices incorporating dealer supplies valuations and valuation models, valuation inputs such as structure of the issue, cash flow assumptions and the value of underlying assets and guarantees. The fair value of the common collective trust equals the total of the fair value of the underlying assets and is classified as Level 2 within the valuation hierarchy.

Participant Loans - Participant loans are valued at their unpaid principal amount which approximates fair value and are classified as Level 3 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:
