Note 1 - Description of the Plan and Significant Accounting Policies

The following description of East West Resorts, LLC 401(k) Savings and Retirement Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1990, as amended. The Plan is available to employees age 18 years or older. Eligible employees may enter the Plan January 1, April 1, July 1, or October 1. Eligible employees from any companies which are acquired by East West Resorts, LLC (the "Company") may enter the Plan on the day of acquisition or the first day of the month after an employee has satisfied eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of the Company serves as trustee and administers the Plan. Standard Insurance Company ("Standard") serves as custodian, manages Plan assets, and maintains the Plan's records. Standard offers Plan participants a variety of investment options through a guaranteed interest account and various pooled separate accounts. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Annual participant contributions are limited by the Internal Revenue Service ("IRS") to a maximum contribution, as adjusted annually by the Secretary of the Treasury for inflation. The Plan also permits rollover contributions from other qualified retirement plans. Additional catch-up contributions are available to any participant who is age 50 or older and has made the maximum contributions for the year. Participant contributions to the Plan are made through regular payroll deductions. Participants may change their elective deferral contributions at any time during the Plan year. All newly eligible participants are automatically enrolled to participate in the Plan at a deferral rate equal to 2% of compensation as specified in the Plan document, unless they elect not to participate or have a specified amount deferred as an elective contribution to the Plan.

The Company provides a discretionary match of 25% of up to 6% of compensation contributed to the Plan during every payroll period. For the year ended December 31, 2009, the Company made discretionary matching contributions totaling $140,391, of which $4,431 was accrued and paid after year-end.

Participants' Accounts

Each participant's account is credited with the participant's contributions, an allocation of the Company's matching contribution, if applicable, and Plan earnings or losses based upon account balances, as defined in the Plan document. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions and allocated earnings or losses thereon.

Any employer contributions and the earnings or losses thereon will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	40%
2	70%
3 or more	100%

A participant's account becomes 100% vested upon death, total and permanent disability, attaining normal retirement age (the age of 60), or if the Plan is terminated. Additionally, any transfers received by the Plan from an outside plan as a result of acquisition are 100% vested and not subject to forfeiture at any time.

Participant Loans

Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. A participant may have only one loan outstanding at one time; however, they may have one additional loan outstanding for a principal residence. The maximum loan repayment period is five years, with the exception of loans for a principal residence which may be repaid over a maximum of ten years. The loans are collateralized by the vested balance in the participant's account and bear interest at rates that ranged from 3.25% to 8.25% at December 31, 2009 which were established at the time of origination of the loan as determined by the Plan administrator. Principal and interest is paid ratably through regular payroll deductions with maturity dates between August 2011 and December 2017.

Payment of Benefits

Upon retirement, early retirement at age $59^{1/2}$, disability, death, or termination of employment, a participant may receive payment in the amount equal to the participant's vested account balance within a reasonable period of time after termination of employment. Benefit payments are made in the form of a lump-sum distribution if less than $5,000, which the participant may elect to receive as a cash distribution or roll it over to another qualified retirement plan or Individual Retirement Account ("IRA"), or if the participant makes no such election, the Plan may automatically distribute the balance to an IRA on their behalf. If a participant's vested account balance exceeds $5,000, such balances may remain invested in the Plan or benefits may be paid in the form of periodic partial payments or a lump-sum as elected by the participant. Benefits are recorded when paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Payment of Benefits (continued)

Participants may also receive a lump-sum payment for financial hardship (as defined in the Plan document) in an amount not to exceed the amount necessary to satisfy the immediate need, and cannot exceed the total amount of the individual's participant contributions, excluding interest and earnings. In accordance with IRS regulations, participants receiving a hardship withdrawal will be suspended from making elective deferral contributions for a period of six months after receipt of the hardship withdrawal.

Forfeitures

If, at the time of termination of employment, the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Funds allocated to the Plan's forfeiture account shall be allocated to offset Plan sponsor expenses or future Company contributions. The Plan held unused forfeitures of $3,597 and $7,738 at December 31, 2009 and 2008, respectively. Forfeitures of $9,685 were used to reduce Company contributions during 2009.

Investment Valuation and Income Recognition

The assets of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. Plan assets are comprised of pooled separate accounts, a guaranteed interest account, and participant loans. Plan investments in pooled separate accounts are valued on a per unit market value basis as determined by the Plan custodian based on quoted market prices which reflect the fair value of the investments comprising the separate funds (market approach). Investments in the guaranteed interest account under the group annuity contract are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (market approach and income approach). Participant loans are based on cost plus accrued interest which approximates fair value (cost approach).

The guaranteed interest account is under a group annuity contract with Standard. Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The average yield was approximately 3.50% during the year ended December 31, 2009, and the crediting interest rate was approximately 3.48% at December 31, 2009.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between the fair value at the beginning of the year (or date of purchase if purchased during the year) and the fair value at the end of the year (or selling price if sold during the year). Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Fair Value Accounting

The Plan applies fair value accounting standards which establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value measured on a recurring basis as of December 31, 2009 and 2008.

As of December 31, 2009:

Description	Level 1	Level 2	Level 3	Total

Fair Value Accounting (continued)

The following is a reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended December 31, 2009:

	Guaranteed Interest Account	Participant Loans	Total
Beginning balance	$ 738,548	$ 40,642	$ 779,190
Interest	32,163	2,179	34,342

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investments. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Additionally, some assets held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Administrative Expenses

The Company pays certain expenses for operating and maintaining the Plan.

Subsequent Events

The Company has evaluated subsequent events through the report date, September 1, 2010, the date the financial statements were available to be issued.

Note 2 - Investments

Standard has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2009 and 2008 and the income earned on the investments for the year ended December 31, 2009, as reflected in the accompanying financial statements and supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the custodian except for comparing the information contained therein to information included in the financial statements and supplemental schedule of assets (held at end of year).

Included in investments at fair value were the following:

* Indicates the fair value of investments greater than 5% of net assets available for benefits, at respective date.

Note 3 - Excess Contributions Payable

Contributions received from participants for 2009 are net of payments of $46,878 made in March 2010 to certain active participants to return excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Excess contributions are included in the accompanying statements of net assets available for benefits as excess contributions payable at December 31, 2009 and 2008, respectively.

Note 4 - Income Taxes

The Plan obtained its last determination letter on July 17, 2002, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the Company believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC; therefore, no provision for income taxes has been included in these financial statements.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan document to terminate the Plan at any time subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or their beneficiary.

Note 6 - Party-in-Interest Transactions

Certain Plan investments are pooled separate accounts and a guaranteed interest account managed by Standard. Standard is the asset custodian, as defined in the Plan document, and therefore, these transactions qualify as party-in-interest. These transactions are exempt from the prohibited transaction regulations.

Note 7 - Reconciliation to Form 5500

The change in net assets available for benefits for the year ended December 31, 2009 for financial reporting purposes is different than amounts shown on the Plan's Form 5500 due to a participant loan of $960 being reported as a deemed distributed loan for 2008 Form 5500 reporting purposes but continuing to be reported as an outstanding loan for financial reporting purposes until recorded as a 2009 distribution.
