401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2009

NOTE 1 – Description of the Plan

The following description of the ReBas, Inc. dba Toyota Lift of Los Angeles (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees who have completed six months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to sixty percent of their eligible compensation up to the maximum amount allowed by law. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers numerous mutual funds and a money market fund as investment options for participants. Just prior to December 31, 2009, the Plan changed the Plan trustee to Sentry Life Insurance Company (Sentry) from Fidelity Management Trust Company (Fidelity). With Sentry, the Plan offers pooled separate accounts and an unallocated contract as investment options for participants. The Company made a nondiscretionary matching contribution to the Plan in an amount equal to fifty percent of the participant's contribution subject to a maximum four percent of the participant's eligible compensation through March 2009. Effective March 16, 2009, the Plan was amended to change the matching contribution to a discretionary matching contribution calculated each calendar month. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – Description of the Plan (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is vested twenty-five percent after one year, fifty percent after two years, seventy-five percent after three years, and 100 percent after four years of credited service.

Participant Loans

Participants may borrow from their fund a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or fifty percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at seven percent which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of services due to death, disability, retirement, or other reasons, a participant or beneficiary will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

The Plan also provides for in-service withdrawals in case of a severe financial hardship as defined by the Plan agreement.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $347 and $0, respectively. During 2009, the Company's administrative expenses were reduced by $392 from forfeited nonvested accounts.

NOTE 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Basis of Presentation of Financial Statements

In June 2009, the Financial Accounting Standards Board (FASB) established the Accounting Standards Codification (Codification) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in accordance with generally accepted accounting principles (GAAP). Existing GAAP is not intended to be changed as a result of the Codification and, accordingly, the change did not impact the Plan's financial statements. The Codification does change the way the guidance is organized and presented.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds, pooled separate accounts, a money market fund, and an unallocated contract are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 – Summary of Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2010, the date the financial statements were available to be issued.

NOTE 3 - Investments

The Plan's investments are held by Fidelity Management Trust Company (Fidelity) and Sentry Life Insurance Company (Sentry), the trustees of the Plan. Investments that represent five percent or more of the Plan's net assets are separately identified as follows:

	December 31,	
	2009	2008

During 2009, the Plan's investments in mutual funds and pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $386,729 as follows:

Mutual funds	$ 386,753
Pooled separate accounts	(24)
	$ 386,729

NOTE 4 – Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 – Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds, pooled separate accounts and money market fund: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

Unallocated contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - Fair Value Measurements (Continued)

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009

Purchases/(sales), issuances and settlements (net)	$ 46	(21,959)
Balance, end of year	$ 46	$ 59,555

NOTE 5 – Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity and pooled separate accounts managed by Sentry. Fidelity and Sentry are the trustees, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Fidelity for administrative services amounted to $1,709 for the year ended December 31, 2009.

NOTE 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time or to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 7 – Tax Status

The Company adopted a Prototype Non-Standardized Profit Sharing 401(k) Plan, which received a favorable opinion letter on its most recent amendments from the Internal Revenue Service on October 9, 2003. The letter stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
