Montpelier Station, VA

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audit of the accompanying financial statements of The Montpelier Foundation Tax Deferred Annuity Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statements of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of The Montpelier Foundation Tax Deferred Annuity Plan's financial statements performed in accordance with ERISA section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Montpelier Foundation TDA Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Montpelier Foundation TDA Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Montpelier Foundation TDA Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Montpelier Foundation TDA Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Part IV, line 4i – Schedule of Assets Held (At End of Year) for the year ended December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplement schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2024 Financial Statements

The 2024 financial statements of The Montpelier Foundation TDA Plan were audited by predecessor auditors. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 15, 2025 indicated that (a) the amounts and disclosures in the 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2024 supplemental schedule, other than the information in the 2024 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2024 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(A)(3)(C).

The Montpelier Foundation TDA Plan
Notes to Financial Statements
December 31, 2025

Note 1 - Description of Plan

The following description of The Montpelier Foundation TDA Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 403(b) tax-deferred annuity plan effective October 1, 2000, covering eligible employees of The Montpelier Foundation (the "Foundation") and Montpelier Steeplechase and Equestrian. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was restated effective January 1, 2019. The Plan is intended to satisfy the applicable requirements of Section 403(b) of the Internal Revenue Code (IRC).

Contributions

Employees may contribute to the Plan through elective deferrals, subject to applicable IRC limits. Participants may make Roth contributions, and those who have attained age 50 before the end of the Plan year may be eligible to make catch-up contributions, subject to applicable IRC limits. The Plan includes an automatic enrollment provision whereby eligible employees are automatically enrolled unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation, with contributions invested in a designated balanced fund until changed by the participant. The deferral rate increases by 1% annually, not to exceed 10%, in accordance with the Plan's provisions. Eligible distributions from other qualified retirement plans may be rolled over into the Plan.

The Plan provides for an employer safe harbor matching contribution equal to 100% of a participant's elective deferrals up to 4% of the participant's eligible compensation. The safe harbor matching contribution is calculated each payroll period. Eligible employees may begin making elective deferrals on their date of hire, subject to the Plan's provisions.

In addition to the safe harbor matching contribution, the employer may make an additional discretionary matching contribution. The amount and method of the additional matching contribution are determined by the employer, subject to the Plan's provisions. The additional matching contribution may be based on a uniform percentage or dollar amount of a participant's elective deferrals for each payroll period. Elective deferrals exceeding 6% of a participant's compensation are not eligible for the additional discretionary matching contribution, and the additional match is subject to the Plan's applicable limits. Eligibility for matching contributions other than the safe harbor matching contribution is subject to the Plan's service requirements.

The employer may also make discretionary nonelective contributions. The amount of any such contribution is determined by the employer. Eligibility generally requires a participant to be employed on the last day of the Plan year and to have completed at least 1,000 hours of service during the Plan year, subject to the Plan's specific eligibility provisions. Special provisions apply to employees who normally work fewer than 20 hours per week.

Contributions are subject to applicable IRC limitations and the provisions of the Plan. Participant elective deferrals and employer contributions are recorded in the year in which the related participant compensation is earned..

Participant accounts

Each participant's account is credited with the participant's contributions, the employer's safe harbor matching contributions, any additional discretionary matching contributions, any discretionary nonelective contributions, rollover contributions, and an allocation of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participants' earnings, account balances, or specific participant transactions, as defined by the Plan. All participant accounts are 100% vested. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment options

Upon enrollment in the Plan, participants may direct the custodian of the Plan as to the investment of their account balances in accordance with guidelines established by the Plan.

Note 1 - Description of Plan (continued)

Participant Loans

Participant loans are available under the Plan. Participants may borrow a minimum of $1,000 up to the lesser of $50,000, reduced by the excess, if any, of the highest outstanding loan balance during the one-year period ending on the day before the loan is made over the outstanding loan balance on the date of the loan, or 50% of the participant's vested account balance. Loan proceeds are funded by Plan assets and are included as notes receivable in the Plan's financial statements. Loans are subject to the Plan's repayment provisions and applicable IRC limitations.

Vesting

Participants are 100% vested in all contributions plus actual earnings thereon.

Payment of benefits

Upon termination of employment, a participant is entitled to receive the vested value of their account. Benefits may be paid in a lump sum, subject to the Plan's provisions. The Plan also permits other forms of payment, including installments or annuity payments, where applicable under the Plan. If a participant's account balance does not exceed $5,000, the Plan administrator may authorize a lump-sum distribution without the participant's consent, subject to the Plan's provisions. In-service withdrawals at age 59½ and hardship distributions are permitted, subject to applicable Plan requirements and limitations.

Note 2 - Summary of Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with generally accepted accounting principles in the United States.

Investment valuation and income recognition

The Plan's investments are recorded at fair value, except for fully benefit-responsive investment contracts, which are recorded at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Registered investments are valued at readily traded market value. Units of common collective trusts and pooled separate accounts are valued at net asset value, which is based on the quoted prices of the underlying assets. The Plan's interest in the Stable Return Fund common collective trust and Principal's insurance company general accounts are valued at contract value, depending on the contract. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net change in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as those held during the year.

As described under FASB ASC 962-325-35, Plan Accounting – Defined Contribution Pension Plans, the Plan values fully benefit-responsive contracts at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Notes receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued unpaid interest. Delinquent participant notes are classified as distributions based upon the terms of the plan document. Interest income on participant notes receivables is recognized in the period in which it is earned and is recorded as interest income on the statements of changes in net assets available for benefits.

The Montpelier Foundation TDA Plan
Notes to Financial Statements
December 31, 2025

Note 2 – Summary of Accounting Policies (continued)

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the employer. Expenses paid by the employer are excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Credit risk

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 3 - Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 3 - Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025. The presentation of investments valued based on the net asset value per share practical expedient has changed in accordance with accounting standard update ASU 2015-07.

Mutual funds: Valued at the closing price reported on the active market on which the securities are traded.

Pooled separate accounts – Net asset value as reported by the investment manager based on the value of the underlying assets is the practical expedient.

Insurance company general account – Net asset value of insurance company general accounts are obtained from the insurance company and are based on quoted prices and account balances of the underlying assets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2025 and 2024:

		Fair Value Measurement Using:		
	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2025				
Mutual funds	$ 6,282,273	$ 6,282,273	$ -	$ -
Other investments valued at net asset value	268,342		-	-
Total investments	$ 6,550,615	$	$ -	$ -

Note 3 - Fair Value Measurements (continued)

Investments measured at net asset value above are presented using the net asset value per share practical expedient. In accordance with ASU 2015-07 and Subtopic 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Investments measured using the net asset value per share practical expedient

The following table summarizes investments for which fair value measured using the net asset value per share practical expedient as of December 31, 2025 and 2024. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
December 31, 2025				
Pooled separate accounts	$ 25,286	n/a	Daily	Daily
Insurance company general account	166,672	n/a	Daily	Daily
	$ 191,958			
December 31, 2024				
Pooled separate accounts	$ 24,774	n/a	Daily	Daily
Insurance company general account	163,250	n/a	Daily	Daily
	$ 188,024			

Note 4 – Investment in insurance company general account

The Plan has a benefit-responsive investment contract in an insurance company general account. The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. When participants allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the applicable declaration year, which begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. The crediting interest rate was 3% at December 31, 2025 and 2024. Lump-sum withdrawals are available within 120 days of termination of employment and are subject to a 2.5% surrender charge. All other withdrawals and transfers from contracts must be spread over ten annual installments, or five annual installments for withdrawals after termination of employment. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in net assets available for benefits. The contract value of the benefit-responsive portion was $64,934 and $79,568 at December 31, 2025 and 2024, respectively. The Plan Loan Default Fund, which represents collateral associated with defaulted participant loans, is also classified as a benefit-responsive investment contract in an insurance company general account.

The Montpelier Foundation TDA Plan
Notes to Financial Statements
December 31, 2025

Note 4 – Investment in insurance company general account (continued)

The Plan has a guaranteed income account, the Principal Fixed Income Guaranteed Option. The account is included in the financial statements at contract value as reported by the Plan. The contract value of the guaranteed income account was $11,450 at December 31, 2025. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan. The crediting rate at December 31, 2025 was 4.75% and is scheduled to reset in June 2026. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the Plan's ability to transact at contract value. Such events include: (a) amendments to the Plan documents, including complete or partial Plan termination or merger with another plan; (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (c) bankruptcy of the Plan sponsor or other Plan sponsor events, such as divestitures or spin-offs of a subsidiary, that cause a significant withdrawal from the Plan; or (d) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

Note 5 – Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 6 – Tax Status

The Internal Revenue Service is currently not issuing determination letters on 403(b) plans. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2025, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audit by taxing jurisdictions; however, there are currently no audit or any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2022.

Note 7 – Party-In-Interest Transactions

Plan investments are managed by TIAA-CREF and Principal, which are the custodians as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred and paid directly by the Plan for investment management services were $14,227 for the year ended December 31, 2025. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 8 – Financial Information Certified by the Custodian of the Plan

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2025, and net appreciation (depreciation) in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, Principal Trust Company, and American United Life Insurance Company (the trustees of the Plan).
