The Comprehensive Group
401(k) Retirement Plan
Notes to Financial Statements
December 31, 2009

Note (1) Description of Plan

The following description of the The Comprehensive Group 401(k) Retirement Plan (the "Plan"), formerly known as the Comprehensive Therapeutics, Ltd. 401(k) Retirement Plan, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. In 2008, the Plan included the employees of Comprehensive Therapeutics, Ltd. and Comprehensive Rehabilitation, Ltd., which were related through common ownership. In 2009, they are known as The Comprehensive Group ("Company").

A. General

The Plan is a defined contribution plan covering all employees of the Company who are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's original effective date was January 1, 1993.

B. Contributions

Each year, participants may contribute up to IRS statutory maximums of pretax or after-tax (Roth 401(k)) annual compensation, as defined in the Plan. Participants who have attained age 50 during the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds as investment options for participants. The Company's matching contribution is $.40 for every dollar deferred by the participant up to 5% of compensation. Additional profit sharing contributions may be contributed at the discretion of the Companies' Board of Directors. There was not a profit sharing contribution for the year ended December 31, 2009.

Note (1) Description of Plan - Continued

C. Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching and profit sharing contributions, self directed plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

D. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and matching contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 100 percent vested after two years of credited service.

E. Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through biweekly payroll deductions.

F. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in installments over a specified period. For termination of service due to other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution.

Note (1) Description of Plan - Continued

G. Forfeited Accounts

Forfeited balances of terminated participants' nonvested accounts are first used to pay administrative expenses of the Plan. At December 31, 2009 and December 31, 2008, there were $1,956 and $47 of forfeitures available.

H. Administrative Expenses

Administrative expenses of the Plan are paid by the Plan Sponsor. Expenses attributable to distributions, loans received and investment advisory services are paid by the Plan participants.

Notes to Financial Statements
December 31, 2009

Note (2) Summary of Significant Accounting Policies

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

B. Accounting Standards Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles - a replacement of FASB Statement No. 162". This standard establishes the FASB Standards Accounting Codification ("Codification") as the source of authoritative accounting principles generally accepted in the United States of America ("U.S. GAAP") recognized by the FASB to be applied to nongovernmental entities. The Codification supersedes all of the existing accounting and reporting standards, but is not intended to change or alter existing U.S. GAAP. The Codification changes the references of financial standards within the Company's financial statements. All references made to U.S. GAAP use the new Accounting Standards Codification ("ASC") and the Codification numbering system prescribed by the FASB. For ease of transition, the former references of referring to the specific accounting principles will be shown parenthetically.

B. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. While actual results may differ from those estimates, management does not expect the differences, if any, to have a material effect on the financial statements.

Note (2) Summary of Significant Accounting Policies - Continued

C. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note (4) for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

D. Payment of Benefits

Benefits are recorded when paid.

Note (4) Fair Value Measurements

FASB Statement No. 157 ("FAS 157"), *Fair Value Measurements,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FAS 157 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology including the following: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant Loans: Valued at amortized cost, which approximates fair value.

Note (4) Fair Value Measurements - Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 4,828,615	$ 0	$ 0	$ 4,828,615
Participant Loans	0	0	36,448	36,448
Total Assets at Fair Value	**$ 4,828,615**	**$ 0**	**$ 36,448**	**$ 4,865,063**

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2008:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 3,296,979	$ 0	$ 0	$ 3,296,979
Participant Loans	0	0	34,640	34,640
Total Assets at Fair Value	**$ 3,296,979**	**$ 0**	**$ 34,640**	**$ 3,331,619**

The following table sets forth a summary of changes in fair value of the plan's level 3 assets for the year ended December 31, 2009:

	Participant Loans
Balance - Beginning of Year	$ 34,640
Realized Gains/(Losses)	0
Unrealized Gains/(Losses) Relating to Instruments still held at the Reporting Date	0
Purchases, Sales, Issuances, and Settlements (Net)	1,808
