NESTLÉ INVESTMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(1) Description of the Plan

The following description of the Nestlé Investment Savings Plan (Plan) is provided for general information only. Participants should refer to the plan document for more complete information.

(a) General

The Plan was established effective July 2, 2007, as the Nestlé Investment Savings Plan. The Plan is a defined contribution plan covering substantially all salaried employees and certain hourly employees of the businesses acquired by Nestlé S.A. from Novartis AG. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and was established to assist employees in providing security for their retirement by the adoption of a retirement savings program.

The affiliate locations participating in the Plan are Nestlé Nutrition – Medical Nutrition, Nestlé Nutrition – Infant Nutrition, Gerber Life Insurance Company or any other affiliate of Nestlé Holdings, Inc. that is the successor to Novartis Nutrition Corporation, Gerber Products Company, or Gerber Life Insurance Company and conducts the U.S. Medical Nutrition Business, U.S. Gerber Products Business, or the U.S. Gerber Life Insurance Business (Company).

On December 31, 2009, the salaried and certain hourly participant account balances and outstanding loans in the Nestlé Investment Savings Plan were transferred to the Nestlé 401(k) Savings Plan and the Nestlé USA, Inc. Hourly Retirement Savings Plan according to the applicable supplemental or adoption agreement. The plan to plan transfer amounts to the Nestlé 401(k) Savings Plan and Nestlé USA, Inc. Hourly Retirement Savings Plan associated with this agreement were \$71,091,989 and \$15,629,849, respectively.

(b) Eligibility

Any employee of the Company who was a participant in an existing savings plan sponsored by the business acquired by Nestlé S.A. from Novartis AG automatically became a participant under the Plan on the adoption date. Those employees were automatically enrolled in the Plan with the same contribution rate elections as they had under their existing savings plan. Covered employees hired after the adoption date become eligible to participate in the Plan after meeting the eligibility requirements set forth in their plan document and respective company's adoption agreement by which they are covered.

Certain employees will be automatically enrolled in the Plan approximately 30 days after they become eligible if they do not log on to the recordkeeper's web site or call the recordkeeper's call center to voluntarily enroll or decline enrollment. Employees who are enrolled automatically will have a contribution rate of 4%, invested 100% in Pre-set Portfolio 60. Employees may decline auto enrollment within 30 days of the date appearing on their Automatic Enrollment Notification.

(c) Contributions

The Plan provides for contributions by employees. The plan document and respective adoption agreements provide for matching contributions by the Company based on percentages of employee contributions. The contributions from both the employees and the Company are limited to the maximum amount deductible under the Internal Revenue Code (IRC).

NESTLÉ INVESTMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2009 and 2008

Each participating employee elects to enter into a telephonic or electronic agreement with the Company, thereby contributing to his or her account a percentage of eligible compensation. Employee contributions may be made on a before-tax basis. The participants designate a total of combined before-tax percentages between 1% and 25% of their annual eligible compensation as their elective contribution (subject to IRC limitations of \$16,500 and \$15,500 in 2009 and 2008, respectively). Once the participant reaches this limit, additional contributions continue on an after tax basis. Prior to January 1, 2009, employee contributions were made on a before tax and/or after tax basis, with participants designating a total of combined before-tax and after tax percentages between 1% and 25% of their annual eligible compensation as their elective contribution. Additionally, certain highly compensated employees were limited to a maximum after-tax contribution of 6% of eligible compensation prior to January 1, 2009.

In addition, the Company makes a retirement contribution to the Plan for certain eligible employees. The contribution is equal to 3% of eligible compensation (subject to IRC limitations). The retirement contribution based on 2009 and 2008 compensation was \$3,878,671 and \$4,322,424, respectively.

In accordance with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA), employees age 50 and older during the calendar year may elect to make up to an additional \$5,500 and \$5,000 catch-up contribution during 2009 and 2008, respectively. Catch-up contribution amounts are not eligible for Company matching contributions, except in the case of certain nonhighly compensated employees whose regular per-pay contribution is less than the maximum amount to receive the full employer match.

(d) Participant Account Balances

Participant contributions are credited to accounts established for each participant and, along with related investment gains and losses, are fully vested and nonforfeitable.

Contributions by the Company are credited to a participant's match account or a participant's retirement contribution account and, along with related investment gains and losses, become vested based upon a participant's years of service with the Company or upon reaching the normal retirement age. Participants are fully vested in their match account as specified in their plan document and applicable adoption agreement.

Forfeitures represent the nonvested portion of Company matching contributions plus earnings thereon, which are not distributable to participants who terminate employment before they are 100% vested. Forfeitures are either applied to the payment of expenses incurred by the plan administrator in connection with administering the Plan or used to reduce future employer contributions. Forfeited nonvested amounts during 2009 and 2008 totaled \$29,360 and \$11,075, respectively.

(e) Funds

The Plan provides for the establishment of investment funds, which are administered within the Nestlé in the USA Savings Trust (Master Trust) (see note 5). The Master Trust was established by the Company for the pooled investment of assets. The Master Trust investments, investment returns and plan expenses are allocated to participating plans, based on the underlying equity in each plan.

NESTLÉ INVESTMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2009 and 2008

The Company has the sole discretion to determine or change the number and nature of investment funds. The funds established under the Plan as of December 31, 2009, are as follows:

- The Core Stable Investment Fund, which is invested in bonds and real estate, with insurance contracts that “wrap” the bond and real estate investments (see note 3). The underlying investments of this fund can also be loaned out under a securities lending arrangement with the trustee, in exchange for cash collateral.
- The Core Bond Fund, which is primarily invested in a balanced mix of government securities, mortgage-backed securities, and corporate bonds
- The Core Common Stock Fund, which is primarily invested in stocks of companies contained in the S&P 500 index
- The Core International Stock Fund, which is primarily invested in stocks of non-U.S. companies
- The Core Small Company Stock Fund, which is primarily invested in stocks of smaller U.S. companies
- The Active Bond Fund, which is primarily invested in government securities, corporate bonds, and mortgage-related securities
- The Active Large Cap Value Fund, which is primarily invested in undervalued large U.S. companies
- The Active Large Cap Core Fund, which is primarily invested in stocks contained in the S&P 500 index and seeks to outperform that index
- The Active Large Cap Growth Fund, which is primarily invested in higher growth potential large U.S. companies
- The Active International Stock Fund, which is primarily invested in stocks of non-U.S. companies
- The Active Mid-Cap Stock Fund, which is primarily invested in stocks of small and mid-size U.S. companies
- The Active Small Company Stock Fund, which is primarily invested in stocks of smaller U.S. companies
- The Mutual Fund Window, which is an investment offering of retail mutual funds

Participants specify the desired allocation of their contributions (including the related Company matching contributions) to the Core and Active Funds noted above and to four Pre-set Portfolios, which contain percentages of the aforementioned Core Funds. The percentage breakdown of each of the four portfolios – Conservative, Moderate, Moderately Aggressive, and Aggressive – varies according to degrees of risk. Participants can refer to the Summary Plan Description for more detailed descriptions of each portfolio. The allocation percentages are limited to increments of 1% and may be changed daily. To the extent participants fail to direct the investment of amounts credited to their accounts, such amounts are invested in Pre-set Portfolio 60.

December 31, 2009 and 2008

(f) Distributions and Withdrawals

Distributions are due to a participant's retirement, death, total and permanent disability, or termination of employment, subject to conditions stated in the Plan. A terminated participant may elect to receive his or her distribution as a single lump-sum payment or as a partial distribution.

If a terminated participant's vested account balance is \$5,000 or less but greater than \$1,000 and he or she does not timely elect to receive his or her distribution in cash or directly roll over his or her distribution to an IRA or eligible retirement plan, the account balance will be transferred from the Plan to a Citibank Rollover Individual Retirement Account. If a participant's vested account balance is \$1,000 or less and he or she does not timely elect to roll over his or her distribution to an IRA or eligible retirement plan, he or she automatically will receive his or her total vested account balance as a single lump sum payment.

The Plan also provides for nonhardship withdrawals and hardship withdrawals, which are subject to conditions stated in the Plan.

(g) Loans

Loans of up to the lesser of 50% of a participant's vested account value or \$50,000 (less the highest outstanding loan balance in the past 12 months) may be obtained from the Plan. All loans are subject to the terms and conditions prescribed by the plan administrator in accordance with the Plan and applicable adoption agreement. Principal and interest amounts repaid are invested based upon the participants' current investment elections. Loans to participants are recorded as an asset in the Loan Fund upon transfer from the appropriate investment funds. Interest rates on the loans vary between 4.25% and 9.5% with various maturity dates between 2010 and 2036. Participant loans are valued at amortized cost and were transferred to the Nestlé 401(k) Savings Plan and the Nestlé USA, Inc. Hourly Retirement Savings Plan as part of the plan to plan transfers on December 31, 2009.

(h) Administrative Costs

All costs of administering the Plan are paid by the Company or the Plan, as determined by the Company, subject to limitations under ERISA. Expenses are allocated to the Plan based on its underlying interest in the Master Trust at the time the expense is incurred. The Plan's share of these expenses totaled \$237,732 and \$132,336 in 2009 and 2008, respectively.

(i) Plan-to-Plan Transfers

Participant accounts may be transferred between plans within the Master Trust. The plan for which the participant's account will be transferred to or from is based on the participating company to which the participant is relocating.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

NESTLÉ INVESTMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(b) Fully Benefit-Responsive Investment Contracts

The Plan follows the guidance in FASB Accounting Standards Codification (ASC) 962, *Fully Benefit-Responsive Investment Contracts*. ASC 962 requires that the statements of net assets available for plan benefits present the fair value of the Plan's investments as well as the adjustment from fair value to contract value for the fully benefit-responsive investment contracts. The statements of changes in net assets available for plan benefits is prepared on a contract value basis for the fully benefit-responsive investment contracts.

(c) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, and changes therein, and to disclose contingent assets and liabilities. Actual results could differ from these estimates.

(d) Valuation of Investments

Plan assets are held in the Master Trust, which is maintained by the State Street Bank and Trust Company (SSB), as trustee.

The Master Trust investments are stated at fair value. The Master Trust investments, investment returns, and plan expenses are allocated to participating plans based on the underlying equity of each plan in each investment fund administered through the Master Trust. All allocations are participant-directed.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Please see separate note (Fair Value Measurements) for valuation details.

Fair Value Measurements

On January 1, 2008, the Plan adopted the guidance in ASC 820, *Fair Value Measurements and Disclosures*, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant judgment. The three levels are defined as follows:

- Level 1 – Assets or liabilities that are valued based on quoted prices in active markets that are accessible at measurement date.
- Level 2 – Assets or liabilities that are not valued based on quoted prices but are priced based on valuation techniques such as pricing models, which may include observable inputs.
- Level 3 – Assets or liabilities that are based on unobservable inputs including the reporting entity's own analysis of the underlying economic data that market participants would factor into the pricing of the asset or liability.

NESTLÉ INVESTMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2009 and 2008

The valuation methodologies utilized by the Master Trust for the above investments as of December 31, 2009 and 2008, are as follows:

- (a) Exchange-traded real estate investment trusts.
- (b) Investments in fully benefit-responsive investment contracts are presented at fair value, and are adjusted to contract value in accordance with the ASC 962 (note 2(b)).
- (c) Investment in real estate funds are based on the net asset values reported to the Company and trustee on a periodic basis by the general partners of the fund. These net asset values are based on fair value of the underlying portfolio investments held by the real estate fund. These fair values are valued at appraised values plus undistributed rental and interest income. Management has used the net asset value as a practical expedient to estimate fair value of the real estate fund. For real estate investments that allow redemptions, upon notice, the funds are typically paid out on a quarterly basis, sometimes over multiple quarters. There are no gates or lock ups that would substantially impact the liquidity of the investments. Redemptions occur at fair value, which is based on the most recent net asset value prior to the redemption. The Company currently has no intention of selling any of these investments at an amount other than the net asset value.
- (d) Shares of U.S. government securities, common stocks, and registered investment companies (i.e. mutual funds) are valued at quoted market prices.
- (e) Investments in common/collective trusts are based on the net asset values. The net asset values are based upon the fair value of the quoted and/or industry market prices of the underlying securities.

(e) *Payment of Benefits*

Benefit payments to participants are recorded upon distribution of assets from the Plan.

(3) **Guaranteed Investment Contracts (GICs)**

The Master Trust holds fully benefit – responsive investment contracts, such as synthetic investment contracts (GICs) through the Core Stable Investment Fund with various third parties (i.e., insurance companies and banks). A GIC provides for a fixed return on principal over a specified period of time through wrapper contracts issued by a third party, which are backed by underlying assets owned by the Plan. All investment contracts are reset quarterly. The wrapper contracts purchased by the fund are designed to pay all participant-initiated transactions at contract value.

Contract value represents contributions made to the investment contracts, plus earnings, less participant withdrawals and administrative expenses. Fair value of the GICs generally equals the quoted market price of the underlying assets on the last business day of the plan year. The fair value of the wrapper contract for the GIC is determined using a discounted cash flow model, which considers recent rebids, as determined by recognized dealers, and the duration of the underlying portfolio.

December 31, 2009 and 2008

The value of the GICs held by the Master Trust as of December 31, 2009 and 2008, respectively, was as follows:

(1) Wrapper contracts fair value included within investments at fair value above.

The fair value of the wrapper contracts and GICs, as well as the adjustment from fair value to contract value, was allocated to the Plan based upon the Plan's underlying share of the Core Stable Investment Fund as of December 31, 2009 and 2008.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average crediting interest rate for year ended December 31, 2009 and 2008, was 4.85% and 5.49%, respectively, with the range of interest rates varying from 4.27% to 5.44% and 4.84% to 6.14% in 2009 and 2008, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero.

Certain events, such as layoffs or early retirement incentives, may limit the ability of participants to access their investments at contract value. The Company believes the likelihood of such events is not probable. There are certain scenarios in which the contract issuers may terminate the GICs and settle at an amount different from the contract value. The Plan may experience losses if the issuer becomes insolvent and cannot pay their liabilities. If the Plan is unable to find a replacement contract, and the market value of the Plan's asset pool is below contract value, there could be losses. The Plan has multiple issuers in place in order to minimize the exposure to this risk. Also, the issuer can terminate the contract if the Master Trust fails to meet the terms of the contract.

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to alter, suspend, or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participants' accounts would become fully vested and nonforfeitable. In addition, a complete distribution of the Plan's assets would be made to participants after payment of administrative and termination expenses.

(5) Investment in Master Trust (Unaudited)

The Plan began participation in the Master Trust on July 2, 2007. The Plan's proportionate interest in the investments held by the trustee is approximately 0% and 2.4% at December 31, 2009 and 2008, respectively. (6) **Trustee Certifications**

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained a certification from SSB, trustee, as of and for the year ended December 31, 2009 and 2008, that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements and notes thereto, as to investments and investment income is presented based upon those certifications.

(7) **Parties in Interest**

During 2009 and 2008, certain Plan investments were managed by SSB, the trustee, and the records of the Plan were maintained by ING, as recordkeeper. Therefore, transactions with these service providers qualify as parties in interest. The Plan's share of fees paid by the Master Trust to these parties in interest was \$98,603 and \$58,115 during 2009 and 2008, respectively.

(8) **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of invested securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for plan benefits.

(9) **Tax Status**

The Plan has not received a determination letter from the Internal Revenue Service stating that the Plan is qualified under Section 401(a) of the IRC. However, the plan administrator believes that the Plan is qualified and, therefore, the related trust is exempt from taxation.
