1. Plan Description

The following brief description of the Ridgeline Management and Facilities 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the employees of Ridgeline Management Company and Facilities (the Company). Employees are eligible to participate in the Plan following attainment of the age of 21 and completion of 500 hours of service within the first six months of employment. Employees may enter the Plan on the first day of the Plan year or the first day of the seventh month of the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan became effective on January 1, 2005 and covers all regular employees of the Company.

Contributions

Each year, participants may contribute up to the annual limit set by the Internal Revenue Code (IRC) and may also contribute amounts representing distributions from other qualified defined contribution plans. Participants over the age of 50 may contribute additional pretax catch-up contributions up to the IRC limits. These contributions shall be fully vested at all times.

The Company may make discretionary matching and profit sharing contributions. There were no Company contributions for 2009.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company contribution, if any, and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their accounts between several investment alternatives available within the Plan.

Vesting and Payment of Benefits

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are 100 percent vested in the Company contributions after three years of service.

Forfeitures

Any amounts that are not fully vested when participants terminate from the Plan are forfeited and used to offset Company contributions. There were no forfeitures for 2009.

Basis of Accounting

The Plan prepares its financial statements on the accrual basis of accounting.

2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments consist of an insurance company general account and pooled separate accounts which are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. See Note 8 for information on the fair value measurements.

Payment of Benefits

Benefits are recorded when paid. On termination of service, death, disability, or retirement a participant will receive a lump-sum amount equal to the participant's vested interest. Additionally, under certain circumstances of financial hardship a participant is allowed to withdraw funds from the Plan.

Administrative Expenses

The Company absorbs the cost of administering the Plan, other than custodian fees.

3. Investments

At December 31, investments that represent 5 percent or more of the Plan's net assets are as follows:

	2009	2008
Symetra Life Fixed Account	$ 9,002	$ 7,203
Franklin US Government Fund	7,176	5,408
Franklin Small Cap Value Fund	6,636	2,868
Fidelity Contra Fund	6,246	2,686
Dreyfus Appreciation Fund	4,802	2,687
Pioneer Emerging Markets Fund	6,093	2,193
Pioneer High Yield Fund	6,311	2,598
Templeton Developing Markets Fund	5,488	2,154
American Century Value Fund	5,976	2,966

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $19,168 in 2009.

4. Information Certified by Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Symetra Life Insurance Company, the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The following information was obtained from data that has been prepared and certified as complete and accurate by the custodian.

	2009	2008
Investments:		
Pooled separate accounts	$ 95,133	$ 44,582
General account	9,002	7,203
Investment income (loss)	19,168	(20,267)

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in any Company contributions.

6. Tax Status

The Internal Revenue Service ruled on March 31, 2008, that the Prototype Non-Standardized Profit Sharing Plan with CODA (the prototype plan upon which the Plan is based) qualifies under Section 401(a) of the IRC and the related trust is, therefore, not subject to tax under present income tax law. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

7. Reconciliation to Form 5500

As of December 31, 2009 and 2008, a reconciliation of net assets available for benefits per the financial statements to Form 5500 is as follows:

	2009	2008
Net assets available for benefits per the financial statements	$ 105,725	$ 52,902
Receivable from participants	(1,610)	(1,117)
Net assets available for benefits per the Form 5500	$ 104,115	$ 51,785

7. Reconciliation to Form 5500, continued

As of December 31, 2009, a reconciliation of participant contributions per the financial statements to Form 5500 is as follows:

Participant contributions per the financial statements	$	33,655
Receivable from participants at December 31, 2008		1,117
Receivable from participants at December 31, 2009		(1,610)
Participant contributions per Form 5500	$	33,162

8. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

8. Fair Value Measurements, continued

General Account: Valued at contract value which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008.

	Investments at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 95,113	$ -	$ -	$ 95,113
General account	-	9,002	-	9,002
Total assets at fair value	$ 95,113	$ 9,002	$ -	$ 104,115

	Investments at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
