Camden-Clark Memorial Hospital Savings PLUS Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE A -DESCRIPTION OF THE PLAN

The following description of the Camden-Clark Memorial Hospital (the "Hospital") Savings PLUS Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Hospital established the Plan to provide employees with a systematic means of savings and investing for the future. All permissible employees of the Hospital, as defined in accordance with the universal availability standards are eligible to enroll on their date of hire. Deferrals begin on the first day of the month subsequent to enrollment. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year, participants may contribute compensation, as defined in the Plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Hospital contributes 25% of the first 4% of base compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

Investment Options - Upon enrollment in the Plan, participants may direct the investment of their contributions and the Hospital's contributions into various mutual funds offered by the Plan.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Hospital's contributions, and Plan earnings (losses), and charged with benefit payments and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Hospital's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after three years of credited service.

Participant Loans - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. At December 31, 2009, outstanding loans bore interest rates ranging from 4.25% to 9.25%. Principal and interest is paid ratably through payroll deductions.

NOTES TO FINANCIAL STATEMENTS (Continued)

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Amounts contributed on a before-tax basis may only be withdrawn upon demonstration of financial hardship, disability, or after the participants reach the age of 59 ½ years.

Forfeitures - At December 31, 2009 and 2008 forfeited non-vested accounts totaled approximately \$34,000 and \$23,000, respectively. These accounts will be used to pay administrative expenses and then reduce employer contributions. During 2009, no forfeitures were used to pay administrative expenses or reduce employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accounting records of the Plan are maintained on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative Expenses - The Plan's administrative expenses are paid by either the Plan or the Hospital, as provided by the plan document. Certain administrative functions are performed by the employees of the Hospital. No such employee receives compensation from the Plan.

Income Taxes - Effective January 1, 2009, the Plan adopted the Financial Accounting Standards Board's ("FASB") authoritative guidance on accounting for uncertainty in income taxes. The guidance clarifies the accounting for the recognition and measurement of the benefits of individual tax positions in the financial statements. Tax positions must meet a recognition threshold of more-likely-than-not in order for the benefit of those tax positions to be recognized in the financial statements. The Plan has determined that no material

NOTES TO FINANCIAL STATEMENTS (Continued)

unrecognized tax benefits or obligations exist as of December 31, 2009, and the adoption of the guidance did not have a material effect on the statement of net assets available for benefits or changes in net assets available for benefits.

Evaluation of Subsequent Events - The Hospital has evaluated the effects subsequent events would have on the financial statements through October 11, 2010, which is the date the financial statements were available to be issued. No matters were identified that would have a material effect on the Plan's financial statements.

NOTE C -UNAUDITED INFORMATION CERTIFIED BY TRUSTEE

The accompanying financial statements and supplemental schedule include the following unaudited information as of December 31, 2009 and for the year then ended that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	<u>December 31,</u> <u>2009</u>
Investments	<u>\$ 14,024,619</u>
Interest and other income	<u>\$ 29,003</u>
Dividends	<u>\$ 357,223</u>
Net appreciation in fair value of investments	<u>\$ 2,414,418</u>

The certification mentioned above includes all investment information discussed in Notes D and E and in the Supplemental Schedule of Assets (Held at End of Year).

NOTE D -INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets at December 31:

	<u>2009</u>	<u>2008</u>
Chase Growth Fund	\$ 1,619,525	\$ -

Large Company Institutional	1,558,817	1,087,747
Thornburg Value Fund	1,727,333	1,199,522

NOTES TO FINANCIAL STATEMENTS (Continued)

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by approximately \$2,214,418, all of which was attributable to mutual funds.

NOTE E –FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") issued a statement that defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008:

Mutual Funds

These investments are public investment vehicles valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

NOTES TO FINANCIAL STATEMENTS (Continued)

Money Market Funds

These investments are public investment vehicles valued using \$1 for the NAV. The money market funds are classified within level 2 of the valuation hierarchy.

Participant Loans

Loans to participants are valued at amortized cost, which approximates fair value and are classified within level 3 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008:

NOTES TO FINANCIAL STATEMENTS (Continued)**NOTE F – EXEMPT PARTY-IN-INTEREST TRANSACTIONS**

Certain Plan investments are shares of mutual funds managed by Schwab Investments, an entity related to the Charles Schwab Trust Company, the trustee of the Plan. Such investment transactions, therefore, qualify as party-in-interest transactions. Additionally, certain administrative functions are performed by officers or employees of the Plan sponsor at no cost to the Plan.

NOTE G – PLAN TERMINATION

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE H - INCOME TAX STATUS

The Plan terms has been drafted in reliance on the sample language provided by the Internal Revenue Service in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan when the government opens such program. The Plan is required to operate in conformity with the Internal Revenue Code ("IRC") to maintain its tax exemption. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
