Xantrex Technology Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2009

1. Description of the Plan

The following description of the Xantrex Technology Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Xantrex Technology Inc. (the Company or the Plan Sponsor) under the provisions of Section 401(a) of the Internal Revenue Code (IRC). The Plan covers U.S. employees of the Company.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was established on April 14, 2000, as a successor plan to the Heart Interface Corporation 401(k) Plan. In March 2000, the Company merged with Trace Holdings, LLC whose retirement plan merged into the Plan effective October 1, 2000. The Plan is a salary and wage savings plan pursuant to IRC Section 401(k).

On September 29, 2008, the Plan Sponsor completed the sale of its Programmable Division and subsequently completed the sale of 100% of its shares to a subsidiary of Schneider Electric S.A. Pursuant to the plan of arrangement, the Plan Sponsor merged with the acquisition entity and was renamed Xantrex Technology Inc. There have been no changes to the Plan as a result of this transaction.

Effective December 31, 2009, the Plan was merged with and into the Schneider Electric 401(k) Plan (the Schneider Plan). Accordingly, plan assets of $5,029,133 were transferred into the Schneider Plan on January 1, 2010. The notes to the financial statements are presented and apply to the Plan prior to the merger.

Eligibility

Employees who have completed 60 days of service and do not otherwise receive benefits as a member of a collective bargaining unit, as defined by the Plan's provisions, are eligible to participate in the Plan. Employees are admitted to the Plan on January 1, April 1, July 1, and October 1 following attainment of eligibility requirements.

1. Description of the Plan (continued)

Plan Administration

The Plan is administered by the Investment Committee, which consists of certain employees of the Company. The Charles Schwab Trust Company (Charles Schwab) is the trustee of the Plan.

Contributions

Participants may elect to contribute up to 100% of pretax annual eligible compensation, as defined in the Plan, up to the Internal Revenue Service (IRS) annual maximum contribution amount, which was $16,500 in 2009. Participants age 50 and over are eligible to make catch-up contributions of a maximum of $5,500 in 2009.

The Company provides a discretionary matching contribution equal to 25% of participant contributions for contributions made up to 5% of the participant's eligible compensation.

The Company may also contribute a discretionary nonelective contribution. To be eligible to receive this contribution, participants must be employed on the last day of the plan year and have completed a year of service. During 2009, there were no discretionary contributions.

Participants direct their contributions and employer contributions and related earnings into various investment options. Participants may change their payroll deferral percentage quarterly and may change their investment options and transfer balances between investment options at any time. Participants are also allowed to roll over contributions from other qualified retirement plans and individual retirement accounts.

1. Description of the Plan (continued)

Vesting

Participants are fully vested in their contributions and the earnings thereon. Prior to 2008, vesting in the Company's matching and nonelective contributions, and earnings thereon, is based on years of continuous service, according to the following schedule:

Years of Service	Percentage Vested
1	20%
2	40
3	60
4	80
5	100

Under the provisions of the Plan, participants are immediately 100% vested in the Company's matching and nonelective contributions, and earnings thereon, as of 2008.

Forfeitures

Any forfeitures of nonvested balances are used to reduce future Company contributions or pay administrative expenses. During the year ended December 31, 2009, the Company used no forfeitures to offset employer contributions or to pay for administrative expenses. At December 31, 2009 and 2008, unallocated, forfeited, nonvested accounts totaled approximately $14,000 and $15,000, respectively.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions; the Company's matching contribution and discretionary, nonelective contribution; the participant's share of the Plan's income; and the allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (continued)

Hardship Withdrawals

Under certain conditions, participants, while still employed by the Company, are permitted to withdraw, in a single sum, the employee contribution portion of their account balance. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition, and the payment to prevent eviction or foreclosure from the participant's principal residence. A participant's right to make deferrals to the Plan will be suspended for six months after the receipt of a hardship withdrawal.

Participant Loans

A participant may borrow 50% of his or her vested account balance up to a maximum of $50,000. The minimum loan amount is $1,000. Loans are repayable through payroll deductions over periods ranging up to five years, unless the loan is used to acquire a principal residence, in which case the loan repayment term may be a reasonable period of time greater than five years. Loans are secured by the balance of the participant's account. The interest rate is determined by the plan administrator based on prime plus 1% and is fixed over the life of the note.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant or beneficiary may elect to receive a lump-sum distribution equal to the value of the participant's vested account or receive an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

For termination of service with vested benefits, if the total vested amount of a terminated participant's account balance is at least $1,000 but less than or equal to $5,000, the account balance will be automatically distributed to an individual retirement account unless the participant elects to receive the distribution directly or to have the distribution paid directly to another eligible retirement plan. If the participant's balance does not equal or exceed $1,000 upon termination, the balance will be paid in a single sum distribution.

Plan Expenses

During 2009, record-keeping fees, custodial fees, and loan processing fees paid to the custodian and recordkeeper allocated to the participants' accounts were $28,800. Other administrative expenses of the Plan are paid by the Company.

1. Description of the Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their account balances.

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. FSP 157-4 amended FASB Statement No. 157 (codified as Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In September 2009, the FASB issued Accounting Standards Update (ASU) 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the NAV is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a

result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 3 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 3 for further discussion and disclosures related to fair value measurements.

The Union Bond & Trust Company Stable Value Fund invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 3); however, since these contracts are fully benefit responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan's management to use estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Fair Value Measurements

ASC 820 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 2) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in markets that are not active.
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

3. Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value.

- *Mutual funds and money market fund*: The fair values of mutual funds and the money market fund are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

- *Common/collective trust fund*: Valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, divided by the number of units outstanding. This common/collective trust fund is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in conventional, synthetic, and separate account contracts issued by life insurance companies, banks, and other financial institutions. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund. As previously discussed in Note 2, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan (Level 2 inputs).

- *Participant loans*: Participant loans are reported at amortized cost, which approximates fair value (Level 3 inputs).

The following table represents the Plan's assets and liabilities within the fair value hierarchy as of December 31, 2009:

	Total	Level 1	Level 2	Level 3

6. Risks and Uncertainties

The Plan provides for various investment fund options which in turn invest in a combination of stocks, bonds, and other investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Related-Party Transactions

The Plan invests in the Schwab Government Money Fund, which is managed by Charles Schwab or companies associated with Charles Schwab. Charles Schwab is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions for which a statutory exemption exists.

8. Tax Status

The underlying standardized prototype plan has received an opinion letter from the IRS dated September 4, 2001, stating that the written form of the underlying prototype document is qualified under Section 401(a) of the IRC. Any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the IRC.
