We were engaged to audit the financial statements of the People Against Dirty 401(k) Plan (the Plan) as of December 31, 2009 and 2008 and for the year ended December 31, 2009, and the supplemental schedule as of December 31, 2009, listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Standard Insurance Company (The Standard), the Plan's investment custodian, as of December 31, 2009 and 2008 and for the year ended December 31, 2009, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that The Standard holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from The Standard as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the Plan administrator by The Standard is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by The Standard, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

Method Products, Inc. (the Company) established the People Against Dirty 401(k) Plan (the Plan), effective September 30, 2005, to provide participants with a means to fund their retirement on a tax-deferred basis. The Plan was amended and restated effective June 1, 2009 and further amended on December 31, 2009. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan under Section 401(a) and 401(k) and related provisions of the Internal Revenue Code (the Code). Company employees may participate in the Plan starting the first day of the month coinciding with or following their first day of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company is the Plan sponsor and Plan administrator. Select employees of the Company serve as the Plan trustees, help administer the Plan and are responsible for selecting the investment options offered under the Plan and monitoring investment performance. Standard Insurance Company (The Standard) serves as the Plan's investment custodian. The Standard holds, invests and reinvests Plan assets in the interest of and at the direction of the participants and their beneficiaries. Participants may choose to invest their account balances in a variety of investment choices offered by the Plan that are designed to provide a full range of investment options. A participant may change his or her choice of investment at any time.

Contributions:

Participants may contribute a percentage of their pre-tax annual compensation, as defined under the Plan. Participants that have reached the age of 50 may also elect to withhold additional catch-up contributions under the Code. The Plan allows participants to make additional after-tax contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans (rollovers). The Company may make discretionary employer matching contributions as determined by the Company's Board of Directors. The Company made matching contributions of $84,731 for participant contributions made through April 30, 2009. Effective May 1, 2009, the Company temporarily suspended its matching contributions.

Contributions are subject to certain limitations under the Code.

1. Description of the Plan (continued)

Participant Accounts:

Participant accounts are credited with participant contributions, Company matching contributions, rollovers and an allocation Plan earnings or losses. Allocations are based on participant earnings or account balances, in accordance with Plan provisions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions are participant directed.

Certain maintenance and loan fees are charged to the Plan and allocated to participant accounts. Participants should refer to each fund's prospectus for further information on these fees.

Vesting:

Participants are fully vested (100%) in their account balances.

Participant Loans Receivable:

Under the Plan's provisions, participants may obtain personal loans from their account balances. A participant may borrow a minimum of $1,000, up to one-half of his or her vested account balance, not to exceed $50,000, for a period not to exceed five years, except for loans used to purchase a primary residence for which loan terms of up to ten years are permitted. Participant loans are evidenced by a written note, secured by the balance in the participant's account, and bear interest at rates that are commensurate with local prevailing rates, as determined by the Plan administrator under the loan policy. Participant loans receivable at December 31, 2009 have interest rates of 3.25% and 5.00%. Repayment of principal and interest is generally made through payroll deductions. Loan transactions with participants qualify as party-in-interest transactions.

Payment of Benefits:

On termination of service, benefits are paid in a lump-sum cash distribution equal to the value of the participant's interest in his or her account or in regular cash installment payments of his or her choice. Upon termination, the Plan may immediately elect to distribute a participant's account balance if the balance is less than $1,000. Benefits are recorded when paid.

1. Description of the Plan (continued)

Administrative Expenses:

Expenses to administer the Plan are generally paid by the Company and are not reflected in the Plan's financial statements.

Risks and Uncertainties:

The Plan provides participants with a variety of investment options in which to invest their account balances. Investments are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment options offered by the Plan, it is at least reasonably possible that changes in risk in the near term could materially affect participant account balances and the amounts reported in these financial statements.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would remain fully vested in their accounts, which would be distributed by the Plan administrator as soon as is practical.

2. Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's financial statements are prepared using the accrual method of accounting.

2. Summary of Significant Accounting Policies (continued)

Investments and Revenue Recognition:

Plan investments held by The Standard are comprised of general fund and pooled separate accounts as follows:

General Fund Account: The guaranteed income account is a part of The Standard's general fund account. Investments held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement for that portion of the Plan assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive investment contracts through this guaranteed income account. As a result, the Plan presents the fair value of the guaranteed income account and then reflects the adjustment of its fair value to contract value on the statements of net assets available for benefits. The statement of changes in net assets available for benefits is presented at contract value. The average yield earned on the investment contract was 1.77% in 2009.

Pooled Separate Accounts: These accounts are separate from The Standard's general fund account and consist of shares in various mutual funds. The investment in each separate account is expressed in 'units.' The value of each separate account is recorded at the close of each business day at fair value based on 'unit value' reported by The Standard. The unit value is calculated by dividing the value of the entire account by the total number of units in the account. The value of each separate account on any date is determined by multiplying the number of units held by the unit value.

Participant loans receivable are recorded at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses on investment transactions are recorded as the difference between the proceeds received and the investment's fair value at the beginning of the year, or acquisition cost if acquired during the year. Unrealized appreciation and depreciation is recorded as the difference between the investment's fair value at the end of the year and the fair value at the beginning of the year, or cost if acquired during the year.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Recent Accounting Pronouncement:

In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update No. 2010-06, *Improving Disclosures about Fair Value Measurements and Disclosures* (ASU 2010-06) to add new disclosures about investment transfers into and out of Level 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. ASU 2010-06 is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 15, 2010. The Plan does not expect the adoption of this additional guidance will have a material impact on the Plan's financial statements and disclosures.

Subsequent Events:

Subsequent events have been evaluated through the date of the independent auditors' report, which is the date the financial statements were approved by the Plan and available to be issued.

3. Information Prepared and Certified by Plan Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by The Standard, the Plan's custodian:

Investments at fair value, except for the guaranteed income account reported at contract value:	
December 31, 2009	$ 3,455,317
December 31, 2008	$ 2,350,953
Investment income for the year ended December 31, 2009	$ 632,467

4. Fair Value Measurements

The Plan uses a three-level hierarchy that prioritizes the inputs used in valuation techniques for determining fair value of investments. The Plan defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The three-level hierarchy for fair value measurement is defined as follows:

Level 1: Quoted prices in active markets that are accessible at the measurement date for identical investments, unrestricted assets or liabilities.

Level 2: Quoted prices in active markets that are accessible at the measurement date for similar investments, quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.

Level 3: Significant unobservable inputs, including the Plan's own assumptions, are used in determining the fair value of investments.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. If available, quoted market prices are used to value investments. Participant loans receivable are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance.

Investments at fair value at December 31, 2009 are as follows:

Investments	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 2,783,852	$ -	$ 2,783,852
Guaranteed income account	-	670,190	-	670,190
Participant loans receivable	-	-	10,084	10,084
Total	$ -	$ 3,454,042	$ 10,084	$ 3,464,126

4. Fair Value Measurements (continued)

Investments at fair value at December 31, 2008 are as follows:

Investments	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 1,603,848	$ -	$ 1,603,848
Guaranteed income account	-	730,668	-	730,668
Participant loans receivable	-	-	13,834	13,834
Total	$ -	$ 2,334,516	$ 13,834	$ 2,348,350

The following table sets forth a summary of the changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

Balance, beginning of year	$ 13,834
Issuances	6,933
Repayments and settlements	(10,683)
Balance, end of year	$ 10,084
Unrealized gain (loss) on Level 3 assets	$ -

5. Income Tax Status

The Plan is a prototype plan offered by The Standard. The Internal Revenue Service has determined and informed The Standard by a letter dated March 31, 2008, that the Plan and related trust, as designed through December 22, 2005, were in accordance with applicable requirements of the Code. The Company has not requested a separate determination letter for the Plan. Although the Plan has been amended since receiving the determination letter, the Plan and Plan sponsor believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Investments

The following investments each represent 5% or more of the Plan's net assets at December 31:

	2009	2008
Stable Asset Fund II	$ 671,465	$ 747,105
Vanguard 500 Index Fund Separate Account	473,255	339,467
