Report of Independent Auditors

Plan Administrator
ChemTreat, Inc. Employee Stock Ownership Plan

We have audited the accompanying statements of net assets available for benefits of ***ChemTreat, Inc. Employee Stock Ownership Plan*** as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

As further discussed in Note 4 to the financial statements, the board of ChemTreat, Inc. voted on July 11, 2007 to freeze the Plan from future contributions and converted the Plan to a profit sharing plan.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ChemTreat, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2009 and 2008

1. Description of Plan and Basis of Presentation

The following brief description of the ***ChemTreat, Inc. Employee Stock Ownership Plan*** (Plan) is provided for general information purposes only. Participants should refer to the plan agreement for complete information.

ChemTreat, Inc. (Company) established the Plan in December 1989. Prior to July 2, 2007, the Plan operated as a leveraged employee stock ownership plan (ESOP), and was designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and was subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). As of July 2, 2007, the Plan was converted to a profit sharing plan and on July 11, 2007 the Plan was frozen. The Plan's assets are held by Evercore Trust Company, as trustee. The trustee is appointed by the Company's Board of Directors.

Prior to July 2, 2007, the Plan purchased Company common shares using borrowed funds and held the stock in a trust established under the Plan. The borrowings were repaid by fully deductible Company contributions to the trust fund. As payments were made on the borrowings, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

During 2007, the Company was acquired by Danaher Corporation; as a result all assets were allocated to participants by the end of 2007 and the Plan converted to a profit sharing plan (see Note 4).

Eligibility

Employees of the Company and its participating subsidiaries were previously eligible to participate in the Plan.

Payment of Benefits

After the sale of the Company on July 2, 2007, the Plan began making distributions directly to participants and transferring certain balances in cash to the ChemTreat, Inc. Profit Sharing Retirement Plan (see Note 4).

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and by the Code. Upon termination of the Plan, the Trustees will pay all liabilities and expenses of the trust fund.

Vesting

As a result of the sale of the Company and discontinuance of future contributions, all active participants became fully vested in their accounts. Participants that terminated service prior to July 2, 2007 were fully vested after completing four years of service according to the vesting rules set forth in the Plan.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Prior to July 2, 2007, each participant's account was credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustees from the unallocated account, shares of Company stock contributed by the Company to replace shares distributed to participants under the terms of the Plan and forfeitures of terminated participants' non-vested accounts. Allocations were based on a participant's eligible compensation, relative to total eligible compensation.

Plan earnings, net of plan expenses, are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates and assumption.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on an accrual basis.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated events through October 7, 2010, the date the financial statements were available to be issued.

3. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated April 24, 2001, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code (Code). The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. The Plan document was restated effective January 1, 2008. An application for a determination letter was filed with the Internal Revenue Service on December 1, 2008. The application is currently pending.

4. Sale of Company Stock

On July 2, 2007, all the Company's stock, including the Company's common stock owned by the Plan, was acquired by Danaher Corporation for cash. Effective July 11, 2007, the Plan was frozen, and no further contributions will be made to the Plan.

Participant account balances consisted of a stock bonus portion and a money purchase portion. At the recommendation of the trustee, US Trust Company, N.A. (USTC), the Plan trustee at the time of the sale to Danaher, the Plan retained \$4,000,000 of the money purchase portion as an escrow to fund operating and legal expenses for the Plan including eventual termination expenses.

The balance of the money purchase portion of the Plan was transferred to the ChemTreat, Inc. Profit Sharing Retirement Plan for active participants (those currently employed with the Company). The stock bonus portion of the Plan for all participants and the money purchase portion for terminated participants were distributed based on participant elections. Stock bonus balances for active participants that did not make a distribution election were also transferred to the ChemTreat, Inc. Profit Sharing Retirement Plan. The escrow balance will be paid to participants or transferred to the ChemTreat Profit Sharing Retirement Plan upon termination of the Plan.

5. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none"> • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	---

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market savings account: Valued at account value per Evercore which consist of deposits plus posted interest income.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December, 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009				
	Level 1	Level 2	Level 3	Total
Money market savings account	\$ -	\$ 4,671,784	\$ -	\$ 4,671,784
Total assets at fair value	\$ -	\$ 4,671,784	\$ -	\$ 4,671,784

Assets at Fair Value as of December 31, 2008				
	Level 1	Level 2	Level 3	Total
Money market savings account	\$ -	\$ 5,638,766	\$ -	\$ 5,638,766
Total assets at fair value	\$ -	\$ 5,638,766	\$ -	\$ 5,638,766

6. Contingency

The stock of the Company was sold to an acquisition subsidiary of Danaher Corporation in July 2007. At the time of the sale, the Company was a Subchapter S corporation and the Plan owned 84.5944% of the stock of the Company. A favorable purchase price adjustment of up to \$29 million is possible, and is currently held in escrow by BNY Mellon Bank. This amount is available to offset any claims, including tax liabilities. After July 2009, the remaining escrow fund, as well as any remaining interest and earnings thereon, was to be distributed to the Plan and other shareholders based on the respective ownership percentages of the Company at the date of sale. Due to the uncertainty surrounding the current audit of the Company by the Internal Revenue Service, this escrow was not distributed in July 2009 and remains intact with the escrow agent. The Plan's portion of the contingent purchase price held in escrow has not been recorded as a plan asset. A built-in gains tax was triggered by Danaher's acquisition of the Company as ten years had not elapsed since the Company converted from a Subchapter C to a Subchapter S corporation. The amount of built-in gains tax owed is currently subject to an Internal Revenue Service audit which is in progress. An adverse position regarding the amount of built-in gains tax in excess of the amount reported could have an adverse effect on the amount of adjustment purchase price available for the Plan. The outcome of the audit is uncertain.

7. Subsequent event

The Plan's DOL audit was completed in April 2010. The result was that the DOL will take no further action.
