Retirement and Welfare Plan
Administrative Committee

We were engaged to audit the financial statements and supplemental schedule of Weil-McLain Hourly Employee Savings Plan (the "Plan") as of December 31, 2009 and 2008 and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust) and Principal Life Insurance Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the Trustees hold certain of the Plan's investment assets and execute certain investment transactions. The plan administrator has obtained certifications from the Trustees as of December 31, 2009 and 2008 and for the years then ended that the information provided to the plan administrator by the Trustees is complete and accurate.

As explained in Note 2, the financial statements include guaranteed investment contracts valued at $5,447,625 (54 percent of net assets) at December 31, 2009 and at $5,423,717 (55 percent of net assets) at December 31, 2008, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by the Trustees.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Plan Description

The following description of the Weil-McLain Hourly Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Eligibility - All hourly employees of Weil-McLain, a unit of SPX Corporation (the "Company"), who have completed one year of service are eligible to participate in the Plan.

Contributions - Employee contributions are voluntary and must be at least 1 percent but no more than 15 percent of pretax compensation. The annual contribution that a participant can make is limited by the Internal Revenue Code.

Company contributions to the Plan are made annually in accordance with provisions set forth in the labor agreement in effect at that time.

Participant contributions, Company contributions, and earnings thereon are fully vested at all times and are not subject to forfeiture for any reason.

Participant Accounts - Each participant's account is credited with the participant's contribution, plan earnings, and the participant's share of the Company's contribution. Allocations of the plan earnings and expenses to participant accounts are based on the participant's proportionate share of funds in each of the investment accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Loans - Participants may borrow from their accounts a minimum of $1,000 up to a maximum of 50 percent of their account balances, not to exceed $50,000. Loans are collateralized by the participant's account balance and bear interest at a market rate.

Benefit Payments - Upon termination of employment, the participant or, in the case of death, the surviving spouse can elect to receive the participant's account balance in a single lump sum or in various installment annuities. Account balances less than $1,000 are paid in a single lump sum upon termination.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan agreement. The Company must approve any such hardship withdrawals.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the labor agreement and ERISA.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Principal Trust and Principal Life Insurance Company. Principal Trust and Principal Life Insurance Company are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. Investments in pooled separate accounts are stated at fair value, based on the fair value of the underlying assets. The guaranteed investment contracts are not considered benefit-responsive and are presented at fair value. Fair value is the amount paid when funds are withdrawn prior to their maturity. Fair value is based on current market yields of similar instruments with comparable durations and generally will not be less than the contract's maturity value. An early withdrawal charge is applied to the guaranteed investment contracts if a participant were to withdraw funds prior to maturity when applicable interest rates are higher than the interest rates being credited to participants' accounts. Participant loans are valued at their outstanding balances, which approximate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 5, 2010, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Investment Information

In 2009 the Plan changed trustees from Principal Life Insurance Company to Principal Trust (collectively, the "Trustees"). The Trustees of the plan held the plan investments and executed investment transactions during the periods under audit. The investment balances and investment income information included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustees with the exception of participant loans as of and for the year ended December 31, 2008. Participant loans totaling $808,725 at December 31, 2008 and related interest income totaling $40,424 for the year ended December 31, 2008 were not certified by Principal Life Insurance Company.

Significant individual investments of the Plan's net assets are separately identified as follows:

Principal International Stock Account	558,250	484,651
Principal Medium Company Blend Account	859,521	601,674

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value. These inputs are described as follows:

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant inputs for participant loans include market rates and remaining repayment terms of the individual loans. Significant inputs for the guaranteed investment contracts include the credit rating of the issuer, deposits made to the contract, earnings at guaranteed crediting rates, withdrawals, and fees.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

During 2009, the Plan adopted, on a prospective basis, new accounting standards which require disclosure of fair value by class of investments.

Note 5 - Fair Value Measurements (Continued)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2009 and 2008 and the valuation techniques used by the Plan to determine those fair values.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2009

	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at December 31, 2009
Guaranteed investment contracts	$ -	$ 5,447,625	$ 5,447,625
Pooled separate accounts - Short term (a)	637,485	-	637,485
Pooled separate accounts - Equity (b)	2,593,843	-	2,593,843
Pooled separate accounts - Fixed income (c)	678,955	-	678,955
Participant loans	-	701,127	701,127
Total	$ 3,910,283	$ 6,148,752	$ 10,059,035

(a) This class invests primarily in fixed-income securities, including, but not limited to, bonds, notes or other investments, such as government securities; commercial paper, certificates of deposits, master notes, or variable amount notes, with the objective of providing high current income consistent with the preservation of capital and the maintenance of liquidity. Short-term investments are valued at $1.00/unit, which approximates fair value.

(b) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities which may include common stocks, options, and futures. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.

(c) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed-income investments which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2008

	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at December 31, 2008

Unrealized gains	7,904	-
Balance at December 31, 2008	$ 5,423,717	$ 808,725

Of the Level 3 assets still held by the Plan at December 31, 2009, the unrealized losses for the year ended December 31, 2009 were $33,591, which is recognized in the statement of changes in net assets available for benefits.

Of the Level 3 assets held by the Plan at December 31, 2008, the unrealized gains for the year ended December 31, 2008 were $7,904, which was recognized in the statement of changes in net assets available for benefits.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets. As a result, the unrealized gains and losses for these assets presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.
