INDEPENDENT AUDITORS' REPORT

Participants and Plan Administrator
West Virginia University Hospitals, Inc.
403(b) Retirement Savings Plan:

We were engaged to audit the accompanying statement of net assets available for benefits of the West Virginia University Hospitals, Inc. 403(b) Retirement Savings Plan (the "Plan") as of December 31, 2009 and the related statement of changes in net assets available for benefits for the year then ended and the supplemental Schedule H, Line 4(i) – Schedule Of Assets (Held At End Of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 9, which was certified by the Teachers Insurance and Annuity Association – College Retirement Equities Fund, the Variable Annuity Life Insurance Company, Great-West Life and Annuity Insurance Company, MetLife Associates LLC, Fidelity Management Trust Company, T. Rowe Price Investment Services, Inc., and Sun Life Financial, Inc. the custodians of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodians as of and for the year ended December 31, 2009, that the information provided to the plan administrator by the custodians is complete and accurate.

As described in Note 10, the Plan has excluded from investments in the accompanying statement of net assets available for benefits as of December 31, 2009 certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistant Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans* (the "Custodial Accounts"). If the Custodial Accounts, as reported by the respective custodians, were included, net assets available for benefits would increase by approximately \$3.5 million as of December 31, 2009. Further, investment income, net of distributions, of approximately \$0.5 million related to the Custodial Accounts, as identified by the custodians, has also been excluded in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2009. Accounting principles generally accepted in the United States of America require that these Custodial Accounts and the related income and distributions be included in the accompanying 2009 financial statements.

Because of the significance of the information in the Plan's 2009 financial statements and supplemental schedule that we did not audit, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the accompanying 2009 financial statements and supplemental schedule taken as a whole.

We have compiled the accompanying statement of net assets available for benefits of the Plan as of December 31, 2008 in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying 2008 statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on it. As described in Note 10, the Plan has excluded the Custodial Accounts from investments in the accompanying statement of net assets available for benefits as of December 31, 2008. If the Custodial Accounts, as reported by the custodians, were included, net assets available for benefits would increase by approximately \$3.0 million as of December 31, 2008. Accounting principles generally accepted in the United States of America require that these accounts be included in the accompanying financial statements.

403(B) RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the West Virginia University Hospitals, Inc. 403(b) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering all non-leased and non-common law employees of West Virginia University Hospitals, Inc. ("WVUH"), West Virginia University Hospitals-East ("East"), and United Health Center, Inc. ("UHC"), (collectively the "Company"). There is no age requirement or minimum service requirement for participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan evaluated subsequent events for recognition or disclosure through October 13, 2010, the date the financial statements were available to be issued.

CONTRIBUTIONS

Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan up to the maximum limits of the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participant contributions to the Plan are recorded in the period that payroll deductions are made from participants.

Participants that are employees of WVUH and have completed two years of credited service, as defined by the Plan, are eligible to receive nondiscretionary Company matching contributions equal to 100% of the first 5% of eligible compensation that non-bargaining participants contribute to the Plan and 100% of the first 6% of eligible compensation that bargaining participants contribute to the Plan. Participants that are employees of East and UHC are not eligible to receive nondiscretionary Company matching contributions. Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's nondiscretionary matching contribution for participants that are employees of WVUH, and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are immediately vested in their voluntary contributions and the Company's nondiscretionary matching contributions attributable to participants that are employees of WVUH plus actual earnings thereon.

PARTICIPANT LOANS

Participants may borrow from their fund accounts equal to a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 10.50% at December 31, 2009, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. Loan terms range from one to five years or greater for the purchase of a primary residence.

PAYMENT OF BENEFITS

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum, partial, or annual installment payment amounts equal to the value of the participant's vested interest in their account. The amount, form, and timing of distributions available to a participant may also be limited by the investment options that comprise their vested account balance. In addition, the Plan allows for hardship distributions if certain criteria are met.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared on the accrual basis of accounting.

Guaranteed annuity contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the guaranteed annuity contracts as well as the adjustment of the fully benefit-responsive guaranteed annuity contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

ADMINISTRATION OF PLAN ASSETS

The Plan's assets are administered under a contract with the Teachers Insurance and Annuity Association – College Retirement Equities Fund ("TIAA-CREF"), the Variable Annuity Life Insurance Company ("VALIC"), Great-West Life and Annuity Insurance Company ("Great-West"), MetLife Associates LLC ("Met Life"), Fidelity Management Trust Company ("Fidelity"), T. Rowe Price Investment Services, Inc. ("T. Rowe Price"), and Sun Life Financial, Inc. ("Sun Life") (collectively, the "custodians"). The custodians invest funds received from contributions, investment sales, interest, and dividend income. The plan administrator makes distribution payments to participants. Certain administrative expenses of maintaining the Plan are paid by the Company.

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2009, the Financial Accounting Standards Board ("FASB") established the FASB Accounting Standards Codification ("Codification") as the sole source of authoritative accounting principles generally accepted in the United States of America. As a result, all references to accounting literature will conform to the appropriate reference within the Codification. The adoption of the Codification, which became effective during September 2009, had no effect on the Plan's financial statements.

Effective January 1, 2009, the Plan adopted guidance on accounting for uncertainty in income taxes issued by FASB. This interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. The adoption of this guidance had no effect on the Plan's financial statements.

As of December 31, 2009 the Plan adopted guidance on subsequent events issued by FASB. This guidance establishes general standards of accounting for and disclosure of events that occur after the statement of net assets available for benefits date but before the financial statements are issued or are available to be issued. The adoption of this guidance did not have a significant effect on the Plan's financial statements.

During 2009, the Plan adopted FASB guidance related to using net asset value ("NAV") as a practical expedient to estimate the fair value of certain alternative investments, if NAV is calculated consistent with accounting principles generally accepted in the United States of America for investment companies and sale of the investment at an amount different than NAV is not probable. This guidance also establishes standards regarding the classification and disclosure of the applicable investments. The adoption of this guidance did not have a significant impact on the Plan's financial statements, but enhanced disclosure with respect to these investments.

3. FAIR VALUE MEASUREMENTS

The Plan measures on a recurring basis its investments at fair value in accordance with FASB guidance, which provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of fair value hierarchy are described as follows:

- Level 1 Fair value is based on unadjusted quoted prices in active markets that are accessible to the Plan for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.
- Level 2 Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets, quoted market prices in markets that are not active for identical or similar assets, derived principally from or corroborated by observable market data by correlations or other means, and other observable inputs.
- Level 3 Fair value is based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows, and other similar techniques.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market and mutual funds are valued at the net asset value of shares held by the Plan at year end.

The TIAA Access variable annuity accounts are invested in proprietary and non-proprietary mutual funds through various sub-accounts. These custodial sub-accounts consist of underlying investments valued based on quoted market prices and have no unfunded commitments or significant redemption restrictions.

The CREF separate accounts are valued based on net asset value per unit of participation in the fund and have no unfunded commitments or significant redemption restrictions.

The CREF money market fund's objective is for stable income consistent with maintaining liquidity and preserving capital. The fund is not insured by the Federal Deposit Insurance Corporation or any other government agency. As of December 31, 2009, the portfolio included commercial paper, U.S. government and government agency obligations, certificates of deposits, floating-rate securities, U.S. agency, banker's acceptances, and medium-term bonds and notes.

The CREF equity funds' objectives are for long-term rates of return from a diversified portfolio of common stock. The funds invest in domestic industries common stock linked to public indexes or provide for exceptional growth; comprised of technology, consumer products & services, manufacturing & materials, healthcare, financial, energy, utilities, and short-term investments.

The CREF international equity fund's objective is for favorable long-term rates of return from a diversified portfolio of common stock. The fund invests in domestic and foreign industries, comprised of technology, consumer products & services, manufacturing & materials, healthcare, financial, energy, utilities, and short-term investments.

The CREF fixed income funds' objectives are for long-term rates of return consistent with preserving capital. The funds invest in mortgage-backed securities, corporate bonds, U.S. treasury securities, foreign government & corporate, bonds denominated in U.S. dollars, U.S. agency securities, commercial mortgage-backed securities, asset-backed securities, and short-term investments.

The CREF balanced funds' objectives are for long-term rates of return and stable income through diversification. The funds invest in equities, long-term bonds, and short-term investments.

The real estate fund's objective is for long-term returns through rental income and appreciation of real estate investments owned in the fund. The fund invests in real property and short-term high quality investments to maintain liquidity to guarantee redemption requests. The fund holds real estate property investments (including interests in real estate-related joint ventures) representing 90.27% of the investment portfolio, a mortgage loan receivable representing 0.73% of the investment portfolio, real estate limited partnerships representing 2.07% of the investment portfolio, U.S. treasury bills representing 2.13% of the investment portfolio and government agency notes representing 4.80% of the investment portfolio.

The real properties consist of office, apartment, industrial, retail, and storage facility classifications located in all major regions within the United States and internationally located in the United Kingdom and France. The values of the properties held in the fund are based on professional opinions and appraisals, which incorporate valuation methodologies to determine fair value to including cash flows models, market models, and other similar techniques. The short term investments are valued based on quoted prices on the active market for similar assets which the securities trade.

The real estate fund is valued based net asset value per unit of participation in the fund and has no unfunded commitments or significant redemption restrictions.

The TIAA Traditional Annuity Account ("TIAA Account") is reported at contract value, which approximates fair value, based on TIAA-CREF's ability to pay the guaranteed claims in accordance with the terms of the contract. As of December 31, 2009, TIAA-CREF's credit ratings were as follows: A++ by A.M. Best Company, AAA by Fitch Ratings, Aaa, by Moody's Investors Service, and AAA by Standard & Poor's – the highest possible ratings from these independent analysts. The high credit ratings of TIAA-CREF as of the measurement date uphold the TIAA Account's ability to meet obligations set forth in the contracts.

The TIAA Account has redemption restrictions based on the terms of the underlying contract selected by the participant and loan agreements with participants (see Notes 5 and 6 for a discussion of restrictions) and is an unfunded commitment as claims against the contracts are solely supported by TIAA-CREF's ability to pay on such claims. The redemption restrictions do not have a material impact on the contract value of the TIAA Account.

The VALIC Fixed Interest Account is valued based on unobservable inputs using valuation methodologies to determine fair value to include discounted cash flows based on current yields of similar instruments with comparable durations with consideration of the credit-worthiness of the issuer.

Participant loans are not actively traded and significant other observable inputs are not available. Thus, participant loans are recorded at amortized cost which approximates fair value based on unobservable inputs using valuation methodologies to determine fair value to include discounted cash flows and other similar techniques.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

	<u>2009</u>	<u>2008</u> <u>(compiled)</u>
TIAA Traditional Annuity Account	\$53,328,199	\$49,583,699
CREF Stock	26,515,582	19,232,226

During 2009, the Plan's investments (including gains and losses on investments bought, sold, as well as held during the year) appreciated in value as follows:

CREF separate accounts	\$10,629,438
Mutual funds	10,310,725
Guaranteed annuity contracts	<u>1,893,001</u>
Total	<u>\$22,833,164</u>

5. ANNUITY CONTRACTS WITH INSURANCE COMPANIES

The Plan offers the option to invest in guaranteed annuity contracts with TIAA-CREF, and VALIC. TIAA-CREF and VALIC maintain the contributions within their general accounts which are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed annuity contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Annuity contracts offered through the TIAA Traditional Annuity Account consists currently of Group Retirement Annuity ("GRA") and Group Supplemental Retirement Annuity ("GSRA") and previously, Retirement Annuity ("RA") and Supplemental Retirement Annuity ("SRA") contracts, which have varying withdrawal options and distributions.

As described in Note 2, because GRA, SRA, and GSRA contracts as well as the VALIC Fixed Interest Account are fully-benefit responsive guaranteed contracts, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract values, as reported to the Plan by TIAA-CREF and VALIC, represent contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses.

RA contracts are non-benefit responsive guaranteed contracts and are valued based upon TIAA-CREF's quoted redemption value of contracts owned by Plan participants at year end. As such, fair value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed annuity contracts. Fair value, as reported to the Plan by TIAA-CREF, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses.

There are no reserves against the guaranteed annuity contracts for credit risk of the contract issuer or otherwise. The fair values of the investment contracts totaled \$57,779,040 at December 31, 2009 and \$53,767,567 (compiled) at December 31, 2008. The crediting interest rate is based on a formula agreed upon by the issuer. Such interest rates are reviewed on a regular basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The TIAA Traditional Annuity Account and VALIC Fixed Interest Account are single group annuity contracts with a fixed rate of interest. Interest is credited to the accounts and accumulations include a guaranteed rate, plus discretionary additional amounts determined annually by the TIAA-CREF and VALIC. The additional amounts, when declared, remain in effect through each account's declaration year. Premiums remitted earn interest at each account's guaranteed annual interest rate and is dependent on the term and amount of each accumulating contract. They are not a portfolio of contracts whose yields are based on changes in fair value of underlying assets, therefore the average yield earned by the Plan is the interest earned on the group annuity contracts. The guaranteed investment contracts do not permit TIAA-CREF and VALIC to terminate the agreements prior to the scheduled maturity dates.

The following table summarizes the crediting interest rates at December 31, 2009 and 2008:

	<u>2009</u>	<u>2008</u> <u>(compiled)</u>
TIAA Traditional Annuity Accounts:		
Retirement Annuity (RA)	3.65%	4.50%
Group Retirement Annuity (GRA)	3.65%	4.50%
Supplemental Retirement Annuity (SRA)	3.00%	3.00%
Group Supplemental Retirement Annuity (GSRA)	3.00%	3.00%
VALIC Fixed Interest Account	3.85%	3.85%

6. RELATED PARTY TRANSACTIONS

Certain plan investments are managed by the custodians, and therefore, these transactions qualify as party-in-interest transactions. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions. Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

TIAA-CREF issues loans to plan participants which are secured by the participant's account balance. Such loans are not assets of the Plan but are contractual agreements between the custodian and the plan participant and are funded by the custodian's general fund. A participant is required to transfer 110% of the loan value to the TIAA Traditional Annuity Account upon the issuance of the loan and is restricted from transfers or withdrawals. The restricted account balance is used as collateral on the loan balance in accordance with the terms of the note. Loan amounts can range from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of a participant's vested account balance and bear interest at rates which are dependent on the composition of the participant's account balance. These transactions qualify as party-in-interest transactions. As of December 31, 2009 and 2008, participant account balances which were held in the TIAA Traditional Annuity Account that collateralized these loans totaled \$1,727,033 and \$1,670,724 (compiled), respectively.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. TAX STATUS

The Company has not received a determination letter from the Internal Revenue Service stating that the Plan and related trust are designed in accordance with the applicable sections of the IRC. However, the plan administrator believes that the Plan has been designed to comply with and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is exempt from taxation.

9. INFORMATION CERTIFIED BY CUSTODIANS

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2009. Accordingly, the custodians of the Plan, have certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for benefits and the supplemental Schedule H, Line 4(i) – Schedule Of Assets (Held At End Of Year) as of December 31, 2009, and the related investment activity reported in the statement of changes in net assets available for benefits for the year ended December 31, 2009.

10. CUSTODIAL ACCOUNTS EXCLUDED FROM FINANCIAL STATEMENTS

As permitted by the Department of Labor's Field Assistant Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*, ("FAB 2009-02") the plan administrator has elected to exclude certain custodial accounts from the Plan's financial statements. These custodial accounts were limited to employee contributions held under a voluntary 403(b) plan arrangement prior to January 1, 2009. The excluded custodial accounts consisted of investment assets of approximately \$3.5 million and \$3.0 million (compiled) as of December 31, 2009 and 2008, respectively and investment income, net of benefit payments, of approximately \$0.5 million for the year ended December 31, 2009.

The plan administrator has concluded that the custodial accounts have met the criteria required under FAB 2009-02 and as such, have been excluded from the Plan's financial statements.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2009 and 2008:

	<u>2009</u>	<u>2008</u> <u>(compiled)</u>
