Note 1: Description of the Plan

The following description of Pierce Goodwin Alexander & Linville 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the *Plan Document* and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a prototype defined contribution plan sponsored by Pierce Goodwin Alexander & Linville, Inc. (the Company), for the benefit of its employees who have completed one month of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Fidelity Management Trust Company (Fidelity) is the trustee of the Plan and serves as Plan custodian.

Contributions

The Plan permits eligible employees, through a salary deferral election, to have the Company make annual contributions of up to 75 percent of eligible compensation. A participant may elect to have all or a portion of the participant's elective deferrals to be Roth elective deferrals when contributed to the Plan. Employee rollover contributions are also permitted. The Company may elect to make discretionary profit sharing contributions. Contributions are subject to certain limitations. Forfeitures are allocated among active participants. Both the discretionary profit sharing contributions and forfeitures are allocated among eligible participants based upon compensation.

Participant Investment Account Options

Participants direct the investment of their contributions, as well as the Company's contribution, into various investment options offered by the Plan. The Plan currently offers various mutual funds, a common/collective trust fund and a money market account as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution, Plan earnings and forfeitures of terminated participants' nonvested accounts, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled are the benefits, which can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon, is based on years of continuous service. A participant is fully vested after six years of continuous service. The nonvested balance is forfeited upon termination of service. Forfeitures are allocated among active participants based upon compensation.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum amount, installment payments equal to the value of their vested account or a direct rollover distribution.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $74,593 and $87,889, respectively. These accounts will be reallocated to participants in the same manner as employer contributions.

Participant Loans

The *Plan Document* includes provisions authorizing loans from the Plan to active eligible participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their account balance, whichever is less. All loans are repayable over a period of time not to exceed five years (except for the purchase of a principal residence) through payroll withholdings. The loans are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates as determined by the Plan Administrator.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared based on the accrual basis of accounting.

Notes to Financial Statements
December 31, 2009 and 2008

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices are used to value mutual funds as provided by Fidelity. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The common/ collective trust fund with underlying investments in investment contracts are valued at contract value, which approximates fair value as estimated by Fidelity. Participant loans and the money market fund are valued at amortized cost, which approximates fair value.

The Fidelity Advisor Stable Value Portfolio is diversified among high-quality, short-term investments. The fund invests across several fixed-income categories, including U.S. Treasuries, government agency securities, corporate debt, asset-backed securities and mortgage-backed securities, as well as units of a money market portfolio. The fund is wrapped by a syndicate of four banks and insurance companies, facilitating book value withdrawals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Plan Tax Status

The Company adopted a prototype plan, which obtained its latest determination letter on October 9, 2003, in which the Internal Revenue Service stated the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and, therefore, not subject to tax. The Plan has been amended since the issuance of the determination letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. federal, state, and local or non-U.S. income tax examinations by tax authorities for years before 2006.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 4: Party-in-interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan trustee. The Company provides certain administrative services at no cost to the Plan.

Note 5: Plan Amendment

Effective December 15, 2009, the Plan was amended and the Company may allow participants, upon proper notice and approval, to enter into a special salary reduction agreement to make deferral contributions in an amount up to 100 percent of any Company paid cash bonuses made for such participants during the plan year.

Note 6: Fair Value of Plan Assets

Accounting Standards Codification Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair

value hierarchy, which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 investments are comprised of mutual funds and a money market fund. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include a common/collective trust fund. The Plan's interest in the common/collective trust fund is valued at contract value, which approximates fair value. Inputs include market quotations or price, reported trade dates, broker/dealer quotes, bids offers of the underlying investments obtained from external appraisals, independent pricing sources and market research publications. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy and include participant loans. Participant loans are valued at amortized cost, which approximates fair value.

The table on the following page presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2009 and 2008.

Note 8: Significant Estimates and Concentrations

Current Economic Conditions

The current economic environment presents employee benefit plans with unprecedented circumstances and challenges, which, in some cases, have resulted in large declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10: Subsequent Events

Subsequent events have been evaluated through September 29, 2010, which is the date the financial statements were available to be issued.
