NOTE 1 - DESCRIPTION OF PLAN

The following description of the Hyatt Holding Corporation (the "Company" or "Sponsor") 401(k) Profit Sharing Plan 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering eligible employees of Hyatt Holding Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments.

Participation - Employees of the Sponsor over twenty-one years of age are eligible to participate in the Plan. Eligible employees may commence participation on the entry date, which is the first day of the month following the satisfaction of eligibility requirements.

Pension benefits - Employees are entitled to pension benefits, in the form of a lump-sum distribution of the total account balance, beginning at the later of age 55 or on the 5th anniversary of participation, unless an alternate form of payment is selected, as defined in the Plan agreement.

If a participant dies before retirement benefits have begun, the participant's spouse is entitled to 100% of the account balance.

Tax status - The Plan is a prototype plan offered by Hartford Life Insurance Company (the "Custodian"). The Internal Revenue Service has determined and informed the Custodian by letter, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (the “Code”). The Plan has been amended since adoption, however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Participant contributions - Participant salary reduction contributions to the Plan may be deferred as a flat amount or as a percentage ranging from 1% to 100% of regular compensation. However, the total of these salary deferral contributions may not, in any calendar year, exceed limitations set by the Code.

Sponsor contributions - The Sponsor, at its discretion, may make additional profit sharing contributions. Contributions are subject to certain limitations defined in the Internal Revenue Code. The Sponsor elected not to contribute to the Plan for the years ended December 31, 2009 and 2008.

NOTE 1 - DESCRIPTION OF PLAN, Continued

Participants accounts - Separate accounts are maintained for each participant's deferred compensation, rollover contributions, and allocations of the Sponsor's contributions, if any. All gains, income, or losses are allocated separately to each participant's account, based on the performance of the investments within that account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct their contributions into any or all of the investment accounts with the Custodian.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Sponsor's profit sharing contribution, plus actual earnings thereon, is based on years of continuous service, as follows:

Year of Service	Percent Vested
1-2	0%
3	20%
4	40%
5	60%
6	80%
7	100%

Payment of benefits - Upon termination of service, a participant may elect to receive either a lump-sum distribution or direct transfer to either an Individual Retirement Account or a qualified retirement plan. Other withdrawals and loans from the Plan can be made under certain circumstances, as defined in the Plan agreement. Participants who are 100% vested and 59 ½ years of age may take an in-service withdrawal of all or a portion of the value of their vested accounts once each plan year.

Hardship withdrawals - In the event a participant experiences a financial hardship as defined in the Plan agreement, the participant may be eligible to request a hardship withdrawal. There were no hardship withdrawals for the year ended December 31, 2009 and 2008.

Participant loans - Participants may borrow against their accounts in amounts not less than $1,000 and not to exceed limitations defined in the Code. Participants may have only one loan outstanding at any given time. Repayment schedules for loans are as agreed upon by the participant and the Plan administrator, but cannot exceed repayment terms defined by the Code. Interest on outstanding loan balances is charged at rates determined by the Custodian. Interest on new loans is based on the prime lending rate plus 1%, determined at the time the loan is disbursed.

NOTE 1 - DESCRIPTION OF PLAN, Continued

Forfeitures - Non-vested Sponsor contributions forfeited by participants upon termination are available to reduce future payments of the Sponsor's contributions. During 2009 and 2008, there were no forfeitures.

Plan termination - Although it has not expressed an intent to do so, the Sponsor reserves the right under the Plan, to cease contributions and terminate the Plan, subject to action by the Sponsor's Board of Directors and subject to the provisions of ERISA and the Code. Upon termination of the Plan, all participants become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of investments - Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 3).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend rate. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan provides for investment in various combinations of mutual funds with different investment strategies. These investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participant account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Fair Value Measurements - The Plan defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan measures fair value under a framework that provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Guaranteed investment contract - The Plan invests in a benefit-responsive guaranteed investment contract with the Custodian. The Custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributed for the portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is reported on the face of the statement of net asset at contract value which does not materially differ from the value per the contract interest rate. As a result no adjustments were made from contract value to fair value for investment in guaranteed investment account. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was $360,898 and $338,869, respectively. The crediting interest rate is agreed upon with the issuer. The guaranteed interest rate on the guaranteed investment contract as of December 31, 2009 and 2008 was 3.00%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes in the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable or occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	**2009**	**2008**
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.01%	3.97%

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Realized and unrealized appreciation (depreciation) - Realized and unrealized appreciation (depreciation) is based on the contract and market values of the assets at the end of the Plan year compared to the contract and market values of the assets at the beginning of the Plan year, or at the time of purchase for assets purchased/exchanged during the Plan year. In the Statement of Changes in Net Assets Available for Benefits, the Plan presents the net appreciation or depreciation in the fair value of investments, which consists of realized gains or losses and unrealized market value appreciation or depreciation of investments.

Participant loans - Participant loans are valued at cost. Loans outstanding at December 31, 2009 and 2008 bear interest at rates of 4% and mature through April 2013.

Participant distributions - Benefits paid to participants are recorded when paid. As of December 31, 2009 and 2008, there were no amounts payable to withdrawing participants that had been requested but not paid.

Plan expenses - Non-investment costs and most administrative expenses of the Plan are paid by the Sponsor, which is a party-in-interest. These expenses are not reflected in the accompanying financial statements and constitute exempt transactions under ERISA. Investment service fees are paid by the Plan and are netted against the related investment income. Certain administrative expenses are paid by the Plan.

Reclassifications - Certain information presented in the prior year financial statements has been reclassified to conform to current presentation.

Subsequent events - Subsequent events have been evaluated by the Sponsor through October 11, 2010, which is the date these financial statements were issued, and no subsequent events have arisen that would require disclosure in these financial statements.

NOTE 3 - FAIR VALUE OF MEASUREMENTS

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Registered investment companies - The shares in registered investment companies (mutual funds) are valued at quoted market prices in an exchange and active market, which represents the net asset values of shares held by the Plan at year end and are classified as Level 1 investments.

NOTE 3 - FAIR VALUE OF MEASUREMENTS, Continued

Investment contract with insurance company - The guaranteed investment contract with an insurance company is stated at contract value. The fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations (Level 3).

As of December 31, 2009, the Plan's investments measured at fair value on a recurring basis were as follows:

	Fair Value Measurements Using

** Investment option was not 5% or more of the total fair value of the Plan's net assets at December 31, 2009.

During 2009, the Plan’s investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $253,095.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest, by definition, include a plan sponsor or employee, fiduciaries (including those who provide investment advice or who have discretionary control over Plan assets), and those who provide services to the Plan. Participant loans qualify as exempt parties-in-interest transactions. Plan investments include certain investment funds in mutual funds and a guaranteed investment contract managed by the Custodian. The Custodian is also the third-party-administrator of the Plan and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

NOTE 6 - INFORMATION CERTIFIED BY THE CUSTODIAN OF PLAN ASSETS (Unaudited)

The following unaudited information in the financial statements was certified to be complete and accurate by the Custodian of the Plan's assets within the meaning of 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for reporting and disclosure under ERISA:

- Investment income (loss) included in the Statement of Changes in Net Assets Available for Benefits; and
