Note 1 – Plan Description

General – The Seaway Hotels 401(k) Plan (the "Plan") was established by The Biltmore Hotel, L.P. (the "Sponsor") as a defined contribution plan on October 23, 1993. The Plan was amended in 2000, 2003 and 2007. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The following is a summary of major plan provisions. Participants should refer to the Plan document for more complete information.

Participants – Employees and officers of the Sponsor and its affiliates (The Biltmore Hotel, L.P., The Alexander Hotel, The David William Hotel, Hudson Refrigerating Company, Newark Refrigerated Warehouse, Inc., The Sheraton Sand Key Resort, Siresco Holding Company, LLC and The Staten Island Hotel) (collectively the "Company" or "Employer") who have attained the age of 21, completed one year of service and provided greater than 1,000 hours of service, are eligible to participate in the Plan. The Plan provides for entry dates on the first day of the month following the satisfaction of the entry requirements.

Contributions – Participants may contribute up to 100% of their total annual compensation, not to exceed certain limitations, on an annual basis. Participants, who have attained the age of 50, are eligible to make pre-tax catch-up contributions subject to certain limitations. Employer and participant contributions are invested at the direction of the participant in various mutual funds, pooled separate accounts, or a guaranteed interest account. The Employer can make a discretionary contribution match based on the employee elective contributions and compensation. The Employer elected to match 25% of employee elective contributions, not to exceed 6% of compensation from January 1 through April 22, 2009. Subsequent to April 22, 2009, the Employer ceased matching employee elective contributions. Additionally, the Employers may, at its discretion, make profit sharing contributions. The Employer elected not to make profit sharing contributions for the year ended December 31, 2009.

Participant Accounts – Each participant account is credited with the participant's contributions. Plan earnings or losses are allocated based on the participant's elected investments. Employer discretionary matching and profit sharing contributions are allocated based on the relative participant salary reduction contributions and relative participant account balances, respectively.

Forfeitures – Forfeitures are used to pay administrative expenses or to reduce subsequent employer matching contributions. No forfeitures were included in Plan assets at both December 31, 2009 and 2008. Forfeitures of approximately $5,500 were used to reduce administrative expenses and employer matching contributions during the year ended December 31, 2009.

Vesting – If a participant leaves the Company for reasons other than normal retirement, total permanent disability, or death, the participant will be eligible to receive the vested percentage of the balance credited to the participant's account. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service as defined by the Plan. Notwithstanding the foregoing, any participant who attains the age of 65 shall be 100% vested.

Note 1 – Plan Description (continued)

Vesting is determined according to the following schedule:

Years of Service	Vesting Percentage
Less than 2 years of service	0%
2 years, but less than 3 years	20%
3 years, but less than 4 years	40%
4 years, but less than 5 years	60%
5 years, but less than 6 years	80%
6 years or more	100%

Participant Loans – The Plan administrator may authorize participant loans from the borrowing participant's accounts. The Plan administrator has complete discretion in the matter of loans, although the Plan administrator must act in accordance with a uniform nondiscriminatory policy. The amount of the loan may not exceed the lesser of (1) 50% of the vested interest in the participant's account or (2) $50,000. The $50,000 limit is subject to reduction by the amount of certain previously outstanding loans. Any loan funded from the Plan must be adequately secured, must provide for a reasonable interest rate and must be repaid within an agreed upon period of time (generally within 5 years unless the loan is used to purchase a principal residence for which the time period is not to exceed fifteen years).

Payment of Benefits – Benefits due to terminated participants are paid in a lump sum. In the event of any participant's total and permanent disability or death, the entire amount credited to the participant's account shall become vested and the participant or his/her estate may elect to receive a lump-sum amount equal to the value of the participant's vested account. The Plan provides for an involuntary distribution of all terminated participant accounts with vested accrued benefits of $5,000 or less excluding any portion of the account balance that is attributable to rollover contributions (and earnings allocable thereto).

Note 2 – Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

In June 2009, the Financial Accounting Standards Board ("FASB") established the FASB Accounting Standards Codification ("ASC") as the single source of authoritative GAAP. The FASB ASC superseded all then existing non-SEC accounting and reporting standards. The issuance of this statement did not change GAAP, but has changed the applicable citations and naming conventions used when referencing GAAP within these financial statements.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of *Fair Value Measurements*.

Note 2 – Significant Accounting Policies (continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a guaranteed interest contract with American United Life Insurance Company, which is fully benefit-responsive (see Note 4). As of December 31, 2009 and 2008, the fair value of the guaranteed interest contract approximates the contract value, and therefore the Statement of Net Assets Available for Benefits does not present a reconciliation between the fair and contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Fair Value Measurements – GAAP provides a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The framework describes three levels of inputs that may be used to measure fair value:

Level 1 - Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 - Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methods used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy:

Guaranteed Interest Account – These investments are made by the Plan in an Unallocated Group Fixed Annuity Contract which are invested in the general assets of American United Life Insurance Company who guarantees a fixed interest rate. The Net Asset Value ("NAV") for the investment contract is $1. The investment contracts are classified within level 3 of the valuation hierarchy.

Mutual Funds – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Note 2 – Significant Accounting Policies (continued)

Pooled Separate Accounts – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Participant Loans – Loans to Plan participants are valued at cost plus accrued interest, which approximates fair value and are classified within level 3 of the valuation hierarchy.

The methods described above produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables represent the fair value hierarchy described above:

	As of December 31, 2009			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value

Note 2 – Significant Accounting Policies (continued)

The table below sets forth a summary of changes in the fair value of the Plan's level 3 investment assets for the year ended December 31, 2009:

	Beginning Fair Value	Purchases, Issuances, (Repayments) (Settlements), Net	Interest	Ending Fair Value
Guaranteed interest account	$ 948,458	$ 188,966	$ 46,358	$ 1,183,782
Participant loans	214,277	43,347	11,781	269,405
	$ 1,162,735	$ 232,313	$ 58,139	$ 1,453,187

Benefits Paid to Participants – Benefits due to terminated participants are recorded when processed and paid by the Plan.

Administrative Expenses – Plan administrative expenses and professional fees are typically paid by the Company, which were approximately $4,900 for the year ended December 31, 2009.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Management has evaluated subsequent events through October 13, 2010 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Note 3 – Information Certified by the Plan Trustee (Unaudited)

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the American United Life Insurance Company ("AUL" or the "trustee"), as of December 31, 2009 and 2008 and for the year ended December 31, 2009 as permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

	December 31, 2009	December 31, 2008
Investments, at fair value:		
Guaranteed interest account	$ 1,183,782	$ 948,458

	Year Ended December 31, 2009

Mutual funds	$ 826,586
Pooled separate accounts	399,626
	$ 1,226,212

Investments that represent 5% or more of the net assets available for benefits at December 31, 2009 and 2008 are as follows:

	December 31, 2009	December 31, 2008
Guaranteed interest account:		
AUL Fixed Fund	$ 1,183,782	$ 948,458

SSGA S&P 500 Flagship Fund	411,674	327,500

(1) Asset does not represent 5% or more of the net assets available for benefits at December 31, 2009.
(2) Asset does not represent 5% or more of the net assets available for benefits at December 31, 2008.

Note 4 – Fully-Benefit Responsive Contract

The Plan holds an interest in a guaranteed interest contract (AUL Fixed Fund) with AUL. The account is credited with contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses charged by the Trustee. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed interest contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest contract. At December 31, 2009 and 2008, contract value approximated fair value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was $1,183,782 and $948,458, respectively.

The average yield and crediting interest rate for the guaranteed interest account was 4.32% and 4.0% for the years ended December 31, 2009 and 2008, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than 4%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the employer contribution in their account.

Note 6 – Tax Status

The Plan is substantially identical to the American United Life Insurance Company Prototype 401(k) Profit Sharing Plan and Trust (“AUL Prototype Plan”) approved as to form by the Internal Revenue Service (“IRS”) and therefore will not be issued a separate determination letter.

The AUL Prototype Plan is a qualified profit sharing plan under Section 401(k) of the Internal Revenue Code (“IRC”) and, as such, is exempt from federal income taxes under Section 501(a) of the IRC. The AUL Prototype Plan obtained its latest determination letter on September 25, 1995, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes the Plan is currently designed and being operated in compliance with applicable laws and requirements. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Note 7 – Party-In-Interest Transactions

Fees paid by the Company during 2009 to the Plan trustee were based on customary and reasonable rates for the trustee's services.

Certain Plan investments are shares in pooled separate accounts and a guaranteed interest account managed by the Plan trustee. Participant loans are transactions entered into between the Plan and participants of the Plan. While these transactions qualify as party-in-interest activity, they are expressly exempted from prohibited transaction rules.

Note 8 – Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
