Independent Auditor's Report

To the Trustee
Mobilex 401(k) Plan
Horsham, Pennsylvania

We were engaged to audit the accompanying statements of net assets available for benefits of the Mobilex 401(k) Plan as of December 31, 2009 and 2008, the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Notes 3, 4, 5 and 6, which was certified or provided by MG Trust Company, LLC, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. As disclosed in Note 4, the Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2009, and as of December 31, 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Mobilex 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Mobilex 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of Symphony Diagnostic Services No. 1, Inc., dba Mobilex USA (the "Company"). An employee must be 21 years of age and have three months of service to be eligible to become a participant in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective July 14, 2009, the Company changed the third party administrator of the Plan from Retirement Planners & Administrators Inc. to 401k ASP, Inc. The Plan was restated effective January 1, 2009, to adopt the Volume Submitter 401(k)/Profit Sharing Plan sponsored by 401K ASP, Inc. under CCH Incorporated.

Contributions: Participants may contribute up to 75% of their annual pretax compensation as defined in the Plan, subject to the statutory limits. Participant elected salary deferrals are limited to the maximum allowable under the Internal Revenue Code. Participants age 50 or older may elect to defer additional amounts ("catch-up contributions") to the Plan. Participants may also contribute amounts representing distributions from other qualified plans. The Company may provide discretionary matching and/or profit sharing contributions determined at year-end by management. Discretionary contributions (nonelective) shall only be made on behalf of participants who are employed on the last day of the plan year; however, the year of service and the last day rule shall not apply in the case of retirement, disability, or death. The Company made discretionary contributions to the plan in the amount of \$160,669 for 2009.

Participant Accounts: Each participant's account is credited with the participant's contributions, allocations of the Company's discretionary matching contributions, if any, and the Plan's earnings (losses). Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their salary deferrals and rollover contributions plus actual earnings (losses) thereon. Vesting in the Company contribution portion of their accounts plus actual earnings (losses) thereon is based on years of continuous service. A participant is 100% vested in the Company contribution portion after completing three years of credited service.

Participant Loans: Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years unless the loan is used for the purchase of a participant's primary residence, in which case the term can be up to 30 years. Loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through bi-weekly payroll deductions. Upon termination of employment, the outstanding principal and interest balance is immediately payable. As of December 31, 2009, interest rates on participant loans ranged from 4.25% to 9.25%.

Payment of Benefits: Participants withdrawing from the Plan may receive their balance by (1) a transfer to another qualified plan, (2) a transfer to an individual retirement account, or (3) a lump-sum distribution which is subject to a 20% withholding tax. A participant, whose employment continues past the date distributions of his or her vested account is required under federal regulations, may elect to receive distributions during that employment in a series of installment payments that meet federal minimum distribution requirements.

Administrative Expenses: Certain administrative expenses of the Plan are paid by the Company.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeitures: At December 31, 2009 and 2008, the forfeited nonvested accounts were \$5,298 and \$2,631, respectively. Forfeiture balances of terminated participants' nonvested accounts are used to reduce Company contributions. To the extent the Company does not have contributions to the Plan, forfeitures can be used to reduce the Plan's administrative expenses. The amount of nonvested forfeited amounts shall be restored to a terminating participant's account upon resuming employment with the Company, as defined by the Plan. During 2009, no forfeitures were used to reduce employer matching contributions or to pay Plan administrative expenses.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation: The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Contracts: Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for the benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainty: Investment securities are exposed to various risks such as interest rate, market, and credit risks.

Credit risk arises from the potential for an issuer or other counterparty to default on its contractual obligations to the Plan. Investments are recorded at fair value. This represents the maximum credit risk exposure to the Plan.

Interest rate risk refers to the impact of interest rate changes to the Plan's financial position. Interest rate changes directly impact the fair value of fixed income securities held by the Plan. Interest rate changes will also have an indirect impact on the other investments in the Plan.

Market risk is the risk that the market value of an investment will fluctuate as a result of changes in market price.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of Benefits: Benefits are recorded when paid.

New Accounting Pronouncements: FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*, amended Accounting Standards Codification ("ASC") 820, having significant impact on investment disclosures effective for years ended after June 15, 2009. It requires disclosure of inputs and valuation techniques used to measure fair value and discussion of changes in valuation techniques and related inputs, if any, and includes guidance on determining major security type ("category") for debt and equity securities required to be disclosed on the basis of "nature and risks" of the investments. See Note 6 for the impact of our adoption.

In September 2009, FASB issued an amendment, *Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)* (Accounting Standards Update ("ASU") 2009-12), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value ("NAV") per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. Management has determined that adoption has no impact on the financial statements.

In January 2010, FASB issued an amendment, *Fair Value Measurements and Disclosures – Improving Disclosures About Fair Value Measurements* (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning on or after December 15, 2009. Management has determined that adoption has no impact on the financial statements. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. The Plan is currently evaluating the impact of the guidance related to Level 3 measurements on the disclosures.

FASB issued new guidance on accounting for uncertainty in income taxes (ASC 740-10). The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2006.

In September 2010, FASB issued an amendment, *Plan Accounting – Defined Contribution Pension Plans* (Topic 962) (ASU 2010-25), which provides guidance on how loans to participants by defined contribution retirement plans should be classified and measured. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendment should be applied retrospectively to all prior periods presented, effective for plan years ending after December 15, 2010. Early adoption is permitted. Plan management has not yet adopted this amendment.

Mobilex 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Subsequent Events: The Plan has evaluated subsequent events through October 12, 2010, the date the financial statements were available to be issued.

Note 3. Benefit Responsive Investment Contract

The Plan holds an interest in fully benefit-responsive investment contracts through its investment in the Gartmore Morely Stable Value Series I Fund. The fund primarily invests in a variety of investment contracts such as guaranteed investment contracts (GIC's) issued by insurance companies and other financial institutions, and other investment products. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Plan by MG Trust Company, LLC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 4. Information Certified or Provided by MG Trust Company, LLC

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by MG Trust Company, LLC, the trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments:

	2009
Mutual Funds	\$ 7,226,579
Common Collective Trust	984,237
Cash	8,149
	<u>\$ 8,218,965</u>

MG Trust Company, LLC also certified to the completeness and accuracy of \$1,610,567 of net appreciation in fair value of investments related to the aforementioned investments for the year ended December 31, 2009.

* Less than 5% of net assets

** Balance represents contract value for this investment

Note 6. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 6. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies at December 31, 2009, compared to December 31, 2008.

Mutual funds: Valued at fair value based on the quoted market price of the fund at year end.

Common collective trust: Valued at the net asset value ("NAV") of shares held by the plan at year end. The NAV is derived from the Fund's audited financial statements and not published prices.

Participant loans: Valued at amortized cost, which approximates fair value and is classified within level 3 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the balances of assets measured at fair value on a recurring basis by level within the fair value hierarchy as of December 31, 2009 and 2008:

Description	Assets at Fair Value as of December 31, 2009

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009.

	Participant Loans
Balance, beginning of year	\$ 186,945
Issuances and settlements, net	143,250
Balance, end of year	<u>\$ 330,195</u>

The fair value of the common collective trust is estimated using the net asset value per share of the underlying investments. The investment objective is to protect principal while providing a higher rate or return than shorter term investments, such as money market funds. The fund invests at least 70% of its net assets in investment contracts. Its strategy seeks to invest primarily in investment grade debt. These strategies may also include investing up to 30% of its net assets in cash equivalents, including U.S. Treasuries and other debt guaranteed by the U.S. Government. As of December 31, 2009, the administrator of the common collective trust believes the occurrence of an event that would limit the ability of the common collective trust to transact at contract value with its participants is not probable. Units are issued and redeemed daily based on the net asset value of the common collective trust which is determined daily. Unit holders have agreed to the payment of redemption over a period of up to twelve months under certain circumstances. There were no unfunded commitments as of December 31, 2009.

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during year) appreciated in value by \$1,610,567.

Note 7. Tax Status

Effective January 1, 2009, the Plan adopted a Volume Submitter Profit Sharing Plan with CODA sponsored by CCH Incorporated. The Volume Submitter Plan has received an opinion letter from the Internal Revenue Service as to the Plan's qualified status. The Volume Submitter Plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 8. Party-in-Interest Transactions

The Plan issues loans to participants which are secured by the balances in the participants' accounts. These transactions qualify as party-in-interest transactions.
