Independent Auditors' Report

We were engaged to audit the accompanying statements of net assets available for benefits of The Kentrox Retirement Plan and Trust as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in the notes to the financial statements, which was certified by Capital Bank and Trust Company for the period January 1, 2008 to November 30, 2009 and Bank of America, N.A. for the period December 1, 2009 to December 31, 2009, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the trustees as of and for the years ended December 31, 2009 and 2008 that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2009 and 2008

Plan Description

The following description of The Kentrox Retirement Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Kentrox, Inc. (the Employer). The Plan was restated effective December 1, 2009 and a new trustee was appointed. Under the terms of the restated Plan agreement, employees become eligible upon reaching age 18 or older. Prior to the December 1, 2009 restatement, employees became eligible upon reaching age 21 or older and completing two consecutive months of service during which at least 166.67 hours of service were attained. If at least 166.67 hours of service were not completed during the first two months of service, employees became eligible to participate once one year of service was completed, which is defined as 1,000 hours of service. The Plan excludes individuals who are subject to retirement benefits under a collective bargaining agreement and certain nonresident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During January 2008, the assets of the Applied Innovation Inc. 401(k) Plan and Trust were transferred to the Plan and participants of the Applied Innovation Inc. 401(k) Plan and Trust as of December 31, 2007 (effective date of the merger) automatically became participants of the Plan.

Contributions

Each year participants may contribute up to 75% of eligible compensation, as defined in the Plan agreement. The Plan offers a Roth 401(k) option to Plan participants. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Employer may make profit sharing and matching contributions at its discretion. Matching contributions are based on the amount of the participants' elective deferrals; profit sharing contributions are allocated based on participants' wages. The Employer made matching contributions equal to 50% up to the first 6% of each participant's eligible compensation during 2009 and 2008. There were no profit sharing contributions during 2009 and 2008.

Contributions are subject to certain limitations, as defined in Internal Revenue Service (IRS) Regulations.

PLAN AND TRUST

Notes to Financial Statements

December 31, 2009 and 2008

Plan Description (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Employer's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Employer profit sharing and matching contributions and earnings thereon become vested based on a graded schedule of 20% per year beginning upon attainment of one year of service and are fully vested after five years of service.

Participant Loans

Effective December 1, 2009, participants are permitted to borrow from their accounts up to the lesser of 50% of their vested account balance or \$50,000 less the participant's highest outstanding loan balance during the previous 12 months. Loans must be repaid within 5 years, unless the loan is used to purchase a primary residence in which the Plan Administrator may allow for a longer repayment period. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate, as determined by the trustee. The interest rates on all outstanding loans ranged from 4.25% to 9.50%. Principal and interest are paid ratably through payroll deductions.

Prior to December 1, 2009, the Plan did not allow participant loans. However, participant loans under the Applied Innovation Inc. 401(k) Plan and Trust that were outstanding as of December 31, 2007 were grandfathered and transferred to the Plan as part of the merger. Under the Applied Innovation Inc. 401(k) Plan and Trust, participants were allowed to borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms ranged from 1 - 5 years or up to 10 years for the purchase a primary residence. The loans were secured by the balance in the participant's account and bore interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Plan Description (continued)

Payment of Benefits

Participants are entitled to benefits beginning at normal retirement age (65) or early retirement age, which is defined as age 55 with at least 5 years of credited service with the Employer. Prior to December 1, 2009, early retirement age was defined as age 55 with at least 11 years of credited service with the Employer. Upon termination of service or upon becoming disabled, participants who choose to take a distribution will receive benefits in the form of a lump sum distribution, unless they elect to receive them in installment or annuity payments. Distributions upon the death of a participant are made pursuant to the election of the participant or beneficiary. The Plan also allows for in-service distributions for participants who are age 59 ½ or older and hardship distributions if certain conditions are met, as defined in the Plan agreement.

Administrative Expenses

The Employer elects to pay the administrative expenses of the Plan, the fees and the retainers of the Plan's trustee, accountant, legal counsel, investment managers, administrator and other specialists, except expenses relating directly to the investments of the Plan. Should the Employer elect not to pay all or part of such expenses, the trustee then pays these expenses from the Plan's assets.

Forfeitures

At December 31, 2009 and 2008, forfeited non-vested accounts were \$10,119 and \$6, respectively. These accounts are first used to pay administrative expenses of the Plan. Any remaining forfeitures may be used to reduce the employer matching or profit sharing contributions or may be allocated to Plan participants. During 2009 and 2008, employer matching contributions were reduced by \$3,132 and \$25,470, respectively.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

PLAN AND TRUST

Notes to Financial Statements

Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncement

During September 2010, the Financial Accounting Standards Board (FASB) issued amendments to the Accounting Standards Codification (ASC) effecting how loans to participants are reported by defined contribution pension plans. The amendments require that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments are effective for plan years ending after December 15, 2010. The impact of these amendments has not been assessed by the Plan at the present time.

Investment Contract with Bank of America, N.A.

The Plan holds a collective trust fund, Bank of America, N.A. (BOA) Retirement Preservation Trust (the Trust). BOA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The trust issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

THE KENTROX RETIREMENT
PLAN AND TRUST

Notes to Financial Statements

December 31, 2009 and 2008

Investment Contract with Bank of America, N.A. (continued)

Because the collective trust fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value investment contract. The collective trust fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by BOA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The common/collective trust fund does not permit the Employer to terminate the agreement prior to the scheduled maturity date.

The following are the average yields for the common/collective trust fund for 2009:

Average yields:	
Based on actual earnings	2.35%
Based on interest rate credited to participants	2.57%

Information Prepared and Certified by the Trustees

The trustees also certified to the completeness and accuracy of \$2,035,159 and \$(4,859,120) of net appreciation (depreciation) in fair value of investments and \$132,378 and \$307,479 of interest and dividend income related to the aforementioned investments for the years ended December 31, 2009 and 2008, respectively.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC 820), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Fair Value Measurements (continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common/collective trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Mutual funds and money market fund: Valued at the net asset value of shares held by the Plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

PLAN AND TRUST

Notes to Financial Statements

December 31, 2009 and 2008

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Tax Status

Effective December 1, 2009, the Employer adopted the Merrill Lynch Prototype Defined Contribution Plan and Trust Base Plan Document #03, which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

Prior to December 1, 2009, the Employer adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

Party-in-Interest Transactions

During 2009 and 2008, certain Plan investments were shares of a common/collective trust fund, money market fund and mutual funds managed by American Funds and Bank of America, N.A. American Funds and Bank of America, N.A. were the record keepers of the Plan during this period, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such change could materially affect participants' account balances and the amounts reported in the accompanying 2009 statement of net assets available for benefits.

Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 as of December 31, 2009:

Net assets available for benefits per Schedule H of Form 5000	\$ 10,074,429
Plus:	
Adjustment from fair value to contract value for fully benefit-responsive investment contract	<u>77,086</u>

Change in net assets available for benefits per the financial statements	<u>\$ 1,070,230</u>	<u>\$(4,266,660)</u>

Change in Trustee

Effective December 1, 2009, the Plan was cancelled and restated and a new trustee, Bank of America, N.A. was appointed. Plan assets transferred to the trustee and were transferred into funds comparable to those offered by the previous trustee.

Subsequent Events

The Plan has evaluated subsequent events through October 11, 2010, the date the financial statements were available to be issued.
