1. DESCRIPTION OF PLAN

On June 30, 1977, the United Pumping Services, Inc. Profit Sharing and 401(k) Plan (the "Plan") was formed. The following description of the Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of United Pumping Services, Inc. (the "Company") who is 18 or older and have completed one year of service as of January 1, 2008. On January 1, 2001, the Plan entered into a custodial arrangement with Great-West Life & Annuity Insurance Co. (the "Custodian"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA").

Contribution and Participant Accounts - Each year, participants may contribute from 0% to 100% of their pretax annual compensation up to the Internal Revenue Service limit, as defined in the Plan. The IRS limit for 2009 is $16,500. The Company may make matching and discretionary contributions on behalf of each eligible participant in amounts determined by Company's Board of Directors. During 2009 the employer's contribution was 50% of each individual participants contribution and was limited to 6% of employees' contribution. As of March 2009, the Company suspended the matching policy.

Each participants account is credited with the participants contributions and withdrawals, as applicable, and allocations of company contributions and plan earnings. Allocations are based on participant earnings or account balances, as defined.

Rollover Contributions - Rollovers are permitted from other plans in order to avoid current taxation.

Vesting - Vesting in the employer's contribution portion of the participants' accounts plus actual earnings in the Plan thereon is based on the following schedule:

Years of Service Completed	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

participants become fully vested, regardless of the vesting table, at age 65, total and permanent disability, death, or deferred retirement. Also, participants, who have 20 years of service, may withdraw from the Plan.

1. DESCRIPTION OF PLAN (continued)

Withdrawals - The participants may receive distributions from the Plan prior to their termination of employment and they can withdraw from the Plan in the event of financial hardship if they satisfy certain conditions. Generally, the participants may request a pre-retirement withdraw and hardship distribution from their fully vested accounts in the Plan. The amount of hardship distribution cannot exceed the amount needed to meet the immediate financial hardship. There were no hardship distribution in 2009.

Loan to Participants - The Plan has adopted a loan program to provide loans to plan participants. Loans are available to all participants on a reasonable equivalent basis, bear reasonable rate of interest and are adequately secured. Plan allows a participant to borrow the lesser of $50,000 or 50% of a participants total vested account balance.

Payment of Benefits - On termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participants vested interest in his or her account. If the value of the participants vested benefit does not exceed $5,000 the distribution will automatically be paid even if they do not consent.

Income Tax Status - The Internal Revenue Service has determined and informed the plan sponsor by letter that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"), and the underlying trust is, therefore, exempt from taxation under Section 501(a) of the IRC. The Company believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan Termination - Although the Company has not expressed any intention to do so, the employer has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan, or upon complete or partial discontinuance of contributions, the accounts of each participant shall become fully vested and non-forfeitable.

Forfeited Accounts - Forfeited nonvested amounts are used to reduce Company's matching contributions into the Plan. Forfeited nonvested accounts totaled $23,976 and $26,010 at December 31, 2009 and 2008, respectively. Total forfeited amount $4,670 was used to reduce company matching contributions in 2009.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Securities traded on the national securities exchange are valued at the last reported sales price on last business day of the plan year. Investments traded in the over-the-counter market and listed securities for which no sale was reported in on that date are valued at the average of the last reported bid and asked prices. For certain corporate bonds that do not have an established fair value, the Plan's board of trustees of issuer with similar credit ratings. Participants loans are valued at their outstanding balances, which approximates fair value. Custodian reports, interest, dividends and the related fees and charges in the net appreciation or depreciation in fair value of investments.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Net appreciation and depreciation in fair market value of investments includes realized and unrealized gains and losses, respectively, on investments sold or held during the year.

Expenses - The plan participants paid $107 and $905 in fees in 2009 and 2008.

3. RELATED-PARTY TRANSACTIONS

Certain plan investments are invested in Guaranteed Certificate Funds and Guaranteed Portfolio Funds managed by Great-West Life & Annuity Insurance Co., who is the custodian of the Plan, and, therefore, these transactions qualify as party-in-interest.

4. INFORMATION CERTIFIED BY THE CUSTODIAN (unaudited)

Fair Value Measurements:

Fair Value Measurements, established a frame work for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Input to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Input to the valuation methodology include **a**. quoted prices for similar assets or liabilities in active markets; **b**. quoted prices for identical or similar assets or liabilities in inactive markets; **c.** inputs other than quoted prices that are observable for the asset or liability; **d**. inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

PROFIT SHARING AND 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 and 2008

5. INVESTMENTS (unaudited)

Level 3	Input to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2009 and 2008.

Pooled account: Valued at the net asset value (NAV) of shares held by the plan at year end.

Insurance company general account: Valued at the average of the last reported bid and asked prices of shares held by the plan in the active market.

Participant loan: Valued at amortized cost, which approximates fair value.

The proceeding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008;

	Level 1	Level 2	Level 3	2009 Total
Guaranteed Certificate Funds and Guaranteed Portfolio Funds	$ 1,824,892	$	$	$ 1,824,892

	$ 3,585,578	$ -	$ 464,312	$ 4,049,890

6. RISK AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. PROHIBITED TRANSACTIONS

As required by ERISA section 2510-3-102, the Plan Sponsor is required to segregate employee contributions to the plan from its general assets as soon as practicable, but in not more than 5 business days following the payroll pay date. The late contributions and loans prepayments were late several pay periods by 1-10 days. The plan incurred interest expense on late employee contributions to the plan in the amount of $24 and $49 in 2009 and 2008. The prior years interest of $71 was not paid in 2008 therefore the lost earnings on the $71 is $6 and the total amount owing for 2008 is $120. The amount of $120 was paid to the custodian in 2009 but not distributed to participants account as of December 31, 2009.
