Fallon Clinic, Inc. Profit Sharing and 401(k) Plan

Notes to Financial Statements

December 31, 2009

1. Plan Description

The following description of the Fallon Clinic, Inc. Profit Sharing and 401(k) Plan (the Plan) provides general information about the Plan's provisions. Fallon Clinic, Inc. (the Company) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined contribution plan covering all eligible employees of the Company as defined in the Plan. Effective February 13, 2004, the Company and the Fallon Community Health Plan, Inc. became separate legal entities. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Effective December 31, 2007, the Board of Trustees of Fallon Clinic, Inc. approved a freeze of the Plan. An employee who is not a participant in the Plan on December 31, 2007 shall not become a participant. No employer and employee contributions shall be made to the Plan, after December 31, 2007.

During 2009, the Company received a payment of $39,695 from Putnam Investment as a result of a fund settlement with the Securities and Exchange Commission. Putnam Investments was the predecessor trustee of the Plan, prior to Fidelity Trust Management Company.

Participants were allowed to contribute an amount up to 50% of pretax annual compensation, as defined in the Plan. Participants were also allowed to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Matching contributions were made amounting to 33-1/3% of the deferral contributions made by the participants, provided that the matching contribution did not exceed 2% of the participant's compensation for the plan year.

1. Plan Description (continued)

With respect to participants who satisfied eligibility requirements as of October 1, 1997, the matching contributions were based on the greater of the amount determined above or the amount determined as follows:

- Participants in the Plan on that date with less than three years of participation will receive the lesser of (a) $333.33 or (b) 33-1/3% of the deferral contributions made by the participant during the year.

- Participants in the Plan on that date with more than three years participation will receive the lesser of (a) $666.66 or (b) 66-2/3% of the deferral contributions made by the participant during the year.

The Company had the option to contribute from net profits an amount which was determined annually at the discretion of the Board of Directors. There were no contribution from net profits in 2009.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions account balance, including employer matching, plus actual earnings thereon.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement or termination, a participant whose vested account balance exceeds $1,000 may elect to receive a lump-sum payment. A participant whose vested account balance is $1,000 or less will automatically receive an immediate lump-sum distribution equal to their vested account balance.

1. Plan Description (continued)

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Participants who defer their distributions must receive their distributions at age 70-1/2.

Administrative Expenses

The Company pays all administrative expenses incurred by the Plan. Certain expenses related to the participant loans are paid by the Plan via a reduction of participant accounts.

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years. A participant may not have more than two loans outstanding at any point in time. The loans are secured by the balance in the participant's account and bear one percent interest rate plus the Prime interest rate as published in *the Wall Street Journal* on the first business day of the month in which the loan is made. This rate will remain fixed for the duration of the loan. Principal and interest are paid ratably through payroll deductions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100 percent vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

The Fidelity Managed Income Portfolio (MIP Fund) invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued a pronouncement establishing the FASB Accounting Standards Codification (ASC) as the source of authoritative accounting principles recognized by the FASB to be applied in the preparation of financial statements in conformity with United States generally accepted accounting principles (GAAP). The standard is effective for financial statements issued for periods ending after September 15, 2009. The adoption of this standard did not have a material impact on the Plan's financial statements.

2. Summary of Significant Accounting Policies (continued)

In April 2009, the FASB issued ASC 820-10-65-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. ASC 820-10-65-4 amends ASC 820 to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to normal market activity for the asset or liability. ASC 820-10-65-4 also provides additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities in meeting the disclosure requirements of ASC 820. ASC 820-10-65-4 is effective for reporting periods ended after June 15, 2009. The Plan adopted ASC 820-10-65-4, effective for the year ended December 31, 2009. The adoption of this standard did not have a material impact on the Plan's financial statements.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events,* which was codified into ASC 855, *Subsequent Events,* to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended. The Company has evaluated subsequent events relating to the Plan through September 30, 2010, the date the financial statements were available to be issued.

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009 and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 4 for these disclosures. The adoption of this standard did not have a material impact on the Plan's financial statements.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements,* (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to

be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and the adjustment from fair value to contract value for fully benefit-responsive investment contacts at December 31, 2009 and 2008, and the net appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2009, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

The fair value of individual investments that represents 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2009	**2008**
Vanguard Institutional Index Fund	**$10,854,329**	$9,641,636
Fidelity Freedom 2020 Fund	**9,196,478**	8,132,279
PIMCO Total Return Fund	**9,004,258**	7,723,032
Fidelity Managed Income Portfolio* (at fair value)	**8,561,535**	9,170,754
American Europacific Growth Fund	**8,493,980**	6,575,371
Artisan Mid Cap Fund	**5,913,241**	4,370,736
Victory Diversified Stock A	**4,449,663**	3,752,415

* The contract value of the Plan's investment in Fidelity Managed Income Portfolio Fund was $8,720,738 and $9,665,443 at December 31, 2009 and 2008, respectively.

4. Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end as quoted in the active market.

Common/Collective Trust Fund: Valued at fair value based on the net asset value, on the last business day of the Plan year, which is based on fair value of the underlying assets of the fund. There are no redemption restrictions.

4. Fair Value Measurements (continued)

Participant Loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009

Total	$71,969,163	$61,495,985	$9,170,754	$1,302,424

4. Fair Value Measurements (continued)

A summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2009 is as follow:

	Beginning Fair Value	Purchases, Sales, Issuances, and Settlements (Net)	Ending Fair Value
Participant loans	$1,302,424	$(56,804)	$1,245,620

5. Risks and Uncertainties

The Plan and its participants invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Related Party Transactions

The Plan assets are invested in shares of mutual funds and the common/collective trust fund managed by Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, the transactions are exempt from the prohibited transactions rule under ERISA.

7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated August 13, 2008, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended, is qualified and the related trust is tax exempt.

8. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2009 and 2008:

	December 31	
	2009	**2008**
Net assets available for benefits per the financial Statements	**$83,924,511**	$72,463,852
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	**(159,203)**	(494,689)
Net assets available for benefits per Form 5500	**$83,765,308**	$71,969,163

The following is a reconciliation of net increase per the statement of changes to net income of Form 5500 for the year ended December 31, 2009:

Net increase per statement of changes as reported in the financial statements	$11,460,659
2009 adjustment from fair value to contract value for fully benefit-responsive investment contracts	(159,203)
2008 adjustment from fair value to contract value for fully benefit-responsive investment contracts	494,689
Net income as reported in Form 5500	$11,796,145
