1) DESCRIPTION OF PLAN

The following description of the Micro Plastics, Inc. (Company) 401(k) Savings and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the ERISA.

Contributions

Participants may contribute from 1% to 50% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-one mutual funds as investment options for participants. The Company may make a contribution up to 100% of the first 3% of base compensation that a participant contributes to the Plan. Contributions are subject to certain limitations. All employee contributions are submitted weekly. The Company ceased matching contributions in March 2008.

Forfeited Accounts

At December 31, 2009 and 2008, there were no forfeited, non-vested accounts.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, if any, and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Each loan is secured by the balance in the participant's account and bears interest at rates that range from 6.00% to 10.25%, which are commensurate with local prevailing rates. Principal and interest are paid ratably through monthly payroll deductions.

1) DESCRIPTION OF PLAN (continued)

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon and in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon.

Payment of Benefits
Upon termination of service due to death, disability, retirement, or other reasons, a participant shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account either directly or rolled-over into another qualified plan.

Plan Administration Costs
The employer absorbs the significant cost of plan administration; therefore, this is not an expense of the Plan.

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Date of Management Review
The Company has evaluated events and transactions for potential recognition or disclosure in the financial statements through August 13, 2010 which is the date the report was available for release. No subsequent events have been recognized or disclosed.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value based on quoted market prices. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits
Benefits are recorded when paid.

3) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts.

4) TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has not been amended since receiving the determination letter.

5) INVESTMENTS

The plan administrator has instructed the independent public accountants not to audit the information certified as complete and accurate by the bank. The certification applies to all Plan assets and transactions for the dates presented.

The Plan's investments were held in a bank-administered trust fund by State Street Bank and Trust at December 31, 2009 and 2008. The following presents fair value of investments at December 31, 2009 and 2008 that represent 5% or more of the Plan's net assets:

6) FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

Level 2 Inputs to the valuation methodology include:

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2009.

Mutual Funds: Value based on quoted market prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6) FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009.

Assets at Fair Value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 2,842,492	$ -	$ -	$ 2,842,492
Participant Loans	-	-	209,426	209,426
Total	$ 2,842,492	$ -	$ 212,678	$ 3,051,918

Assets at Fair Value as of December 31, 2008:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 1,928,450	$ 190,534	$ -	$ 2,118,984
Participant Loans	-	-	247,840	247,840
Total	$ 1,928,450	$ 190,534	$ 247,840	$ 2,366,824

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

	Participant Loans
Beginning balance	$ 247,840
Purchases, issuances, settlements	(38,414)
Ending balance	$ 209,426
Unrealized gains/losses	$ -

7) RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
